

6' MOUNTING BRACKET

I. Quantity

The base bid shall include the indicated number of 6' mounting brackets, furnished and installed as hereinafter specified.

II. Material

- a. 6 Ft. Aluminum Mounting Bracket – The aluminum bracket shall be under braced style fabricated from 2" aluminum pipe. It shall have a 28" rise and be suited for use with a luminaire weighing up to 70 lbs. having a projected area of 1.6 square feet. The 6 foot aluminum bracket shall be HAPCO, Catalogue No. 82-003 or approved equal.
- b. Wire-The wire shall be #10 AWG 7 strand copper, 600 V type THW or THWN single conductor.
- c. Compression connectors-The compression connectors shall be Burndy #YPC2A8U or approved equal.
- d. Miscellaneous Hardware-All hardware shall be as shown on DOE Module DWG MLBAUB6.

III. Installation

- a. The installation shall be as shown on drawing 01S0053, located as shown on the drawings or indicated in the field by the engineer.
- b. Mounting height-The height to light center shall be 28' unless otherwise specified on the drawing or indicated in the field by the engineer.
- c. Any relocation of existing facilities required for proper clearance shall be obtained by the contractor and indicated in the unit price bid for this item.
- d. This item shall include the furnishing and installing of the bracket arm, the wiring internal to the arm and the connection of the wiring to the circuit and luminaire. The luminaire and circuit shall be provided and quoted on as separate items and are not included in this specification.

IV. Quotation

The 6' mounting bracket as hereinbefore specified shall be quoted on as a unit price each in the appropriate place in this document.
