Cultural Arts Center's "Futurismo" Exhibit Opens

What:

The Columbus Recreation and Parks Department's Cultural Arts Center (CAC) will present the works of multi-media artist Tyler Bohm. "*Futurismo*" is about the creative futures evoked by the digital technologies that increasingly shape our daily lives. Bohm's work exists as creative future studies, a speculation about the imminent that draws on science fiction narratives and past eras' visions of the future.

Arts Administrator Geoffrey Martin enthuses, "We are especially pleased to present this Exhibit because Tyler is part of the 'digital' future he explores, as he creates almost exclusively in the computer rather than the studio. We think this is an important exploration of the evolution of the creative process."
