LIFE EXPECTANCY

	Columbus	Franklin County	Ohio
Life Expectancy (from birth; in years)	73.7	74.8	74.5

Notes: Life expectancy is the average expected number of years of life remaining from a given age, in a given population, according to the current mortality experience (age-adjusted death rates) of a person in the same population. Life expectancy is calculated from a "Life Table" and is expressed as the life expectancy from birth.
