

UPCOMING CONSTRUCTION PROJECT LISTING 6/2026 -6/2027

| Division | CIP # | Project Name | Project Description | Advertise For RFP Date (Approximate) |
|-----------------|-------------------|---|---|--------------------------------------|
| Sanitary Sewers | (P) 650252-100010 | JPWWTP Screening Improvements | This project will upgrade the current Jackson Pike mechanical screen dewatering and disposal systems and identify improvements to the existing screen building to increase reliability. | 1/14/2026(P) |
| Storm Sewer | (P) 611626-100000 | Large Diameter Storm Sewer Cleaning | This project will provide heavy cleaning followed by CCTV to large diameter storm sewers previously identified. | 5/11/2026(P) |
| Sanitary Sewers | (P) 650626-100000 | Large Diameter Sanitary Sewer Cleaning | This project will provide heavy cleaning followed by CCTV to large diameter sanitary sewers previously identified. | 5/11/2026(P) |
| Sanitary Sewers | (P) 650872-139003 | Lateral Lining - Blueprint Clintonville 3 Project 3 | This project will line the sanitary lateral for homes in the Clintonville 3 Blueprint area. | 6/3/2026(P) |
| Water | (P) 690236-110006 | Lead Service Line Replacements - Part 4 | Lead Service Line Replacements - Part 4 | 6/5/2026(P) |
| Water | (P) 690236-100156 | Shamrock Drive Area Water Line Improvements | This project provides for general rehabilitation of the Shamrock Drive Area Water Line distribution system and may include replacement of water mains which have exceeded their useful life and construction of new lines to eliminate poor fire flow capabilities and poor water quality. | 6/12/2026(P) |
| Sanitary Sewers | (P) 650234-100110 | SMOC Phase VI Roof Replacement | SMOC Phase VI Roof Replacement (vehicle storage addition area) | 6/15/2026(P) |
| Sanitary Sewers | (P) 650260-103016 | SWRP Hazardous Gas Monitors Replacement | This project will replace hazardous gas monitoring equipment in various buildings spread throughout the Southerly Wastewater Treatment Plant. Gas monitoring is essential for the safety of the employees and the plant operation. The air is continuously monitored for hazardous gases such as lower explosion volatile organic compounds, Hydrogen Sulfide, Oxygen, Carbon monoxide and Methane. The monitoring sensors vary for hazardous gases associated with each of the facilities. | 6/15/2026(P) |
| Sanitary Sewers | (P) 650234-100203 | JPWRP SCB/SKB Roof Replacement | Replacement of built-up roofs for the Sludge Control Building (SCB) and Skimmings Concentration Building (SKB). Work includes safety improvements for access ladders, removal of trip hazards, and elimination of abandoned components. | 6/15/2026(P) |
| Sanitary Sewers | (P) 650870-101202 | Blueprint Miller Kelton - Kelton/Fairwood | The Kent/Fairwood area is generally bounded by Main Street to the north, Livingston Avenue to the south, Railroad tracks to the east, and Kelton Avenue to the west. This project will look at an integrated solution for Consent Order requirements of the City's Wet Weather | 6/22/2026(R) |

| | | | | |
|-----------------|-------------------|---|---|--------------|
| | | | Management Plan. Due to the sequencing of the projects, this project focuses on green infrastructure alternatives because the green infrastructure needs to be operational prior to roof drain redirection or sump pump installation. Mainline sewer lining and sump pump installation will be handled under a separate contract. This contract evaluates green infrastructure alternatives and evaluates private sanitary and storm laterals that drain sewage and stormwater from homes. | |
| Sanitary Sewers | (P) 650872-162001 | Blueprint Miller-Kelton Newton / Bedford Lateral Lining Project 1 | This project will line the sanitary lateral for homes in the Miller-Kelton Blueprint area. | 6/22/2026(P) |
| Water | (C) 690236-100160 | Gault Street Water Line Improvements | Gault Street Water Line Improvements. | 6/22/2026(R) |
| Sanitary Sewers | (P) 650704-100004 | OARS Grit Cleaning and Screening Improvements | This project will implement GES design or grit system improvements, screening improvements, and grit removal at OARS shaft 1 and 2. | 7/2/2026(P) |
| Sanitary Sewers | (P) 650257-100101 | JPWWTP Power Systems Upgrades and Safety Improvements - Phase 1 | This project will mitigate arc flash hazards and resolve coordination issues identified during a recent evaluation within the electrical equipment which may pose a hazard to employees and/or risk to equipment reliability. | 7/6/2026(P) |
| Sanitary Sewers | (P) 650872-990003 | Blueprint Maize-Morse Short Liner Monitoring | This project will install short liners within existing residential sewer laterals located only in the public right-of-way in the Maize-Morse area. The liners will seal cracks and defects that allow stormwater and groundwater to enter the sanitary sewer system, reducing inflow and infiltration (I/I). This pilot will compare short liners to full-service lining previously used, evaluate their performance, and assess potential citywide application. | 7/6/2026(P) |
| Sanitary Sewers | (P) 650265-100205 | JPWRP CDB HVAC Unit H46 & PS1 HVAC Unit H60 Replacement | This project will provide replacement of the HVAC system for Unit 46 & H60 at the Jackson Pike Water Reclamation Facility. | 7/6/2026(P) |
| Sanitary Sewers | (P) 650349-100001 | SWRP Dewatering Improvements | Southerly Wastewater Treatment Plant (SWWTP) uses the digestion process to produce Class B biosolids from the sludge solids that are collected from the wastewater. After the digestion process, biosolids are pumped to dewatering centrifuges where the biosolids are thickened so that the volume of the biosolids being handled by the plant is greatly reduced and so that the thickened biosolids can be economically trucked and used as a fertilizer for an area tree farm or mixed with compost to produce a soil amendment. This project is intended to be delivered using the CMAR method. | 7/13/2026(P) |

| | | | | |
|-----------------|-------------------|--|---|--------------|
| Sanitary Sewers | (P) 650349-100001 | SWRP Dewatering Improvements | Southerly Wastewater Treatment Plant (SWWTP) uses the digestion process to produce Class B biosolids from the sludge solids that are collected from the wastewater. After the digestion process, biosolids are pumped to dewatering centrifuges where the biosolids are thickened so that the volume of the biosolids being handled by the plant is greatly reduced and so that the thickened biosolids can be economically trucked and used as a fertilizer for an area tree farm or mixed with compost to produce a soil amendment. This project is intended to be delivered using the CMAR method. | 7/13/2026(P) |
| Sanitary Sewers | (P) 650349-100001 | SWRP Dewatering Improvements | Southerly Wastewater Treatment Plant (SWWTP) uses the digestive process to produce Class B biosolids from the sludge solids that are collected from the wastewater. After the digestion process, biosolids are pumped to dewatering centrifuges where the biosolids are thickened so that the volume of the biosolids being handled by the plant is greatly reduced and so that the thickened biosolids can be economically trucked and used as a fertilizer for an area tree farm or mixed with compost to produce a soil amendment. This project is intended to be delivered using the CMAR method. | 7/13/2026(P) |
| Storm Sewer | (P) 611660-100029 | DOSD Stormwater Pump Station ST-29 Evaluation & Upgrade | DOSD Stormwater Pump Stations have been constructed at various times and are used in various degrees. As a pump station ages, an evaluation is required regularly to assess equipment and components and identify necessary improvements and upgrades to ensure that the pump station continues its uninterrupted operation of collecting the City's stormwater and continues to be an integral part of DOSD's stormwater collection system. This project will evaluate DOSD Stormwater Pump Station - 29, identify needs and improvements, then provide preliminary, detailed design, bidding services, and engineering services during construction to provide the necessary needs, improvements, and upgrades. | 7/13/2026(P) |
| Water | (P) 690236-100163 | Yale Avenue Area Water Line Improvements | This project provides for general rehabilitation of the Yale Avenue Area Water Line distribution system and may include replacement of water mains which have exceeded their useful life and construction of new lines to eliminate poor fire flow capabilities and poor water quality. | 7/17/2026(P) |
| Sanitary Sewers | (P) 650872-162003 | Blueprint Miller-Kelton Fairwood / Kent Lateral Lining Project 3 | This project will line the sanitary lateral for homes in the Miller-Kelton Blueprint area. | 7/23/2026(P) |
| Water | (P) 690502-100005 | Morse Road 48-Inch Transmission Main Lowering | Morse Road 48-Inch Transmission Main Lowering | 7/24/2026(P) |

UPCOMING CONSTRUCTION PROJECT LISTING 6/2026 -6/2027

| | | | | |
|-----------------|-------------------|--|--|--------------|
| Sanitary Sewers | (P) 650491-100010 | Intermodal Sanitary Subtrunk Extension - Phase 2 | Intermodal Sanitary Subtrunk Extension - Phase 2 | 7/27/2026(P) |
| Water | (P) 690236-100166 | Gerbert Rd Area Water Line Improvements | Project No.87 W.M. Replacement | 8/18/2026(P) |
| Water | (P) 690236-100167 | Oaklawn St Area Water Line Improvements | Project No.88 W.M. Replacement | 8/18/2026(P) |
| Water | (P) 690552-100000 | Plant Drain & Water System Imp's | The HCWP and PAWP facilities have various building drain systems serving roof drainage, chemical containment areas, and other process areas. This project will conduct a study to inventory these drainage systems and make recommendations for improvements to bring these systems into alignment with current best practices relative to discharge location, chemical handling, etc. Project will also make improvements to the plant water system to reduce leakage, replace aging components, improve reliability and ease of maintenance. | 8/21/2026(R) |
| Sanitary Sewers | (P) 650725-100034 | Alum Creek Phase D - South | Alum Creek Phase D - South is the lower portion of the Alum Creek phase D Rehabilitation project. | 8/22/2026(R) |
| Sanitary Sewers | (P) 650870-109153 | Blueprint 5thxNorthwest - Sunrise/Glenn Permeable Pavement | This project will construct permeable paver streets to provide stormwater runoff reduction and treatment. | 8/24/2026(R) |
| Sanitary Sewers | (P) 650870-110161 | Blueprint Winthrop / Milton Area Integrated Solutions | This project will look at an integrated solution for Consent Order requirements of the City's Wet Weather Management Plan. | 9/1/2026(R) |
| Water | (P) 690236-110007 | Lead Service Line Replacements - Part 5 | Lead Service Line Replacements - Part 5 | 9/4/2026(P) |
| Sanitary Sewers | (P) 650725-100027 | Scioto Main North Large Diameter Sewer Rehabilitation | This project aims to rehabilitate approximately 16,140 feet of the city's large-diameter sanitary sewer infrastructure, along with 36 manholes that have been assessed and identified as being in poor condition. The sewer lines slated for rehabilitation include Scioto Main (North), Scioto Main (Middle), Big Run Early Ditch Branch, Upper Scioto NW Branch, Frank Rd Trunk Sewer, Upper Scioto West Interceptor, West Side Relief Main, and Scioto Main Trunk Sewer Replacement. | 9/7/2026(R) |
| Sanitary Sewers | (P) 650872-139001 | Lateral Lining - Blueprint Clintonville 3 Project 1 | This project will line the sanitary lateral for homes in the Clintonville 3 Blueprint area. | 9/10/2026(P) |
| Water | (P) 690589-100003 | Large Diameter Valve Replacement Part 4 | This project provides for the repair or replacement of critical large diameter valves in the water distribution system which have failed. | 9/14/2026(P) |

| | | | | |
|-----------------|-------------------|---|---|--------------|
| Water | (P) 691505-100002 | Watershed Roof Improvements | The Division of Water (DOW) Watershed section has maintenance facilities at multiple places across the city to support the various dams and reservoirs. There are multiple maintenance buildings managed by Watershed that have roofs approaching and/or beyond their service life that need repair or replacement. | 9/16/2026(P) |
| Water | (P) 690236-100180 | South High Street & I270 Area Water Line Improvements Phase I | South High Street & I270 Area Water Line Improvements Phase I | 9/18/2026(R) |
| Water | (P) 690522-100001 | Water Distribution System SCADA Improvements | Water Distribution System SCADA Improvements. Planned improvements to the system that provides control of about 85 remote water Distribution facilities. | 9/19/2026(P) |
| Sanitary Sewers | (P) 650378-100001 | SWWTP Plant Wide Control System Improvements | Plant wide obsolete control and monitoring equipment replacement. Replacement of PLCs, flow meters, valve actuators, level sensors, and other misc. obsolete equipment. Upgrade of CAT 5 cabling to CAT 6 plantwide. | 9/22/2026(P) |
| Sanitary Sewers | (P) 650870-110165 | Blueprint Milford / Summit Area Integrated Solutions | This project will look at an integrated solution for Consent Order requirements of the City's Wet Weather. As an integral part of the City's updated plan, this project is included within the Blueprint Columbus Clintonville 3 area with a goal to reduce the amount of infiltration and inflow (I/I) into the sanitary sewer system and number of sanitary sewer overflows (SSOs) at designed sewer relief (DSR) points. The Milford-Summit project area is bound by Indianola Avenue (west), Glen Echo Creek (south), North Broadway Avenue (north), and RR tracks (east). Due to the sequencing of the projects, this project focuses on green infrastructure alternatives because the green infrastructure needs to be operational prior to roof drain redirection or sump pump installation. Mainline sewer lining and sump pump installation will be handled under a separate contract. This contract evaluates green infrastructure alternatives and evaluates private sanitary and storm laterals that drain sewage and stormwater from homes. This project is currently at the 30% design level. | 9/27/2026(R) |
| Water | (C) 690236-110005 | Milford Summit Lead Service Line | Milford Summit Lead Service Line Replacements | 9/27/2026(R) |
| Water | (P) 690502-100002 | Broadview Road 30-Inch Transmission Main | This project will provide a 30-inch diameter transmission main from the North pressure district to supply booster stations located near Morse Rd/Hamilton Rd that supply the Morse pressure district. | 9/28/2026(P) |
| Storm Sewer | (P) 610739-100000 | Petzinger Rd Stormwater Imps | Petzinger Road Stormwater System Improvements, CIP 610739. This project will construct storm system improvements along Petzinger Road from Glenbrook Drive east to Courtright Road. | 10/1/2026(P) |

| | | | | |
|-----------------|-------------------|---|---|---------------|
| Storm Sewer | (P) 611707-100000 | Second Avenue Sewer Improvements | This project will address flooding along Second Avenue in the Milo Grogan area, at the railroad overpass, west of the intersection with Grant Avenue. It is the intent of the City to address the flooding issues through the installation of approximately 5,000 LF of new storm sewer within the tributary area. By redirecting storm water runoff away from the existing combined sewer system that will remain this project should also reduce the incidence of basement flooding events within the neighborhood. | 10/1/2026(R) |
| Sanitary Sewers | (P) 650745-100018 | 2026 General Construction Contract - Sanitary | This existing sewer infrastructure includes miles of older sewer that are more prone to failure that may occur unexpectedly. Project makes repair or improvement to existing sewer infrastructure as needed. | 10/1/2026(P) |
| Water | (C) 690236-100157 | N. Sixth Street & E. Third Avenue WL Imp's | N. Sixth Street & E. Third Avenue Water Line Improvements. This project is a child project to DOSD's Second Avenue Sewer Improvements project (611707-100000). | 10/1/2026(R) |
| Sanitary Sewers | (P) 650870-110163 | Blueprint Fredonia / Piedmont Area Integrated Solutions | This project will look at an integrated solution for Consent Order requirements of the City's Wet Weather Management Plan. The project will construct green infrastructure to provide detention and water quality improvements to rainwater that will be redirected from the sanitary sewer system by future Blueprint projects. | 10/12/2026(R) |
| Sanitary Sewers | (P) 650870-110164 | Blueprint Tulane / Findley Area Integrated Solutions | This project will look at an integrated solution for Consent Order requirements of the City's Wet Weather Management Plan. | 10/12/2026(P) |
| Water | (C) 690236-110015 | Tulane/Findley Area Lead Service Line Replacements | Tulane/Findley Area Lead Service Line Replacements | 10/12/2026(P) |
| Sanitary Sewers | (P) 650278-100001 | JPWWTP Plant Wide Control System Improvements | Plant wide replacements of EIM Actuators, ABB Flow Meters, and obsolete PLCs to maintain and improve functionality of the SCADA system. | 10/16/2026(P) |
| Electricity | (P) 670799-100001 | Circuit 7221 Voltage Conversion, Phase 1 | Construct a 14.4kV circuit from Hap Cremean Substation along Appian Way, then west along the north side of Morse Road to a point west of Westerville Road. | 10/22/2026(R) |
| Water | (P) 690236-100154 | Chesapeake Ave Area Water Line Improvements | This project provides for general rehabilitation of the Chesapeake Ave Area Water Line distribution system and may include replacement of water mains which have exceeded their useful life and construction of new lines to eliminate poor fire flow capabilities and poor water quality. | 10/30/2026(P) |
| Water | (P) 691100-100004 | DRWP Fire Alarm Improvements - PT 2 | Upgrade DRWP Fire Alarm system Infrastructure/Components | 11/1/2026(P) |

| | | | | |
|-----------------|-------------------|---|--|---------------|
| Sanitary Sewers | (P) 650402-100001 | Olentangy Main Interceptor (OMI) Tributary Rehabilitation | Olentangy Main Interceptor (OMI) Tributary Rehabilitation | 11/2/2026(P) |
| Storm Sewer | (P) 611720-100001 | Storm Sewer Lining Projects 2026-2027 | Storm infrastructure includes miles of older sewer throughout the city that are more prone to failures that may occur unexpectedly. This project rehabilitates sewers using cured-in-place pipe (CIPP). | 11/3/2026(P) |
| Water | (P) 690236-100164 | Ann Street Area Water Line Improvements | This project provides for general rehabilitation of the Ann Street Area Water Line distribution system and may include replacement of water mains which have exceeded their useful life and construction of new lines to eliminate poor fire flow capabilities and poor water quality. | 11/6/2026(P) |
| Sanitary Sewers | (P) 650604-100002 | Big Run Trunk Sewer Extension Phase 1, Cole Rd | This project will extend sanitary sewer from Big Run trunk sewer to Cole Rd. | 11/6/2026(P) |
| Sanitary Sewers | (P) 650033-100003 | Central College Subtrunk Extension Phase 3 | Central College Subtrunk of Big Walnut Trunk Sewer Phase 3 | 11/9/2026(R) |
| Water | (P) 690473-100020 | Morrison Booster Station Improvements | This project provides the necessary replacement of the roof at the Morrison booster station. This project also includes other work including ventilation system improvements, pump isolation valve replacements, window replacement, and site grading improvements. | 11/9/2026(R) |
| Water | (P) 691606-100002 | DOW Exterior LED Upgrades | This project will construct light-emitting diode (LED) upgrades to the exterior lighting of various DOW facilities as needed. Design engineering services and engineering services during construction will be provided under General Architectural Services (GAS) or General Engineering Services (GES). | 11/11/2026(P) |
| Water | (P) 690278-100004 | DRWP Misc. Imp's - Educational Signage & Displays | DRWP Misc. Imp's - Educational Signage & Displays. This project will install new educational signage and displays at the DRWP to support plant tours. | 11/16/2026(R) |
| Sanitary Sewers | (P) 650870-109152 | Blueprint 5th Ave by Northwest - Edgehill / Meadow | This 5th x Northwest project area is part of the City of Columbus Integrated Solution, commonly referred to as Blueprint Columbus. Blueprint Columbus is a program designed to achieve water quality and performance goals identified in the 2005 Wet Weather Management Plan (WWMP) through implementing the 4 pillars of Blueprint. The 4 pillars of Blueprint consist of the construction of green infrastructure, lateral lining, roof redirection, and sump pump installation. The Integrated Plan and 2015 WWMP Update Report proposing Blueprint Columbus was approved by Ohio EPA on December 1, 2015. | 11/16/2026(P) |

| | | | | |
|-----------------|--------------------------|--|---|----------------------|
| Sanitary Sewers | (P) 650660-100013 | DOSD Sanitary Pump Stations SA13 Evaluation & Upgrade | This project will evaluate DOSD Sanitary Pump Station SA13, identify needs and improvements, then provide preliminary, detailed design, bidding services, and engineering services during construction to provide the necessary needs, improvements, and upgrades. | 11/16/2026(P) |
| Water | (C) 690236-100159 | 5th Ave by Northwest - Edgehill / Meadow WL Imp's | 5th Ave by Northwest - Edgehill / Meadow WL Improvements. | 11/16/2026(P) |
| Water | (P) 690236-100162 | Chittenden Ave Area Water Line Improvements | Chittenden Ave Area Water Line Improvements | 11/20/2026(P) |
| Water | (P) 690473-100022 | Rome-Hilliard Tank Site Improvements | Rome Hilliard Road Booster Station Site Improvements | 12/15/2026(P) |
| Water | (P) 690291-100004 | PAWP Misc. Imp's - Chemical Storage Tank Imp's | This project will install new hydrofluorosilicic acid (HFS) and zinc orthophosphate (ZOP) bulk storage tanks inside the Sodium Hypo Building, demo existing bulk tanks, day tanks, and feed equipment in the Chemical Building, and install new day tanks and feed equipment for HFS and ZOP in the Chemical Building. A chemical storage HAZMAT prefabricated unit will also be replaced in kind, and new anchor bolts will be installed on the five silos. | 1/15/2027(P) |
| Water | (P) 691200-100003 | HCWP Filter Media Replacement | HCWP GAC Filter Media Removal and Replacement. | 1/18/2027(P) |
| Water | (P) 691100-100005 | DRWP Structural Improvements | Structural improvements are needed at DRWP | 1/18/2027(P) |
| Sanitary Sewers | (P) 650725-100018 | Near North & East Area Large Diameter Assessment - Phase 3 | This project will provide design for the large, combined sewers rehabilitation work near Franklin Park area and Goodale Park area. Also, it will provide construction services to rehab the sewers that are in poor condition. The project will rehab the sewers to extend the assets remaining useful life while minimizing the risk of asset failures. Also, to reduce inflow and infiltration to the City's sanitary sewer system thus mitigate sanitary sewer overflows to basements and waterways. | 1/20/2027(P) |
| Water | (P) 690444-100001 | O'Shaughnessy Hydroelectric Decommissioning | This project will provide construction funding for the decommissioning of the O'Shaughnessy Hydroelectric Power Plant. | 1/21/2027(P) |
| Storm Sewer | (P) 611708-100000 | Mound Street Floodwall and WCLPP Repairs | The existing floodwall located along the east side of the Scioto River, between Main Street and the Norfolk Southern/CSX Railroad bridge, is in disrepair. This project will investigate and evaluate the existing wall and levee system regarding the flood protection needs of the area and develop plans for the replacement of the existing wall. In addition, this project will address the concrete sections of the Franklinton Floodwall | 1/25/2027(R) |

| | | | | |
|-----------------|-------------------|---|---|--------------|
| | | | where deficiencies such as spalling and cracking have occurred and which need patch repairs. | |
| Water | (P) 690286-100010 | HCWP Misc. Improvements - Roof Improvements | HCWP Misc. Improvements - Roof Improvements. Repair or replace roofs on Admin Building and small structures including but not limited to two metal maintenance buildings and the gas house. | 1/27/2027(P) |
| Water | (P) 691300-100001 | PAWP Rake Drive Replacement | This project will replace equipment associated with the rake drives for the two secondary softening basins. | 1/27/2027(P) |
| Electricity | (P) 670799-100002 | Circuit 7221 Voltage Conversion, Phase 2 | Convert portions of existing 7200-V circuits to 14.4-kV. | 1/28/2027(P) |
| Water | (P) 690502-100001 | Fourth Water Plant Transmission Main | Fourth Water Plant Transmission Main. | 1/31/2027(P) |
| Water | (P) 690502-100001 | Fourth Water Plant Transmission Main | Fourth Water Plant Transmission Main. | 1/31/2027(P) |
| Sanitary Sewers | (P) 650725-100011 | Large Diameter - Blacklick Creek Main Trunk | This project will rehabilitate approximately 3,650 lineal feet of 96-inch diameter reinforce concrete pipe utilizing shotcrete methods. | 2/1/2027(R) |
| Sanitary Sewers | (P) 650871-153006 | Blueprint Hilltop 1 Eureka / Fremont Roof Redirection Project 6 | This project will redirect downspouts from homes to discharge to the street in the Hilltop 1 Blueprint area. | 2/1/2027(P) |
| Storm Sewer | (P) 611038-100001 | Twin Lakes Dam Rehabilitation | Twin Lakes Dam Rehabilitation | 2/3/2027(R) |
| Sanitary Sewers | (P) 650895-100007 | Sunbury Rd / Mock Rd HSTS Elimination Project | CIP 650895-100007 involves the design and construction of sanitary sewer along Sunbury Rd and Mock Rd. The new sanitary sewer extension will serve this developed area that is currently served by home septic systems. | 2/4/2027(P) |
| Water | (P) 690579-100000 | PAWP Treatment Residuals Disposal Improvements | PAWP Treatment Residuals Disposal Improvements. (5/16/19: name changed from PAWP Sludge Disposal Improvements per Stacia) This project will design and construct PStacia) This disposal improvements to convey the plant's residuals streams to the Lockbourne Road Quarry for disposal, which was purchased in 2018. | 2/8/2027(R) |
| Sanitary Sewers | (P) 650179-100001 | Castle Road Force Main Improvements | This project will design and construct improvements to the existing force main system for the Castle Road Pump Station. | 2/8/2027(P) |
| Water | (P) 691200-100002 | HCWP Automation Upgrade 2027 | This project will upgrade the Hap Cremean Water Plant's (HCWP) SCADA system. | 2/8/2027(P) |

UPCOMING CONSTRUCTION PROJECT LISTING 6/2026 -6/2027

| | | | | |
|-----------------|-------------------|---|---|--------------|
| Storm Sewer | (P) 611021-100000 | SMOC Facility Stormwater Improvements | CAPITAL IMPROVEMENT PROJECT AT THE SEWER MAINTENANCE OPERATIONS CENTER (SMOC) INCORPORATING ENGINEERING BEST MANAGEMENT PRACTICES TO IMPROVE STORM WATER QUALITY AND SHOWCASE GREEN INFRASTRUCTURE INITIATIVES. | 2/10/2027(R) |
| Water | (P) 690236-100165 | Beechwood Rd Area Water Line Improvements | Project No.86 W.M. Replacement | 2/19/2027(P) |
| Electricity | (P) 670799-100003 | Circuit 7221 Voltage Conversion, Phase 3 | Convert portions of existing 7200-V circuits to 14.4-kV. | 3/1/2027(P) |
| Sanitary Sewers | (P) 650768-100003 | Third Ave Relief Sewer, Phase 3 | Third Ave - Olentangy River Rd: This is Phase 3 of this project which will be the construction of Edgehill Rd. and Northwest Blvd. | 3/8/2027(P) |
| Sanitary Sewers | (P) 650872-990001 | Blueprint Lateral Lining Monitored Area 1 | The Department of Public Utilities Division of Sewerage and Drainage has identified lateral lining as the most effective method for reducing I/I into sanitary and combined mainline sewers. The project, in conjunction with Blueprint Lateral Lining Monitored Area 2, will CIPP line 2000 lateral lines. This project will line 1000 lateral lines across seven (7) blueprint areas with the intent to evaluate the I/I reduction in each of these areas based on flow data. | 3/17/2027(P) |
| Water | (P) 690236-100170 | East Broad Street Area Water Line Improvements | East Broad Street Area Water Line Improvements | 3/19/2027(P) |
| Water | (P) 690473-100024 | 2082 Fairwood Avenue Soil Remediation and Site Improvements | 2082 Fairwood Avenue Soil Remediation and Site Improvements | 3/20/2027(P) |
| Water | (P) 690286-100009 | HCWP Misc. Improvements - Plant Roadway Improvements | HCWP Misc. Improvements - Plant Roadway Improvements. Due to age and heavy use from multiple construction projects, various portions of the HCWP roadways will require repair in coming years. This project will perform full-depth spot repairs where needed, mill and overlay most plant roadways, and perform various other roadway related improvements. | 3/29/2027(P) |
| Sanitary Sewers | (P) 650886-100000 | Scioto Main Sanitary Pump Stations | This project requires improvements to the Scioto Main sanitary trunk and selected tributary sewers to fully operate facilities constructed as part of the West Columbus Local Protection Project (WCLPP) - Dry Run Levee. Specifically, we need to ensure the McKinley Avenue overflow can activate during a Scioto River 25-year flood without causing WIBs and manhole flooding. | 4/5/2027(R) |

| | | | | |
|-----------------|-------------------|--|--|--------------|
| Storm Sewer | (P) 611660-100100 | DOSD Stormwater Pump Stations - Construction | Capital Improvement Project (CIP) No. 611660-100000 (DOSD Stormwater Pump Stations Evaluation and Upgrade) will provide an overall evaluation of the condition and function of each of DOSD's Stormwater Pump Stations. As a result of those evaluations, needs and improvements will be identified and prioritized and a list of CIPs will be generated. This project will provide funding for the design and construction of the CIPs. | 4/9/2027(P) |
| Water | (P) 690236-100168 | Madison Avenue Area Water Line Improvements | Madison Avenue Area Water Line Improvements | 4/9/2027(P) |
| Water | (P) 690473-100023 | Fisher Road Booster Station Site Improvements | Fisher Road Booster Station Site Improvements | 4/12/2027(P) |
| Sanitary Sewers | (P) 650491-100004 | Big Walnut Interceptor Lockbourne Subtrunk Canal Road Area | Big Walnut Interceptor Lockbourne Subtrunk Canal Road Area. | 4/26/2027(P) |
| Water | (P) 690286-100008 | HCWP Misc. Improvements - Misc. Concrete Improvements | HCWP Misc. Improvements - Misc. Concrete Improvements. Concrete steps, walks, loading docks, chemical trenches, etc. deteriorate over time due to age, weather, construction traffic, and other factors. This project will construct repairs and/or replacement of concrete at various locations around the HCWP to maintain safe working conditions, thus avoiding more costly repairs if deterioration continues, and to extend the life of these assets. Design and Engineering SDCs will be provided under the GES or GAS Project. | 5/3/2027(P) |
| Storm Sewer | (P) 611031-100000 | ST-21, ST-22, ST-23 Improvements | Design and construct storm system and flood protection improvements for the area southwest of the Arena District near the confluence of the Scioto and Olentangy Rivers. | 5/5/2027(P) |
| Sanitary Sewers | (P) 650860-122210 | West Franklinton Area Sewer Reconfiguration | This project is to reconfigure and upsize sewers in the West Franklinton Area to mitigate DSR 95 on Sullivant Ave and WIBs to the 10-yr level of service. | 5/10/2027(P) |
| Sanitary Sewers | (P) 650033-100006 | Walnut Street Sanitary Sewer Extension | This project will design and construct a sanitary sewer extension to serve the rapidly developing areas along Walnut Street within the Big Walnut tributary area. | 5/17/2027(P) |
| Electricity | (P) 670608-100015 | 69-2 Circuit Improvements | The 69-2 Circuit Improvements project will upgrade a 50-year-old transmission circuit. | 5/31/2027(P) |
| Storm Sewer | (P) 611038-100003 | Twin Lakes Dredging and Bliss Run Channel improvements | Project to model and design the bliss run channel improvement, Twin Lakes Dam infrastructure for optimal flow of the creek sediments over the dam, drafting plans for dredging of the lakes. | 6/2/2027(P) |

UPCOMING CONSTRUCTION PROJECT LISTING 6/2026 -6/2027

| | | | | |
|-----------------|--------------------------|---------------------------------|--|---------------------|
| Sanitary Sewers | (P) 650870-158191 | Plum Ridge Integrated Solutions | This project will utilize green infrastructure to address surface runoff generated from the other three pillars of Blueprint (lateral lining, downspout redirection and sump pumps). The green infrastructure will treat and attenuate the runoff improving the water quality and reducing the peak flow to a receiving stream. The project will also include closed circuit televising of the storm sewers within the project limits to assist in evaluating the hydraulics of the existing storm sewer system. | 6/13/2027(P) |
