Version: 1

Matter Type: Ordinance

Explanation

Background: This ordinance authorizes the Franklin County Municipal Court Clerk (herein referred to as "Municipal Court Clerk") to enter into the third year of a three year contract with Capital Recovery Systems, Inc. for the provision of collections services and authorizes expenditure of \$100,000.00.

The second tier collection services have been ongoing since 1998. These services have been very successful in collecting fines and costs that would otherwise be uncollectible. Since the Municipal Court Clerk does not have the resources in-house to adequately pursue these services the Clerk believes it is in the City's best interest to out-source the collection services. The contract is self-funding in that the percentage charged for collecting the receivables is added to the total debt collected, pursuant to ORC 2335.24; thereby negating any costs to the City of Columbus for this service.

Contracts:

2008 -Original Contract - EL008218 - \$190,000.00; Ordinance 0825-2008

2009 - First Modification - EL009400 - \$90,000.00; Ordinance 0705-2009

This company is not debarred according to the excluded party listing system of the Federal Government or prohibited from being awarded a contract according to the Auditor of State unresolved finding for recovery certified search.

Contract Compliance Number: 31-1570459

Expiration Date: 1/12/2012

Fiscal Impact: The contract is self-funding and will result in additional revenues to the general fund. No payment of services will be made until monies for the collection of the accounts receivables are deposited with the Municipal Court Clerk and subsequently with the City Treasurer. Funds totaling \$100,000.00 are available in the Municipal Court Clerk's 2010 collection fund budget appropriations.

Emergency: Emergency declaration is requested for the continuity of the collection process.

Title

To authorize and direct the Municipal Court Clerk to enter into contract with Capital Recovery Systems, Inc. for the provision of collection services; to authorize an expenditure of \$100,000.00 from the Municipal Court Clerk Collection Fund; and to declare an emergency. (\$100,000.00)

Body

Whereas, it is necessary for the Municipal Court Clerk to enter into a contract with Capital Recovery Systems, Inc., for the provision of collection services for the Municipal Court Clerk accounts receivables; and,

Whereas, an emergency exists in the daily operations of the Municipal Court Clerk, in that it is immediately necessary to authorize said contract for the collection services without interruption, for the immediate preservation of the public peace, health, safety and welfare, now therefore

BE IT ORDAINED BY THE COUNCIL OF THE CITY OF COLUMBUS:

Section 1. That the Municipal Court Clerk is authorized and directed to enter into the third year of a three year contract with Capital Recovery Systems, Inc., to provide services for the collection of the Municipal Court Clerk accounts receivables.

Section 2. That the expenditure of \$100,000.00 or so much thereof as may be necessary is hereby authorized to be expended from the Municipal Court Clerk Collection Fund, department 2601, fund 295, subfund 002, oca 261295, object level one - 03, object level three - 3336.

Section 3. Explanation1. BACKGROUND

The City of Columbus, Department of Public Service, Division of Design and Construction, and the Department of Public Utilities Division of Sewerage and Drainage, are engaged in the Minnesota Avenue Roadway and Sewer Improvement project. This legislation authorizes the Director of Public Service to enter into contract for the construction of the Minnesota Avenue Roadway and Sewer Improvement project. This improvement Reconstructs Minnesota Avenue between Joyce Avenue and Parkwood Avenue and includes street trees in grassy tree lawns, sidewalks (2400 feet), curb ramps (23), street lighting, curb and gutter, and storm sewer improvements. These improvements will provide multi-modal transportation facilities and improve drainage.

The pedestrian generators that this project serves include the East Linden Elementary School. Pedestrian Quality of Service analyses show a marked improvement in that sidewalks are

being constructed where there are presently no pedestrian facilities.

The estimated Notice to Proceed date is June 8, 2010. The project was let by the Office of Support Services through vendor services. 7 bids were received on April 15, 2010 (7 majority, 0 minority) and tabulated on April 9, 2010 as follows:

Matter Type: Ordinance

Explanation Ordinance 0448-2007 provided for the grant acceptance and appropriation of funds to the Recreation and Parks Grant Fund to purchase future parkland known as "Big Walnut Creek South Corridor Protection" grant (\$596,100) from the State of Ohio, Ohio Public Works Commission, Project CCDAA. This amendment is to adjust the contract amount from \$596,100 to \$670,100. The City of Columbus' share went from \$210,000 to \$235,440. The total contract amount is changed from \$806,100 to \$905,540. The increase in the grant amount is necessary to acquire parkland for the Clean Ohio program.

The increase in the grant amount will provide additional funding to complete acquisition of property in the Big Walnut Creek corridor to preserve high quality habitat and vernal pools, to preserve the natural buffer in the floodplain, and to aid in flood abatement. This grant will also help complete the Big Walnut Creek Greenway.

From a functionality standpoint, maintenance of the floodplain is important to prevent no loss of flood storage function or habitat, to insure forested vernal pools are preserved, and so the wooded buffer/trees are protected so as to assist in air filtration and flooding. In addition, corridor acquisition supports trail development, which has the highest rating recreational activity in the CRPD 2003 survey. Clean Ohio grant programs preserve valuable greenspace in communities and aids sustainability.

Stream corridor preservation is also a core function of the department and has been a main concern since the 1974 Waterways Corridor study. Recreation and Park is part of the Central Ohio Greenways program and preserving river corridor is a priority for this group. The parcel that will be acquired relative to this amendment is identified for preservation in the Big Walnut Creek Watershed Action Plan submitted to the OEPA. The Natural Resource Assistance Council for the Clean Ohio program in Franklin County has approved the increase in the dollar amount of the grant.

Financial Impact :

This ordinance will enable the Director of Recreation and Parks to accept grants and enter into agreements with the State of Ohio - Ohio Public Works Commission, and provide for the appropriation of said funds to the Recreation and Parks Grant Fund. Funding has been awarded to purchase future parkland known as "Big Walnut Creek South Corridor Protection."

Legislation Number: 0733-2010

Drafting Date: 05/07/2010

Version: 1

Current Status: Passed

Matter Type: Ordinance

Explanation

BACKGROUND: In response to the housing mortgage crisis, the City of Columbus was awarded \$22,845,495.00 of Neighborhood Stabilization Program (NSP) grant funds from the U.S. Department of Housing and Urban Development

(HUD). The City of Columbus has 18 months ending September 2, 2010 to obligate the entire grant. These funds will provide for the purchase of foreclosed or abandoned properties, and the redevelopment, rehabilitation or demolition of these properties in order to stabilize neighborhoods and stem the decline of values of neighboring homes.

This legislation will allow for the completion of asbestos abatement, a prerequisite to the demolition portion of the NSP program, for the properties in EE007939, EE007981, EE007982, and EE008126 by authorizing the Development Director to modify three contracts with Safeco Environmental, Inc. and one contract with Hina Environmental Solutions, LLC to provide asbestos abatement services on blighted vacant structures.

Safeco Environmental, Inc. was selected from a pool of five companies that responded to the request for bids under the informal bid process in City Code 329.08 for SO-033215 and SO-033217 and six companies for SO-033115. Hina Environmental Solution, LLC was selected from a pool of five companies that responded to the request for bids under the informal bid process in City Code 329.08 for 2010 SO-033669. The Land Redevelopment Office expected the contracts to be under \$20,000.00; however, the cost for additional asbestos abatement that was not foreseen before the bidding is \$22,340.00 for EE007939, \$21,220.00 for EE007981, \$13,000.00 for EE007982, and \$18,162.00 for EE008126, exceeding the limit for informal bidding. Each company provided its best estimate of the cost to complete the abatement of the structures in their respective contracts and it is by that amount that the contracts need to be increased. The companies were selected based on lowest bid, prior experience, and qualifications. The formal bidding process must be waived to modify these contracts under City Code 329.16 and 329.09.

Safeco Environmental, Inc., Contract Compliance #03-0396927 (Expires 02/26/12)
Hina Environmental Solutions, LLC Contract Compliance # 26-1342009 (Expires 02/02/2011)

FISCAL IMPACT: Funding is available from a \$22,845,495.00 Neighborhood Stabilization Program (NSP) grant from the U.S. Department of Housing and Urban Development (HUD). The Department's 2009 NSP budget includes funds for the abatement of asbestos prior to the demolition of properties.

Explanation

BACKGROUND: The Finance and Management Department, Office of Construction Management, employs personnel that are engaged in overseeing various construction and building renovation capital projects. These personnel are budgeted within, and paid from, the General Fund. These costs can be capitalized. Doing so is consistent with earlier efforts by the Office of Construction Management to reimburse the General Fund when the General Fund incurred expenses more appropriate to capital improvement funding. Most recently, Ordinance No. 1591-2009, passed December 9, 2009, authorized \$268,750.00 for these purposes. The Office of Construction Management tracks the hours each employee works on individual projects and bills these hours back to the proper capital project. This process can help save the General Fund over \$400,000.00 per fiscal year.

Emergency action is requested so that the reimbursement of the General Fund, as projected in the First Quarter Financial Review, can occur as quickly as possible. It was impossible to present this ordinance earlier, as only recently has the bond sale/Special Income Tax certification list been completed. Up to date financial posting promotes accurate accounting and financial management.

Fiscal Impact: This expenditure is budgeted and available within the Construction Management Capital Improvement Fund and the Safety Voted Bond Fund. This ordinance authorizes the expenditure of \$432,000.00 or so much thereof as may be necessary for this purpose.

Matter Type: Ordinance

Explanation1. BACKGROUND

This legislation authorizes the Director of Public Service to modify and increase the professional engineering services contract for the General Engineering Contract 2008 #1 with M-E Companies Inc, in the amount of \$50,000.00.

Work to date includes: Worksheets for ADA ramp designs, retaining wall designs, bikeway design plans, geotechnical studies and plans for safety improvements at a high crash location.

This modification is needed to assure timely completion of the project design and the Division of Design and Construction does not maintain adequate staff or all of the various disciplines necessary to complete such design in house. At the time when M-E's original design contract was legislated, the inclusion of the Downtown Bike Connector project was not

anticipated.

It is anticipated that work will include development of design plans for an on-street bikeway that will link the existing Olentangy, Scioto, and Alum Creek Trails. This bikeway will be referred to as the Downtown Bikeway Connector. The original contract was \$250,000 authorized by ordinance 0563-2008. This is modification #1. It is desired to increase the contract amount by \$50,000 to ensure funds are available for bikeway design and other engineering and analysis. The total contract amount including this modification is \$300,000.00.

Searches in the Excluded Party List System (Federal) and the Findings for Recovery list (State) produced no findings against M-E Companies Inc.

2. CONTRACT COMPLIANCE

M-E Companies Inc's contract compliance number is 311442777 and expires 2/6/12.

3. FISCAL IMPACT

Funds in the amount of \$50,000.00 are available in the Street and Highway Improvement Fund for the Department of Public Service.

Explanation1. BACKGROUND

This legislation authorizes a modification to the design contract with DLZ Ohio, Incorporated, for the Hilliard Rome Road project. This project is being designed to reconstruct and widen Hilliard Rome Road from Westchester Woods Boulevard to south of Roberts Road. Total project length is 1.19 miles. The construction includes the addition of three (3) new traffic lanes, sidewalks, tree lawns, bike lanes and utility relocation. It is estimated to have a project completion date of June, 2012.

1.19 miles of 5 foot wide sidewalk will be added or reconstructed in this project on the east and west sides of Hilliard Rome Road, along with 10 foot wide bike lanes. 50 ADA ramps will be added or reconstructed in this project. There are 2 bus stops and transit routes within the limits of this project.

This project complies with the recommendation of the Pedestrian Thoroughfare Plan because the Division of Mobility Options reviewed walk widths for anticipated future activity.

Pedestrian generators and destinations impacting the proposed project include SilverHorn Shopping Center, Tanglewood Park Plaza, Huntington National Bank, Lake Spur Apartments, Wendy's and other businesses along the corridor.

Environmental "Green" materials or processes associated with this project include inclusion of street trees along Hilliard Rome Road.

This contract modification is necessary to include engineering services during construction and the cost to update traffic and lighting plans based on changed conditions and changed specifications.

It is necessary to modify the existing design contract with DLZ Ohio, Incorporated because they have project knowledge from developing the drawings to address future design issues that arise on site during construction.

The original contract amount was \$438,862.00.

Due to the length of time that passed from initial start of design and changes in Ohio Department of Transportation standards, numerous items and field survey had to be updated before a stage II submission could be completed. This work required a modification in the amount of (\$303,734.00); this modification allowed wage rate changes to reflect the wages currently paid by the consultant for the specific disciplines needed to do the work.

A second modification in the amount of \$54,840.00 was required to pay the consultant for attendance at seven additional project meetings, preparation of exhibits for public meeting, design of a third drainage outlet, additional survey required to incorporate construction from Nike Drive Improvement which was not part of the original contract, update right of plans and legal descriptions created by right-of-way acquisition, edit field survey and additional plan revisions

The amount of this requested modification is \$58,907.59. The total of all modifications is \$417,481.59. The contract amount, including all modifications is \$856,343.59.

Searches in the Excluded Party List System (Federal) and the Findings for Recovery list (State) produced no findings against DLZ Ohio, Incorporated.

2. CONTRACT COMPLIANCE

DLZ Ohio Inc.'s Contract Compliance number is 311268980, and it expires 3/10/11.

3. FISCAL IMPACT

Funds to pay the City share \$47,126.07 (80 %) of this modification is available within the Street and Highway Improvement Fund. This amount will be transferred to the Federal State Highway Engineering Fund. The entire cost will be appropriated and expended within the Federal-State Highway Engineering Fund. This ordinance authorizes the expenditure of \$58,907.59.

4. EMERGENCY DESIGNATION

Emergency action is requested so that design services will be available during the construction of this project consistent with the State's schedule.

Title To authorize the Director of Public Service to modify and increase the contract with DLZ Ohio Incorporated for the Hilliard Rome Road project for the Division of Design and Construction; to authorize the City Auditor to transfer cash and appropriation in the amount of \$47,126.07 within and from the Street and Highway Improvement Fund to the Federal State Highway Engineering Fund; to appropriate \$58,907.59 within the Federal State Highway Engineering Fund; to authorize the expenditure of \$58,907.59 or so much thereof as may be needed from the Federal State Highway Engineering Fund; and to declare an emergency. (\$58,907.59).

Body WHEREAS, contract no. CT-19809 was authorized by ordinance no. 2327-98, passed October 16, 1998, executed and approved by the City Attorney on October 23, 1998; and

WHEREAS, ordinance 1373-2005 authorized modification #2 for this contract in the amount of \$303,734.00 for the purpose of updating plans to newer standards; and

WHEREAS, ordinance 0729-2007 authorized modification #3 for this contract in the amount of \$54,840 to provide additional design services to update plans to incorporate additional comments received on Right-of-Way and roadway plans, design of one (1) additional signal, provide drainage plans not in the original scope, edit field survey and provide as-built plans; and

WHEREAS, it is necessary to modify this contract to include engineering services during construction and the cost to update traffic and lighting plans based on changed conditions and changed specifications; and

WHEREAS, an emergency exists in the usual daily operation of the Public Service Department, Transportation Division, in that the contract should be modified and increased immediately so that the work may proceed without delay, thereby preserving the public health, peace, property, safety and welfare; now, therefore

BE IT ORDAINED BY THE COUNCIL OF THE CITY OF COLUMBUS:

Section 1. That the Director of Public Service be and is hereby authorized to modify and increase contract no. CT-19809, with DLZ Ohio Incorporated in order to include engineering services during construction and the cost to update traffic and lighting plans based on changed conditions and changed specifications for the Hilliard-Rome Road project in accordance with the plans on file in the office of Support Services.

Explanation

BACKGROUND: The Division of Police Crime Lab's Gas Chromatographs / Mass Spectrometers (GCMS) instruments aid in the identification and analysis of controlled substances (drugs). This equipment is used to process and present evidence for criminal prosecutions, which requires our strict adherence to rules of evidence and established, mandatory timeliness. Consequently, the Division of Police has a need to modify and renew a contract (ED036647) for maintenance and repair services with Agilent Technologies, Inc. in order to: 1) ensure timely repair of broken equipment, 2) prevent the potential backlog of casework that could negatively impact the outcome of court cases, and 3) adequately protect the City's investment.

BID INFORMATION: The Division of Police is requesting to issue this contract in accordance with provisions of sole source procurement based on: 1) the inherent risk that services provided by a third party may invalidate instrument warranties and original instrument purchase terms, and 2) that Agilent is the sole source for factory recommended replacement parts.

Explanation

BACKGROUND: For the option to purchase Firefighter Turnout Gear for the Fire Division in order to provide protection to firefighters when battling fires. The term of the proposed option contract would be three (3) years with an option to renew for two (2) additional one-year extensions, if mutually agreed upon. The initial term of the contract is through March 31, 2013.

The Fire Division conducted an evaluation process of the turnout gear products of six (6) manufacturers, after developing a basic specification of the gear that best met the Division's protective needs. The manufacturers each agreed to provide ten (10) sets of their gear to undergo the evaluation. Each set was put through combative and non-combative testing over several months and the firefighters involved in the evaluation documented their findings. In addition, objective data such as wear, protective aspects and serviceability were compiled. The Fire Division's Research and Development Office and the Personal Protective Equipment Clothing Committee reviewed the data and determined that the Morning Price (dba Honeywell) fire gear rated superior to the other manufacturers. Based on the testing and evaluation, a final specification was developed for the Morning Pride turnout gear.

Once it was determined that Morning Pride was the only acceptable gear, it was also determined that Morning Pride was the only available supplier. This is for two reasons: 1) Because of the size of the Columbus Fire Division, only the Morning Pride manufacturer would be able to provide the necessary gear to the City; 2) Since there were specialized proprietary aspects to the turnout gear that only Morning Pride can provide, no other bidders would be able to meet the Division's specifications. The Purchasing Office determined that the sole source process was the only means available to enter into contract with Morning Pride.

Therefore, this purchase is being pursued in accordance with Section 329.07 Sole Source provisions of the Columbus City Code (Solicitation No. SA003590). The Fire Division and the Purchasing Office has determined the only source for the Fire Division's Turnout Gear is Morning Pride Manufacturing dba Honeywell First Responder Products.

The Purchasing Office is recommending award of a contract to the sole provider:

Morning Pride Manufacturing dba Honeywell First Responder Products,

CC# 31-1608763 (Expires 5/4/2011).

Total Estimated Annual Expenditure: \$300,000.00.

This company is not debarred according to the Federal Excluded Parties Listing or the State Auditor's Findings For Recovery Database.

This ordinance is being submitted as an emergency because, without emergency action, no less than 37 days will be added to this procurement cycle and the efficient delivery of valuable public services will be slowed.

FISCAL IMPACT: Funding to establish this option contract is budgeted in the Mail, Print Services and UTC Fund. The Fire Division will be required to obtain approval to expend from their own appropriations for their estimated annual expenditures.

Title

To authorize and direct the Finance and Management Director to enter into a contract for an option to purchase Firefighter Turnout Gear, with Morning Pride Manufacturing dba Honeywell First Responder Products, to authorize the expenditure of one (1) dollar to establish the contract from the Mail, Print Services and UTC Fund, and to declare an emergency. (\$1.00).

Body

WHEREAS, the Purchasing Office pursued a contract in accordance with the Sole Source provisions of the Columbus City Code and selected the sole provider; and

WHEREAS, this ordinance addresses Purchasing objectives of 1) maximizing the use of City resources by obtaining optimal products/services at low prices and 2) encouraging economic development by improving access to City bid opportunities and 3) providing effective option contracts for City agencies to efficiently maintain their supply chain and service to the public; and

WHEREAS, because the Firefighter Turnout Gear is used to protect Firefighters exposed to dangerous situations during the course of their daily employment and because the Fire Recruit class begins in June and a source of supply is needed for the recruits, this is being submitted for consideration as an emergency measure; and

WHEREAS, an emergency exists in the usual daily operation of the Fire Division in that it is immediately necessary to enter into a contract for an option to purchase Firefighter Turnout Gear, thereby preserving the public health, peace, property, safety, and welfare; now, therefore,

BE IT ORDAINED BY THE COUNCIL OF THE CITY OF COLUMBUS:

SECTION 1. That the Finance & Management Director be and is hereby authorized and directed to enter into the following contract for an option to purchase Firefighter Turnout Gear for the Fire Division for the term ending March 31, 2013, with the option to extend the contract for two (2) additional (1) one-year periods if mutually agreed upon, in accordance with Solicitation No. SA003590 as follows:

Morning Pride Manufacturing dba Honeywell First Responder Products, All items, Amount: \$1.00

SECTION 2. That the expenditure of \$1.00 is hereby authorized from the Mail, Print Services and UTC Fund, Organization Level 1: 45-01, Fund: 05-517, Object Level 3: 2270, OCA: 451130, to pay the cost thereof.

Explanation

The City of Columbus employs approximately 540 staff in its core administrative buildings (City Hall, Beacon Building, 109 North Front). The City has worked diligently for several years to explore and identify viable alternatives including the leasing and acquisition of additional property to provide parking for its core operations, public visitation, and invited guests. The availability of convenient and affordable parking is a key tool in recruiting and retaining qualified staff to work in downtown City Offices and to provide public access.

During the next phase of the Downtown Campus construction project, approximately 275 existing parking spaces located around City Hall, 109 North Front and Ludlow Alley will be lost permanently. Based on current market parking rates in the parking garages most proximate to City Hall, the cost to the City to lease a comparable number of parking spaces is estimated at \$345,000 per annum. In addition, the City currently leases approximately 90 parking spaces in the 98-102 North Front Street parking garage for vehicles used in Division of Police operations at a cost of approximately \$120,000 per annum. The annual cost of leasing the required parking spaces to support both the core operations and the Division of Police operations, at current parking rates, is estimated at \$465,000 annually.

Due to a bankruptcy proceeding, the City has the opportunity to purchase the 98-102 North Front Parking Garage, Franklin County Tax Parcel ID 010-016277 from 98 North Front Street, LLC. This parking facility is proximate to the City Hall Campus and contains approximately 390 parking spaces as well as, approximately 4,950 square feet of office space. The purchase price for the property, including all associated costs of acquisition, will be up to \$3,000,000.00. The acquisition price is subject to final negotiation and acceptance by the appointed receiver, creditors, and the court overseeing the bankruptcy proceeding.

The acquisition and renovation of this garage facility will allow the City to obtain convenient, safe and secure replacement parking to support its core operations, avoid the General Fund expense for leasing 275 parking spaces that will be permanently lost due to construction of the next phase of the City Hall Campus, and eliminate the expense of leasing 90 parking spaces to support vehicles used in Division of Police operations.

Fiscal Impact: This project is funded in the 2010 Capital Improvement Budget. However, bonds have yet to be sold for the project, necessitating a certification of \$3,000,000.00 against the Special Income Tax Fund. Funding for this purchase will be certified against the Special Income Tax Fund and then subsequently reimbursed when the next bond sale is completed.

Emergency Justification: Emergency action is requested to allow for the immediate execution of the purchase agreement by the City so that the acquisition can proceed in agreement with the closing transaction deadlines and other terms of the purchase contract

Except that such certificate shall not be issued for obligations pertaining to "Capital Outlay" in programs or activities funded by federal or state categorical grants without the prior approval of the Director of the Department of Finance and Management; such prior approval must be obtained before submission of any requisition for items coded as "Capital Outlay" to the Department of Finance and Management. Explanation

Background:

Ordinance 0688-2008 authorized the City Auditor to appropriate and transfer funds within the Permanent Improvement Fund 748 for the Income Tax E-Payment project for acquiring capital improvement equipment and products used to provide electronic data and document management. As a result of better than anticipated pricing when items were bid, re-allocation of other resources, and other cost saving measures, \$37,067.12 remained on AC028456-001. These funds are no longer needed for this project, but the Division of Income Tax and the City Attorney's Office has additional needs for improving data management efforts for delinquency collections.

Income Tax collects and matches data with the IRS to ensure accurate filings. In order to utilize this program, the system must meet stringent IRS regulations for logging activity. Currently, there is a need to increase the storage capacity to load more recent data. Additionally, Income Tax attempts to collect revenue due to the City of Columbus, such as Income Tax and Hotel/Motel Tax, and refers delinquencies to the City Attorney's office for additional collection efforts. The City Attorney enters claim information into an Income Tax Claims tracking system that is part of the Income Tax system database and is supported by the Department of Technology. System improvements are needed to enhance the ability to track judgments obtained by the City Attorney. Both these enhancements will assist the City in better identifying, locating, and collecting unpaid Income and Hotel/Motel taxes still owed to the City.

The purpose of this legislation is to enable the Office of the City Auditor and the Division of Income Tax to appropriate and transfer \$37,067.01 within the General Permanent Improvement Fund 748 to purchase additional storage, software, hardware, services, and any related products necessary to enhance office operations and effectively collect monies due to the City. All items to be purchased will be processed via the standard bidding processes, Purchasing Office UTC contracts, or obtained through internal services with the Department of Technology.

Fiscal Impact:

This legislation will use existing funding made possible through the cancellation of the remaining balance of \$37,067.12 on AC028456-001 in the General Permanent Improvement Fund 748.

Title

The Franklin Park Conservatory and the Recreation and Parks Department completed a Joint Master Plan for improvements to the Conservatory and Park. Explanation

BACKGROUND: The need exists to enter into an Enterprise Zone Agreement with Menard, Inc. The Ohio Enterprise Zone law O.R.C. Section 5709.62 (3) requires the City to enter into a Council-approved agreement between the City and participating companies. This ordinance authorizes the Director of Development to enter into an Enterprise Zone Agreement with Menard, Inc. for a tax abatement of seventy-five percent (75%) for a period of ten (10) years on real property improvements in consideration of a \$11.5 million investment in real property improvements and personal property and the creation of 80 new full-time permanent positions.

Menard, Inc., (Menards) is a Wisconsin Corporation, established for the purpose of home improvement and building supply materials. During the 1970s and 1980s, Menards opened building supply stores in a five-state area including: Wisconsin, Iowa, North and South Dakota, and Minnesota. By 1986, Menards ranked 15th among the top home improvement chains, with estimated sales from the 34 outlets approaching the half billion mark.

Menards celebrated the opening of its 150th store in early 2000. Columbus will be the home of the next Menard's facility. The redevelopment known as Northland Village will be site of the new store. The former Northland Mall is one of the targeted areas of redevelopment for the City of Columbus. The construction of the Menard's facility will continue to encourage growth and redevelopment for the Northland Village. The specific location is 1819 Morse Road.

The Department of Development recommends a 75%/10 year tax abatement on real property improvements. The proposal is consistent with the Columbus Tax Incentive Policy under Edge City projects. The Columbus School District has been advised of this project.

Emergency action is necessary to allow construction to begin immediately within Northland Village.

FISCAL IMPACT: No funding is required for this legislation.

Explanation
AN09-008

BACKGROUND: This ordinance is being submitted to set forth the municipal services and zoning conditions the city of Columbus will provide upon annexation of a territory located in Prairie Township. This ordinance is required by the Ohio Revised Code (ORC) as enacted by the General Assembly of the State of Ohio. An annexation petition has been filed with Franklin County for this property. A service ordinance must be passed before the annexation meeting takes place before the Board of County Commissioners of Franklin County. Information regarding municipal services that would be available, should the subject site be annexed, has been compiled and is reflected in this ordinance. Should the petition be approved by the County Commissioners, a second City ordinance accepting the annexation will be required to complete the process.

The time frames specified in the ORC require that this legislation be filed as emergency.

FISCAL IMPACT: The statement of municipal services and zoning conditions for a proposed annexation area has no fiscal impact. While provision of the stated services does represent cost to the city, annexation of land also has the potential to create revenue to the city.

Title

To set forth a statement of municipal services and zoning conditions to be provided to the area contained in a proposed annexation (AN09-008) of .93± acres in Prairie Township to the City of Columbus as required by the Ohio Revised Code; and to declare an emergency.

Body

WHEREAS, a petition for the annexation of certain territory in Prairie Township was duly filed on behalf of GP Portfolio Landlord #3, LLC on May 25, 2010; and

WHEREAS, a hearing on said petition is scheduled before the Board of County Commissioners of Franklin County on June 29, 2010; and

WHEREAS, the Ohio Revised Code requires that before said hearing the Municipal Legislative Authority shall adopt a statement indicating what services, if any, the municipal corporation will provide to the territory proposed for annexation upon annexation; and

WHEREAS, the Ohio Revised Code requires that before said meeting the Municipal Legislative Authority adopt an ordinance stating zoning buffering conditions; and

WHEREAS, properties proposed for annexation are included within the Westland planning area; and

WHEREAS, upon annexation, properties will have uniform access to City services as they become available; and

WHEREAS, an emergency exists in the usual daily operation of the Department of Development in that it is immediately necessary to present this ordinance to the Franklin County Board of Commissioners in accordance with the Ohio Revised Code, all for the preservation of the public peace, property, health safety and welfare; **now, therefore,**

BE IT ORDAINED BY THE COUNCIL OF THE CITY OF COLUMBUS:

Section 1. That the city of Columbus will provide the following municipal services for .93 ± acres in Prairie Township upon the annexation of said area to the city of Columbus:

Public Safety: The City of Columbus, Department of Public Safety will be able to provide the appropriate level of safety related services to the proposed annexation area. Such services will include police and fire protection as well as emergency medical service to the subject property.

While the petitioner for annexation may have proposed future development plans for the property in question, the Department of Public Safety requests that the City exercise its discretion in the coming development planning and review process to ensure any future development will be properly served by the Department of Public Safety. Discussions between the City and the present property owner or any future developers regarding post annexation changes in zoning or other changes to the property should include the Department of Public Safety and the Department of Development to ensure any proposed development of the annexation property may be adequately accommodated. Specific details for safety services are dependent upon the parameters of future development that is ultimately approved by the City.

Sanitation: Residential refuse collection services will be available for residential uses upon annexation of the property. However, commercial uses are required to provide their own refuse collection.

Transportation: Maintenance will be available for any additional right-of-way that may be included in this annexation request. If this annexation contains existing signalized intersections, those intersections and signals are subject to Transportation Division Policy, which appeared in the December 6, 2003 Columbus City Bulletin, and any subsequent updates thereto.

Water: The site will be served by the existing 16" water main located on the north side of West Broad Street.

Sewer:

Sanitary Sewer: The site can be served by an existing 8-inch sanitary sewer located within an easement abutting the subject property in the vicinity of the southwest property corner. Permission to tap the sewer is required.

Storm Sewer: All storm sewers necessary for development/redevelopment of the area shall be designed in accordance with design policy and zoning codes in effect at the time of development.

All sanitary and storm sewers required shall be constructed privately by the owners/developers at their own cost and expense with no cost to the city.

Section 2. If this .93± acre site is annexed and if the City of Columbus permits uses in the annexed territory that the City of Columbus determines are clearly incompatible with the uses permitted under current county or township zoning regulations in the adjacent land remaining within Prairie Township, the Columbus City Council will require, in the zoning ordinance permitting the incompatible uses, the owner of the annexed territory to provide a buffer separating the use of the annexed territory and the adjacent land remaining within Prairie Township. For the purpose of this section, "buffer" includes open space, landscaping, fences, walls, and other structured elements: streets and street right-of-way; and bicycle and pedestrian paths and sidewalks.

Section 3. That for the reasons stated in the preamble hereto, which is hereby made a part hereof, this ordinance is hereby declared to be an emergency measure and shall take effect and be in force from and after its passage and approval by the Mayor or ten days after passage if the Mayor neither approves nor vetoes the same.
