Explanation

This ordinance authorizes the Finance and Management Department, Fleet Management Division, to purchase various light duty vehicles to replace vehicles that are beyond their useful service lives. These forty-five vehicles will be used by seven of the City's departments, with the largest number for the Recreation and Parks Department and Development Department, Code Enforcement Division. The purchases will be from established Universal Term Contracts for light duty vehicles and automobiles with Ricart Properties Inc and 32 Ford Mercury Inc.

There are currently 2,748 pieces of on-road equipment in the City of Columbus. Of these, 922 are over the ten-year useful life. Criteria used to select which forty-five vehicles to replace include whether the vehicle is older than ten years, has over 100,000 miles, and if the maintenance cost to date has been greater than the acquisition cost.

Fiscal Impact: A total of \$1,000,000.00 has been budgeted in the 2010 General Fund for Fleet Management General Fund. This ordinance authorizes the expenditure of \$825,000.00.

Emergency Action is requested so that the orders for these vehicles can be placed prior to the production cut off dates, and older high maintenance vehicles can be removed from service.

ExplanationBACKGROUND: This legislation authorizes the Director of Public Safety to modify the existing contract with MED3000, Inc. for EMS billing, collection, and reporting services. The City entered into a contract with MED3000, Inc. via ordinance 1508-2007 in October 2007. The term of the contract is for three years ending in October 2010. The contract may be renewed by mutual written agreement of the parties for up to two additional one year terms after October 2010.

The Division of Fire's third party EMS reimbursement program was initiated via ordinance #1184-2002 passed in July 2002. The initial contract with ACS State and Local Solutions Inc. was modified five times. The last modification with ACS was effective January 1, 2008 for six months and was for ACS to exercise the option of collecting outstanding receivables on current accounts.

Public Safety contracts for the billing, collection, and reporting of those who are transported to hospitals by EMS personnel for emergency medical care. These billing, collection, and reporting services have generated a multitude of patient care information used by the Fire Division to better prepare EMS response protocols and, in turn, respond to citizens in a more effective manner. The division also generates reports for various fire organizations that are catalogued nationwide. To date, this program has generated in excess of \$64M in revenue since its inception.

Explanation

Council Variance Application: CV09-027

APPLICANT: Matthew R. Vekasy; c/o Jeffrey L. Brown, Atty.; Smith & Hale, LLC; 37 West Broad Street, Suite 725, Columbus, OH 43215.

PROPOSED USE: A two-family dwelling and a rear single-family dwelling above a detached garage (a carriage house) on the same lot.

FIFTH BY NORTHWEST AREA COMMISSION RECOMMENDATION: Approval.

CITY DEPARTMENTS' RECOMMENDATION: Approval. The site is undeveloped and zoned in the R-4, Residential District. The applicant proposes to build a two-family dwelling and a rear single-family dwelling (a carriage house) above a three-car detached garage. A variance is necessary because the R-4 District allows up to four units in the same dwelling, but does not permit more than one dwelling on the same lot. In addition to the use variance, requested variances are included for fronting, reductions to lot size, required side yards, and rear yard, and parking space stacking. The site is located within the planning area of the *Fifth by Northwest Neighborhood Plan* (2009), which supports carriage house development if it abides by the Plan's density and design considerations. Staff finds that the proposal meets the Plan's considerations and will not add a new or incompatible use to the area as there are other carriage houses within the neighborhood.

Title

To grant a Variance from the provisions of Sections 3332.039, R-4, Residential District use; 3332.05, Area district lot

width requirements; 3332.15, Area District requirements; 3332.19, Fronting on a public street; 3332.25, Maximum side yards required; 3332.26, Minimum side yard permitted; 3332.27, Rear yard; and 3342.19, Parking space, of the Columbus City Codes; for the property located at **1545 GLENN AVENUE (43212)**, to permit two-family dwelling and a rear single-family dwelling above a detached garage (a carriage house) on the same lot with reduced development standards in the R-4, Residential District (Council Variance # CV09-027).

Body

WHEREAS, by application No. CV09-027, the owner of property at **1545 GLENN AVENUE (43212)**, is requesting a Council Variance to permit a two-family dwelling and a rear single-family dwelling above a detached garage (a carriage house) on the same lot with reduced development standards in the R-4, Residential District; and

WHEREAS, Section 3332.039, R-4, Residential District use, requires a separate lot for each principal use, while the applicant proposes to construct two-family dwelling and a rear single-family dwelling above a detached garage (a carriage house) on the same lot; and

WHEREAS, Section 3332.05, Area district lot width requirements, requires a minimum lot width of fifty (50) feet in the R-4, Residential District, while the lot is forty-one (41) feet wide; and

WHEREAS, Section 3332.15, Area District requirements, requires a lot with an area that is 2,500 square feet per dwelling unit for dwellings containing 3 (three) or (4) dwelling-units, while the applicant proposes to construct a two-family dwelling and a rear single-family dwelling above a detached garage (a carriage house) on the same 5,043 square foot lot (per Section 3332.18 (C) for the purpose of calculating density; the actual lot size being 6,478 square feet); and

WHEREAS, Section 3332.19, Fronting on a public street, requires a dwelling unit to have frontage on a public street, while the applicant proposes no frontage for the rear single-family dwelling; and

WHEREAS, Section 3332.25, Maximum side yards required, requires the sum of the widths of the side yards to be 8.2 feet, while the applicant proposes the sum of the widths of the side yards to be eight (8) feet for the rear single-family dwelling; and

WHEREAS, Section 3332.26, Minimum side yard permitted, requires a minimum five (5) foot side yard, while the applicant proposes a 4.92 foot side yard along the north property line and a 3.08 foot side yard along the south property line for the rear single-family dwelling; and

WHEREAS, Section 3332.27, Rear yard, requires a rear yard totaling no less than twenty-five (25) percent of the total lot area, while the applicant proposes no rear yard for the rear single-family dwelling; and

WHEREAS, Section 3342.19, Parking space, requires that a parking space shall be a rectangular area of not less than nine (9) feet by eighteen (18) feet with no stacking permitted, while the applicant proposes three (3) stacked parking spaces in front of three (3) garage parking spaces; and

WHEREAS, the Fifth By Northwest Area Commission recommends approval; and

WHEREAS, City Departments recommend approval because the requested variance to allow a two-family dwelling and a rear single-family dwelling (a carriage house) above a three-car detached garage meets the *Fifth by Northwest Neighborhood Plan* density and design considerations for carriage house development. Staff supports the proposed use which will not add a new or incompatible use to the area as there are other carriage houses within the neighborhood; and

WHEREAS, said ordinance requires separate submission for all applicable permits and Certificate of Occupancy for the proposed use; and

WHEREAS, said variance will not adversely affect the surrounding property or surrounding neighborhood; and

WHEREAS, the granting of said variance will not impair an adequate supply of light and air to adjacent properties or

unreasonably increase the congestion of public streets, or unreasonably diminish or impair established property values within the surrounding area, or otherwise impair the public health, safety, comfort, morals, or welfare of the inhabitants of the City of Columbus; and

WHEREAS, the granting of said variance will alleviate the difficulties encountered by the owners of the property located at **1545 GLENN AVENUE (43212)**, in using said property as desired; now, therefore:

BE IT ORDAINED BY THE COUNCIL OF THE CITY OF COLUMBUS:

SECTION 1. That a variance from the provisions of Sections 3332.039, R-4, Residential District use; 3332.05, Area district lot width requirements; 3332.15, Area District requirements; 3332.19, Fronting on a public street; 3332.25, Maximum side yards required; 3332.26, Minimum side yard permitted; 3332.27, Rear yard; and 3342.19, Parking space, of the Columbus City Codes; are hereby granted for the property located at **1545 GLENN AVENUE (43212)**, insofar as said sections prohibit a two-family dwelling and a rear single-family dwelling above a detached garage (a carriage house) on the same forty-one (41) foot wide lot that is 5,043 square feet in size, with the rear dwelling having no frontage on a public street, a maximum side yard totaling eight (8) feet, and minimum side yards of 4.92 feet along the north property line and 3.08 feet along the south property line, no rear yard for the rear dwelling, and three (3) stacked parking spaces in front of three (3) garage parking spaces; said property being more particularly described as follows:

1545 GLENN AVENUE (43212), being 0.15± acres located on the west side of Glenn Avenue 309± feet south of West Fifth Avenue, and being more particularly described as follows:

Explanation

Rezoning Application Z09-013

APPLICANT: Village Communities; c/o David Hodge and Jeffrey L. Brown, Attys.; Smith & Hale; 37 West Broad Street, Suite 725; Columbus, OH 43215.

PROPOSED USE: Traditional neighborhood development.

DEVELOPMENT COMMISSION RECOMMENDATION: Approval (6-0) on January 14, 2010.

CITY DEPARTMENTS' RECOMMENDATION: Approval. The 11.34± acre site is undeveloped and zoned in the NC, Neighborhood Center, NG, Neighborhood General, and NE, Neighborhood Edge Districts. The applicant requests reallocation of the TND Districts to pursue their marketing and design objectives by constructing more multi-family residential units while maintaining the goals of Traditional Neighborhood Development. The Neighborhood Center District will be increased by 7.35 acres, and the Neighborhood General and Neighborhood Edge Districts will be decreased by 1.4 acres and 5.95 acres, respectively. The original 2001 rezoning (Z01-004) allowed for 400 single family dwellings on 41.65 acres. A portion of the site was rezoned in 2006 (Z04-086) to allow for a maximum of 284 units and reduced the total unit count by 116 units. This site will include a maximum of 133 residential units which results in an increase of 78 units to 362 units total over the original 41.65 acres. The gross density for the area being rezoned will be 11.73± units per acre, and the effective density for the overall development will be 8.69± units per acre, slightly below the 9.6± units per acre originally approved. The reallocation of the TND districts will also result in an increase of open space of 0.84± acres. The increase in density is negligible and is still less than the original density approved in 2001 before it was down-zoned in 2006. The site is located within the "Neotraditional Village/ Neighborhood Center" area of the *Southeast Area Plan* (2000). The proposal remains consistent with the Plan's land use recommendations, and the zoning and development patterns of the area.

Title

To rezone **6166 BRISTOL RIDGE DRIVE (43110)**, being 11.34± acres located on the north side of Bristol Ridge Drive at the north terminus of Blackmer Ridge Boulevard, **From:** NE, Neighborhood Edge, NG, Neighborhood General, and NC, Neighborhood Center Districts, **To:** NG, Neighborhood General, and NC, Neighborhood Center Districts (Rezoning # Z09-013).

Body

WHEREAS, application #Z09-013 is on file with the Building Services Division of the Department of Development requesting rezoning of 11.34± acres from NE, Neighborhood Edge, NG, Neighborhood General, and NC, Neighborhood Center Districts to : NG, Neighborhood General, and NC, Neighborhood Center Districts; and

WHEREAS, the Development Commission recommends approval of said zoning change; and

WHEREAS, the Columbus Public Health Healthy Places program reviews applications for active living features, and recognizes that this development has walking paths within the development for residents to have an opportunity for

physical activity and centrally located bike racks at the park; and

WHEREAS, the City Departments recommend approval of said zoning change because the reallocation of the TND districts will not negatively impact the existing surroundings and will allow the applicant to pursue their marketing and design objectives while maintaining the goals of Traditional Neighborhood Development. The increase in density is negligible and is still under the original density approved in 2001 before it was down-zoned in 2006. The proposal remains consistent with the land use recommendations of the *Southeast Area Plan* (2000), and the zoning and development patterns of the area; now, therefore,

Explanation

1. BACKGROUND

As a part of the Scioto Mile redevelopment project, Civic Center Drive, from Broad Street south to Rich Street is being reconstructed. The roadway is being converted from one-way southbound traffic to two-way traffic. Additionally the overall width of the road is being reduced and the existing west curb line is being moved approximately 30 feet to the east creating a strip of excess road right-of-way that the Recreation and Parks Department would like to incorporate into the park component of the Scioto Mile project. Their intention is to transform this excess road right-of-way into a promenade complete with sidewalks, curb ramps, landscaping, fountains and other pedestrian friendly amenities installed in compliance with the Americans with Disabilities Act (A.D.A.) criteria.

The following legislation abandons a portion of Civic Center Drive, more fully described in the body of this legislation, as public right-of-way and authorizes the transfer of this asset from the Department of Public Service to the Recreation and Parks Department.

Explanation**1. BACKGROUND**

The City of Columbus, Department of Public Service, received a request from Continental Real Estate Companies, on behalf of 1421 O.R.R. Realty, LLC. (The Company) and current owner is asking that the City transfer a 0.190 acre parcel of the Olentangy River Road right-of-way adjacent property owner by The Company located at 1421 Olentangy River Road. The Company plans to construct a hotel on the property, and this parcel is necessary to meet required zoning requirements for parking and setbacks. Per current practice, comments were solicited from interested parties, including City departments, private utilities and applicable area commissions, before it was determined that, subject to the retention of a general utility easement for those utilities currently located within this right-of-way, the City will not be adversely affected by the proposed transfer to The Company. The Department of Public Service submitted a request to the Department of Law, Real Estate Division, asking that they establish a value for this right-of-way. A value of \$19,862.40 was established for this right-of-way. After review, the Land Review Commission voted to recommend that the above referenced right-of-way be transferred to The Company for \$19,862.40.

2. FISCAL IMPACT

The City will receive a total of \$19,862.40, to be deposited in Fund 748, Project 537650, as consideration for the transfer of the requested 0.190 acre parcel of the Olentangy River Road right-of-way.

WHEREAS, the acquisition of this .0190 acre parcel is necessary in order to meet requirements for parking and setbacks; and

WHEREAS, per current practice, comments were solicited from interested parties, including City departments, private utilities and applicable area commissions, before it was determined that, subject to the retention of a general utility easement for those utilities currently located within this right-of-way, the City will not be adversely affected by the transfer of this .0190 acre parcel to the adjacent property owner; and

WHEREAS, the Department of Public Service submitted a request to the Department of Law, Real Estate Division, by asking that they establish a value for this right-of-way; and

WHEREAS, a value of \$19,862.40 was established for this right-of-way; and

WHEREAS, the Land Review Commission voted to recommend that the above referenced right-of-way be transferred to the adjacent property owner for \$19,862.40; and

WHEREAS, an emergency exists in the usual daily operation of the Department of Public Service in that it is immediately necessary to authorize the Director to execute those documents necessary to transfer the above referenced 0.190 acre parcel to the adjacent property owner so construction of the proposed facility can begin as scheduled in March of 2010

PROPOSED USE: Residential development.

UNIVERSITY AREA COMMISSION RECOMMENDATION: Approval.

CITY DEPARTMENTS' RECOMMENDATION: Approval.

The 5.38± acre site is zoned in the C-2 and C-4 Commercial Districts, and encompasses part of the former Columbus Coated Fabrics site which was demolished and is currently undeveloped. The requested Council variance is required to implement an Economic Development Agreement between the City of Columbus Department of Development and the property owners (ORD # 1456-2007) for site redevelopment. The requested variance is for the first phase of redevelopment, and will permit a maximum of 97 single, two-family, or multi-family residential units. The proposal includes development standards for setbacks, minimum lot width, yard standards, landscaping, and street trees, and contains provisions which allow detached garages to double as artist studios. Additional variances for building and parking setbacks and for the minimum number of required parking spaces are included in the request. The site is located within the planning area of the *Weinland Park Plan* (2006), which identifies the site as a key redevelopment area and recommends residential development for this location. The proposed uses are appropriate for the site and area and represent a substantial reduction in intensity of uses permitted under existing zoning.

Title

To grant Variances from the provisions of Sections 3353.03, C-2 Permitted Uses; 3356.03, C-4 Permitted Uses; 3353.09, C-2 District setback lines; 3356.11, C-4 District setback lines; and 3342.28, Minimum number of parking spaces required, of the Columbus City Codes; for the property located at **1311 NORTH GRANT AVENUE (43201)**, to permit single,

two-family and multi-family residential development not to exceed 97 units with reduced setbacks and parking in the C-2, and C-4, Commercial Districts **and to declare an emergency** (CV09-036).

Body

WHEREAS, by application No. CV09-036, the owner of property at **1311 NORTH GRANT AVENUE (43201)**, is requesting a Council Variance to permit single, two-family and multi-family residential development not to exceed 97 units with reduced setbacks and parking in the C-2, and C-4, Commercial Districts; and

WHEREAS, Section 3353.03, C-2 Permitted uses, does not permit ground floor residential uses, while the applicant proposes single, two-family and multi-family residential development; and

WHEREAS, an emergency exists in the usual daily operation in the City of Columbus in that it is immediately necessary to pass this ordinance due to the need to facilitate project funding deadlines related to the proposal for the immediate preservation of the public peace, property, health and safety; and

WHEREAS, Section 3356.03, C-4 Permitted uses, does not permit ground floor residential uses, while the applicant proposes single, two-family and multi-family residential development; and

WHEREAS, Section 3353.09, C-2 District setback lines, requires a 25-foot building setback line along North Sixth Street, while applicant proposes a two (2) foot building setback line; and

WHEREAS, Section 3356.11, C-4 District setback lines, requires 25-foot building setback lines along North Sixth Street, North Grant Avenue, and East Sixth, Seventh, and Eight Avenues, while applicant proposes a two (2) foot building setback line; and

WHEREAS, Section 3342.28, Minimum number of parking spaces required, requires two (2) off-street parking spaces per dwelling unit, and 2.5 off-street parking spaces per townhouse unit, while the applicant proposes one (1) parking space per dwelling unit for dwellings containing three or more units, and one (1) parking space per townhouse unit; and

WHEREAS, the University Area Commission recommends approval; and

WHEREAS, City Departments recommend approval because the requested Council variance is required to implement an Economic Development Agreement between the City of Columbus Department of Development and the property owners (ORD # 1456-2007) for site redevelopment. The requested variance is for the first phase of redevelopment, and will permit a maximum of 97 single, two-family, or multi-family residential units. The proposal includes development standards for setbacks, minimum lot width, yard standards, landscaping, and street trees, and contains provisions which allow detached garages to double as artist studios. Additional variances for building and parking setbacks and for the minimum number of required parking spaces are included in the request. The site is located within the planning area of the *Weinland Park Plan* (2006), which identifies the site as a key redevelopment area and recommends residential development for this location. The proposed uses are appropriate for the site and area and represent a substantial reduction in intensity of uses permitted under existing zoning; and

WHEREAS, the Applicant requests the variance to expedite the allowance for residential development due to timing constraints; and

WHEREAS, a follow-up rezoning will be filed at a later date to establish an appropriate base zoning for the properties to be developed pursuant to this Council variance. The land subject to this variance represents the first step toward achieving a larger redevelopment effort for the former Columbus Coated Fabrics industrial site and surrounding property. As such, a rezoning application will be filed once the larger redevelopment project defined in the Development Agreement has neared completion, as agreed to in the "Columbus Coated Fabrics Economic Development Agreement" dated August 29, 2008, as executed by Wagenbrenner Development, Inc. (Developer) and the City of Columbus, Ohio. The intent of this provision is to allow sufficient time for the Developer to finalize plans for and initiate development of the larger project contemplated by the Agreement, and then rezone the land together under a single rezoning application; and

WHEREAS, said variance will not adversely affect the surrounding property or surrounding neighborhood; and

WHEREAS, the granting of said variance will not impair an adequate supply of light and air to adjacent properties or unreasonably increase the congestion of public streets, or unreasonably diminish or impair established property values within the surrounding area, or otherwise impair the public health, safety, comfort, morals, or welfare of the inhabitants of the City of Columbus; and

WHEREAS, the granting of said variance will alleviate the difficulties encountered by the owners of the property located at **1311 NORTH GRANT AVENUE (43201)**, in using said property as desired and; now, therefore:

SECTION 2. That this ordinance is conditioned on and shall remain in effect only for so long as said property is used for single, two-family and multi-family residential development not to exceed 97 units, or those uses in the C-2, and C-4, Commercial Districts.

SECTION 3. That this ordinance is further conditioned on the Subject Site being developed in general conformance with the site plan titled, "**WEINLAND PARK DEVELOPMENT SITE PLAN**," drawn by Architectural Alliance, dated February 15, 2010, and signed by Michael T. Shannon, Attorney for the Applicant. The Site Plan may be slightly adjusted to reflect engineering, topographical, or other site data developed at the time of the development and when engineering and architectural drawings are completed. Any slight adjustments to the Site Plan shall be subject to review and approval by the Director of the Department of Development, or his designee, upon submission of the appropriate data regarding the proposed adjustment.

SECTION 4. That this ordinance is further conditioned upon the following development standards:

PROPOSED REDEVELOPMENT:

For this initial phase of the overall redevelopment, Applicant proposes a mix of residential housing types, with a majority of the lots to be developed as single-family residential lots. The following housing types shall be permitted for the Site:

- (1) Single-family residential lots
- (2) Two-family dwelling units
- (3) Multi-family dwelling units containing 3 or 4 units
- (4) Townhouse development, with a minimum of 3 attached units, separated by a common fire walls and common lot lines.

See the submitted site plan for the proposed breakdown of housing types. The site plan is intended to provide a proposed division of housing types; however, the final layout will be dependent upon market demand and other such factors.

Each sub-area as designated on the site plan shall have a maximum number of units that may be developed, as follows:

Sub-area A:	Maximum 9 units
Sub-area B:	Maximum 40 units
Sub-area C:	Maximum 44 units
Sub-area D:	Maximum 4 units

The residential lots will adhere to the existing development trend in the neighborhood of detached garages to the rear of the principal dwelling with alley access.

As part of this proposal Applicant anticipates a portion of the lots will be tailored to local artists, which lots will be modified to provide a comprehensive home/work site. Meaning, the proposed detached garages will be larger in area than the Code-required 720 sq. ft. maximum, and will incorporate habitable space in which the owner/artist may locate their work studio. A portion of the garage may be properly separated to provide the required off-street parking in addition to that studio space, but some lots may provide off-street parking spaces outside of the accessory structure.

Currently, the Site is situated on land previously platted for residential development. Due to the proposed mix of housing types and lot sizes, the final development will require a revised lot configuration to be achieved by lot splits and/or a re-plat of the land. Additionally, the existing alley ways in between Grant Avenue and Sixth Street are yet to be dedicated to the City of Columbus, and will be so dedicated as a part of this project.

Residential Development Standards:

This application seeks variances from the commercial standards of the underlying C-2 and C-4 zoning districts. While there is no residential zoning district with which this project could fully comply (due to the existing non-conforming conditions of the neighborhood; i.e., lot sizes and area standards), the proposal addresses the standards for residential development that would be required if the property were zoned residentially. The following minimum standards shall be committed to by the Applicant in order to more adequately detail the proposed project:

1. Setbacks:

- (a). All lots shall maintain a minimum two (2) foot setback from the front lot line.
- (b). Parking areas and structures along the alleys, and corner lots, shall have a minimum two (2) feet setback requirement.
- (c). Side yard setbacks shall be a minimum three (3) feet, except at the rear of the lots where some garages may have a two (2) foot side yard setback to account for garages on end lots. Further, as noted in Section 3, below, some garages will have a zero (0) side yard setback so that garages may be adjoined at the lot line to allow for better access from the alley and overall functionality.

2. Lot Widths:

- Single-Family lots: A minimum 26 feet for corner lots and 28 feet for interior lots
- Two-Family lots: A minimum 46 feet for corner lots and 48 feet for interior lots
- Three-Family lots: A minimum 54 feet for corner lots and 56 feet for interior lots*
- Four-Family lots: A minimum 70 feet on corner lots and 72 feet on interior lots.*

*Note: The above minimum lot widths apply only if the combined units remain on a single lot. Should the units be divided as townhouses, common lot lines shall separate the units and the combined lot widths shall maintain a minimum total width as would be required if the units were developed on a single lot.

3. Detached Garages:

As described above, several lots may be developed with detached garages that double as artist studios. For that reason, the following unique standards shall be permitted in order to implement this unique housing option:

- (a). Garages shall not exceed a height of thirty (30) feet

- (b). Garages may included habitable area to be used as studio work space, subject to requirements of the Ohio Building Code for proper separation and protection.
- (c). Garages may exceed the standard 45% lot coverage maximums (for residential development), due to the increase in size necessary to accommodate studio spaces.
- (d). Any lot which does not provide off-street parking within the garage/accessory structure shall provide the required parking elsewhere on the lot, accessible by the adjacent alley way.
- (e). Garages may be grouped so that a zero lot-line separation exists between garages on adjoining lots.

4. Miscellaneous:

- (a). Single-family, two-family, three- and four-family dwellings, whether grouped together on one lot or separated by common lot lines, may have a minimum individual net floor area for living quarters of six hundred (600) square feet.
- (b). The Site will be developed in accordance with the existing neighborhood trends, which include reduced lot sizes, setbacks and the like, and therefore the required vision clearance standards for residential lots may be reduced to two, 5-foot right-angle triangles formed by the intersection of a driveway pavement edge and street right-of-way line.
- (c). Street trees shall be planted within the designated tree lawns. Trees shall be of the State Street Maple variety or equivalent. Minimum tree caliper shall be 2 inches, but no larger than 3 inches to assure survival of transplanting. Trees will be spaced 30-40 feet apart to provide approximately one tree per each home, with clearance permitted for any obstacles within or along the tree lawns such as hydrants, walks, and drives. Trees will be regularly watered, and will be warranted by Developer for two years from the time of installation. Tree lawns shall be mowed by the Developer until the corresponding homes that they front are sold, at which time the homeowners will be responsible for maintenance. No bushes, perennials or any plantings other than trees will be permitted within the tree lawns.
- (d). Any grass medians along the public streets shall be improved with grass and trees only. No bushes, perennials, or plantings other than trees shall be permitted. Mowing and maintenance will be the responsibility of the City of Columbus.

SECTION 5. That this ordinance is further conditioned on the applicant obtaining all applicable permits and Certificates of Occupancy for the proposed uses.

SECTION 6. ~~That this ordinance shall take effect and be in force from and after the earliest period allowed by law.~~ **That for the reasons stated in the preamble hereto, which is hereby made a part hereof, this ordinance is hereby declared to be an emergency measure and shall take effect and be in force from and after its passage and approval by the Mayor or 10 days after its passage if the Mayor neither approves nor vetoes the same.**

DATE OF TEXT: January 29, 2010

APPLICATION NUMBER: Z09-037

1. INTRODUCTION:

The subject property ("Site") is located along East Broad Street, between Lucent Drive and Outerbelt Street, on the City's far east side. The Site is currently developed with an existing 4-story office building and adjacent parking lot, which will be renovated for the proposed medical service uses. The Site is currently zoned in the M-2, Manufacturing District.

The existing office building was most recently occupied by medical and/or administrative offices related to Mt. Carmel Health's nearby operations. The Applicant is proposing a medical service development with ground-floor retail spaces, most of which will be accessory to the primary medical services uses of the building. The Site is situated along an area of East Broad Street which is developed with a strong presence of medical office and hospital-type uses, including the Children's Hospital Urgent Care directly across Broad Street, as well as Mt. Carmel East Hospital. This text and the CPD site plan are being submitted to address the contemplated uses not currently permitted in the M-2 district and to identify various commitments to development standards, many of which represent existing site conditions.

2. PERMITTED USES:

The following uses shall be permitted for the Site: Those office uses permitted under the C-2 District, C.C.C. §3353.03 (A-E only); Drug Store and Pharmacy; Hospital; Retail and retail food service or cafeteria accessory to primary uses.

3. DEVELOPMENT STANDARDS:

Except as specified herein and on the submitted CPD Site Plan, the applicable development standards shall be as specified in Chapter 3356, C-4 Commercial District.

A. Density, Height, Lot and/or Setback Commitments.

1. Building Setback: The Building setback shall be fifty (50) feet, as depicted on the attached Site Plan.
2. Parking Setback: The parking setback shall be a minimum ten (10) feet from all property lines.

B. Access, Loading, Parking and/or Other Traffic-Related Commitments.

1. Any and all traffic-related commitments shall be designated and located to the specifications of the City of Columbus Transportation Division.
2. Curb cuts shall be approved by the City of Columbus Transportation Division. Access to and from the Site shall be as depicted on the submitted site plan.
3. There shall be a minimum 209 parking spaces onsite to serve the existing building and its uses, so long as the total required parking for the Site as calculated based on §3342.28 of the Zoning Code does not exceed 231 spaces. As noted in Section I (Variances Requested), should the required parking calculation for the building's uses exceed 231 spaces, additional parking shall be provided or an additional variance sought for the required parking.

C. Buffering, Landscaping, Open Space and/or Screening Commitments.

1. All parking areas adjacent to the public right-of-way shall have headlight screening parallel to the frontage, with a minimum height of 36 inches measured from the elevation of the nearest section of the adjacent parking area. Headlight screening may be in the form of an evergreen hedge, earth mounding or walls. The height of headlight screening may be reduced as needed adjacent to curb cuts to provide adequate vision clearance.
2. All existing street trees and site landscaping shall remain.
3. All trees and landscaping shall be well maintained. Weather permitting, dead items shall be replaced within six (6) months.
4. The minimum size of trees at the time of planting shall be as follows: Deciduous - 2 ½ inches; Ornamental - 1 ½ inches; Evergreen - 5-6 feet. The minimum size of shrubs shall be two (2) gallons. Caliper shall be measured 6 inches above grade.
5. Loading/service areas shall be screened from off-site view to a minimum height of four (4) feet by landscaping, fencing,

walls or buildings, used individually or in combination.

D. Building Design and/or Interior-Exterior Treatment Commitments.

1. Any mechanical equipment or utility hardware on the roof of a building shall be screened from view from ground level.
2. Building materials shall be brick, synthetic brick, concrete, stone, EIFS, metal, glass, synthetic stone, or a combination thereof.
3. Building(s) shall be finished on all sides/elevations with the same or similar level and quality of finish.

E. Dumpsters, Lighting, Outdoor Display Areas and/or Other Environmental Commitments.

1. All parking lot or ground-mounted lighting shall use fully shielded cutoff fixtures (down lighting), except there may be accent lighting (up lighting) on landscaping in the front of structures and ground signs, provided the fixtures are screened with landscaping to prevent glare.
2. All external outdoor lighting fixtures to be used shall be from the same or similar manufacturer's type to insure aesthetic compatibility.
3. Except for decorative lighting, all other light poles shall be metal or fiberglass and such light poles shall be of the same color. Light poles in the parking lots shall not exceed a maximum of twenty-eight (28) feet in height.
4. Building-mounted area lighting within the parcel shall utilize fully shielded cutoff style fixtures and be designed in such a way to minimize any off-site light spillage.
5. Any new or relocated utility lines shall be installed underground unless the applicable utility company directs or requires otherwise.
6. Dumpsters shall be screened from view on all four (4) sides to a minimum height of six (6) feet.

F. Miscellaneous Commitments.

1. The subject Site shall be developed in accordance with the submitted Site Plan. The Site Plan may be slightly adjusted to reflect engineering, topographical, or other site data developed at the time the development and engineering plans are completed. Any slight adjustment to the plan shall be reviewed and may be approved by the director of the Department of Development, or his designee, upon submission of the appropriate data regarding the proposed adjustment.
2. Centrally-located bike racks shall be installed onsite for employees and/or visitors.

G. CPD Requirements.

1. Natural Environment. The Site is developed with an existing 4-story office building and parking lot, and will remain largely the same following this rezoning, with the addition of an exterior elevator and stairwell on the building's west elevation.

2. Existing Land Use.

The site is currently vacant of tenants, but was previously used for medical and/or administrative offices by Mt. Carmel hospital.

3. Transportation and Circulation.

The Site will be accessed from Lucent Drive and Outerbelt Street, as currently situated, so as not to increase curb cuts along East Broad Street. The existing parking lot circulation and access points will remain as currently situated.

4. Visual Form of the Environment.

The existing uses/zoning of the surrounding properties are as follows:

West: Properties zoned CPD for retail uses; Mt. Carmel East Hospital, zoned L-M and CPD.

North: Various office buildings zoned in the M-2 District

East: Medical Offices zoned CPD; Office and/or industrial property zoned M-2; Self-Storage business zoned M-2
South: Gas station zoned CPD; Children's Hospital Urgent Care zoned CPD; Medical offices zoned CPD.

5. View and Visibility.

Significant consideration has been given to visibility and safety issues.

6. Proposed Development.

Medical offices and in-patient/hospital care, with ground-floor retail limited to those uses noted in Section 2 (Permitted Uses) above.

7. Behavior Patterns.

This area has existing traffic flows, including East Broad Street as the major thoroughfare, and the major roadways in and around the area.

8. Emissions.

Due to the nature of the use, there will be no relevant increase of or addition to emissions.

I. Variances Requested.

1. The Applicant requests a variance from C.C.C. §3342.28 (Minimum Number of Spaces Required), for a reduction in the total number of required parking spaces. Parking shall be as designated on the submitted CPD Site Plan and represents adequate parking for the proposed medical services facility. This variance shall permit the existing 209 parking spaces to accommodate any parking requirement up to 231 spaces for the building's combined uses. Should the calculated parking requirement exceed 231 spaces, additional parking will be required or a variance sought for the additional parking not accounted for by this variance.

2. Applicant requests a variance from C.C.C. §3356.11 (C-4 District Setback Lines), to properly permit the established 50-foot setback for the existing building. The C-4 District requires the building setback to be one-half of the total right-of-way as required by the Columbus Thoroughfare Plan. East Broad Street is classified as a 6-2-D arterial (160 feet of total right-of-way), which in turn requires an 80-foot building setback for the site if developed with C-4 standards. This variance is therefore requested to legitimize the current 50-foot building setback as previously established under the M-2 zoning district.

SECTION 4. That this ordinance shall take effect and be in force from and after the earliest period allowed by law.

Explanation1. BACKGROUND

The Division of Planning and Operations is responsible for Traffic Signals throughout the City which includes installation and ensuring the proper operation of the traffic control devices to promote pedestrian safety and expedite vehicular traffic flow. The Purchasing Office has solicited formal competitive bids for the purchase of traffic signals and traffic signal related equipment in the process of establishing universal term contracts (UTCs). This ordinance authorizes the expenditure of monies for traffic signals per the terms and conditions of these universal term contracts. A listing of the commodities, Vendors, UTCs and dollar amounts is attached to this ordinance.

The Purchasing Office also solicited bids for a wireless vehicle detection system. This system is an alternative to the wired system that is currently used at RR crossings. The current procedure requires the City to get a temporary easement from the railroad to install the wired system. This is a timely and costly method. The wireless system can be installed without the easement and is much less costly.

Two firms submitted bids for this product and Baldwin and Sours was the only firm to submit a complete bid:

SO033124 for Wireless Vehicle Detection Equipment had 2 responses, 1 was incomplete. Baldwin and Sours, Inc. was the lowest most responsive bidder for the amount of \$7,855.00.

The total cost of the commodities needed is \$681,514.84

This ordinance authorizes the purchases per the existing UTC contracts and successful bid with Baldwin and Sours, Inc., Tescos, Inc., Path Master, Inc., Traffic Control Products, Inc. and General Traffic Equipment Corp. to meet the Division's anticipated needs for this year for traffic signal equipment in the amount of \$681,514.84.

Version: 1

Current Status: Passed

Matter Type: Ordinance

Explanation

BACKGROUND: Portions of Plain Township were annexed to Columbus in 2009 using the Type One annexation petition process. This process, outlined in the Ohio Revised Code (ORC 709.021 & ORC 709.022), does not generally allow municipalities to conform the boundaries of the newly annexed territory. As a consequence, annexed lands remain in the township even though they have been annexed by the City - thereby having a "dual" status with respect to such things as tax obligations and elections. An exception to the boundary conformance prohibition is permitted (ORC 709.023(H)) if an annexation agreement between the municipality and township addresses the matter. The City of Columbus, Village of New Albany, and Plain Township entered into an annexation agreement in early 2008 (authorized by ordinance 2262-2006). The agreement stipulates that pursuant to the Ohio Revised Code (ORC 503), Columbus shall conform the boundaries of any annexed township lands within twelve (12) months following the City's acceptance. The subject area, depicted on an attachment A "City Growth Zone West," generally includes all territory south of Walnut Street in Plain Township that is currently in Columbus or becomes part of Columbus through annexation. The City recently accepted two annexations, totaling ± twelve (12) acres (Ordinance #'s 1419-2009 and 1718-2009) filed using the Type One annexation process. Under the terms of the agreement, the boundaries of these sites must be conformed.

Boundary conformance to Columbus involves the extension of Montgomery Township's boundaries to incorporate the subject areas. This ordinance seeks authorization for the Director of Development to submit a petition to the Board of Franklin County Commissioners to undertake this process for those areas annexed during 2009 under the 2008 annexation agreement. The petition will be filed in accordance with Section 503.07 of the Ohio Revised Code.

FISCAL IMPACT: No funding is required for this legislation.

Title

To authorize the Director of Development to submit a petition to the Board of County Commissioners of Franklin County, Ohio, requesting a change in the boundary lines of Montgomery Township, so as to make the boundary lines identical with the corporate limits of the city of Columbus in the certain portions of Plain Township pursuant to the Annexation Agreement between the City of Columbus, Plain Township and New Albany.

Body

WHEREAS, two annexations were accepted by Columbus in Plain Township in late 2009 and early 2010 (Ordinance #'s 1419-2009 and 1718-2009) using the Type One annexation petition process (see attachments B and C); and

WHEREAS, the Type One annexation process does not generally allow municipalities to conform the boundaries of the newly annexed territory, resulting in annexed territory having a "dual" status of being with both the city and township; and

WHEREAS, an exception to the conformance prohibition is permitted under ORC 709.023(H) if an annexation agreement between the municipality and township addresses the matter; and

WHEREAS, the City of Columbus, Village of New Albany and Plain Township entered into an annexation agreement in early 2008 which stipulates that Columbus will conform the boundaries of any township areas annexed after October 26, 2001 in the area designated as "City Growth Zone West;" and

WHEREAS, under the terms of the 2008 agreement, the City must conform the boundaries of subsequent annexations within 12 months following its acceptance of the parcels; and

WHEREAS, the referenced annexations are within the designated City Growth Zone West; and

WHEREAS, Columbus boundary conformance requires the extension of Montgomery Township boundaries to match those of the City (see attachment D); and

WHEREAS, such an action requires approval by the Board of Franklin County Commissioners; **now, therefore,**

BE IT ORDAINED BY THE COUNCIL OF THE CITY OF COLUMBUS:

Section 1. That pursuant to the provisions of ORC Section 503.07 the Director of Development is hereby authorized and directed on behalf of the City of Columbus to present to the Board of Franklin County Commissioners, a petition requesting such changes to the boundary lines of Montgomery Township so that said township may include that portion of Plain Township which has, by order of the Board of Franklin County Commissioners, been annexed to the City of Columbus in 2009 using the Type One annexation process, so as to make the boundary lines of Montgomery Township co-extensive with the corporate limits of the said city of Columbus in accordance with the maps attached to said petition. This boundary conformance is permitted by ORC Section 709.023 (H) and is required pursuant to the terms of an existing annexation agreement between the City of Columbus, Village of New Albany and Plain Township.

Section 2. That this ordinance shall take effect and be in force from and after the earliest period allowed by law.

Explanation

Background: As an incentive, the Development Department paid for roadway improvements to Olentangy River Road to accommodate the new developments at Gowdy Field. Matter Type: Ordinance

Explanation

The purpose of this legislation is to authorize the Director of Finance and Management to enter into contract with Applytech Inc. for the purchase of Siemens Gas Analyzers for the Division of Sewerage and Drainage.

Federal regulation contained in 40CFR Part 503 requires that the total hydrocarbon (THC) and oxygen emissions from bio-solid incinerators be continuously monitored. The current Continuous Monitoring System (CEMS) is currently being upgraded and as part of that project the analyzers being purchased will interface with the CEMS at each of the wastewater treatment plants. The current analyzers are outdated and need to be replaced.

The Purchasing Office opened formal bids on October 22, 2009. Nineteen (19) bids were solicited, 2 FBE. Three (3) bids were received. After review of the bids the Division of Sewerage and Drainage made a recommendation for all items to the lowest, responsive and responsible bidder, Just In Time Sales Corp. A bid tabulation is attached.

After the purchase order was approved and sent to the awarded company the manufacturer had raised their price on the item and would not honor the original amount. Just In Time Sales rescinded their award. (Letter attached). The Purchasing Office contacted the next low bidder, Applytech who agreed to honor the original price of their bid submitted on October 22, 2009. The Division of Sewerage and Drainage is requesting emergency legislation due to the delay in the process and because these items are necessary for incinerator rehabilitation at the Southerly and Jackson Pike Wastewater Treatment Plants and delay in obtaining and installing these items would result in sludge being hauled to the land fill as opposed to incineration.

Supplier: Applytech (25-1868778) Expires 9-21-11

Fiscal Impact: \$144,570.00 is budgeted and needed for this purchase.

The company is not debarred according to the Excluded Party Listing System of the Federal Government or prohibited from being awarded a contract according to the Auditor of State Unresolved Findings for Recovery Certified Search.

This modification (Mod #3) will increase the funding of the contract by an additional \$221,566.19 for construction administration - construction inspection services for the following projects: (1) Alton-Darby Creek Road 12" Water Main, Phase II, and (2) Clime Road Water Line Improvements.

Explanation

Background: The accounts receivable collection program within the City Attorney's Claims Section has been ongoing since 1996. At that time, the City Attorney interviewed firms with experience in government accounts receivable and choose Scoliere and Associates (now known as Linebarger, Goggin, Blair & Sampson LLP), and later, Capital Recovery Systems, Inc. to provide these services. These firms have done excellent work for the City over the ensuing years.

In 2009 a new program was implemented via ordinance 0130-2009 passed February 23, 2009 which adjusted the fee structure of the program. Effective April 1, 2009 on all new and existing accounts without payment plans in place a 30% fee is added to the total debt collected instead of being paid from the total amount collected. This will allow the City to recover 100% of the debts collected and the debtor will pay the additional 30% collection fee.

Continuing our relationship with our current collection firms will be valuable in keeping the new program running smoothly and efficiently. This ordinance authorizes the City Attorney to renew contracts with the above referenced collection firms for one year.

Contract Compliance Numbers:

Capital Recovery Systems Inc. 311570459-001 expires 01/12/12

Linebarger, Goggan, Blair & Sampson, LLP 742864602-001 expires 02/09/11

Fiscal Impact: This contract is self-funding and will result in additional revenues to the general fund. Fees are paid out of

monies collected by the firms. 100% of monies collected are remitted to the City and invoices from the collection agencies are paid monthly from funds collected.

Title

To authorize the City Attorney to renew contracts with Linebarger, Goggan, Blair & Sampson LLP and Capital Recovery Systems, Inc.; to authorize the City Attorney to expend up to Five Hundred Thousand and 00/100 Dollars from the Collection Fees Fund for services rendered pursuant thereto; to waive the competitive procurement provisions of the Columbus City Codes; and to declare an emergency. WHEREAS, Ordinance No. 3135-96 originally authorized the City Attorney to contract with Scoliere and Associates, now known as Linebarger, Goggin, Blair & Sampson LLP, and Ordinance No. 1833-98 originally authorized the City Attorney to contract with Capital Recovery Systems, Inc. for the collection of certain of the City's accounts receivables; and

Explanation

To accept the grant awarded to the Recreation and Parks Department and enter into contract with the Ohio Public Works Commission for the Clean Ohio grant program and appropriate the funds for acquisition. Grant title: **Lower Big Walnut-Lockbourne Preservation CCFAF**. The award is \$306,000.00. The City of Columbus' share is \$102,000.00. The total cost is \$408,000.00 for the acquisition of parkland.

The Ohio Public Works Commission awarded \$306,000.00 as a part of the Clean Ohio Grant program. This grant is for the acquisition of property in the Lower Big Walnut Creek corridor to preserve high quality habitat and preserve the Natural buffer in the floodplain, which aids in flood abatement.

The floodplain is maintained for no loss of flood storage function, so that the habitat is preserved, and so that the wooded buffer/trees are preserved to assist in air filtration and flooding. This corridor acquisition supports trail development, which had the highest rating recreational activity in the CRPD 2003 survey. The Clean Ohio grant program preserves valuable greenspace in communities and aids sustainability.

The Stream Corridor preservation is a core function of the department and a priority since the 1974 River Corridor study. Letters of support were submitted with the grant from Friends of Big Walnut Creek Watershed Group, and the project has the support of the Central Ohio Greenways Committee and the Natural Resources Advisory Council of MORPC. Recreation and Parks is part of the Central Ohio Greenways program and preserving river corridors is a priority of this organization.

This ordinance will enable the Director of Recreation and Parks to accept a grant and enter into an agreement with the State of Ohio - Ohio Public Works Commission, and provide for the appropriation of said funds to the Recreation and Parks Grant Fund. Funding has been awarded to purchase future parkland known as the "Lower Big Walnut Creek". The target completion date for this project is December 31, 2010.

This ordinance is submitted as an emergency to allow the financial transaction to be posted in the City's accounting system as soon as possible. Up-to-date financial posting promotes accurate accounting and financial management. Emergency action is also necessary to have funding available for necessary expenditures.

Total project cost estimated is to be \$408,000.00. A match of \$102,000.00 is required from the Recreation and Parks Department. The required local match will be provided from the Recreation and Parks Capital Improvement program dollars.

Fiscal Impact:

\$306,000.00 in grant funding will be used for the parkland acquisition. The fiscal impact of this ordinance will be to reduce the Recreation and Parks Grant Fund's unappropriated balance by \$306,000.00. The expenditure of \$306,000.00 is budgeted in the Recreation and Parks Grant Fund.

The City of Columbus, acting by and through its Director of Recreation and Parks, is required to grant approval to the organizer of this event so they may obtain the required permit from the Ohio Department of Commerce, Division of Liquor Control.

This legislation allows a city street to be the host site for this charitable organization to host an event as a community fundraising endeavor with proceeds going back to the community.
