Program requirements:

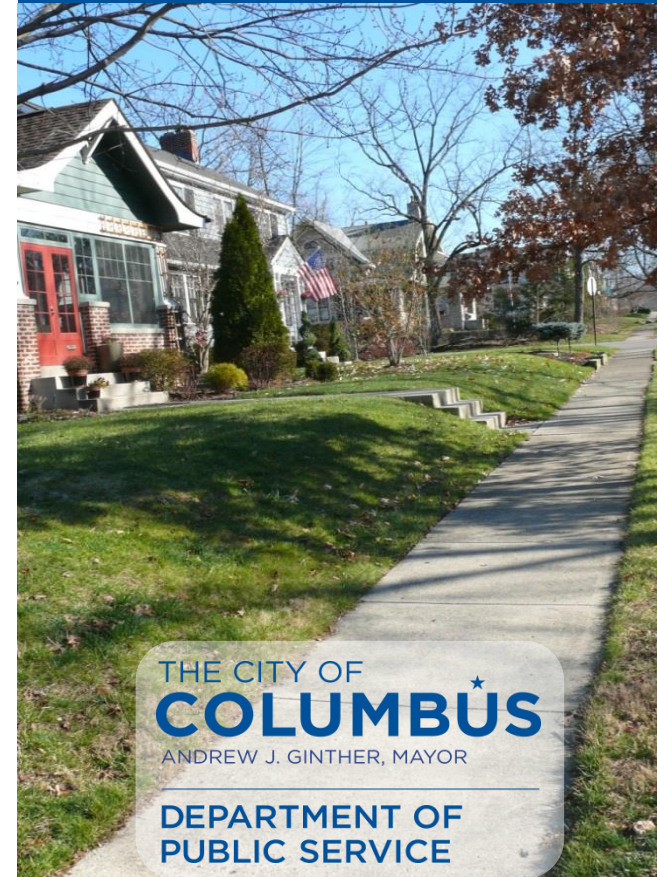

- ✓ Only expenses to repair items specifically stated in the Notice of Violation letter are eligible for reimbursement.
- ✓ Repairs eligible for reimbursement can be made by the property owner (the property owner does not hire a company to do the work) or by a company on the City's approved contractor list for Sidewalk Rescue repairs.
- ✓ If the property owner does not make the repairs, the City will contract with a company on the City's approved contractor list for Sidewalk Rescue repairs to make the repairs.
- ✓ Property owners that make their own repairs will need receipts for all expenses for which they are claiming reimbursement.
- ✓ The property owner will be responsible for paying charges for the repairs in excess of the reimbursement amount.
- ✓ If the property owner cannot or does not want to pay the balance of the charges for the repair made by the City's contractor, the City will pay the remaining balance after the reimbursement amount is applied. The expenses incurred by the City for doing this will be added to property taxes.
- ✓ The City is required to report any funds distributed under Sidewalk Rescue to the IRS as taxable income. Anyone eligible for Sidewalk Rescue funds will be required to complete a Form W9 before receiving any funds.
