

To: All Fire Hydrant Permit Holders
City of Columbus and Suburban Contract Areas

Subject: Fire Hydrant Winter Usage

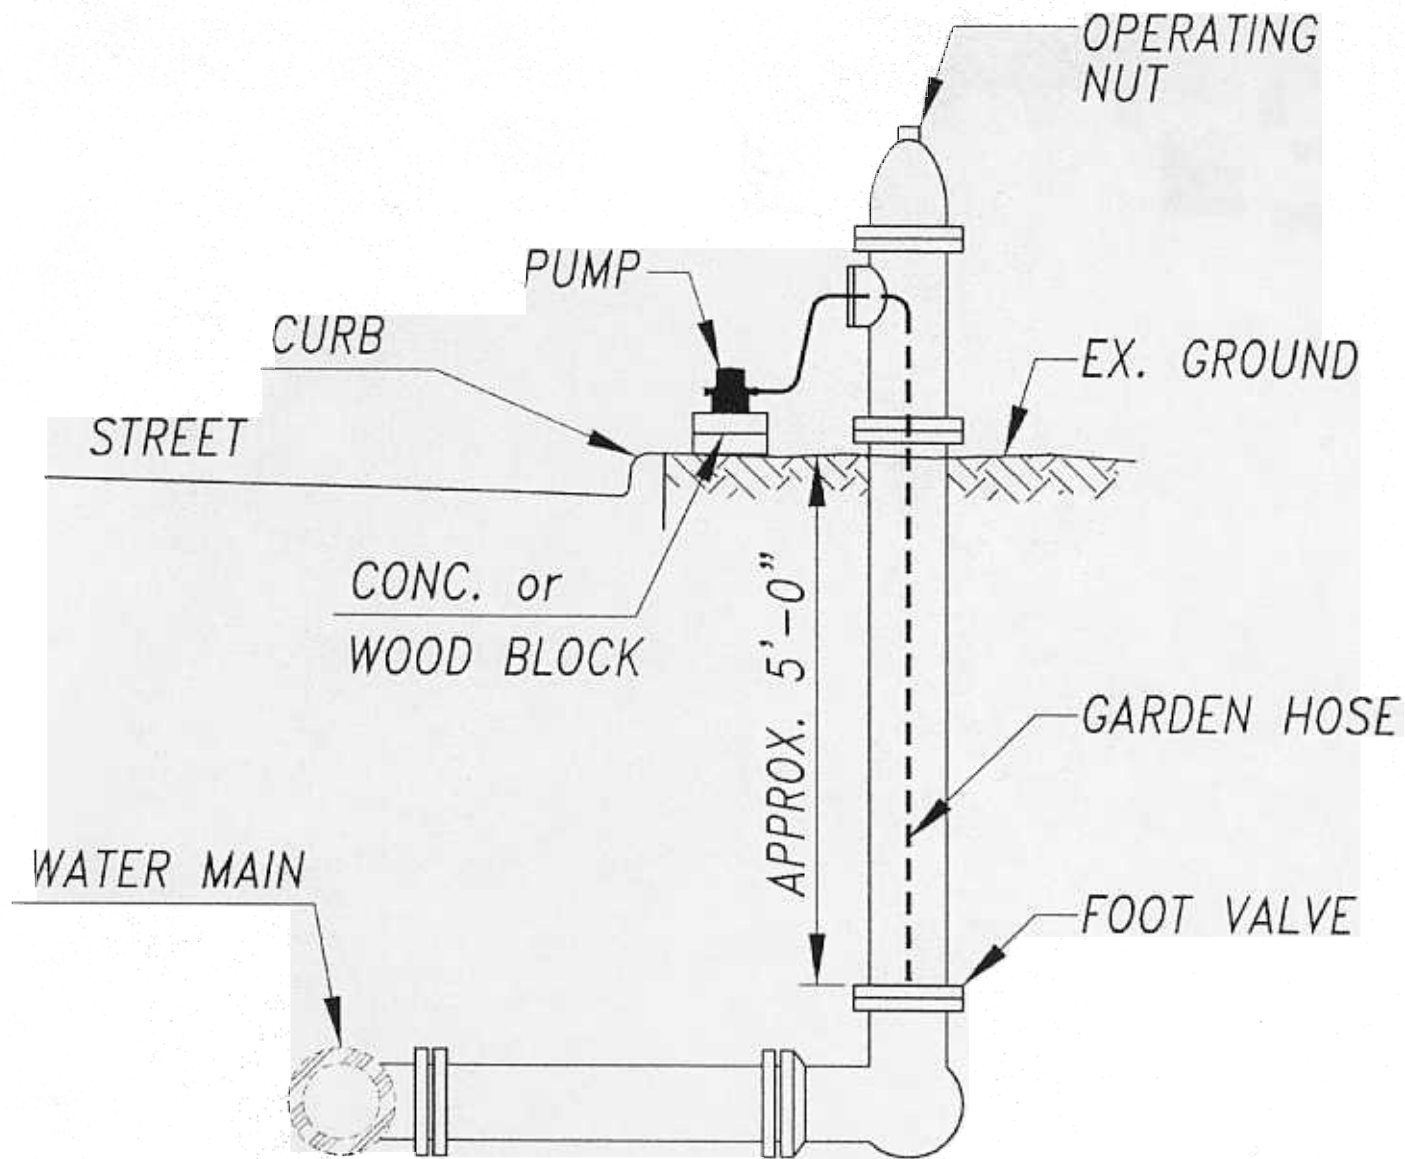

Winter weather conditions dictate the following special emphasis when using fire hydrants:

Between the dates of September 15th and April 15th the fire hydrant barrel shall be pumped dry to the foot valve of the hydrant by the applicant (permit holder), IMMEDIATELY after each time the fire hydrant is operated.

Pursuant to the Columbus City Code Section 1113.03 and 2517.04, anyone violating this section of Rule and Regulation 93-3 shall be charged the amount of \$300.00 per occurrence, plus the cost of repair for any damage to the fire hydrant and appurtenances. These charges must be paid before any further permits shall be issued. No permits shall be issued to the same applicant if there are more than two occurrences during the above time period.

REMEMBER Water... More than a resource – a responsibility!

Department of Public Utilities Water Distribution Maintenance: (614) 645-7788 Water Permit Office: (614) 645-7330

The barrel of any fire hydrant used between the dates of September 15th and April 15th, shall be pumped dry to the foot valve of the hydrant, by the applicant (permit holder), IMMEDIATELY after each time the fire hydrant is operated.

Pursuant to the Columbus City Code Section 1113.03 and 2517.04, anyone violating this Section of RULE and REGULATION No. 93-3 shall be charged the amount of \$300.00 per occurrence, plus the cost of repair for any damage to the fire hydrant and appurtenances. These charges must be paid before any further permits shall be issued. NO permits shall be issued if there are more than two occurrences during the above time period. **BLOCKING AS REQUIRED.**
