Employee

“Working in customer service as a district manager for 11 years, I was blown away by how CancerBridge promptly connected my mother-in-law to a physician who specialized in her cancer. I am so glad we contacted CancerBridge. The physicians and nurses provided helpful advice.”

Employee

“Getting to a nurse was quick and easy. The nurse was informative while compassionate. The surgeon called me the next morning to answer my questions and to reassure me. I scheduled a second opinion appointment with the surgeon. I am very pleased with the CancerBridge benefit, so much so that I've already referred a coworker.”
