 Phone: 614-645-7433 • www.bzs.columbus.gov

STATEMENT IN SUPPORT OF VARIANCE(S)

APPLICATION #

3307.09 Variances by Board.

- A. The Board of Zoning Adjustment shall have the power, upon application, to grant variances from the provisions and requirements of this Zoning Code (except for those under the jurisdiction of the Graphics Commission and except for use variances under the jurisdiction of the Council). The board shall take into account all of the following facts and conditions when considering variances:
1. Whether the property in question will yield a reasonable return or whether there can be any beneficial use of the property without a variance.
 2. Whether the variance is substantial.
 3. Whether the essential character of the neighborhood would be substantially altered or whether adjoining properties would suffer a substantial detriment as a result of the variance.
 4. Whether the variance would adversely affect the delivery of governmental services (e.g., water, sewer, refuse service).
 5. Whether the property owner purchased the property with knowledge of the zoning restriction.
 6. Whether the property owner's predicament feasibly can be obviated through some method other than a variance.
 7. Whether the spirit and intent behind the zoning requirement would be observed and substantial justice done by granting the variance.
- B. In granting a variance, the Board may impose such requirements and conditions regarding the location, character, and other features of the proposed uses or structures as the Board deems necessary to carry out the intent and purpose of this Zoning Code and to otherwise safeguard public safety and welfare.
- C. Nothing in this section shall be construed as authorizing the Board to affect changes in the Zoning Map or to add to the uses permitted in any district.

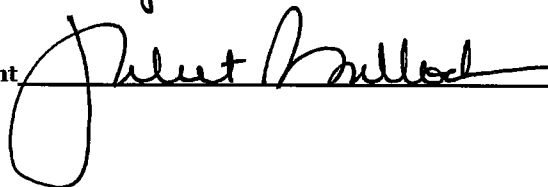

List all sections of Code to be varied and explain your reasoning as to why this request should be granted.

PLEASE NOTE: It is the applicant's responsibility to identify all variances required for the project. If any necessary variances are not included, a new application (and applicable fees) will be required.

I have read the foregoing and believe my application for relief from the requirements of the Zoning Code demonstrates practical difficulty as contemplated by that section, in the following ways (use separate page if needed or desired):

By splitting this lot, we will have two lots that are similar in size to majority of the lots in this neighborhood. We will be maintaining the existing single family home & proposing a new single family on the adjacent new lot. There are no sideyard or lot coverage variance required. All parking requirements are met on site, so this proposal will have little impact to the neighborhood and will be a great asset to the street.
