General Instructions

Withholding local income tax

Employers must withhold and remit city tax to the municipalities in which their employees work. Employees may also have a liability to the municipality in which they reside. If the credit allowed by the employee's city of residence for tax paid to the city of employment is less than the employee's liability to the city in which the employee resides, the employee will either have to request that their employer withhold the additional tax due to the city of residence, or make estimated tax payments to the city of residence.

Employers are liable for the tax required to be withheld even if the employer fails to withhold the tax. Officers of a corporation are personally liable for the failure to remit the tax required to be withheld whether or not the tax was withheld. Dissolution of a corporation does not discharge an officer's liability for a failure of the corporation to remit the tax due.

Form IT-15J is due:

- Within three banking days of the 15th and last day of each month for employers required to file **semi-monthly**, and
