

Parking to visit City Offices:

There are numerous garages and surface lots in the areas immediately surrounding City offices. There is also plentiful on-street meter parking on Gay Street, Front Street, Marconi Blvd. and Long Street, but meters should be used only for short-term situations. Do NOT park at a meter when taking an exam. Parking in the lots and garages is on a first-come, first-serve basis, and prices fluctuate. All of the lots and garages are owned and operated by private owners; generally speaking, they offer competitive pricing—but you should arrive early and allow yourself enough time to compare prices and obtain a spot. Some garages and lots require vehicle keys to be left with the parking lot attendant.
