

**CITY OF COLUMBUS
DEPARTMENT OF PUBLIC SERVICE
UPCOMING REQUEST FOR PROPOSALS**

April 28, 2022

#	ADVERTISE DATE	CIP NO.	PROJECT NAME	PROJECT DESCRIPTION
1	May-22	440001-102232	UIRF- Eakin Road Shared Use Path (Wayne Avenue to Harriburg Pike)	This project will construct a shared use path along Eakin Road from Wayne Avenue to Harriburg Pike. The improvements will include a new or improved bridge, RR crossing, crosswalks, and sidewalk connections.
2	May-22	N/A	Flashing Yellow Arrow Implementation Pilot	This project will implement Flashing Yellow Arrow (FYA) signal phasing at multiple intersections along the Roberts Rd and Hilliard-Rome Rd corridors as a pilot project for Columbus. This project will include construction plan preparation for the upgrade of 11 signalized intersections including adding 3-section signal heads with FYA capabilities, new signal cable, and upgraded TS2 cabinets and components necessary to implement FYA signal phasing.
3	May-22	531060-100000	North Knot and Lane Avenue Traffic Analysis and Preliminary Engineering	This study will examine the impacts of the traffic growth on the west and east OSU campus. The study will focus on major arterials which directly impacting the traffic flow on SR 315. The study will be identify feasbile alternatives. This will recommend one preferred alternative to be developed to a preliminary geometry alignments.
4	Q2 2022	TBD	Intersection Improvements- S. High Street and Greenlawn Ave-Thurman Ave	Intersection Improvements - Improve traffic and pedestrian operations at the intersection of S. High Street and Greenlawn Ave/Thurman Ave. This project may receive federal funding. Right of way services are also anticipated.
5	Q3 2022	TBD	Roadway Improvements -Materials Testing and Inspection	Contract to perform material testing and inspection services
6	Q3 2022	530161-100009	Roadway Improvements - General Engineering Design Services	This contract wil be utilized in regards to miscellaneous tasks needed for the design, maintenance or construction of roadway improvments. Tasks and services that might be utilized include cost estimates, grant application assistance, roadway design and roundabout analysis.
7	Q3 2022	530301-260755	Bridge Rehabilitation - Front Street and Nationwide Boulevard over Railroad Tunnel	This project is for the rehabilitation of the Front Street and Nationwide Boulevard bridges over the railroad tunnel in downtown. The project will include deck replacements, conversion of the bridge abutments to semi-integral, painting of the superstructures, approach slab replacements, and joint replacements. The engineering services needed will be for contrsuction plan development and any other necessary services.
8	Q3 2022	530301-982022	Bridge Rehabilitation - General Engineering (2022)	The intent of this contract is to provide additional resources to perform various engineering and surveying tasks for bridge projects. The projects developed under this contract are typically small to moderate size improvements. Basic engineering services such as bridge inspection, testing, culvert design, bridge repair plans, and maintenance of traffic plans will be part of this program.
9	Q3/Q4 2022	TBD	Signal - General Engineering	This is a professional services contract to provide the City with engineering basic services. The services shall include Traffic Engineering, Surveying, Civil Engineering and other engineering services as need.
