

# SITE LAYOUT

Permit #

Property Address

Owner / Applicant

Prepared by

A site layout addendum form is needed to identify the location of tank(s) and components being abandoned. Please clearly indicate north direction and distances to items for sewage treatment system location identification. This includes but is not limited to buildings, driveway, road, intersections, house, and property lines.

A large grid area for drawing the site layout. The grid consists of 20 columns and 20 rows of squares, providing a space for the applicant to draw and label the location of tanks and components to be abandoned, along with other site features like buildings, roads, and property lines.
