

BRIDGE REHABILITATION – KIMBERLY PARKWAY OVER MASON RUN

DESCRIPTION AND BENEFITS

This bridge rehabilitation will replace the existing bridge structure and sidewalks on Kimberly Parkway over Mason Run; the new structure and roadway will have widened sidewalks for increased pedestrian safety and will remain two lanes with marked bike lanes.

This project is located in a Vision Zero Communities of Interest area. Residents in Communities of Interest may have fewer choices about how, when and where they travel, putting them at higher risk as they move around. Extra investment in roadway and other transportation safety improvements may be needed to enhance safety.

ESTIMATED SCHEDULE

PHASE	START	FINISH
Design	Summer 2023	Fall 2024
Right-of-Way	Spring 2025	Summer 2025
Construction	Summer 2025*	Fall 2025*

*Subject to funding approval by City Council and weather conditions

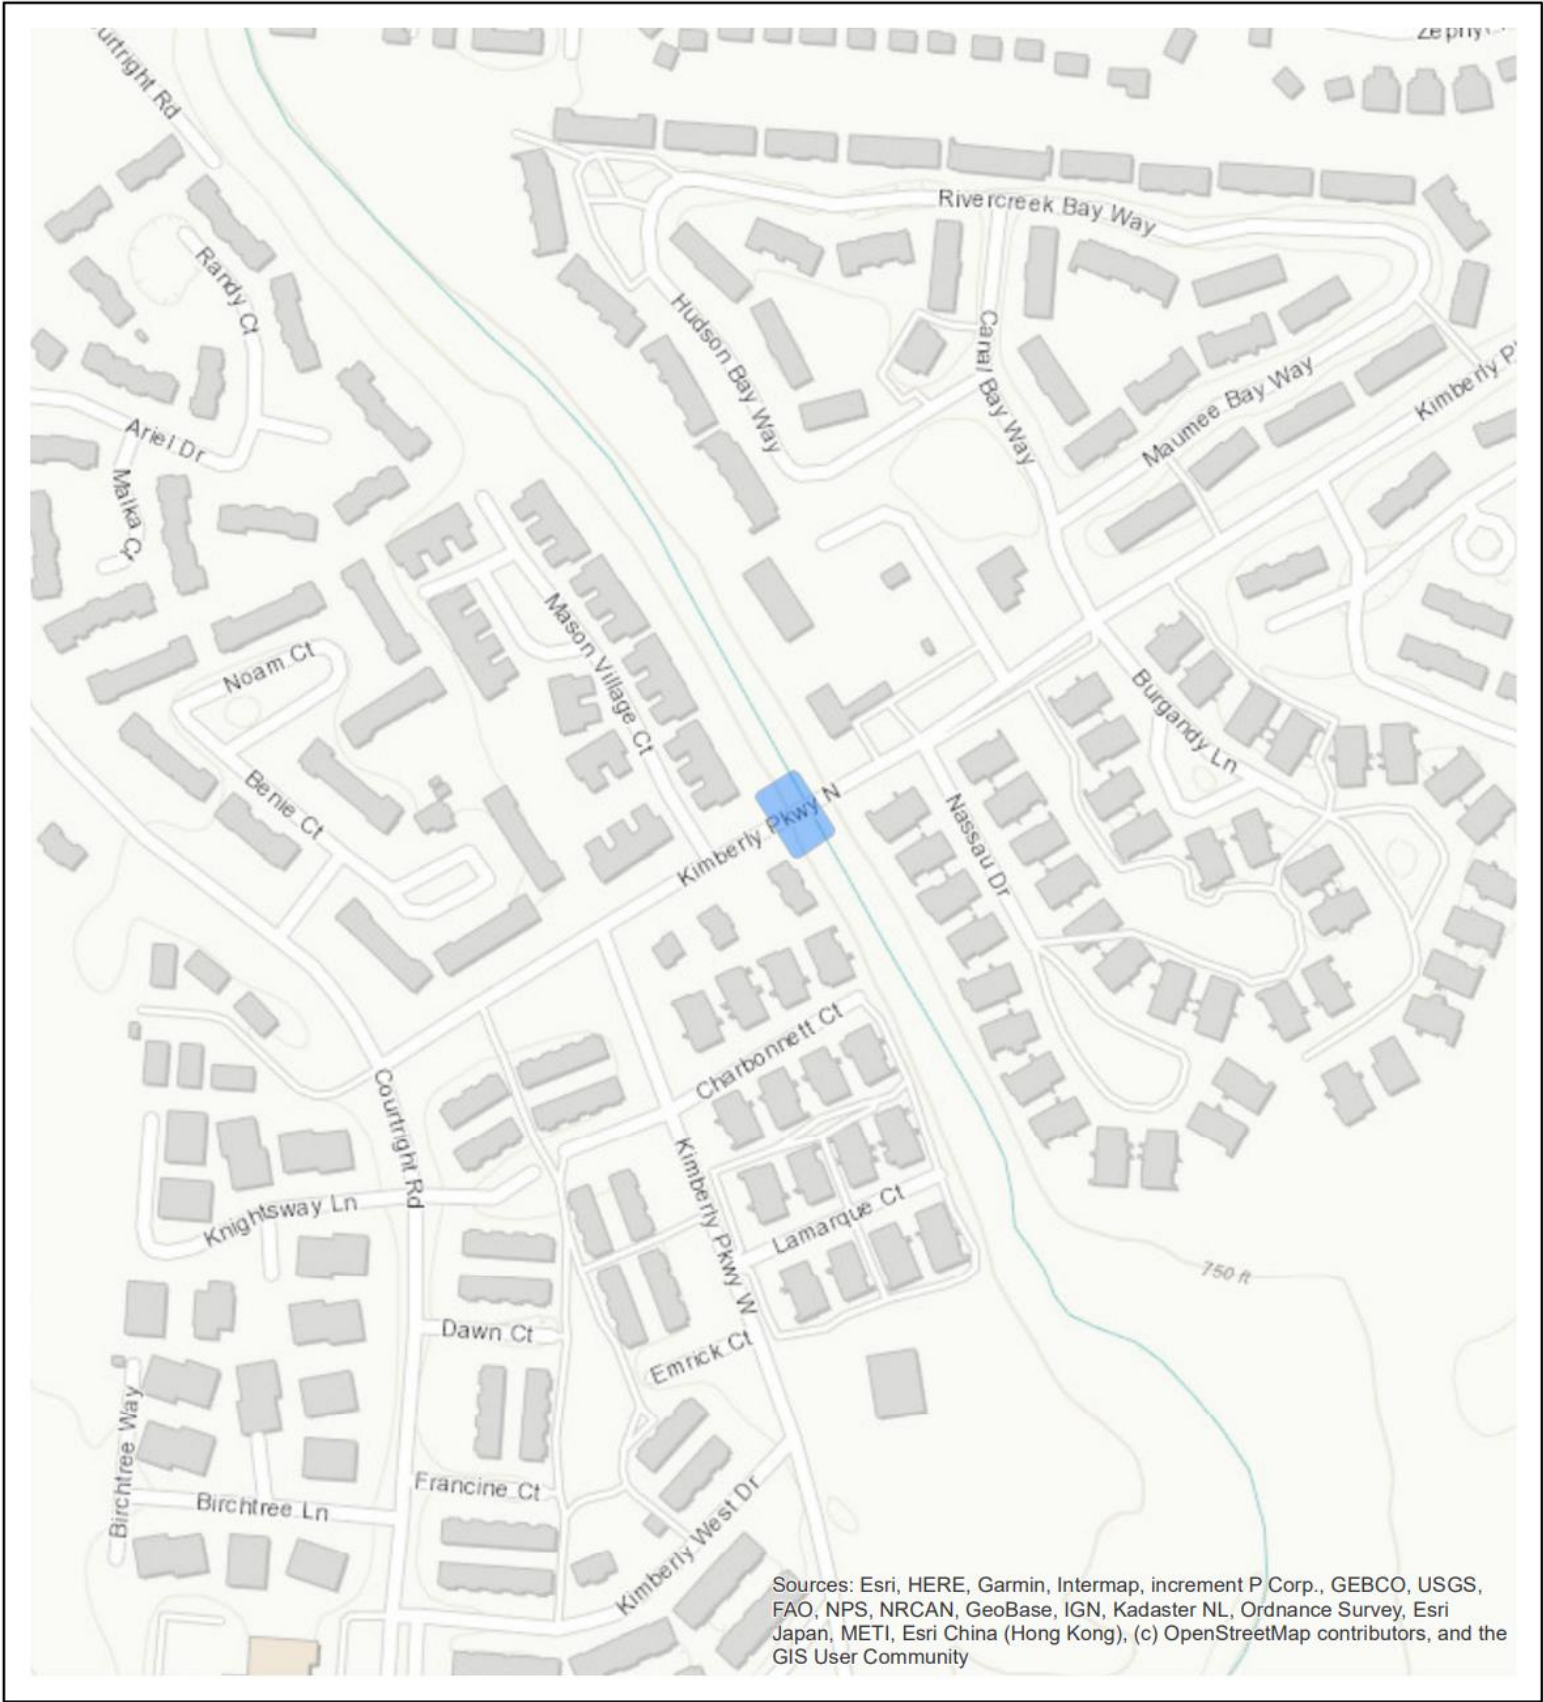

ESTIMATED COSTS

PHASE	COST
Design	\$200,000
Right-of-Way	\$50,000
Construction	\$1.4 Million
