

# Cell Phone Use in Drug Trafficking Investigations

Hosted by:  
**Northeast Counterdrug Training Center**  
**Middle Atlantic Great Lakes Organized Crime Network (MAGLOCLEN)**  
**US Attorney's Office**

This course is a detailed introduction to how cell phone data can be used by investigators to enhance drug trafficking investigation. Instruction will cover use of historical communication data (records), real-time surveillance options, physical cell phone forensics considerations, and solutions that all law enforcement personnel should know. Legal issues about how to obtain and use this data will be covered as well as surveillance operations considerations, company-specific considerations, courtroom presentation issues, and other related matters. At the end of this course, students will have a very thorough understanding of what is possible with communication data in narcotics investigations, the several primary categories of available data, and how to determine the servicing companies for communications devices and accounts.
