STATEMENT OF HARDSHIP

APPLICATION #

3307.09 Variances by Board.

A. The Board of Zoning Adjustment shall have the power, upon application, to grant variances from the provisions and requirements of this Zoning Code (except for those under the jurisdiction of the Graphics Commission and except for use variances under the jurisdiction of the Council). No variance shall be granted unless the Board finds that all of the following facts and conditions exist:

1. Special circumstances or conditions apply to the subject property that do not apply, generally, to other properties in the same zoning district.
2. The special circumstances or conditions are not the result of the actions of the property owner or applicant.
3. The special circumstances or conditions make it necessary that a variance be granted to preserve a substantial property right of the applicant which is possessed by owners of other property in the same zoning district.
4. The grant of a variance will not be injurious to neighboring properties and will not be contrary to the public interest or the intent and purpose of this Zoning Code.

B. In granting a variance, the Board may impose such requirements and conditions regarding the location, character, and other features of the proposed uses or structures as the Board deems necessary to carry out the intent and purpose of this Zoning Code and to otherwise safeguard public safety and welfare.

C. Nothing in this section shall be construed as authorizing the Board to affect changes in the Zoning Map or to add to the uses permitted in any district.

I have read Section 3307.09, Variances by Board, and believe my application for relief from the requirements of the Zoning Code satisfies the four criteria for a variance in the following ways:

Duane Buck

Statement of hardship:
231 Orchard Lane.
Columbus, Ohio 43214

Duane has found the need for to demolish his badly deteriorating, detached garage and construct a new garage which compliments the neighborhood and his home. His design requirements include; storage, accessibility and an exterior design that blends well with the home and neighborhood. In order to achieve these goals, the design includes a roof pitch that exceeds the 15’ limitation and reaches 20’ in height. The zoning code establishes criteria to allow the height limitation to be exceeded if a site is located in an architectural review district. A general policy has been derived from code 3332.38 G to support cases involving architectural compatibility only. Similar variances have been approved by the board when applicants commit to conditions intended to preclude conversion of the additional story to habitable space, and design commitments.

We are also requesting variance to code 3332.26 E, to grant a variance of 2’ from the 3’ required setback, to allow us to build 1’ from the West side lot line. The lot is small and with the position of the house, this will allow better flow and accessibility in and out of the garage.
