Melinda Carter, *Executive Director*

Letter from the Director

The Equal Business Opportunity Office (EBO) is pleased to provide you with a Directory of our certified businesses in the construction industry. EBO created this targeted directory to serve as source to locate certified minority and female businesses that are currently engaged in the construction arena. The first of several targeted directories, EBO is working to develop to assist city departments, industry peers, and our business communities, to identify businesses that are ready, willing, and able to respond to contracting opportunities. While we encourage the use of our larger directory of certified minority and female owned businesses, this targeted directory is a quick and user friendly resource.

The construction industry is unique in that many of the contracting opportunities are as subcontractors. As a result, many of our prime contractors ask EBO for assistance in identifying potential subcontractors, we are glad to provide that service. However, we are sometimes faced with the unfortunate circumstance of not having available minority contractors to provide the requested service. We currently have over 220 certified businesses in the construction arena and we are working to increase that number substantially.

The Construction Directory will continually be updated to ensure that the information is accurate and is available online @ <http://eboco.columbus.gov/>. Please feel free to share this directory with everyone your company engages.

I encourage the entire business community to take advantage of EBO's advocacy and expertise!

Melinda Carter

Melinda Carter

Director, EBOCO

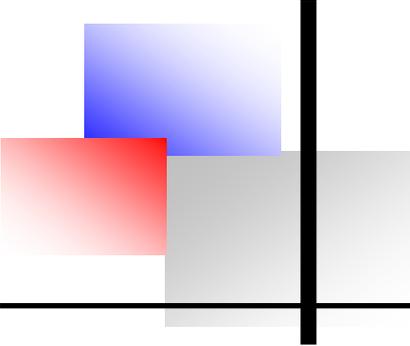

Table of Contents..

Listed:

- Construction (related) Businesses
- Company by Category
- Alphabetical order

Definitions:

- FBE – Female Business Enterprise
- MBE – Minority Business Enterprise
- HL1 – Hispanic Business Enterprise
- AS1 – Asian Business Enterprise
