Columbus Fleet Named Best in North America
***Governing Magazine and "100 Best Fleets" Recognizes, Honors Columbus Among More Than 38,000
North American Fleets***

The Columbus Division of Fleet Management has been honored by the "100 Best Fleets" Program and Governing Magazine as the No. 1 fleet operation in North America in 2014 at the National Association of Fleet Administrators conference on April 9th 2014. Columbus was chosen from more than 38,000 public fleets in North America. Columbus was ranked as the greenest fleet in North America in 2011.

"This is a well-deserved honor for our Division of Fleet Management, which has made enormous strides to become green, efficient and effective," Mayor Michael B. Coleman said. "We already were recognized as the greenest fleet in North America, and today we are recognized as the best. Congratulations to all the men and women in Fleet Management who made this honor possible."

The "100 Best Fleets" Program ranking was based on nine criteria used to measure the performance of a public fleet. The criteria included accountability; use of technology and information; evidence of a high-trust culture; performance recognition; collaboration creativity; celebration; doing it right the first time; quick and efficient turnaround and competitive pricing; and staff development and resource stewardship.

"The Fleet Management Division is constantly working to ensure our team of men and women is the one of most highly trained and skilled in North America," said Councilmember Priscilla R. Tyson, chair of the Finance Committee. "All of Columbus can be proud of these two impressive accomplishments."

For the seventh year Columbus, remains the largest ASE Blue Seal-certified public entity in the nation. Columbus is a pioneer in the safe, cost effective use of Compressed Natural Gas and in technological efficiencies. Dynamic leadership is a living process. Columbus excels because everyone does their part. Columbus fleet employees are dedicated to their vocations through continued training.
