

UPCOMING CONSTRUCTION PROJECT LISTING 8/2026 -8/2027

Division	CIP #	Project Name	Project Description	Advertise For RFP Date (Approximate)
Sanitary Sewers	(P) 650870-101202	Blueprint Miller Kelton - Kelton/Fairwood	The Kent/Fairwood area is generally bounded by Main Street to the north, Livingston Avenue to the south, Railroad tracks to the east, and Kelton Avenue to the west. This project will look at an integrated solution for Consent Order requirements of the City's Wet Weather Management Plan. Due to the sequencing of the projects, this project focuses on green infrastructure alternatives because the green infrastructure needs to be operational prior to roof drain redirection or sump pump installation. Mainline sewer lining and sump pump installation will be handled under a separate contract. This contract evaluates green infrastructure alternatives and evaluates private sanitary and storm laterals that drain sewage and stormwater from homes.	8/3/2026(R)
Sanitary Sewers	(P) 650872-139003	Lateral Lining - Blueprint Clintonville 3 Project 3	This project will line the sanitary lateral for homes in the Clintonville 3 Blueprint area.	8/3/2026(P)
Water	(C) 690236-100160	Gault Street Water Line Improvements	Gault Street Water Line Improvements.	8/3/2026(R)
Sanitary Sewers	(P) 650234-100203	JPWRP SCB/SKB Roof Replacement	Replacement of built-up roofs for the Sludge Control Building (SCB) and Skimmings Concentration Building (SKB). Work includes safety improvements for access ladders, removal of trip hazards, and elimination of abandoned components.	8/10/2026(P)
Sanitary Sewers	(P) 650353-100006	SWWTP Digester Process Expansion, Phase II	This project is to rehabilitate the three acid phase digesters (APDs) at the Southerly Wastewater Treatment Plant (SWWTP). In addition to the APD rehabilitation, this project will investigate the feasibility of fats, oils, and grease (FOG) receiving, organic food waste receiving, and nutrient removal prior to the digestion process.	8/11/2026(P)
Water	(P) 690236-100167	Oaklawn St Area Water Line Improvements	Project No.88 W.M. Replacement	8/18/2026(P)
Sanitary Sewers	(P) 650872-990003	Blueprint Maize-Morse Short Liner Monitoring	This project will install short liners within existing residential sewer laterals located only in the public right-of-way in the Maize-Morse area. The liners will seal cracks and defects that allow stormwater and groundwater to enter the sanitary sewer system, reducing inflow and infiltration (I/I). This pilot will compare short liners to full-service lining previously used, evaluate their performance, and assess potential citywide application.	8/19/2026(P)

UPCOMING CONSTRUCTION PROJECT LISTING 8/2026 -8/2027

Water	(P) 690411-100014	Hoover Dam Imp's - Part 2	Hoover Dam Imp's - Part 2. The concrete spillway at Hoover Dam is the main overflow for Hoover Reservoir and is retaining structure for Hoover Reservoir. The concrete on the spillway and adjacent concrete abutments have isolated locations that are structurally deficient and require repairs. The crest gates require some rehabilitation. This project will design and construct improvements to Hoover Dam including repair of deteriorated concrete, abutments, embankments and rehabilitation of the crest gates.	8/24/2026(R)
Sanitary Sewers	(P) 650870-109153	Blueprint 5thxNorthwest - Sunrise/Glenn Permeable Pavement	This project will construct permeable paver streets to provide stormwater runoff reduction and treatment.	8/24/2026(R)
Sanitary Sewers	(P) 650265-100205	JPWRP CDB HVAC Unit H46 & PS1 HVAC Unit H60 Replacement	This project will provide replacement of the HVAC system for Unit 46 & H60 at the Jackson Pike Water Reclamation Facility.	8/24/2026(P)
Water	(C) 690236-100199	Ashland Ave, Glenn Ave, Westwood Ave Water Line Relocations	Ashland Ave, Glenn Ave, and Westwood Ave Water Line Relocations	8/24/2026(R)
Water	(P) 690236-110007	Lead Service Line Replacements - Part 5	Lead Service Line Replacements - Part 5	9/4/2026(P)
Sanitary Sewers	(P) 650349-100001	SWRP Dewatering Improvements	Southerly Wastewater Treatment Plant (SWWTP) uses the digestion process to produce Class B biosolids from the sludge solids that are collected from the wastewater. After the digestion process, biosolids are pumped to dewatering centrifuges where the biosolids are thickened so that the volume of the biosolids being handled by the plant is greatly reduced and so that the thickened biosolids can be economically trucked and used as a fertilizer for an area tree farm or mixed with compost to produce a soil amendment. This project is intended to be delivered using the CMAR method.	9/7/2026(P)
Sanitary Sewers	(P) 650349-100001	SWRP Dewatering Improvements	Southerly Wastewater Treatment Plant (SWWTP) uses the digestion process to produce Class B biosolids from the sludge solids that are collected from the wastewater. After the digestion process, biosolids are pumped to dewatering centrifuges where the biosolids are thickened so that the volume of the biosolids being handled by the plant is greatly reduced and so that the thickened biosolids can be economically trucked and used as a fertilizer for an area tree farm or mixed with compost to produce a soil amendment. This project is intended to be delivered using the CMAR method.	9/7/2026(P)
Sanitary Sewers	(P) 650349-100001	SWRP Dewatering Improvements	Southerly Wastewater Treatment Plant (SWWTP) uses the digestion process to produce Class B biosolids from the sludge solids that are collected from the wastewater. After the digestion	9/7/2026(P)

UPCOMING CONSTRUCTION PROJECT LISTING 8/2026 -8/2027

			process, biosolids are pumped to dewatering centrifuges where the biosolids are thickened so that the volume of the biosolids being handled by the plant is greatly reduced and so that the thickened biosolids can be economically trucked and used as a fertilizer for an area tree farm or mixed with compost to produce a soil amendment. This project is intended to be delivered using the CMAR method.	
Water	(P) 690502-100005	Morse Road 48-Inch Transmission Main Lowering	Morse Road 48-Inch Transmission Main Lowering	9/8/2026(P)
Sanitary Sewers	(P) 650033-100003	Central College Subtrunk Extension Phase 3	Central College Subtrunk of Big Walnut Trunk Sewer Phase 3	9/9/2026(R)
Sanitary Sewers	(P) 650872-162003	Blueprint Miller-Kelton Fairwood / Kent Lateral Lining Project 3	This project will line the sanitary lateral for homes in the Miller-Kelton Blueprint area.	9/10/2026(P)
Water	(P) 690589-100003	Large Diameter Valve Replacement Part 4	This project provides for the repair or replacement of critical large diameter valves in the water distribution system which have failed.	9/14/2026(P)
Water	(P) 690236-110006	Lead Service Line Replacements - Part 4	Lead Service Line Replacements - Part 4	9/15/2026(P)
Water	(P) 690522-100001	Water Distribution System SCADA Improvements	Water Distribution System SCADA Improvements. Planned improvements to the system that provides control of about 85 remote water Distribution facilities.	9/19/2026(P)
Water	(P) 690502-100002	Broadview Road 30-Inch Transmission Main	This project will provide a 30-inch diameter transmission main from the North pressure district to supply booster stations located near Morse Rd/Hamilton Rd that supply the Morse pressure district.	9/28/2026(P)
Storm Sewer	(P) 610739-100000	Petzinger Rd Stormwater Imps	Petzinger Road Stormwater System Improvements, CIP 610739. This project will construct storm system improvements along Petzinger Road from Glenbrook Drive east to Courtright Road.	10/1/2026(P)
Storm Sewer	(P) 611707-100000	Second Avenue Sewer Improvements	This project will address flooding along Second Avenue in the Milo Grogan area, at the railroad overpass, west of the intersection with Grant Avenue. It is the intent of the City to address the flooding issues through the installation of approximately 5,000 LF of new storm sewer within the tributary area. By redirecting storm water runoff away from the existing combined sewer system that will remain this project should also reduce the incidence of basement flooding events within the neighborhood.	10/1/2026(R)

UPCOMING CONSTRUCTION PROJECT LISTING 8/2026 -8/2027

Sanitary Sewers	(P) 650745-100018	2026 General Construction Contract - Sanitary	This existing sewer infrastructure includes miles of older sewer that are more prone to failure that may occur unexpectedly. Project makes repair or improvement to existing sewer infrastructure as needed.	10/1/2026(P)
Water	(C) 690236-100157	N. Sixth Street & E. Third Avenue WL Imp's	N. Sixth Street & E. Third Avenue Water Line Improvements. This project is a child project to DOSD's Second Avenue Sewer Improvements project (611707-100000).	10/1/2026(R)
Water	(P) 690236-100180	South High Street & I270 Area Water Line Improvements Phase I	South High Street & I270 Area Water Line Improvements Phase I	10/2/2026(R)
Sanitary Sewers	(P) 650860-122210	West Franklinton Area Sewer Reconfiguration	This project is to reconfigure and upsize sewers in the West Franklinton Area to mitigate DSR 95 on Sullivant Ave and WIBs to the 10-yr level of service.	10/6/2026(P)
Sanitary Sewers	(P) 650870-110163	Blueprint Fredonia / Piedmont Area Integrated Solutions	This project will look at an integrated solution for Consent Order requirements of the City's Wet Weather Management Plan. The project will construct green infrastructure to provide detention and water quality improvements to rainwater that will be redirected from the sanitary sewer system by future Blueprint projects.	10/12/2026(R)
Sanitary Sewers	(P) 650870-110165	Blueprint Milford / Summit Area Integrated Solutions	This project will look at an integrated solution for Consent Order requirements of the City's Wet Weather. As an integral part of the City's updated plan, this project is included within the Blueprint Columbus Clintonville 3 area with a goal to reduce the amount of infiltration and inflow (I/I) into the sanitary sewer system and number of sanitary sewer overflows (SSOs) at designed sewer relief (DSR) points. The Milford-Summit project area is bound by Indianola Avenue (west), Glen Echo Creek (south), North Broadway Avenue (north), and RR tracks (east). Due to the sequencing of the projects, this project focuses on green infrastructure alternatives because the green infrastructure needs to be operational prior to roof drain redirection or sump pump installation. Mainline sewer lining and sump pump installation will be handled under a separate contract. This contract evaluates green infrastructure alternatives and evaluates private sanitary and storm laterals that drain sewage and stormwater from homes. This project is currently at the 30% design level.	10/17/2026(R)
Water	(C) 690236-110005	Milford Summit Lead Service Line	Milford Summit Lead Service Line Replacements	10/17/2026(R)
Electricity	(P) 670799-100001	Circuit 7221 Voltage Conversion, Phase 1	Construct a 14.4kV circuit from Hap Cremean Substation along Appian Way, then west along the north side of Morse Road to a point west of Westerville Road.	10/22/2026(R)

UPCOMING CONSTRUCTION PROJECT LISTING 8/2026 -8/2027

Water	(P) 690236-100154	Chesapeake Ave Area Water Line Improvements	This project provides for general rehabilitation of the Chesapeake Ave Area Water Line distribution system and may include replacement of water mains which have exceeded their useful life and construction of new lines to eliminate poor fire flow capabilities and poor water quality.	10/30/2026(P)
Water	(P) 691100-100004	DRWP Fire Alarm Improvements - PT 2	Upgrade DRWP Fire Alarm system Infrastructure/Components	11/1/2026(P)
Sanitary Sewers	(P) 650725-100027	Scioto Main North Large Diameter Sewer Rehabilitation	This project aims to rehabilitate approximately 16,140 feet of the city's large-diameter sanitary sewer infrastructure, along with 36 manholes that have been assessed and identified as being in poor condition. The sewer lines slated for rehabilitation include Scioto Main (North), Scioto Main (Middle), Big Run Early Ditch Branch, Upper Scioto NW Branch, Frank Rd Trunk Sewer, Upper Scioto West Interceptor, West Side Relief Main, and Scioto Main Trunk Sewer Replacement.	11/2/2026(R)
Storm Sewer	(P) 611660-100029	DOSD Stormwater Pump Station ST-29 Evaluation & Upgrade	DOSD Stormwater Pump Stations have been constructed at various times and are used in various degrees. As a pump station ages, an evaluation is required regularly to assess equipment and components and identify necessary improvements and upgrades to ensure that the pump station continues its uninterrupted operation of collecting the City's stormwater and continues to be an integral part of DOSD's stormwater collection system. This project will evaluate DOSD Stormwater Pump Station - 29, identify needs and improvements, then provide preliminary, detailed design, bidding services, and engineering services during construction to provide the necessary needs, improvements, and upgrades.	11/2/2026(P)
Sanitary Sewers	(P) 650402-100001	Olentangy Main Interceptor (OMI) Tributary Rehabilitation	Olentangy Main Interceptor (OMI) Tributary Rehabilitation	11/2/2026(P)
Water	(P) 690473-100020	Morrison Booster Station Improvements	This project provides the necessary replacement of the roof at the Morrison booster station. This project also includes other work including ventilation system improvements, pump isolation valve replacements, window replacements, and site grading improvements.	11/9/2026(R)
Sanitary Sewers	(P) 650872-139001	Lateral Lining - Blueprint Clintonville 3 Project 1	This project will line the sanitary lateral for homes in the Clintonville 3 Blueprint area.	11/10/2026(P)
Water	(P) 690278-100004	DRWP Misc. Imp's - Educational Signage & Displays	DRWP Misc. Imp's - Educational Signage & Displays. This project will install new educational signage and displays at the DRWP to support plant tours.	11/16/2026(R)

UPCOMING CONSTRUCTION PROJECT LISTING 8/2026 -8/2027

Sanitary Sewers	(P) 650870-110164	Blueprint Tulane / Findley Area Integrated Solutions	This project will look at an integrated solution for Consent Order requirements of the City's Wet Weather Management Plan.	11/16/2026(P)
Sanitary Sewers	(P) 650660-100013	DOSD Sanitary Pump Stations SA13 Evaluation & Upgrade	This project will evaluate DOSD Sanitary Pump Station SA13, identify needs and improvements, then provide preliminary, detailed design, bidding services, and engineering services during construction to provide the necessary needs, improvements, and upgrades.	11/16/2026(P)
Water	(C) 690236-110015	Tulane/Findley Area Lead Service Line Replacements	Tulane/Findley Area Lead Service Line Replacements	11/16/2026(P)
Storm Sewer	(P) 611720-100001	Storm Sewer Lining Projects 2026-2027	Storm infrastructure includes miles of older sewer throughout the city that are more prone to failures that may occur unexpectedly. This project rehabilitates sewers using cured-in-place pipe (CIPP).	11/30/2026(P)
Water	(P) 690236-100164	Ann Street Area Water Line Improvements	This project provides for general rehabilitation of the Ann Street Area Water Line distribution system and may include replacement of water mains which have exceeded their useful life and construction of new lines to eliminate poor fire flow capabilities and poor water quality.	12/6/2026(P)
Water	(P) 690236-100162	Chittenden Ave Area Water Line Improvements	Chittenden Ave Area Water Line Improvements	12/11/2026(P)
Water	(P) 690473-100022	Rome-Hilliard Tank Site Improvements	Rome Hilliard Road Booster Station Site Improvements	12/15/2026(P)
Water	(P) 690552-100000	Plant Drain & Water System Imp's	The HCWP and PAWP facilities have various building drain systems serving roof drainage, chemical containment areas, and other process areas. This project will conduct a study to inventory these drainage systems and make recommendations for improvements to bring these systems into alignment with current best practices relative to discharge location, chemical handling, etc. Project will also make improvements to the plant water system to reduce leakage, replace aging components, improve reliability and ease of maintenance.	12/21/2026(R)
Water	(P) 690236-100166	Gerbert Rd Area Water Line Improvements	Project No.87 W.M. Replacement	1/6/2027(P)
Sanitary Sewers	(P) 650725-100034	Alum Creek Phase D - South	Alum Creek Phase D - South is the lower portion of the Alum Creek phase D Rehabilitation project.	1/10/2027(R)
Water	(P) 691200-100003	HCWP Filter Media Replacement	HCWP GAC Filter Media Removal and Replacement.	1/18/2027(P)
Water	(P) 691100-100005	DRWP Structural Improvements	Structural improvements are needed at DRWP	1/18/2027(P)

FROM PMIS 7/28/26

UPCOMING CONSTRUCTION PROJECT LISTING 8/2026 -8/2027

Sanitary Sewers	(P) 650725-100018	Near North & East Area Large Diameter Assessment - Phase 3	This project will provide design of the large, combined sewers rehabilitation work near Franklin Park area and Goodale Park area. Also, will provide construction services to rehab the sewers that are in poor condition. The project will rehab the sewers to extend the assets remaining useful life while minimizing the risk of asset failures. Also, to reduce inflow and infiltration to the City's sanitary sewer system thus mitigate sanitary sewer overflows to basements and waterways.	1/20/2027(P)
Water	(P) 690291-100004	PAWP Misc. Imp's - Chemical Storage Tank Imp's	This project will install new hydrofluorosilicic acid (HFS) and zinc orthophosphate (ZOP) bulk storage tanks inside the Sodium Hypo Building, demo existing bulk tanks, day tanks, and feed equipment in the Chemical Building, and install new day tanks and feed equipment for HFS and ZOP in the Chemical Building. A chemical storage HAZMAT prefabricated unit will also be replaced in kind, and new anchor bolts will be installed on the five silos.	1/22/2027(P)
Storm Sewer	(P) 611708-100000	Mound Street Floodwall and WCLPP Repairs	The existing floodwall located along the east side of the Scioto River, between Main Street and the Norfolk Southern/CSX Railroad bridge, is in disrepair. This project will investigate and evaluate the existing wall and levee system with regard to the flood protection needs of the area and develop plans for the replacement of the existing wall. In addition, this project will address the concrete sections of the Franklinton Floodwall where deficiencies such as spalling and cracking have occurred and which need patch repairs.	1/25/2027(R)
Sanitary Sewers	(P) 650378-100001	SWWTP Plant Wide Control System Improvements	Plant wide obsolete control and monitoring equipment replacement. Replacement of PLCs, flow meters, valve actuators, level sensors, and other misc. obsolete equipment. Upgrade of CAT 5 cabling to CAT 6 plantwide.	1/25/2027(P)
Water	(P) 690286-100010	HCWP Misc. Improvements - Roof Improvements	HCWP Misc. Improvements - Roof Improvements. Repair or replace roofs on Admin Building and small structures including but not limited to two metal maintenance buildings and the gas house.	1/27/2027(P)
Water	(P) 690502-100001	Fourth Water Plant Transmission Main	Fourth Water Plant Transmission Main.	1/31/2027(P)
Water	(P) 690502-100001	Fourth Water Plant Transmission Main	Fourth Water Plant Transmission Main.	1/31/2027(P)
Water	(P) 690502-100001	Fourth Water Plant Transmission Main	Fourth Water Plant Transmission Main.	1/31/2027(P)

UPCOMING CONSTRUCTION PROJECT LISTING 8/2026 -8/2027

Sanitary Sewers	(P) 650895-100007	Sunbury Rd / Mock Rd HSTS Elimination Project	CIP 650895-100007 involves the design and construction of sanitary sewer along Sunbury Rd and Mock Rd. The new sanitary sewer extension will serve this developed area that is currently served by home septic systems.	2/4/2027(P)
Sanitary Sewers	(P) 650179-100001	Castle Road Force Main Improvements	This project will design and construct improvements to the existing force main system for the Castle Road Pump Station.	2/8/2027(P)
Water	(P) 691200-100002	HCWP Automation Upgrade 2027	This project will upgrade the Hap Cremean Water Plant's (HCWP) SCADA system.	2/8/2027(P)
Water	(P) 691505-100002	Watershed Roof Improvements	The Division of Water (DOW) Watershed section has maintenance facilities at multiple places across the city to support the various dams and reservoirs. There are multiple maintenance buildings managed by Watershed that have roofs approaching and/or beyond their service life that need repair or replacement.	2/16/2027(P)
Water	(P) 691300-100001	PAWP Rake Drive Replacement	This project will replace equipment associated with the rake drives for the two secondary softening basins.	2/17/2027(P)
Sanitary Sewers	(P) 650278-100001	JPWWTP Plant Wide Control System Improvements	Plant wide replacements of EIM Actuators, ABB Flow Meters, and obsolete PLCs to maintain and improve functionality of the SCADA system.	2/22/2027(P)
Sanitary Sewers	(P) 650870-109152	Blueprint 5th Ave by Northwest - Edgehill / Meadow	This 5th x Northwest project area is part of the City of Columbus Integrated Solution, commonly referred to as Blueprint Columbus. Blueprint Columbus is a program designed to achieve water quality and performance goals identified in the 2005 Wet Weather Management Plan (WWMP) through implementing the 4 pillars of Blueprint. The 4 pillars of Blueprint consist of the construction of green infrastructure, lateral lining, roof redirection, and sump pump installation. The Integrated Plan and 2015 WWMP Update Report proposing Blueprint Columbus was approved by Ohio EPA on December 1, 2015.	2/24/2027(P)
Water	(C) 690236-100159	5th Ave by Northwest - Edgehill / Meadow WL Imp's	5th Ave by Northwest - Edgehill / Meadow WL Improvements.	2/24/2027(P)
Sanitary Sewers	(P) 650870-110161	Blueprint Winthrop / Milton Area Integrated Solutions	This project will look at an integrated solution for Consent Order requirements of the City's Wet Weather Management Plan.	3/1/2027(R)
Water	(P) 690579-100000	PAWP Treatment Residuals Disposal Improvements	PAWP Treatment Residuals Disposal Improvements. (5/16/19: name changed from PAWP Sludge Disposal Improvements per Stacia) This project will design and construct PAWP residual disposal improvements to convey the plant's residuals streams to	3/1/2027(R)

UPCOMING CONSTRUCTION PROJECT LISTING 8/2026 -8/2027

			the Lockbourne Road Quarry for disposal, which was purchased in 2018.	
Sanitary Sewers	(P) 650768-100003	Third Ave Relief Sewer, Phase 3	Third Ave - Olentangy River Rd: This is Phase 3 of this project which will be the construction from Edgehill Rd and Northwest Blvd.	3/8/2027(P)
Sanitary Sewers	(P) 650872-990002	Blueprint Lateral Lining Monitored Area 2	The Department of Public Utilities Division of Sewerage and Drainage has identified lateral lining as the most effective method for reducing I/I into sanitary and combined mainline sewers. The project, in conjunction with Blueprint Lateral Lining Monitored Area 2, will CIPP line 2000 lateral lines. This project will line 1000 lateral lines across seven (7) blueprint areas with the intent to evaluate the I/I reduction in each of these areas based on flow data.	3/15/2027(P)
Sanitary Sewers	(P) 650872-990001	Blueprint Lateral Lining Monitored Area 1	The Department of Public Utilities Division of Sewerage and Drainage has identified lateral lining as the most effective method for reducing I/I into sanitary and combined mainline sewers. The project, in conjunction with Blueprint Lateral Lining Monitored Area 2, will CIPP line 2000 lateral lines. This project will line 1000 lateral lines across seven (7) blueprint areas with the intent to evaluate the I/I reduction in each of these areas based on flow data.	3/17/2027(P)
Water	(P) 690236-100170	East Broad Street Area Water Line Improvements	East Broad Street Area Water Line Improvements	3/19/2027(P)
Water	(P) 690473-100024	2082 Fairwood Avenue Soil Remediation and Site Improvements	2082 Fairwood Avenue Soil Remediation and Site Improvements	3/20/2027(P)
Sanitary Sewers	(C) 650860-121220	Flow Redirection - Plum Ridge	This project removes known driveway stormwater drain connections to the sanitary sewer. Driveway drains are not permitted to be connected to the sanitary sewer. This project is part of a larger package of projects that together reduce the occurrence of sewer backups into residential basements and Sanitary Sewer Overflows into the environment in the area.	3/23/2027(P)
Sanitary Sewers	(P) 650870-158191	Plum Ridge Integrated Solutions	This project will utilize green infrastructure to address surface runoff generated from the other three pillars of Blueprint (lateral lining, downspout redirection and sump pumps). The green infrastructure will treat and attenuate the runoff improving the water quality and reducing the peak flow to a receiving stream. The project will also include closed circuit televising of the storm sewers within the project limits to assist in evaluating the hydraulics of the existing storm sewer system.	3/23/2027(P)
Electricity	(P) 670799-100002	Circuit 7221 Voltage Conversion, Phase 2	Convert portions of existing 7200-V circuits to 14.4-kV.	3/29/2027(P)

UPCOMING CONSTRUCTION PROJECT LISTING 8/2026 -8/2027

Water	(P) 690286-100009	HCWP Misc. Improvements - Plant Roadway Improvements	HCWP Misc. Improvements - Plant Roadway Improvements. Due to age and heavy use from multiple construction projects, various portions of the HCWP roadways will require repair in coming years. This project will perform full-depth spot repairs where needed, mill and overlay most plant roadways, and perform various other roadway related improvements.	3/29/2027(P)
Sanitary Sewers	(P) 650886-100000	Scioto Main Sanitary Pump Stations	This project requires improvements to the Scioto Main sanitary trunk and selected tributary sewers to fully operate facilities constructed as part of the West Columbus Local Protection Project (WCLPP) - Dry Run Levee. Specifically, we need to ensure the McKinley Avenue overflow can activate during a Scioto River 25-year flood without causing WIBs and manhole flooding.	4/5/2027(R)
Water	(P) 690236-100168	Madison Avenue Area Water Line Improvements	Madison Avenue Area Water Line Improvements	4/9/2027(P)
Water	(P) 690236-100165	Beechwood Rd Area Water Line Improvements	Project No.86 W.M. Replacement	4/23/2027(P)
Sanitary Sewers	(P) 650491-100004	Big Walnut Interceptor Lockbourne Subtrunk Canal Road Area	Big Walnut Interceptor Lockbourne Subtrunk Canal Road Area.	4/26/2027(P)
Sanitary Sewers	(P) 650725-100011	Large Diameter - Blacklick Creek Main Trunk	This project will rehabilitate approximately 3,650 lineal feet of 96-inch diameter reinforce concrete pipe utilizing shotcrete methods.	4/26/2027(R)
Water	(P) 690286-100008	HCWP Misc. Improvements - Misc. Concrete Improvements	HCWP Misc. Improvements - Misc. Concrete Improvements. Concrete steps, walks, loading docks, chemical trenches, etc. deteriorate over time due to age, weather, construction traffic, and other factors. This project will construct repairs and/or replacement of concrete at various locations around the HCWP to maintain safe working conditions, thus avoiding more costly repairs if deterioration continues, and to extend the life of these assets. Design and Engineering SDCs will be provided under the GES or GAS Project.	5/3/2027(P)
Storm Sewer	(P) 611031-100000	ST-21, ST-22, ST-23 Improvements	Construction Management Project: professional construction administration and management services for the storm sewer pump stations improvements project for the area southwest of the Arena District near the confluence of the Scioto and Olentangy rivers.	5/5/2027(P)
Sanitary Sewers	(P) 650033-100006	Walnut Street Sanitary Sewer Extension	This project will design and construct a sanitary sewer extension to serve the rapidly developing areas along Walnut Street within the Big Walnut tributary area.	5/17/2027(P)

UPCOMING CONSTRUCTION PROJECT LISTING 8/2026 -8/2027

Electricity	(P) 670608-100015	69-2 Circuit Improvements	The 69-2 Circuit Improvements project will upgrade a 50-year-old transmission circuit.	5/31/2027(P)
Storm Sewer	(P) 611660-100100	DOSD Stormwater Pump Stations - Construction	Capital Improvement Project (CIP) No. 611660-100000 (DOSD Stormwater Pump Stations Evaluation and Upgrade) will provide an overall evaluation of the condition and function of each of DOSD's Stormwater Pump Stations. As a result of those evaluations, needs and improvements will be identified and prioritized and a list of CIPs will be generated. This project will provide funding for the design and construction of the CIPs.	6/28/2027(P)
Storm Sewer	(P) 611038-100003	Twin Lakes Dredging and Bliss Run Channel improvements	Project to model and design the bliss run channel improvement, Twin Lakes Dam infrastructure for optimal flow of the creek sediments over the dam, drafting plans for dredging of the lakes.	7/2/2027(P)
Sanitary Sewers	(P) 650872-139004	Lateral Lining - Blueprint Clintonville 3 Project 4	This project will line the sanitary lateral for homes in the Clintonville 3 Blueprint area.	7/6/2027(P)
Sanitary Sewers	(P) 650870-157191	Astor / Bernhard Integrated Solutions	This project will utilize green infrastructure to address surface runoff generated from the other three pillars of Blueprint (lateral lining, downspout redirection and sump pumps). The green infrastructure will treat and attenuate the runoff improving the water quality and reducing the peak flow to a receiving stream. The project will also include closed circuit televising of the storm sewers within the project limits to assist in evaluating the hydraulics of the existing storm sewer system.	7/28/2027(P)
Storm Sewer	(C) 611712-100000	Astor Bernhard Storm Sewer Improvements	This project will install new storm sewers, manholes, and inlets to alleviate yard and street flooding within the project limits.	7/28/2027(P)
Electricity	(P) 670858-100000	Sawmill Road Streetlighting	TO PROVIDE STREET LIGHTING IN RESPONSE TO THE 2014 STREET LIGHTING PRIORITIZATION PLAN.	8/1/2027(P)
Water	(P) 690236-100169	Argus Road Area water Line Improvements	Argus Road Area water Line Improvements	8/6/2027(P)
Sanitary Sewers	(P) 650876-129993	Blueprint Volunteer Sump Pump 2027	This project is one of the four main pillars of the Blueprint process and consists of residents volunteering for installation of sump pumps in their homes to reduce excess storm water entering the City of Columbus sewer system.	8/6/2027(P)
Sanitary Sewers	(P) 650876-129993	Blueprint Volunteer Sump Pump 2027	This project is one of the four main pillars of the Blueprint process and consists of residents volunteering for installation of sump pumps in their homes to reduce excess storm water entering the City of Columbus sewer system.	8/6/2027(P)

UPCOMING CONSTRUCTION PROJECT LISTING 8/2026 -8/2027

Sanitary Sewers	(P) 650876-129993	Blueprint Volunteer Sump Pump 2027	This project is one of the four main pillars of the Blueprint process and consists of residents volunteering for installation of sump pumps in their homes to reduce excess storm water entering the City of Columbus sewer system.	8/6/2027(P)
Water	(P) 690444-100001	O'Shaughnessy Hydroelectric Decommissioning	This project will provide construction funding for the decommissioning of the O'Shaughnessy Hydroelectric Power Plant.	8/11/2027(P)
Water	(P) 690236-100194	Polaris Area Water Line Improvements	Polaris Area Water Line Improvements	8/20/2027(P)
Sanitary Sewers	(P) 650403-100002	Sanitary Sewer Lining Contract (2026-2029)	Sanitary infrastructure includes miles of older sewer throughout the city that are more prone to leaks and/or failures that may occur unexpectedly. This project rehabilitates sewers using cured-in-place pipe (CIPP).	8/28/2027(R)
