

# Public Health Actions for Confirmed Cases & Contacts

## Confirmed COVID-19 Case with Symptoms

### Public Health Actions:

- Interviews case
- Orders case to isolate – documentation provided
- Identifies close contacts
- Notifies employer
- Contacts close contacts

## Contacts of Confirmed Case

*(contact occurred from 48 hours before symptoms to when symptoms started)*

### Public Health Actions:

- Interviews contacts
- Orders contacts to quarantine for 14 days since last exposure to confirmed case
- Documentation is given to contact to share as appropriate\*
- Tells contact what to do if symptoms start

*\*Does not notify contact's employer (as long as contact is not sick or a confirmed case)*

## Contacts of Contacts

*(people not exposed)*

### Public Health Actions:

- No action taken unless the originating "Contact of Confirmed Case" becomes symptomatic and becomes a confirmed case
- If this occurs, these 2<sup>nd</sup> generation "contacts" are now considered "Contacts of Confirmed Case" and appropriate actions are taken
