 - Major Roads
 - First Priority Areas
 - Second Priority Areas
 - Third Priority Areas

DRAFT RECOMMENDATIONS FOR PROGRAMS

- Develop standards to improve consistency in program design, delivery, and evaluation
- Track demographic trends and adjust programming or operations to best serve each service area
- Establish regional approach to service delivery to eliminate gaps and overlaps, and allow sharing of resources between various centers
- Avoid duplication in programming
- Use a more strategic and coordinated approach to programming non-peak hours
- Enable larger centers to serve as true “community centers.” Expand select smaller centers to include underserved areas
- Expand outdoor programming to compensate for lack of indoor space, improve visibility of centers, and deter crime
- Consider theming centers to include a strong approach to arts, fitness, sports, dance, music, seniors, child care, people with disabilities, gymnastics, and teens
- Track the results of community surveys by location to determine programming needs of residents
- Track program participation, outcomes, and efficiency on a weekly, monthly and yearly basis
- Develop a true cost of service program that tracks both the direct and indirect costs to provide services
- Develop more programs for young adults. Centers are more geared to youth under 16 and/or seniors.
