

ALUM CREEK TRAIL

→ *Groundbreaking*

Ohio Dominican University East Campus . 2600 Airport Drive

The end is in sight. On Tues., Aug. 26, a groundbreaking ceremony will mark the final phase of the ALUM CREEK TRAIL. Starting at 10 a.m., on the Ohio Dominican University's east campus, 2600 Airport Drive, join Mayor Michael B. Coleman, Columbus Recreation and Parks Department and community leaders as we kick-off construction on the remaining 1.5 miles of the 22-mile greenway.

From Westerville to Obetz, the trail will provide easy access to over eight parks, and connections to over 90 miles of regional pathways throughout Central Ohio. Visitors will experience natural areas, neighborhoods and one of the most scenic river corridors the state has to offer.
