

### DESCRIPTION AND BENEFITS

The project includes pedestrian improvements at seven intersections along Cleveland Avenue: Camden Avenue, E. 19<sup>th</sup> Avenue, Kenmore Road, Republic Avenue, Lakeview Avenue, Agler Road, and Lehner Road. Improvements consist of the installation of enhanced crosswalk markings, the installation of Rectangular Rapid Flashing Beacons (RRFB's) or Pedestrian Hybrid Beacons (PHB's) at each intersection and installation of new ADA-compliant curb ramps. Minimal pavement resurfacing is required where enhanced crosswalks are being installed and signage/stripping will be updated to accommodate these improvements.

### ESTIMATED SCHEDULE

PHASE	START	FINISH
Design	Summer 2020	Spring 2023
Right-of-Way	Summer 2021	Summer 2023
Utility Relocations	Fall 2022	Summer 2023
Construction	Summer 2023	Summer 2024*

\*Subject to weather conditions.

### ESTIMATED COSTS

PHASE	COST
Design	\$500,000
Right-of-Way	\$30,000
Utility Relocations	\$0
Construction	\$1.5 million

### PUBLIC ENGAGEMENT/ADDITIONAL RESOURCES

#### Planned construction areas as of February 12<sup>th</sup>, 2024:

Construction crews will be progressing with the planned work throughout the spring and summer of 2024 to install the intersection improvements along Cleveland Avenue as described above. The following months and locations are the planned construction sequencing for this project and are subject to change due to weather conditions, unforeseen field conditions, or material/crew availability.

**February 2024 and March 2024:** CAMDEN and E. 19TH

**March 2024 through May 2024:** KENMORE and REPUBLIC

**May 2024 through June 2024:** LAKEVIEW, AGLER RD, and LEHNER RD
