LivingstonAvenuePedestrianSafetyStudy

This newsletter provides information and updates on the Livingston Avenue Improvements Study.

Project Background

Livingston Avenue is on the Vision Zero Columbus High Injury Network. The corridor has a higher density of fatal and serious injury crashes that threaten the safety of pedestrians, cyclists, transit users and drivers. The city is addressing this issue along the corridor, with the Livingston Avenue Improvements Study focused on the section from 18th Street to Nelson Road to promote safety for all roadway users and reduce vehicle speeds and severe crashes.

Process Recap

Steering Committee Meeting #1

- Introduced the study and schedule
- Outlined roles and responsibilities
- Defined goals for the Study

Steering Committee Meeting #2

- Presented design "toolbox"
- Committee members brainstormed corridor concepts/layouts
- Started to conceptualize corridor concepts

Steering Committee Meeting #3

- Presented preliminary corridor concepts
- Received feedback/interest in each concept
- Revised/narrowed corridor concepts based on feedback

Upcoming Public Meeting Open House

The purpose of the first public meeting is to present draft layouts and ideas for this section of Livingston Avenue and receive feedback. The layouts to improve mobility and safety were developed with input from the project Steering Committee, comprised of neighborhood residents and business, faith and community organization representatives.

Since the meeting will be held in an open house style format, you're welcome to join us at any time during the timeframes listed to the right. The same information will be presented at both meetings. There will be a presentation at 12:30 p.m. and 6 p.m. City staff and the study project team will be on hand to help answer questions.

To receive a copy of the materials presented at the public open house by mail or if you need other special accommodations to participate, please contact Eric Lambert at the contact information provided on the previous page.

All are welcome!

November 17

**Driving Park
Community Center**
