STATEMENT OF HARDSHIP

12310-00421
146 E. Innis Ave.

APPLICATION # _____

3307.09 Variances by Board.

- A. The Board of Zoning Adjustment shall have the power, upon application, to grant variances from the provisions and requirements of this Zoning Code (except for those under the jurisdiction of the Graphics Commission and except for use variances under the jurisdiction of the Council). No variance shall be granted unless the Board finds that all of the following facts and conditions exist:
1. That special circumstances or conditions apply to the subject property that does not apply generally to other properties in the same zoning district.
 2. That the special circumstances or conditions are not the result of the actions of the property owner or applicant.
 3. That the special circumstances or conditions make it necessary that a variance be granted to preserve a substantial property right of the applicant which is possessed by owners of other property in the same zoning district.
 4. That the grant of a variance will not be injurious to neighboring properties and will not be contrary to the public interest or the intent and purpose of this Zoning Code.
- B. In granting a variance, the Board may impose such requirements and conditions regarding the location, character, and other features of the proposed uses or structures as the Board deems necessary to carry out the intent and purpose of this Zoning Code and to otherwise safeguard the public safety and welfare.
- C. Nothing in this section shall be construed as authorizing the Board to affect changes in the Zoning Map or to add to the uses permitted in any district.

I have read Section 3307.09, Variances by Board, and believe my application for relief from the requirements of the Zoning Code satisfies the four criteria for a variance in the following ways:

The site is part of the Southern Gateway Homes (SGH) project. The SGH project is a collaborative effort between The NRP Group LLC, the City of Columbus and Community Development for All People to build 40 new single family homes on scattered sites generally in the area between South High Street, Parsons Avenue, Morrill Avenue and Hosack Street. Many of the lots are City of Columbus Land Bank lots. This site is a narrow corner lot as was typical of urban subdivisions platted many decades ago. The lot is typical of other corner lots in the area. Applicant proposes to build a new single family dwelling with an open front porch. Part of the dwelling and part of the open front porch is located in the clear vision triangle for residential lots at public street intersections. There are many existing homes on corner lots that are partially located in the clear vision triangle. The proposed construction is consistent with the prevailing location of single family homes on corner lots and is consistent with the prevailing style of homes having open porches. Applicant has a practical difficulty with building a single family dwelling on the parcel while maintaining prevailing setback and design characteristics of the neighborhood and of corner lots. Applicant requests a variance to Section 3321.05 (B)(2), Vision Clearance to permit the construction of a single family dwelling with open porch partially located in the clear vision triangle of the two applicable public streets, as depicted on the submitted site plan.
