NOTES (CONTINUED)

3. THE CONTRACTOR SHALL INSTALL TEMPORARY "EMERGENCY NO STOPPING ANYTIME" SIGNS MOUNTED ON EXISTING UTILITY POLES OR SIGN POSTS, DRUMS OR 42" CONES. SIGNS SHALL HAVE THE INSTALLATION DATE, WORKING DATES AND HOURS OF RESTRICTION. SIGNS CAN BE OBTAINED THROUGH PUBLIC SERVICE PERMIT OFFICE AND MUST BE POSTED 72 HOURS PRIOR TO ANY VEHICLE BEING TOWED.

IF A DRIVE FALLS WITHIN THE SOLID BARRICADE, THE CONTRACTOR SHALL WORK WITH THE PROPERTY OWNER TO PROVIDE ACCESS.

DETOURS SHALL BE REQUIRED FOR ALL TOTAL CLOSURES ON ARTERIAL AND COLLECTOR STREETS. RESIDENTIAL STREETS DO NOT REQUIRE A DETOUR UNLESS OTHERWISE DIRECTED BY TEMPORARY TRAFFIC CONTROL COORDINATOR OR PROJECT ENGINEER.

STREET CLOSURES
1. The contractor shall install temporary "Emergency No Stopping Anytime" signs mounted on existing utility poles or sign posts, drums or 42" cones. Signs shall have the installation date, working dates and hours of restriction. Signs can be obtained through public service permit office and must be posted 72 hours prior to any vehicle being towed.

If a drive falls within the solid barricade, the contractor shall work with the property owner to provide access.

Detours shall be required for all total closures on arterial and collector streets. Residential streets do not require a detour unless otherwise directed by the engineer.

2. For advance warning sign on side street application place sign a maximum of 200' from stopline or traffic control.
1. If a drive falls within the solid barricade, the contractor shall work with the property owner to provide access. Use solid type III barricades at each end of work zone and move barricades as work progresses.

2. The contractor shall install temporary "emergency no stopping anytime" signs mounted on existing utility poles or sign posts, drums or 42" cones. Signs shall have the installation date, working dates and hours of restriction. Signs can be obtained through public service permit office and must be posted 72 hours prior to any vehicle being towed.
