

ITEM 907 SHEETING AND BRACING LEFT IN PLACE

907.01 Description

907.02 Method of Measurement

907.03 Basis of Payment

907.01 Description. This item consists of all sheeting, bracing and other supports left in place where specifically ordered in writing by the Engineer, regardless of the reason or purposes for the installation. Submit shop drawings, accompanied by calculations, stamped by a Professional Engineer registered in the State of Ohio, showing the adequacy of the sheeting, bracing and other supports. Furnish one electronic copy or six (6) paper copies of this information to the Engineer.

907.02 Method of Measurement. The Engineer will measure and accept only sheeting, bracing, and other supports actually left in place by written order of the Engineer for payment. The Engineer will not measure any sheeting, bracing, or other supports cut off, wasted, or extending below the top elevation of the concrete bedding, concrete backing, concrete backfill, or subgrade or left in place without a written order from the Engineer.

907.03 Basis of Payment. The City will pay quantities of sheeting, bracing, and other supports measured and accepted at the contract unit price, per square foot (square meter) for timber sheeting and bracing and for steel sheeting and bracing left in place.

The City will pay under:

| Item | Unit | Description |
|------|-------------------------------|--|
| 907 | Square Foot (Square Meter) | Timber Sheeting and Bracing Left in Place |
| 907 | Square Foot (Square Meter) | Steel Sheeting and Bracing Left in Place |
