Other Community Resources

You can also contact your local funeral home, family doctor, or religious community for additional support.

Franklin County Fetal-Infant Mortality Review (FIMR)

FIMR is part of a community-wide effort to decrease fetal and infant mortality in Franklin County. By reviewing fetal and infant deaths and by listening to the unique stories of those who've lost a child, we learn about our community's strengths and its needs. And as a community, we try to answer the questions, "Why are babies dying? What can we do about it?"

Thank you to those grieving families who have already shared their experiences with the FIMR program. Your children, and their stories, are very important to us.

Contact us anytime if you have questions, to set up a bereavement visit, or to share your story with the FIMR program.

Lauren Rose-Cohen, RN
Fetal-Infant Mortality Review (FIMR) Coordinator
614-645-6537

Bereavement Services at Columbus Public Health

Columbus Public Health offers a bereavement visit to all Franklin County parents grieving the loss of a pregnancy or the death of an infant. If interested, we can help you find free, confidential services to support your family during this difficult time.

Nondiscrimination Policy

No officer, employee, or agent of the city shall deny equal access to city services, or equal opportunity in employment and promotion, or the benefits thereof, to any person on the basis of race, sex, sexual orientation, gender identity or expression, color, religion, ancestry, national origin, age, disability, family or military status, or any other status that is protected by federal, state, or local law or ordinance.
