

LINDEN PARK PILOT PROJECT

Wadooyinka xawaaraha Gaaban Columbus

Xawaarahagawaarida oola kordiyokudaha wadooyinka xaafadaha la daganyahay waxay saamayn xun ku yeelataa magaalada Columbus iyo deganayaasha xaafadahan. Dhammaan dadka deegaanka, dadka lugeynaya iyo kuwa wadada isticmaala waxay xaq u leeyihii inay si badbaado leh u isticmaalaan wadooyinka isku xira gaadiidka magaalada.

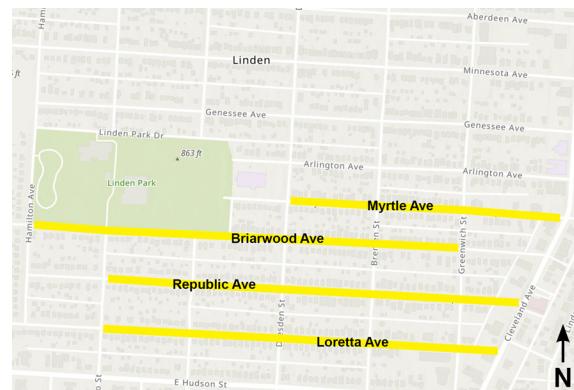

Dib u eegis lagu sameeyay 311 codsi adeeg ayaa laga helay kooxo ka kooban codsiyadaas soo jeedinaya taraafikada waddooyinka in laga yeelo u socdka hal-dhinac, gaar ahaan xaafadaha Linden iyo Hilltop. Dib u eegis hadda taakan oo wadooyinka u socdka halka-dhinac ee xaafaddahan ayaa muujinaya inay xawaarah gawaarida ay sareeyaan. Natijjooyinka, oo ay weheliso talobixin ka timid One Linden Plan, ayaa soo jeedisay in tiixgalin lagu sameeyo si wadooyinkan u socdka halaka dhinac loogu badali lahaa labo wado is dhinac marto, sida gaadiidka u wadaagaan hal wado ayagoo ka kala imaanaya labada dhinac. Daraaseeyntan lagu dhaqaaqi doona waxay kaloo sii eegi doontaa qaabab kaloo ayagan lagu yareen karo xawaaraaha wadooyinka xaafadahan.

Waa maxay kala joogsiga wadda?

Joogsi, ama u ogolaansho, waa wado gaadiidku kakala yimaado laba dhinac taas oo balanceeduna yahay 22 ilaa 28 dhudhun isla markaana dhinacyada baabuurta la dhigto. Saas awgeed Darawaladu waxay ku qasban yihiin inay kala jog sadaan oo marba mid soo gudba maadaama wadada la isla wadaagayo. Kalajoogsigaas ayaa sabab u noqon kara in xawaarahaa lagu socdo xaafadahan hoos u dhoco. Wadooyinka sidan oo kale oo baabuurta labada dhinac ka yimaadaan waa kuwo can ka ah magaalada Columbus, ay ku jirto Xaafada Linden
