INTRODUCTION: The site consists of +/-16.4 acres and is found southeast of and adjacent to the intersection of Central College Road and Harlem Road. The site was annexed to the City of Columbus in 2004 and is currently zoned Rural. The site is proposed for residential development.

I. PUD-8

A. DESCRIPTION: The site shall consist of +/-16.4 gross acres.

B. PERMITTED USES: The permitted uses are as follows:

1. Those uses listed in Section 3333.02 (AR-12, Apartment District) of the Columbus City Code.
2. Mail structures; compactor buildings, and clubhouse/pool.

C. DEVELOPMENT STANDARDS: The site shall be developed in accordance with the PUD plan. Unless otherwise indicated by the PUD Plan or this PUD Development Text, the development standards contained in Chapter 3333 (AR, Apartment District) shall apply.

D. DENSITY, HEIGHT, LOT, AND SETBACK COMMITMENTS:

1. The maximum density for multi-family development shall be 102 units.

3. Unless otherwise set forth herein, the minimum building and pavement setback from perimeter property lines shall be 25 feet.
4. Building setback lines along all private internal streets shall be considered "build-to" lines as opposed to minimum setbacks, so that to the extent buildings are developed, such buildings shall be constructed so as to substantially "front" on such lines.
5. A building shall be considered to front a street if the front door of a majority of its units face the internal street.
6. Lot coverage for buildings and paved areas combined shall not exceed 70 of the subarea acreage.

7. Buildings shall not be less than one and half stories and not more than ~~two~~ **three** stories in appearance as depicted in the attached conceptual rendering

8. The building footprints are schematic and may change depending on the final mix of building types. E. ACCESS, LOADING, PARKING, AND OTHER TRAFFIC-RELATED COMMITMENTS:

1. All streets shall be private and provide for two-way traffic. Parking shall be permitted on both sides of all streets. Private alleys may be provided to the rear of buildings and shall allow for two-way traffic.

2. Parking shall be prohibited in the alleys. Minimum pavement width for the street shall be 24 ~~24~~ 22 feet (access type roadway). Parking at a minimum rate of 2 spaces per unit shall be provided. The required number of spaces shall be met through the use of a garage serving the unit, counting the parking space behind the garage in the driveway and/or on-street parking spaces near the unit.

F. BUFFERING, LANDSCAPING, OPEN SPACE, AND SCREENING COMMITMENTS:

1. Street trees shall be required along the Harlem Road frontage and along all private streets in this subarea and shall be spaced at an average of 30 feet on center. Street trees shall be those specified in the Columbus Street Tree Program guidelines from the City of Columbus Forrester. A row of street trees shall also be installed within the grass median at the entryway and within the boulevard at the southern end of the site; 30 feet on center.

2. Along the south and west property lines the developer shall install a mixture of evergreen and deciduous trees (1 tree for every 40 linear feet along those property lines) in the areas where there is no existing vegetation. Head light screening shall be installed as shown on the submitted PUD drawing on the west side of the driveway adjacent to Parcel #220-001789.

3. The developer shall install the white 4 board horse style fence along its Harlem Road frontage and along the south side of the main entrance driveway from the Harlem Road fence eastward to the curb cut to the first intersecting driveway.

4. The tree preservation area is shown on the submitted PUD drawing. This area shall be maintained in its natural state except for the removal of dead or diseased trees and the installation and maintenance of utilities. At the start of construction, the trees within the preservation areas shall be protected by the installation of a snow fence along the north and west side of the site.

G. DUMPSTERS, LIGHTING, OUTDOOR DISPLAY AREAS, AND OTHER ENVIRONMENTAL COMMITMENTS:

1. All external parking and street lighting shall utilize decorative type fixtures at a maximum of 14 feet in height. These lights shall have cut-off downcast fixtures, or bulbs.
