STATEMENT OF HARDSHIP

APPLICATION # ____________________________

14310-00000-00583
4700 NORTH HIGH STREET

3307.09 Variances by Board.

A. The Board of Zoning Adjustment shall have the power, upon application, to grant variances from the provisions and requirements of this Zoning Code (except for those under the jurisdiction of the Graphics Commission and except for use variances under the jurisdiction of the Council). No variance shall be granted unless the Board finds that all of the following facts and conditions exist:

1. That special circumstances or conditions apply to the subject property that does not apply generally to other properties in the same zoning district.
2. That the special circumstances or conditions are not the result of the actions of the property owner or applicant.
3. That the special circumstances or conditions make it necessary that a variance be granted to preserve a substantial property right of the applicant which is possessed by owners of other property in the same zoning district.
4. That the grant of a variance will not be injurious to neighboring properties and will not be contrary to the public interest or the intent and purpose of this Zoning Code.

B. In granting a variance, the Board may impose such requirements and conditions regarding the location, character, and other features of the proposed uses or structures as the Board deems necessary to carry out the intent and purpose of this Zoning Code and to otherwise safeguard the public safety and welfare.

C. Nothing in this section shall be construed as authorizing the Board to affect changes in the Zoning Map or to add to the uses permitted in any district.

I have read Section 3307.09, Variances by Board, and believe my application for relief from the requirements of the Zoning Code satisfies the four criteria for a variance in the following ways:

1. One way aisle width to be 10'-6" for Parallel Parking.
   The property currently has 4 available parking spaces along High Street. With a possible dance studio tenant and a future tenant, there is not enough parking spaces available to satisfy the tenants needs. We are proposing to place 6 parallel parking spaces on the north side of the property. However, the space between the building and the property line is only 19'-6" and does not meet the City Zoning Code requirement of 22'-0" (9'-0" stall width and 13'-0" aisle). This leaves 10'-6" for the aisle. The site has an extremely limited space to provide an additional parking. We feel that this is the only currently available space to accommodate more parking.

2. Allow eating establishment use without minimum number of parking spaces.
   The property has a potential future use for eating establishment. As stated above, the site has a very limited area for additional parking spaces. With the existing parking on west side, the proposed parallel parking on the north side, and the proposed parking on the east side, there is still not enough number of parking to meet the City Zoning Code requirement. There is no other space available on site to accommodate more parking spaces.

   The existing parking lot in front of the building shall remain unless the Columbus City Traffic Department determines that a change in use is to intense, then those parking spaces shall be removed.
