Coronavirus Tax Relief

Delay of Payment of Employer Payroll Taxes
The payment of the employer portion of certain payroll taxes can be delayed until 2021 and 2022:

- The amount of 2020 payroll taxes not paid by a business will be totaled and paid in two equal installments, one at the end of 2021 and the other at the end of 2022.
- Payroll taxes eligible to be deferred include the employer portion of FICA, half the SECA tax liability, and (for those this tax applies to) the employer portion of railroad retirement taxes

U.S. Small Business Administration (SBA)
ACTION: Small businesses and non-profits in every U.S. state and territory can apply for a SBA low-interest Economic Injury Disaster Loan (EIDL). EID loans are available to any business, cooperative, or ESOP under 500 employees, all sole proprietors and independent contractors, and private non-profits. These loans provide working capital of up to $2 million to help overcome temporary loss of revenue. The interest rate is 3.75% for small businesses with repayment of up to 30 years. Loans under $200,000 will not require a personal guarantee. A business can receive both the Paycheck Protection Program (PPP) loan and an EIDL loan, but cannot use funds awarded through the PPP to cover the same expenses covered by funds received from the EIDL.

ACTION: The SBA’s Lender Match is a free online tool to connect a business with participating SBA-approved lenders within 48 hours.
https://www.sba.gov/funding-programs/loans/lender-match

Second Draw Paycheck Protection Program
ACTION: The PPP loan provides a direct incentive for small businesses to keep their workers on the payroll. SBA will forgive loans if all employees are kept on the payroll for eight weeks and the money is used for payroll, rent, mortgage interest, or utilities. Apply through any existing SBA 7(a) lender or through any federally insured depository institution, federally insured credit union, and Farm Credit System institution that is participating. Other regulated lenders will be available to make these loans once they are approved and enrolled in the program. Consult with your local lender as to whether it is participating in the program.

For most borrowers, the maximum loan amount of a Second Draw PPP Loan is 2.5x average monthly 2019 or 2020 payroll costs up to $2 million. For borrowers in the Accommodation and Food Services sector (use NAICS 72 to confirm), the maximum loan amount for a Second Draw PPP Loan is 3.5x average monthly 2019 or 2020 payroll costs up to $2 million.

Second Draw PPP Loans made to eligible borrowers qualify for full loan forgiveness if during the 8- to 24-week covered period following loan disbursement.

Small Business Debt Relief Program

**ACTION:** Beginning April 1, 2020 the SBA made payments (including principle, interest, and fees) on eligible business’s current SBA loans, including 7(a) loans, 504 loans, and microloans, for six months.

As a part of the CARES Act, SBA is authorized to pay 6 months of principal, interest, and any associated fees that borrowers owe for all 7(a), 504, and Microloans reported in regular servicing status (excluding PPP loans). This debt relief to borrowers was originally dependent on the loan being fully disbursed prior to September 27, 2020 and does not apply to loans made under the Economic Injury Disaster Loan (EIDL) program.

These original provisions were amended on December 27, 2020 through the Economic Aid to Hard-Hit Small Businesses, Non-Profits and Venues Act (Economic Aid Act). The Economic Aid Act revised the eligibility criteria for assistance to include all 7(a), 504, and Microloans approved up to September 27, 2020 even if not fully disbursed. All other provisions for initial debt relief remained the same.

The Economic Aid Act also authorized additional debt relief payments to 7(a), 504, and Microloan borrowers beyond the 6-month period prescribed in the CARES Act. The level of assistance varies based on when the loan was approved and will begin on or after February 1, 2021. SBA loan product summaries:

- **SBA 7(a) Loan:** 7(a) loans can provide up to $5 million for borrowers who lack credit elsewhere and need access to short-term or long-term working capital. There are many different types of 7(a) loans. 7(a) loans are originated by a private sector bank, and both the SBA and the lender share some of the risk of default.

- **SBA 504 Loan:** 504 loans can provide up to $5.5 million in long-term, fixed-rate financing to be used for the acquisition of fixed assets like real estate, buildings, and/or machinery. 504 loans are originated by a nonprofit Certified Development Company.

- **SBA Microloan:** Microloans can provide up to $50,000 to help small businesses and certain non-profit childcare centers to start up and expand. Microloans are typically originated through mission-based lenders.
