Note that the hard copy edition will not include any revisions (i.e., supplemental specifications) added after its publishing on February, 2012. It is the bidder's responsibility to stay current. An electronic version of the document, with revisions, can be viewed at the Department of Public Service's website at www.columbus.gov.

C. SPECIAL PROVISIONS

The above noted terms and conditions in the CMS may be modified by Special Provisions, contained herein. See Section III, entitled "SPECIAL PROVISIONS" for more detail.

D. BID REQUIREMENTS - RESPONSIVENESS PROVISIONS

The city reserves the right to reject a bid it deems non-responsive. Factors used to determine responsiveness are included in Columbus City Code Section 329.23(f)(1), throughout the IFB, and in the current edition of the City of Columbus, Ohio Construction and Material Specifications, and, if necessary, in its supplemental specifications.

SUBCONTRACTOR REQUIREMENTS

Bidders shall provide information in their bid about subcontractors and subcontracted work. Failure to provide the required information shall result in the bid being deemed non-responsive.

Regarding subcontractors, a bidder shall comply with all of the following requirements:

- (1) Provide a list with its bid submission of all subcontractors the bidder intends to utilize for the project and the list shall be divided into two parts, base bid (including contingency and allowances, if applicable) and alternate(s), if alternates are included in the city's bid document;
- (2) Indicate which subcontractors are licensed construction trade subcontractors, as defined in 329.01;
- (3) State, via affidavit, that the bidder's licensed construction trade subcontractors are, prequalified responsible or prequalified provisionally responsible at the time of bid submission;
- (4) List only subcontractors who are not currently suspended or debarred by the city; and
- (5) List one subcontractor for each division of work to be performed as listed in the technical specifications, or section of work in the current edition of the City of Columbus Construction and Material Specifications, whichever is applicable, of the city's bid document. In circumstances where the bidder determines that more than one subcontractor is needed to complete a division or section of work, a bidder shall explain in writing the reason(s) why multiple subcontractors are necessary, describe the work to be performed within any subdivision of a division or subsection of a section of work, and the dollar amount allocated to any subdivision of a division or subsection of work.

Form B6 shall be used to report the required subcontractor information. Please be sure to submit this form with your bid submission, even if you are not proposing use of subcontractors. Failure to do so shall render your bid non-responsive.

Columbus City Code Section 329.20 also states: "A contractor must obtain written consent from the director or designee of the contracting agency prior to subletting, selling, transferring, assigning, or otherwise relinquishing any rights, title, or interest in the work to any subcontractor not listed in the bid submittal or contract. The director or designee must, within a reasonable time, approve or disapprove a contractor's request. The decision shall be final. The contractor may seek the aforementioned written consent for reasons including, but not limited to, the following:

- (1) After reasonable opportunity to do so, the subcontractor fails or refuses to execute a written contract for the scope of work specified in the bid and at the price specified in the bid;
- (2) The subcontractor becomes insolvent or the subject of an order for relief in bankruptcy;

THE CITY BULLETIN BIDS WANTED - PURCHASING OFFICE AND OTHER DIVISIONS
--

- (3) The subcontractor fails or refuses to meet the requisite licensing or bonding set before bid submittal;
- (4) The contractor demonstrates to the contracting agency that the name of the subcontractor was listed as the result of an inadvertent clerical error;
- (5) The subcontractor fails or refuses to perform its subcontract after reasonable opportunity to do so; or
- (6) The contractor determines that additional specialty work not reasonably anticipated in the bid must be performed by subcontract.?

To comply with the afore-stated provisions of Columbus City Code, Form I1, (found in Section V, entitled ? Information/Other Forms?) has been developed and included with this packet. This form should be used to request any revisions to the originally submitted subcontractor list or listed in the contract. The Director, or designee, of the contracting agency must approve all change requests.

Form I1 is to be used only if the bidder/contractor requests revision(s) to the subcontractor list AFTER bid submission.

PREQUALIFICATION REQUIREMENTS

Bidders must be pre-qualified responsible or provisionally responsible at bid due date to be awarded a contract for city construction work.

Columbus City Code Section 329.20 states the following:

- (c) A bid shall be deemed non-responsive if the bidder has not been prequalified responsible or prequalified provisionally responsible at the time of bid due date, pursuant to Section 329.21
- (d) A bid submitted by a bidder prequalified responsible or provisionally responsible shall be deemed non-responsive if the bidder fails to submit to the contracting agency as part of its bid submission an affidavit stating one of the following, whichever is applicable:
 - (1) That as of the date of bid submission, there have been no changes in the information disclosed in its application for responsibility prequalification; or
 - (2) That changes in the information disclosed in the bidder's application for responsibility prequalification have been reported to the [Finance and Management Pre-Qualification Office] and that the bidder is still pre-qualified responsible or provisionally responsible.

The above-referenced affidavit is found in the Bid Forms section of this document. For information on pre-qualification status, contact the Office of Construction Prequalification at (614) 645-0359.

PROPOSAL GUARANTEE

Each bid shall contain the full name of every person or company interested in the same and shall require a bid guarantee that if the bid is accepted a contract shall be executed. The resulting contract shall require a performance and payment bond.

The bid guarantee may take the form of a bid or proposal bond, a certified or cashier's check drawn on a solvent bank, or a letter of credit pursuant to Chapter 1305 of the Ohio Revised Code. If a bid bond is submitted, the bid bond shall be issued by a guaranty company authorized to do so under the Ohio Revised Code or by a surety who is: (1) a resident of this state; (2) worth, in the aggregate, double the sum to be secured, beyond the amount of their debts; and (3) have property liable to execution in the state equal to the sum to be secured. All proposal bonds signed by an agent must be accompanied by a surety power of attorney, most recent surety financial statement, and current Ohio Department of Insurance Certificate of Compliance.

THE CITY BULLETIN BIDS WANTED - PURCHASING OFFICE AND OTHER DIVISIONS
--

In the event there are mutually exclusive alternates listed on the bid sheet, the Bid Guarantee shall include the maximum value of the highest alternates which increase the Bid. The Bid Guaranty amount shall be equal to or exceed (10%) percent of this total amount. Note that if the bidder submits a bid bond, the amount of said bond shall be expressed either as a percentage of the total bid or numerically in dollars and cents.

Failure to submit an acceptable bid guarantee shall result in the bid being deemed non-responsive.

SUBSTITUTIONS

Pursuant to Columbus City Code Sections 329.22 and 329.23, a bid will be found to be non-responsive if it contains alterations, omissions, or errors such that, in the judgment of the city, the bid does not respond to the IFB in all material respects, or contains irregularities or deviations from the IFB that affect the amount of the bid or otherwise gives the bidder a competitive advantage.

There are cases however where the bidding of substitutions may be permissible. When allowed by the contracting agency, Form B5 shall be used to propose substitutions to specifications and/or provisions put forth herein. Proper procedures for proposing substitutions are found in Section II (entitled Bid Forms). Be sure to follow these procedures carefully; failure to follow them may result the bid being deemed non-responsive.

SUBSTITUTIONS: ARE ? ARE NOT ? PERMITTED WITH THIS BID.

OTHER RESPONSIVENESS PROVISIONS

Other responsiveness provisions, on which your bid will be evaluated include:

- ? Whether bidder has submitted more than one proposal for the same work from an individual or entity under the same or different name, or corporation under the same name, or corporations with one or more of the same persons as officers or directors of such corporations, or corporations which are holding companies, parent companies or holding companies that are subsidiaries of such corporations;
- ? Whether bid prices are materially unbalanced as defined in the relevant sections of the technical specifications manual specified in the IFB, where applicable;
- ? Whether bidder has failed to comply with [technical] pre-qualification requirements as defined in the relevant sections of the technical specifications manual specified in the IFB, where applicable;
- ? Whether the bid contains conditions or qualifications not provided in the IFB;
- ? Whether bidder adds a provision reserving the right to accept or reject an award;
- ? Whether bidder fails to submit a unit price for each contract item listed, when required by the bid specification; and
- ? Whether bidder fails to submit a lump sum price where required.

E. BID REQUIREMENTS ? RESPONSIBILITY PROVISIONS

Pursuant to Columbus City Code Sections 329.22 and 329.23, each bid submitted shall be evaluated for the following project-specific responsibility factors:

- (a) Whether the bidder has actively engaged in the construction industry and has experience in the area of construction service for which the bid has been submitted.
- (b) Whether the bidder has a successful record of complying with and meeting completion deadlines as well as controlling costs on similar construction projects.
- (c) Whether the bidder has demonstrated to the city's satisfaction adequate and appropriate resources,

THE CITY BULLETIN BIDS WANTED - PURCHASING OFFICE AND OTHER DIVISIONS
--

including, but not limited to, specialized equipment, human resources and bonding capacity for the project.
(d) Whether the bidder has substantial uncompleted work that would hinder the success of the project.
Complete and submit Forms B7, B8, and B9 (found in Section II, entitled "Bid Forms") to fulfill the responsibility provision requirement of your bid.

F. MISCELLANEOUS PROVISIONS

LOCAL PREFERENCE PROVISIONS

Columbus City Code Section 329.212 requires the contracting agency to follow local preference procedures if the lowest, responsive, responsible, and best bid is not from a local bidder, and one or more responsive, responsible, and best bids submitted by local bidders are within 1% of that non-local bid. Submission of bid constitutes bidder's acknowledgement and acceptance of these provisions.

The Local Preference provisions are as follows:

- (1) The contracting agency shall notify, in writing, any local bidders within 1% of the non-local bid that they may be awarded the contract if they meet the lowest bid price, and shall provide a copy of this notification, in writing, to the non-local bidder who submitted the lowest, responsive, responsible bid.
- (2) The notified local bidder(s) shall have two (2) business days from the date of notification to inform the city in writing if they agree to meet the lowest bid price and to provide a revised bid to demonstrate the same.
- (3) If one notified local bidder agrees to meet the lowest price and the city is satisfied that the revised bid is the lowest, responsive, responsible, and best, the city shall award the contract to that local bidder.
- (4) If two or more notified local bidders agree to meet the lowest bid price and the city is satisfied that one or more of the revised bids is the lowest, responsive, responsible, and best, the city shall award the contract to such local bidder with the lowest original bid.
- (5) If no notified local bidder agrees to meet the lowest price or if the city is not satisfied that any notified local bidder's revised bid is the lowest, responsive, responsible, and best, the city shall award the contract to the bidder with the lowest, responsive, responsible, and best bid.
- (6) Submission of a revised bid does not constitute a tie bid for the purposes of Section 329.212.

The provisions of this section shall not apply to joint ventures unless all members of the joint venture are local businesses, as defined in section 329.01 of Columbus City Code.

For construction contracts procured under Columbus City Code Section 329, Article III, and if Section 329.212 applies to the evaluation, the local preference in Section 329.212 shall be applied first and the environmental preference in Section 329.17 shall be applied second.

ENVIRONMENTAL PREFERENCE PROVISIONS

Columbus City Code Section 329.17 allows for the city to give preference to an environmentally preferable bidder. An environmentally preferable bidder, as defined in Columbus City Code Section 329.01(n), is "A bidder or offeror whose bid or offer consists of materials, supplies, equipment, construction and/or services which have a lesser or reduced effect on human health and the environment when compared to competing materials, supplies, equipment, construction and services that serve the same purpose. This comparison may consider any aspect of the procurement cycle, including but not limited to raw materials acquisition, production, manufacturing, packaging, distribution, reuse, operation, maintenance, or disposal of the material, supply, equipment, construction, or service. To be considered an environmentally preferable bidder or offeror, the bidder or offeror must clearly specify in their bid how their materials, supplies, equipment, construction or services qualify their bid or offer as "environmentally preferable?"

THE CITY BULLETIN
BIDS WANTED - PURCHASING OFFICE AND OTHER DIVISIONS

In evaluating bids for construction services, preference will be given to an environmentally preferable bidder who offers a construction service equal to or superior to that of a non-environmentally preferable bidder where the environmentally preferable bid does not exceed by more than five (5) percent (up to a maximum of twenty thousand dollars (\$20,000)) the lowest, responsive, responsible, and best bid from any non-environmentally preferable bid. The environmentally preferable bidder will be required to demonstrate to the city agency procuring the construction service how their bid is equal to or superior to that of a non-environmentally preferable bidder and how the bid meets the agency's specifications as required above.

For construction contracts procured under Columbus City Code Section 329, Article III, and if Section 329.212 applies to the evaluation, the local preference in Section 329.212 shall be applied first and the environmental preference in Section 329.17 shall be applied second.

Examples of practices that would meet the definition of "environmentally preferable" shall include, but are not limited to:

a. Construction Site Waste Management Plan: Has the bidder adopted a construction site Waste Management Plan for its company in conformance with LEED New Construction ? Material and Resource Credit 2.1 (Construction Waste Management) that will result in at least 50% (by weight) of the construction debris generated on site being reused or recycled?

b. Fleet Policy: Has the bidder adopted a fleet policy for reducing vehicle emissions from its fleet of on and off-road vehicles? The policy should include, at a minimum, an anti-idling directive for its construction sites, use of ultra-low sulfur diesel and/or alternative fuels (such as biodiesel), and a schedule for replacing or retrofitting current vehicles with emission reduction technologies.

c. Project-Specific Environmental Proposal: Has the bidder proposed the use of materials, supplies, equipment, or construction practices having a lesser or reduced effect on human health and the environment? PLEASE NOTE: Any proposed substitutions for materials or supplies must comply with City's standard specifications and the "or equal" requirements of the bid.

Does the bidder meet the definition of Environmentally Preferable Bidder?

YES?

NO ?

If yes, please attach a copy of bidder's construction site waste management plan or fleet policy, as well as documentation on the adoption and implementation of said policy by the bidder. If making a project specific environmental proposal, the bidder must submit documentation citing its environmental benefits. All documentation must be received at time of bid submission for receipt of environmental preference.

Documentation attached: ?

CONTRACT PERFORMANCE AND PAYMENT BOND

The successful bidder will be required to secure a contract performance and payment bond in the amount of 100 percent of the contract price, including the guarantee period, in accordance with Columbus City Code Section 329.14 and the current edition of the City of Columbus, Ohio Construction and Material Specifications (CMS), to assure the faithful performance of the work.

The performance and payment bond shall be issued by a guaranty company authorized to do so under the Ohio Revised Code or by a surety who is: (1) a resident of this state; (2) worth, in the aggregate, double the sum to be secured, beyond the amount of their debts; and (3) have property liable to execution in the state equal to the sum to be secured.

THE CITY BULLETIN BIDS WANTED - PURCHASING OFFICE AND OTHER DIVISIONS
--

All bonds signed by an agent must be accompanied by a surety power of attorney, most recent surety financial statement, and current Ohio Department of Insurance Certificate of Compliance. Failure to execute the contract and file an acceptable performance and payment bond(s) shall be cause for cancellation of the award and the city may file a claim under the bond.

If a contractor has not commenced his work within a reasonable time, or does not carry the same forward with reasonable progress, or is improperly performing his work, or has abandoned, or fails or refuses to complete a contract entered into under Section 329 of the Columbus City Code, the director of the contracting agency shall make a finding to that effect and so notify the contractor in writing, and the rights of the contractor to control and supervise the work shall immediately cease, per the CMS.

The director shall forthwith give written notice to the sureties on the bonds of such contractor of such action. If, within ten days after the receipt of such notice, such sureties on the contract performance and payment bond or any one or more of them notify the director in writing of their intention to enter upon and complete the work covered by such contract, such sureties shall be permitted to do so and the director shall allow them thirty days, after the receipt of such notice in writing, within which to enter upon the work and resume construction, unless such time is extended by the director for good cause shown. If such sureties do not carry the same forward with reasonable progress, or if they improperly perform, abandon, or fail to complete the work covered by any such contract, the director shall complete the same in the manner provided in this section. In the event the sureties on the contract performance and payment bond, or any one or more of them, notify the director in writing of their intention to enter upon and complete the work covered by such contract, and then fail or refuse to so complete, any additional costs reasonably incurred by the director as a result of such failure or refusal shall be computed by the director and become the liability of such surety, which is not limited by the amount of the contract performance and payment bond. If the surety fails to pay such amount, the director shall certify the facts to the Columbus City Attorney, who shall proceed to collect such additional costs from the surety.

If, after receiving notice of the action of the director in terminating the control of the contractor over the work covered by his contract, the sureties on such contract performance and payment bond do not within ten days give the director the written notice provided for in this section, the director shall cause that portion of the work which remains uncompleted to be re-estimated and relet in accordance with the requirements applicable to original bids; or in the event the director determines with the approval of the Mayor an extraordinary emergency exists, he may contract for the completion of the work without advertising the bids if he considers it to be in the best public interest.

Before entering into a contract for the completion of any such improvement, the director shall require a contract performance and payment bond with sufficient sureties each in an amount equal to one hundred per cent of the estimated cost of completing the work, and conditions relating to the bonds of original contractors shall apply to such bonds.

If the cost of completing any such improvement exceeds the portion of the contract price remaining unpaid to the original contractor at the time of his default, such excess shall be computed by the director and becomes the liability of such contractor or surety or both. If either the contractor or surety fails to pay such amount, the director shall certify the facts to the Columbus City Attorney, who shall proceed to collect such excess cost from the contractor and the sureties upon his contract performance and payment bond, and the amount so collected shall be paid into the city treasury to the credit of the fund from which the excess cost was originally paid.

CONTRACT SIGNATURE AFFIDAVIT

Form C3, "Contract Signature Affidavit" shall be used if the individual signing the contract is NOT an

Officer or Member of the Company. As with Form C1, this should only be completed when necessary by the successful bidder.

CONTRACT COMPLIANCE REQUIREMENTS

The City of Columbus encourages the participation of city certified minority and female business enterprises. While participation of and/or partnering with city certified minority and female owned businesses is not a condition of bid award, it is strongly encouraged.

Bidders will be given seven (7) business days after the bid submittal date to update expired contract compliance information for renewal of numbers or to initially apply for a number. If said information has not been updated within 7 business days from the bid submittal date, the bid may be deemed non-responsive and may no longer be considered. Contact Name: Jeffrey W. Deep

Contact Telephone Number: 614-645-5864

Contact Email Address: jwdeep@columbus.gov

RULE AND REGULATION 15-05
Department of Public Utilities

August 2015

SUBJECT: Sewer Billing Adjustments Due to Water Leaks

Pursuant to the authority granted under Columbus City Codes Chapter 1101, the Director of Public Utilities hereby adopts, establishes, and publishes this rule and regulation to be effective at the earliest date allowed by law. This rule and regulation is in addition to any established requirements that have not been superseded or rescinded by this or any previous act.

APPLICATION:

Department of Public Utilities' customers may experience an increase in water/sewer billings due to water leaks occurring beyond the customer's water meter, maintenance and repair of which is the responsibility of the property owner. This Rule and Regulation pertains to partially adjusting the sewer charges resulting from leaks associated with customer's private plumbing systems, which includes the water service line from the meter to the building and all plumbing within the building. Resulting adjustments will either rebate or credit customers, and are based on multiple factors as expressed in this rule and regulation.

DEFINITIONS:

CUBS: Columbus Utility Billing System: CUBS is a Banner customer information system that

supports Department of Public Utilities operations for water, sewer, stormwater and power. It is an inclusive billing system that calculates charges, allows for bill printing, and applies payments. It is used to collect, manage and analyze information about customers, accounts receivable billing, and account history.

Leak: Water escaping through a broken pipe, privately-owned service line, or other unintentionally escaping water through piping or a malfunctioning meter.

Sewer Billing Adjustment: A Department of Public Utilities Customer Service reduction to the sewer portion of a customer's bill, based on Special Water Meter Readings that occur after a water leak has been repaired.

Special Water Meter Readings: These readings are in addition to the regular monthly or quarterly billings that produce scheduled water/sewer billings. These Special Water Meter Readings provide a reasonable estimate of typical water usage at the premises.

GENERAL REGULATION:

On those occasions when a customer water leak occurring beyond the water meter has resulted in a water/sewer bill that is higher than the customer's usual and customary bill, the sewer portion of said bill may be reduced upon a thorough and suitable investigation by Department of Public Utilities representatives. Customer fraud, negligence, or tampering will disqualify the customer from receiving a billing adjustment.

Prerequisites: In order to receive a Sewer Billing Adjustment, customer shall contact Department of Public Utilities Customer Service to initiate the sewer leak billing adjustment process, which includes filling out a sewer leak adjustment application, and scheduling a Customer Service investigation to verify that the leaks have been repaired.

Frequency: A Sewer Billing Adjustment may be granted at a maximum of one occasion per three (3) year time period for any given Department of Public Utilities CUBS billing system customer/premises account combination.

When: A Sewer Billing Adjustment may only occur after the customer's private plumbing system has been repaired, and two consecutive Special Water Meter Readings have taken place. The first reading is taken at the time of the investigation to verify that the leak has been repaired. The second reading is scheduled by Customer Service.

Adjustment Specifics: The Sewer Billing Adjustment will be based on the usual and customary water usage at the property in question, as determined by the Special Water Meter Readings indicating average daily water consumption. The sewer charges estimated to have resulted from the leak will be adjusted for a period of no greater than six (6) months prior for monthly accounts, or twelve (12) months prior for quarterly accounts. The water charge portion of the water/sewer billing will not be adjusted.

When the leak occurs outside the building, the billing adjustment may reduce the sewer charges

estimated to have resulted from the leak by 100%. *Outside the building* means outside of the exterior walls, or outside the footprint of the exterior walls.

When the leak occurs inside the building, the billing adjustment may reduce the sewer charges estimated to have resulted from the leak by 50%. No adjustment will be made for malfunctioning, privately-owned equipment such as leaking toilets, faucets, humidifiers, water softeners, water sump pumps, and leaks resulting from acts of vandalism or theft. *Inside the building* means inside of the exterior walls, or inside of the footprint of the exterior walls.
