Our experts recommend women age 40 and above and those at high risk of breast cancer should have an annual mammogram. Take advantage of this high quality, convenient service.

Eligibility criteria:

Not pregnant, not nursing, asymptomatic or it's been ten years or more since a breast cancer diagnosis. You must be 35 years of age or older. Women between ages 35-39 must have a written prescription from their doctor.

The city's health plan will only cover 1 mammogram per 365 days. You will be charged the full cost of the screening if it has not been 365 days from your last mammogram. Call the customer service number on the back of your insurance card if they have any doubt on the date of your last exam.
