

**Columbus Public Health & Franklin County Public Health Opiate Community Resources Pocket Card:
Instructions for Printing, Folding and Cutting**

This handout is meant to be printed on 8.5x11 office paper, double-sided (there are two handouts per page). Fold the printed, double-sided sheet in half horizontally (so that the title, graphic and logos are on the outside), then fold in half horizontally again (so that the title, graphic and logos is on one side, and the “Local Resources” information is on the other). Cut in half vertically for two folded handouts. (See attached photo for what final printed/folded/cut handout should look like).
