### General Instructions

#### ***Withholding local income tax***

Employers must withhold and remit city tax to the municipalities in which their employees work. Employees may also have a liability to the municipality in which they reside. If the credit allowed by the employee's city of residence for tax paid to the city of employment is less than the employee's liability to the city in which the employee resides, the employee will either have to request that their employer withhold the additional tax due to the city of residence, or make estimated tax payments to the city of residence.

Employers are liable for the tax required to be withheld even if the employer fails to withhold the tax. Officers of a corporation are personally liable for the failure to remit the tax required to be withheld whether or not the tax was withheld. Dissolution of a corporation does not discharge an officer's liability for a failure of the corporation to remit the tax due.

#### ***Working from home during the COVID-19 pandemic***

Ohio House Bill 197, amended by Ohio House Bill 110, instituted temporary language stating that on and after March 9, 2020, but before January 1, 2022, any day on which an employee performs personal services at a location, including the employee's home, which the employee is required to report for employment duties because of the declaration shall be deemed to be a day performing personal services at the employee's principal place of work.
