1. General Provisions:

1.1 Authority: Chapter 903 of the Columbus City Code, 1959, requires any person or agency desiring to excavate in or to occupy Public Right-of-Way for any construction related purpose to obtain a permit. Section 903.02 of the Columbus City Code authorizes the Director of Public Service to promulgate reasonable rules and regulations to carry out the provision of this Chapter. The Director of Public Service has designated the Administrator of Infrastructure Management to enforce these rules and regulations. Therefore, permits to excavate or to occupy the right of way for construction related purposes shall be submitted to and approved by the Administrator of Infrastructure Management in accordance with the provisions of these rules and regulations. Permits are non-transferable.

1.1.1 Per Chapter 121.05 of the Columbus City Charter, these rules and regulations are to become effective immediately as temporary rules and regulations and shall remain in effect for a period of thirty (30) days after being filed with the city clerk.

1.1.2 Per Chapter 121.05 of the Columbus City Charter, after filing of these rules and regulations with the city clerk to establish them as temporary rules and regulations, these rules and regulations are being published in the City Bulletin prior to the thirty (30) day temporary period expiring and shall remain in effect until amended or repealed.

1.2 Type of Permits: There are two categories of permits covered by these rules and regulations: excavation and occupancy.

1.2.1 Excavation Permits: This category of permit shall be requested when excavating within the

right-of-way of any public street or alley. The work covered by this permit includes excavations in street or alley pavement, sidewalk or driveway, or the non-paved area within the right-of-way for any purpose whatsoever.

1.2.2 Occupancy Permits: This category of permit shall be requested when it is necessary to occupy the right-of-way of any public street or alley for a purpose related to construction activity. Examples include working on or in any roadway appurtenance, or work on or in buildings or properties outside the right-of-way.

When a permit is issued for a block party, special event, parade, or other event, items within and outside of the permit area may require additional permits for items to be temporarily constructed within road rights-of-way in support of the event.

1.3 Restrictions on Issuing Permits: Permits will not be issued within High Impact Areas when the purpose is vehicle storage on City right-of-way. It is the responsibility of the applicant to store vehicles off-street, or at unreserved long term meters per the City's On-Street Parking out of Service Policy. Occupancy permits are intended for commercial vehicles only. Occupancy permits shall only be issued for the purpose of work within the public right-of-way and activities associated with the adjacent private property by the adjacent property owner or their agent.

1.3.1 High Impact Areas: For purposes of this regulation, High Impact Areas are defined below:

- Downtown Business District
- Major Construction Areas
- Arterial Streets (Arterial Streets are those listed on the City of Columbus Thoroughfare Plan)

1.4 Application, Review and Approval: Requests for excavation or occupancy permits shall be made through the Administrator of Infrastructure Management. All requests shall be on forms approved by the Administrator and shall conform to Section 2 of these regulations. No work may begin, or occupancy occur, until a permit has been issued, except as provided within Section 5 of these regulations.

1.4.1 Excavation Permits: Requests to dig, open holes, ditches, bore, or trenches in the sidewalk, roadway or right-of-way of any improved or unimproved street, alley, or public way shall be obtained at least 10 working days in advance of proposed excavation. Review times vary based on the complexity of the project and adequate review time must be considered in the applicant's schedule. The permit office can assist any applicant in determining the extent of the review needed and the time required. Complex reviews can take up to twenty (20) days by City Staff (this does not include any time the applicant has the plans in their possession for revisions). Subsequent reviews can take up to ten (10) days each. The permit request shall include plan, details, and specifications as set forth in Sections 2 and 3 of these regulations.

1.4.2 Occupancy Permits: Requests to occupy or barricade the right-of-way of any improved or unimproved street, alley, or public way shall be submitted at least three (3) working days in advance. When the permit is for a full street closure, permit request shall be submitted at least ten (10) working days in advance. When a full street closure is for a major planned event, the submittal shall be twenty (20) working days in advance.

1.4.3 Review of Plans: Plans shall be routed for review and approval as set forth in the Right of Way Plan Routing Manual. A copy of this publication may be obtained at the Public Service permit desk.

1.4.4 Issuance: A permit shall be issued after a permit application has been reviewed and approved as required above, and the applicant has notified the Department of Public Service of a scheduled start date.

1.5 Length of Permit: Permits will be issued only for the time necessary to perform the work. Every effort must be made by the permittee to minimize the amount of time of traffic restrictions or meters out of service when no work occurs. The City has the right to remove meter or lane restrictions left in place three (3) days with no work occurring. Permits issued for less than thirty (30) days may be extended once for a short duration, subject to a re-issue fee specified in Section 7.3.

1.6 Liability: The issuance of an Excavation or Occupancy Permit does not relieve the agency or agent requesting the permit from liability for any damage that might occur to the roadway, or any public, or personal property while performing work authorized by the permit.

2. Form of Application or Request for Permit. Excavation or Occupancy Permit requests shall contain, but not be limited to, the following information:

- Plans are required by Section 3.
- Parking Meter Numbers, for all meters the applicant would like reserved, or taken out of service for specified duration during the performance of their work (see Section 11).

3. Permit Plans: Whenever construction is to be performed within the right-of-way (excluding service line repair), the permit application shall be accompanied by fully approved plans. The plans shall be of suitable size and clarity to show the nature of the work to be performed. Such plans shall show all existing City utilities and topographic features. The City utilities shall be shown on the plans as to horizontal and vertical alignment based upon an actual field inspection and a diligent search of City records for the same. All conflicts with any City facility shall be resolved to the satisfaction of the owner Division. The applicant should refer to the right of way plan routing manual for more information.

4. Restoration: Whenever any person or agency has the authority to excavate in any sidewalk, roadway or right-of-way of any improved or unimproved street, alley, or public way the person or agency causing such excavation shall be required to return, in accordance with current City standards, the right-of-way to the same quality condition it was prior to the excavation or restore the same in such a manner and by such time as required by the Director of Public Service and/or their designee.

Restoration of any sidewalk, curb, street pavement, etc. shall occur no later than 14 calendar days after the conclusion of any utility repair or installation activity unless expressly authorized otherwise by the Director of Public Service and/or their designee. Construction activity completed from December through April shall be permanently restored no later than May 31st. other suitable means conforming to current City specifications and approved by the Director of Public Service and/or their designee.

Standard Drawing 1441 A has been developed to provide specifications on long pavement cuts, small pavement repairs, and other minor repair work within the right-of-way. Whenever a pavement cut area exceeds the nominal size of 8 feet in width and 100 feet in length, the plans shall provide the method of pavement replacement in accordance with current City standard specifications and are subject to review and approval by the Director of Public Service and/or their designee.

Per Standard Drawing 1441 A whenever a trench is contained within a travel lane and the trench exceeds 100 feet in length the repair shall include milling the full lane width. Where the excavation trench encroaches into more than one lane of traffic, each lane shall be milled and repaved the entire length of the excavation or street block as directed by the Director of Public Service and/or their designee.

Temporary brick street repairs are to be performed in conformance with Standard Drawing 1441 A, Special Note "F", which allow a temporary material placed until permanent restoration can be completed. Temporary material is not to be used without prior approval from the Department of Public Service. Temporary material is not allowed over a period of fourteen (14) calendar days without prior approval from the Department of Public Service. All street bricks that are excavated shall be salvaged intact. The sawing of existing bricks shall not be permitted. Bricks must be removed whole. Bricks not used in pavement restoration shall be cleaned, stacked on pallets, and delivered to the City's Operation Center, located at 1850 East Twenty-Fifth Avenue. (614) 645-8120. Any bricks that are not delivered shall be charged to the applicant at a rate pre-determined by the Director of Public Service and/or their designee or through forfeiture of deposits.

All trenches within the road right-of-way shall be backfilled and temporary pavement applied or securely plated. Item No. 304 material, CDF (control density fill) and/or millings shall not be permitted to be used as temporary pavement on major arterial, collector, or high volume roadways. With the approval of the Director of Public Service and/or their designee, the Temporary Traffic Control Coordinator (645-6269) and/or the Permit Supervisor (645-3039), properly compacted Item No. 304 may be used as temporary fill on residential streets and alleys between intersections. Intersections shall have temporary pavement applied for a maximum of 5 working days.

5. Emergency Repairs: When any public agency, private utility company, or corporation must excavate within the road right-of-way in order to make emergency repairs necessary for the safety and health of the public, the same shall request a permit no later than the following working day. All permanent repairs shall conform to Section 4 of this policy.

6. Inspection: Inspection of work performed under these permits shall be done by personnel of the Department of Public Service. The permittee shall call the telephone number indicated on the permit at least 4 hours before any needed inspection. Any authorized excavation work shall be inspected.

It is the responsibility of the permit holder to request inspections. Failure to obtain an

inspection will result in requiring re-excavation of the location and replacement with approved materials in the presence of proper inspection personnel. In addition, this action may result in the forfeiture of 100% of all deposits, bonds, and fees on account.

7.1 Street Excavation Deposit: A street excavation deposit shall be required for all roadway excavations when the pavement is open cut. The deposit shall be a minimum of \$800.00 for an open cut area of three square yards or less. For cuts larger than three square yards the deposit shall be \$250.00 per square yard of pavement to be cut. The street excavation deposit shall be refunded if the repair work is inspected and completed in a manner satisfactory to the Director of Public Service and/or their designee.

7.2 Additional Deposits: If, in the opinion of the Director of Public Service and/or their designee, additional inspections are needed due to the use of granular backfill material, or horizontal directional drilling operations, the permittee shall place on deposit sufficient funds necessary to pay for said inspection services in addition to all other deposits and fees associated with the inspection process. Any unused inspection deposits will be refunded once it has been determined that the work has been completed in a satisfactory manner. Sewer TV Inspection Deposit shall be required where Sewer TV inspection is noted by the Division of Sewerage and Drainage on the Permit Plans (see Section 3 for plan requirements). - Application Fee after 48 hour notice: \$350.00
- On Demand Fee: \$250.00

NOTE: Billing of General Fees for all public and private utility companies will require approval from the Director of Public Service and/or their designee.

Projects of a duration requiring multiple inspections will be billed at the \$90 per hour rate. The need for additional inspection will be determined during the plan review process based on the complexity and duration of the project. When an inspector is required to work beyond their normal scheduled hours or weekends, the permittee shall be required to pay any additional inspection cost at an hourly rate. When a Department employee is required to respond to an emergency situation due to neglect of securing a steel plate or other hazardous situation, it will be the responsibility of the permittee to cover the cost of the employee and any material cost to rectify the situation in a safe manner. These costs shall be paid upon receipt of invoice or deducted from the permittee's deposit. Failure to pay these costs may result in the forfeiture of deposit monies, a moratorium on obtaining future permits, or both.

8. Traffic Control: Traffic control devices shall be furnished, erected, maintained, and removed by the permittee in accordance with guidelines published in the manual of "Traffic Control for Construction and Maintenance Operations" current revision. Copies are available at the Ohio Department of Transportation, located at 1980 West

Broad Street. In the event of conflicting requirements, any additional maintenance of traffic requirements spelled out in the plans shall take precedence over the above-mentioned manual. Any specific condition attached to the permit by the Temporary Traffic Control Coordinator shall take precedence over both the manual and plan notes.

NOTE: Traffic cones are not permitted as traffic control devices for night work within the City.

9. New Pavement or Re-pavement: No permit will be granted to any person to make any opening in the new pavement or re-pavement of a street or alley, except for the purpose of repairing leaks in pipes, for a period of three years after the completion of such new pavement or re-pavement. When emergency repairs are necessary, the Director of Public Service and/or their designee shall provide details and specifications on how the permanent pavement repairs are to be made per Standard Drawing 1441.

No permit shall be granted to any person to make any opening in hard surface areas (pavement, sidewalks, curbs, etc.) within right-of-way for Special Improved Streets for a period of five (5) years after construction or substantial construction of such hard surface areas. In addition, within right-of-way of Special Improved Streets, joint use of facilities shall be required so long as there is adequate space available in the existing facilities at reasonable and nondiscriminatory rates. Special Improved streets shall be reviewed and approved by the Director of Public Service and/or their designee upon which hard surface or landscaped improvements have been constructed or proposed to be constructed which are enhanced architecturally, aesthetically and/or structurally compared to standard City specifications for publicly dedicated streets or alleys. The Director of Public Service and/or their designee shall maintain a list of Special Improved Streets together with the beginning and ending dates of the five (5) year period.

10. Option for Pavement Repairs by City Contract: A permittee may elect to perform all or part of the repair work required when making a permitted pavement cut. If the permittee is not able to meet the requirements of this regulation and current City standards and specifications governing repairs to utility cuts, the permittee may opt to have all or part of this work performed by the City. The request for the City to perform any and all restorations shall be given at the time the application is submitted for permit processing. If the work is to be performed by the City, a separate pavement repair fee shall be paid to the City for this work. The amount of this pavement repair fee shall be established by unit prices for the quantity of work to be performed. This money shall be collected at the time the permit is issued, unless billing procedures have been approved by the Director of Public Service and/or their designee. The unit price rates shall be made available in advance for cost estimating purposes. The amount due the City shall be equal to the work planned to be performed.

11. Parking Meters: Whenever the work being performed restricts the use of City parking meters, the agency requesting the permit shall be responsible for paying the daily meter charge for each meter involved. The permit application shall include the meter numbers affected. When the activities require the removal of the meter heads, or it is determined by the City that meter heads need to be removed, a meter head removal fee shall also be charged. These fees shall be paid at the time the permit is issued. Parking meter fees charged will be the total daily fee, as if the meter is to be occupied for all enforcement hours.

When an occupancy permit is issued where parking meters have been requested to be bagged, each vehicle using a bagged meter location must have a permit. The original occupancy permit must be visible and in the vehicle using the bagged meter location. All other vehicles within the closure limits will be subject to parking restrictions identical to those of loading zones, which allows 15-minute parking unless actively loading or unloading. Permittee shall comply with the City's On-Street Parking Out of Service Policy.

12. Steel Roadway Plates: The City requires that all companies, corporations, or individuals placing steel roadway plates in the right-of-way of any street, alley, or public right-of-way shall notify the Department of Public Service. The contractor's name, employee contact name with a 24-hour emergency telephone number, plate location, number and size of plates, and the approximate number of days planned for placement shall be submitted weekly either by telephone at (614) 645-7497 or via FAX at (614) 645-1876.

The contractor shall also have available sufficient quantity and various sizes of trench plates for their use when needed for protecting and securing trenches opened by the contractor. In the Downtown Business District area, all

steel plates shall be a minimum of one inch in thickness. All steel plates shall be secured by using bituminous asphalt material around the perimeter of the plate and shall be a minimum of twenty-four inches wider in width than the actual excavation size, and a minimum of twenty-four inches longer in length than the actual excavation size. Steel plates shall not be left in the roadway for a period to exceed 30 calendar days, unless approved by the Director of Public Service and/or their designee.

NO SPIKES OR PINS ARE PERMITTED TO SECURE A STEEL PLATE.

Steel plates shall have the company name etched, engraved, or welded on each plate placed in road right-of-way, face up for identification and be monitored by the permittee to assure plates are secured and have not moved from their trench. Warning signs (COC - 327 (R/L)) must be placed in such a way that it does not obstruct motorist or pedestrians, identifying a steel plate is located in the roadway per standard drawing 1441. When steel plates are to be placed on roadways with a posted speed limit of 35 M.P.H. or greater, advanced warning signs (COC - 328) must be placed per standard drawing 1441. Failure to secure a roadway steel plate may result in fines and penalties per City Code, Chapter 903.99.

13. Emergency Phone Number Posting: The permit holder shall post in a conspicuous place at the job site a sign with a 24-hour emergency phone number. This shall be required whenever any travel portion of a lane or a sidewalk is barricaded.

14. Dumpster/Containers: All dumpsters or containers placed within public right-of-way must have an occupancy permit. This regulation does not apply to the trash containers placed by the Refuse Collection Division. Occupancy permits for dumpsters or containers may be issued to the vendor who supplies them or the permittee requesting the use of one. The vendor shall be responsible for providing a dumpster or container in compliance with current City of Columbus regulations. Each dumpster or container shall be equipped with reflectorized hi-intensity barricade tape (minimum 8 inches wide, standard orange and silver). A minimum of two bands each are required for dumpsters or containers less than four feet in height and three bands for dumpsters and containers over four feet in height. Each band shall be spaced evenly around the perimeter of the dumpster or container. The company's name and a 24-hour telephone number shall be placed on each side so that it is clearly visible. A weatherproof 9"x12" plastic envelope shall be affixed to the dumpster or container to provide a means of posting the permit. The permittee shall be responsible for the placement of two lighted barrels. The requirement of such shall be evaluated at the time of permit application or when a hazard develops.

If a permit is only for a dumpster or container to be placed in the right of way and not part of a larger construction project, it shall be limited to a seven (7) day period unless approved in advance as part of the permit process.

If a dumpster or container is to occupy an actual parking meter space, the fee(s) for that particular meter shall be charged in place. (See Section 11).

15. Special Duty Police Officers: When required by the permit, or if required by the City Service or Safety Director, the permittee shall be responsible for hiring and paying for the services of Uniformed Special Duty Police Officers. Police officers shall be required at all times when working within a signalized crosswalk and for controlling traffic in a 2-way 1-lane traffic pattern as determined by the Director. The City of Columbus will determine the number of officers required. An officer may be obtained by calling (614) 645-4795 and obtain the "Guidelines for Supervising Special Duty Police Officers," issued by the Chief of Police.

16. Penalty: Whoever violates any provision of this policy shall be deemed guilty of a first degree misdemeanor and fined not exceeding one thousand dollars (\$1,000.00), or imprisoned for not more than six months, or both. Any such violation shall constitute a separate offense on each successive day continued, in accordance with Columbus City Code, Section 903.99.

17. Right to Decline: The City of Columbus reserves the right to decline additional permits to a previous permit holder for other projects if a violation exists. No permit shall be issued until the violations are corrected to the satisfaction of the Division of Infrastructure Management Administrator or designee.

The City may limit the approved use of the right-of-way at any time due to unforeseen operational circumstances, but shall make every reasonable effort to alleviate the effects of any such limitation.

18. Shared Mobility Devices: Shared Mobility Devices (SMD) means small mobility devices, such as bicycles, scooters, or other similar mobility devices as determined by the Director of Public Service, including electronic versions thereof, that are offered for short term rental to subscribers on a minute, hourly, or daily basis for a fee for short distance travel. 1.1 Authority: Chapter 906 of the Columbus City Code requires any person or agency desiring to occupy public right-of-way for any non-commercial purpose to first obtain a permit. Such permits are issued by and through the Department of Public Service, Division of Infrastructure Management Administrator in accordance with the provisions of this regulation.

2. Type of Permits: There are two types of permits for occupying the public right-of-way:

The permit application shall include the parking meter numbers affected. Parking meter fees charged will be the total daily fee, as if the meter is to be occupied for all enforcement hours.

When an occupancy permit is issued where parking meters are to be bagged, each vehicle using a meter must have

a permit. The occupancy permit must be visible and displayed on the front dash of each vehicle.

4. Permits Not Issued For:

- Structures over 200 square feet
- Heating and/or cooling devices in the public right-of-way
- Any type of camping or cooking

5. Application and Review: Requests for occupancy permits shall be made through the Division of Infrastructure Management Administrator. All requests shall be on forms approved by the Division of Infrastructure Management Administrator and shall conform to Section 2 of these regulations. No occupancy may begin until a permit has been issued.

Requests to occupy the right-of-way of any improved or unimproved street, sidewalk, alley or public way shall be submitted at least five (5) working days prior to an event. When the applicant is requesting a full lane closure, the request shall be submitted at least ten (10) working days in advance.

6. Review and Approval: Each permit request shall be reviewed as indicated below and is subject to approval by the Division of Infrastructure Management Administrator.

6.1 Review: All occupancy permit applications shall be reviewed by the Division of Infrastructure Management and the Columbus Police Division, Traffic Bureau.

6.2 Application Approval or Denial; Appeal: Applications for permits shall be processed in order of receipt by the Division of Infrastructure Management.

The Division shall decide whether to grant or deny a permit or a request for an extension of time within five (5) working days unless, by written notice to the applicant, it extends the period an additional five (5) working days.

If the Division denies an application, it must notify the applicant by email or in writing of the grounds for denial. Denial of an application or extension of time may be appealed in writing to the Director within ten (10) working days of the date of the denial. The Division may only deny an application for a permit on one or more of the following grounds:

- 7) A fully executed prior application for permit for the same time and place has been received, and a permit has been or will be granted to a prior applicant authorizing a structure associated with a use or activity which does not reasonably permit multiple occupancy of the place requested in the application;
- 8) Any use or activity by the applicant associated with the proposed structure would conflict with a previously planned use or activity organized and conducted by the City and previously scheduled for the same time and place;
- 9) The proposed structure and/or associated use or activity would present an unreasonable danger to the health or safety of the public or would be otherwise prohibited by law, including but not limited to any applicable requirements of the Americans with Disabilities Act (ADA).

In no event may any application be denied or conditions placed on any permit issued based on the content of any speech or communicative activity associated with the proposed structure or occupancy.

6.3 Permit Expiration: Permits shall be issued for the time period necessary to conduct the activity in accordance with these regulations. No permit shall be issued for a period longer than five (5) consecutive days. No permit will be issued back to back or consecutively. An applicant who is issued an initial permit may receive a subsequent permit for the same area one (1) day after the date of expiration of a previous permit, provided the applicant meets all other rules and regulations. Applicants for subsequent permits will be subject to a priority given to a new applicant for the same area. The five day time limit for permits may be extended by the Administrator of the Division of Infrastructure Management upon request of the permit holder and for good cause shown.

7. Liability: The issuance of an Occupancy Permit does not relieve the permit holder from liability for any damage that might occur to the Public right-of-way, street, sidewalk, the public, or personal property while engaging in activities authorized by the permit.

permit holder.

These hours may be extended by the Administrator of Infrastructure Management upon request of the permit holder and for good cause shown.

12.3 Maintenance of Site: It shall be the responsibility of the permit holder to provide all materials and services necessary to maintain the permit area in a clean, safe and sanitary condition. 12.4 Special Duty Police Officers: When required by the permit, or if required by the City Service or Safety Director, the permit holder shall be responsible for hiring and paying for the services of Uniformed Special Duty Police Officers. Police officers shall be required at all times when event activities are at or near street intersections. The City of Columbus will determine the number of officers required. The determination as to the need and number of any special duty officers shall be made solely on the basis of traffic control, which basis shall be specified and communicated by email or in writing to the applicant by the City official making the determination. An officer may be obtained by calling (614) 645-4795.

13. Penalty: Whoever violates any provision of Chapter 906 of the Columbus City Code shall be deemed guilty of a first degree misdemeanor and fined not exceeding one thousand dollars (\$1,000.00), or imprisoned for not more than six months, or both. Any such violation shall constitute a separate offense on each successive day continued, in accordance with Columbus City Code, Section 906.99.

The City may limit the approved use of the right-of-way at any time due to unforeseen operational circumstances, but shall make every reasonable effort to alleviate the effects of any such limitation.

1. Purpose

The City of Columbus recognizes that public on-street parking as well as private parking for mobile food vending businesses is limited in many commercial, residential, historic, and mixed-use neighborhoods. In order to preserve the vitality for residents and to balance it with the needs of businesses in areas of limited parking, it is necessary to establish a temporary commercial zone permit for mobile food vending. The purpose of these rules and regulations is to establish requirements and processes

for application, review, and issuance of permits for the temporary occupancy of on-street parking by a licensed mobile food vendor while maintaining vehicular traffic access on the street, road, or alley.

2. Authority:

2.1 Pursuant to the authority granted under Chapter 922, Chapter 523, and Chapter 573 of the Columbus City Codes, 1959, the Director of Public Service hereby adopts, establishes, and publishes these rules and regulations to be effective at the earliest time allowed by law.

2.2 These rules and regulations supersede all previously promulgated rules and regulations for temporary commercial zone permits, and are applicable to public right-of-way, and city-owned and operated public parking facilities.

3. Definitions: The following words, terms and phrases, when used in these rules and regulations, shall have the meanings ascribed to them, except when the context clearly indicates a different meaning:

3.1 *Application* means a form created by the Department of Public Service, Division of Infrastructure Management.

3.2 *Commercial zone* means a geographic area that has a combination of public right of way access, vehicular traffic patterns, pedestrian density, and mobility options, such that reasonable access for mobile food vending does not constitute an unreasonable threat to public health and safety.

3.3 *Congestion Zone* means a geographic area that has a combination of public right of way parking limitations, meter restrictions, vehicular traffic patterns, pedestrian density, and mobility issues, such that unrestricted access for mobile food vending constitutes an unreasonable threat to public health and safety.

3.4 *Department* means the City of Columbus Department of Public Service, Division of Infrastructure Management.

3.5 *Director* means the Director of the Department of Public Service, or designee.

3.6 *Mobile food vendor* means every corporation, association, joint stock association, person, firm or partnership, their lessees, directors, receivers, trustees, appointees by any court whatsoever, or the heirs, executors, administrators, or personal representatives or assignees of any deceased owner, owning, controlling, operating or managing any mobile food vending unit.

3.7 *Non-commercial zone* means all areas within the corporate limits of the city of Columbus that have not been designated a "congestion zone" or a "commercial zone." Non-commercial zone includes any public right of way where the city of Columbus requires, at all times, a permit for parking.

3.8 *Petition* means a form created by the Department which is developed from an application for a temporary commercial zone, which includes the requested parking area. There shall be an area on each petition for property owners or tenants, or building managers whose property adjoins the side(s) of the public street affected by the permit to sign as being in favor of the requested permit.

3.9 *Public Right of Way* means any property owned by the city of Columbus, including but not limited to, any street, road, alley, sidewalk, vacant lot, or other tract of land.

3.10 *Residential Zone* means a geographic area that is made up of predominately single-family and/or multi-family housing.

3.11 *Temporary Commercial Zone* means the closing of one (1) or more parking locations in the public right of way between one (1) or more intersections, while maintaining vehicular traffic access on the street, road, or alley, for the purpose of conducting commercial activity, including mobile food vending.

3.12 *Temporary Commercial Zone Permit* (*hereinafter referred to as "Permit"*) means a permit issued by the Department to an Applicant for the temporary closure and occupancy of one or more on-street parking spaces, but not for temporary closure of the public right-of-way.

4 General Permit Rules

4.4 A permit is required in a congestion zone anytime a mobile food vendor operates in any parking space between the hours of 6:00 AM and 3:00 AM that is not a designated mobile food vending parking space or the first or last parking space adjacent to an intersection of any street, road or alley after 10:00 PM.

4.5 Each permit is the property of the City of Columbus. Improper use or forgery of a permit may result in the revocation of the current permit and/or non-renewal of any future permit application, as determined by the Department.

4.6 No permit shall be issued to an Applicant with unpaid City of Columbus parking tickets, or who is delinquent on any taxes or other obligations to the City or County.

4.7 Each permit issued by the Department shall display the motor vehicle's license number. The permit shall be displayed on the driver's side dashboard of the lower front window of the vehicle. A permit is valid only for the location and dates designated on the permit.

5.6 The Department, the Columbus Division of Police and the Columbus Division of Fire may temporarily suspend permit parking if the public right-of-way is needed for an emergency or temporary use, including, but not limited to, the construction, maintenance, or repair of a street or utility or special event.

5.7 Whenever an Applicant requests a Permit for a metered parking space, the applicant shall be responsible for obtaining the parking meter numbers to be reserved and pay the total daily meter charge for each of the parking meters reserved. The Application shall include the parking meter numbers affected. Parking meter fees charged will be the total daily fee, as if the meter is to be occupied for all enforcement hours.

5.10 At no time shall the permitted vender be allowed to park on a sidewalk or drive over the curb.

6 Indemnification And Hold Harmless Agreement

**GENERAL RULES AND REGULATIONS
FOR
CITY CODE, CHAPTER 2139**

**DEPARTMENT OF PUBLIC SERVICE
DIVISION OF INFRASTRUCTURE MANAGEMENT
CITY OF COLUMBUS, OHIO**

SUBJECT: SPECIAL HAULING PERMITS (SHP)

EFFECTIVE DATE: JANUARY 2, 2023

Purpose:

These rules and regulations are necessary to mitigate the deterioration of streets, highways, bridges, utilities and other City-owned structures caused by overweight and oversized vehicles. Sections 5577.01 to 5577.15 of the Ohio Revised Code address the weight and dimension limits for such vehicles. Section 4513.34 of the Ohio Revised Code and Section 2139 of the Columbus City Code authorize the Director of Public Service to issue permits for those loads that exceed the statutory weight and dimension limits contained in the Ohio Revised Code. These limitations and provisions described below are the general requirements placed on the operation of the over dimension and overweight vehicles traveling on roadways and are in addition to specific provisions stated on the Special Hauling Permit (SHP) or its attachments. For reference or detailed information, please refer to the ODOT Special Hauling Permits Operational Guide or contact the City of Columbus Permit Section.

1. General Permit Requirements:

1.1 No application for a Special Hauling Permit (SHP) shall be approved unless the application is legible and complete.

1.2 A copy of the current and valid Special Hauling Permit (SHP) issued by the City of Columbus(COC) shall be in the possession of the driver at all times during the progress of transportation and shall be shown on demand to any law enforcement officer, Ohio State Highway Patrol or to any employee of City of Columbus. The SHP shall be clearly legible and free of any markings, writing, symbol, logo, letterhead, characters or inscriptions that are not part of the SHP as transmitted by COC (an additional tele-facsimile header is allowed).

1.3 The permission granted in the SHP restricts the movement of the vehicle(s) or object(s) to the highways specified, between the points designated, and within the time allotted. Permittee shall check the route for abnormal, changed, or unknown/unusual conditions which may exist during any transport. Permits are only lawful on city streets. At the discretion of the local authority provided in the Ohio Revised Code, they are not valid on the interstate system, US routes, and state routes under the authority of the state of Ohio. Permittee shall obtain permission to travel county or township roads or local streets not part of the City of Columbus Roadway System within the city from the proper governmental agencies.

1.4 No vehicle(s) or object(s) being transported under a SHP shall be parked on the roadway at any time except in case of an emergency, in which case permittee shall be responsible for obtaining adequate protection for the traveling public while such vehicle or object is parked. The vehicle(s) shall not be loaded or unloaded while on the roadway.

1.5 The driver of the permitted vehicle must comply with all laws, rules, regulations or credentials covering the movement of traffic over highways and streets and Commercial Motor Vehicle operations.

1.6 SHPs will not generally be issued for built-up loads that are divisible into legal loads or loads that have not been loaded to the least over dimension or the least overweight. However, miscellaneous items may, however, be transported on the same vehicle with an over dimensional piece or pieces as long as the miscellaneous items do not add to the over dimension. It is not necessary to identify these miscellaneous items. If, in the event of an extenuating circumstance, an SHP is issued for a divisible load in which two or

more pieces add to the over dimension or over weight, such load shall be adequately described

1.7 An SHP is void at any time that road, weather or traffic conditions make travel unsafe, as determined by the State Highway Patrol or local law enforcement.

1.8 Movement of mobile homes, manufactured structures, office trailers, and park model recreational vehicles is prohibited when wind velocity exceeds 25 mph on the roadway or 15 mph on bridges.

1.9 The duration of the SHP shall not extend beyond the expiration date of the insurance policy filed with the Department.

1.10 The original permit and any attachments as issued must be carried in the cab of the vehicle during movement.

1.11 The permittee is solely responsible for renewing its permit prior to its expiration date. The City of Columbus shall not issue any notice prior to expiration of said permit. The permittee is also responsible for ensuring that the permit accurately describes the vehicle and load. The permit is null and void if there are any inaccuracies contained in the description of the vehicle or load.

2. Type Of Permits:

2.1 Single Trip

2.1.1 Single Trip permits will be issued for a specific origin and destination. This permit may also include a return to the stated point of origin. This type of permit would be appropriate when a load is needed at a job site and is then returned to the point of origin all within the effective dates of the permit. Application must include the specific route proposed.

2.1.2 Single Trip permits will be issued for vehicles that are over 120,000 pounds gross weight and/or over 90 feet in length and/or over 11 feet in width and/or above 13'-6" in height.

2.1.3 Single Trip permits are issued to the specific truck or commercial tractor used for the load or loads. When indicated on the application, various trailers may be used. On overweight configurations, the trailers must be identical as far as number of axles, axle spacing, axle weights, and number of tires on each axle and the sizes of those tires.

2.1.4 Permittee will have 5 consecutive days to move the vehicle.

2.2 Continuing Annual Permits (Less Than 120,000 Lbs. GVW)

2.2.1 When more than one load needs to be moved, a 365 day continuing permit may be issued to a specific vehicle including an approved load for repeated one-way movement between the same two points over prescribed routes. This permit may also include a return to the stated point of origin. Maximum duration of validity is 365 days.

2.2.2 The permit is issued to the truck or commercial tractor. When indicated on the application, various trailers may be used. On overweight configurations, the trailers must be identical as far as number of axles, axle spacing, axle weights, and number of tires on each axle and the sizes of those tires.

2.2.3 The load, in addition to being under 120,000 lbs. gross weight, must not be greater than 13'-6" in height and not greater than 11 feet in width. If any of these conditions exist, a single trip permit must be obtained per Section 2.1.

2.3 Construction Equipment (UNDER 120,000 LBS. GVW)

2.3.1 This specialized permit is used for the frequent movement of over width construction machinery to and from job sites. To qualify for this permit, the vehicle and load must be legal in accordance with Section 5577.04 through 5577.05 of the Ohio Revised Code. Maximum duration of validity is 365 days.

2.3.2 Loads may consist of small dozers, backhoes, or other similar equipment being transported on straight trucks or on equipment trailers pulled by trucks, or on semi-trailers hauled by commercial tractor. Field office trailers towed on their own undercarriages may also be included. The permit is issued to the truck or commercial tractor. When indicated on the application, various trailers may be used.

2.3.3 Be alert for overhead obstructions and be aware that posted limits, including those on pavements and bridges, must be obeyed.

2.3.4 The load, in addition to being under 120,000 lbs. gross weight, must not be greater than 13'-6" in height and not greater than 11 feet in width. If any of these conditions exist, a single trip permit must be obtained per Section 2.1.

2.3.5 Revisions may be issued upon request at no charge whenever construction impedes movement along the assigned route. Request may be made by calling the Permit Office at 614-645-7497.

3. Fees: The fees for government projects may be waived at the discretion of the Director of Public Service.

3.1 OVERSIZE LOAD (1 TIME MOVE)

§ \$100.00

3.2 OVERSIDE LOAD (ANNUAL)

§ 80,000 to 90,000 lbs. GVW = \$500.00

4.1.2 Any load with an overall height in excess of 14 feet 6 inches shall be required to coordinate the move with the owners of all overhead signs, signals, utilities, etc., which may obstruct safe, clear movement.

4.1.3 Reductions in legal weight posted on roadways or bridges must be obeyed. Contact the Permit Office immediately if your route includes legal load reductions.
