**Explanation**

**BACKGROUND:** In 2002, the Division of Police purchased and implemented a computerized Ohio Based Reporting System/National Incident Based Reporting System (OIBRS/NIBRS), per Ordinance 2253-01 passed 12/17/01, for offense and complaint/incident reports. As part of the original contract, the Division was provided the option to renew for five (5) additional, one-year annual software support and maintenance terms. In 2008, a new contract with the existing vendor was entered into (EL008219) and made effective March 1, 2008 under the authority of Ordinance (0538-2008). The terms of contract EL008219 allow for the option to renew four (4) additional one (1) year terms. Therefore, the Division of Police seeks to renew the existing contract for a third year of software support and maintenance services.

**Bid Information:** Ordinance 0538-2008 was authorized in accordance with Section 329.07 (e) (Sole Source) of the Columbus City Codes, due to the proprietary nature of the software currently in use by the Columbus Division of Police. The cost associated with these services was negotiated with the supplier to ensure the best pricing for the City of Columbus and the Division of Police.

This company is not debarred according to the Federal excluded parties listing or prohibited from being awarded a contract according to the Auditor of State unresolved finding for recovery certified search.

Contract Compliance No.: 36-1115800, Expires 04/08/2012

Explanation
Rezoning Application Z09-041

APPLICANT: Southland Self Storage LLC; c/o David L. Hodge, Atty.; Smith and Hale; 37 West Broad Street, Suite 725; Columbus, OH 43215.

PROPOSED USE: Self-storage.

DEVELOPMENT COMMISSION RECOMMENDATION: Approval (3-1-1) on March 11, 2010.

CITY DEPARTMENTS' RECOMMENDATION: Approval. The proposed L-M, Limited Manufacturing District would allow C-2 uses and self-storage. While the request is not consistent with The West Columbus Interim Development Concept: 1991, Staff recognizes that the site, which has been zoned in the C-2, Commercial District for 36 years, has not developed with either office or residential uses. Furthermore, although self-storage is not the optimal use of the site, it is a low intensity nonresidential use. This use is compatible with the adjacent residences due to the enclosed nature of the storage facility and the orientation of the storage doors toward the interior of the site. The proposed treatment of the perimeter, the buffering, lighting controls, building material restrictions, the screening of mechanicals provide compatibility with the adjacent residences. Staff finds that the proposed self-storage use is compatible with the development in the area given the development standards included in the text and the site plan.

Title
To rezone 2183 HILLIARD-ROME ROAD (43026), being 4.0± acres located on the west side of Hilliard-Rome Road, 116± feet south of Reebok Drive, From: C-2, Commercial District, To: L-M, Limited Manufacturing District. (Rezoning # Z09-041)
WHEREAS, application #Z09-041 is on file with the Building Services Division of the Department of Development requesting rezoning of 4.0± acres from: C-2, Commercial District, to L-M, Limited Manufacturing District; and

WHEREAS, the Development Commission recommends approval of said zoning change; and

WHEREAS, the Columbus Public Health Healthy Places program reviews applications for active living features and recognizes this development has centrally located bike racks for employees that ride their bike by choice or because of limited alternatives; and

WHEREAS, the City Departments recommend approval of said zoning change because this use is compatible with the adjacent residences due to the enclosed nature of the storage facility and the orientation of the storage doors toward the interior of the site. The proposed treatment of the perimeter, the buffering, lighting controls, building material restrictions, the screening of mechanicals provide compatibility with the adjacent residences. Staff finds that the proposed self-storage use is compatible with the development in the area given the development standards included in the text and the site plan, now, therefore:

Explanation

BACKGROUND:
The Department of Technology's Metronet Services provides data connectivity that supports various business functions and allows all city agencies and departments to communicate. Currently, the Department of Technology has a need to provide wireless network access throughout the City. The wireless network will provide secure employee network access without the need to be physically connected to a wired data connection point. The wireless network will also allow secure guest Internet access to vendors, visitors, and business partners for business continuity while performing work at City facilities.

This service offering is necessary to provide the City with the ability to conduct business with outside entities that need VPN access to their business while working on City contracts at a City facility, on-site vendor demos, and Internet access for guests. In addition, the deployment of the wireless network will promote the ability of mobile workers to perform cross departmental projects without the need for temporary network equipment deployment. This Legislation will allow for the set-up of the hardware and software that are needed for the City to provide training at wireless locations throughout the City without additional wiring or equipment costs.

This ordinance authorizes the Director of the Department of Finance and Management, on behalf of the Department of Technology, to establish two purchase orders for the acquisition of equipment and services associated with the Metronet Wireless LAN project. These purchase orders will be created utilizing the terms and conditions from two (2) pre-existing Universal Term Contracts (UTC), established through the competitive bid process by the Purchasing Office, with the following vendors:

Pomeroy IT Solutions, Network Hardware/Maintenance $97,890.89 (FL004506, BPCMP30A- Expiration Date: 6/30/2012)

SHI International Corp, Windows Server Software $801.20 (FL004379, BPSFT45A-Expiration Date: 6/30/12)

EMERGENCY: Emergency action is requested to ensure that the needed services are not delayed; thus reducing the risk of potential outage and or interruption in services associated with the necessary services requested.

CONTRACT COMPLIANCE NUMBERS:
Pomeroy IT Solutions: 611352158 Expiration Date: 9/22/2011

SHI International Corp: 223009648 Expiration Date: 6/30/2012

FISCAL IMPACT: Approval of this ordinance will allow for the expenditure of $98,692.09, for the Metronet Wireless LAN project, utilizing Pomeroy IT Solutions and SHI International Corp. Funding for this project in the amount of $98,692.09 is available within the Information Services Capital Improvement Fund, Build America Bonds (BAB). The
cost associated with this ordinance is $98,692.09;

Examination

1. BACKGROUND
The City of Columbus, Department of Public Service, Division of Design and Construction, and the Department of Public Utilities Division of Sewerage and Drainage and Division of Power and Water, are engaged in the Lockbourne Road Improvement project. This legislation authorizes the Director of Public Service to modify and increase this contract for the Lockbourne Road Improvement project with Complete General Construction, Inc., in the amount of $433,998.00.

This modification is necessary because the condition of the existing 12” water line on the northern portion of the project was not as good as anticipated based on date of installation, and needed to be replaced to avoid future breaks and subsequent repairs.

The purpose of this project is to widen Lockbourne Road from two to three lanes, install sidewalks, curbs, storm sewerage, water lines, and lighting. The project limits are Lockbourne Road from Groveport Road to S.R. 104; Koebel Road from Lockbourne Road to Fairwood Avenue; and approximately 1000 feet on Evergreen Road east of Lockbourne Road. The project will also construct a sanitary sewer system. At the present time there is no sanitary system in the immediate area, and the project will address Health Department and EPA mandates. There are no existing sidewalks. The project will add these, as well as a bicycle path in the widened roadway section.

As part of this project, 2.16 miles of 5 foot wide sidewalk will be constructed on the east and west sides of Lockbourne Road, and also on the north and south sides of Koebel Road; 47 ADA ramps will be added or reconstructed. There are 3 bus stops and transit routes within the limits of this project. The project complies with the recommendation of the Pedestrian Thoroughfare Plan (PTP) because it complies with the recommended 5 foot sidewalk width for a roadway with these characteristics. The installation of curb provides additional protection for pedestrians. Lockbourne Road in this area has a transit dependency which indicates that the pedestrian demand is low and that a 5-foot sidewalk should be adequate. There are no existing curbs or sidewalks, so new curbs will provide improved vertical separation from automobile traffic. Pedestrian generators and destinations impacting the proposed project include Marion-Franklin High School, Beery Middle School, Marion-Franklin Recreation Center, the Temple of Compassion Church, and the Southfield Congregation of Jehovah's Witnesses.

Green materials or processes associated with this project include stormwater Best Management Practices (BMPs) approved by the Ohio Environmental Protection Agency for storm water runoff and erosion control measures.

The original contract amount of $4,660,867.50 was authorized by ordinance 1584-2009. This is modification #1. It is desired to increase the contract amount by $397,831.50 to ensure funds are available to provide for replacement of the waterline. The total contract amount including this modification is $5,058,699.00. $36,166.50 will also be set for construction inspection.

2. CONTRACT COMPLIANCE
Complete General Construction's contract compliance number is 314366382 and expires 12/15/11.

3. EMERGENCY DESIGNATION
Emergency action is requested to allow this project to proceed on schedule and provide funding for this modification at the earliest possible time.

4. FISCAL IMPACT
This modification will be funded by the Division of Power and Water in the amount of $433,998.00. A transfer of funds
from the Water Works Enlargement Voted Bond Fund to the State Issue Two Street Projects Fund will be necessary, as well as an amendment to the 2010 Capital Improvements Budget.

1. **BACKGROUND**

The Division of Planning and Operations is responsible for routine and emergency maintenance and rehabilitation of the roadway system, snow and ice removal and control operations, and the installation and maintenance of roadway signage and lighting.

To meet these responsibilities, the Division employs an extensive and varied fleet of vehicles. In order to maximize utility of the fleet, it is necessary that a portion of these vehicles be equipped with voice radios and GPS/AVL equipment. This enables greater coordination of fleet units by enhancing the ability of supervisors to dispatch vehicles to needed locations at a moment's notice. This is of particular importance during periods of emergency street repair and snow and ice removal operations.

The Division utilizes 800 MHz radio system owned and operated by the Franklin County and coordinated by the Central Ohio Communication Advisory Committee for voice transmissions. The 450 MHz radio system, also owned and operated by Franklin County, is the communications system used for the GPS/AVL system.

This legislation authorizes the expenditure of $75,000.00 to pay for the use of this system.

2. **FISCAL IMPACT**

Funds for this expenditure are budgeted in the amount of $75,000.00 within the Division of Planning and Operations' 2010 appropriation.

WHEREAS, the Division of Planning and Operations is responsible for routine and emergency maintenance and rehabilitation of the roadway system and for the installation and maintenance of roadway signage and lighting; and

WHEREAS, the Division of Planning and Operations has entered into an agreement with Franklin County to utilize their 800 MHz and 450 MHz radio communication systems; now, therefore

BE IT ORDAINED BY THE COUNCIL OF THE CITY OF COLUMBUS:

CURRENT STATUS: Passed

MATTER TYPE: Ordinance

EXPLANATION

BACKGROUND: In 2003 the Discovery District Development Corporation asked Capitol South Community Urban Redevelopment Corporation to initiate an effort to work with Discovery District property owners to create a Special Improvement District (SID) on the east side of downtown. Property owners were surveyed and overwhelmingly were in support of seeing a proposal to create a SID. The SID was created for a five year period and has been very successful. The SID property owners now wish to terminate the existing Plan for Improvements and Services a year early and reauthorize the Discovery Special Improvement District for an additional five year period, with slightly different boundaries, but still called the Discovery Special Improvement District. The property owners initiated a one-petition process to reauthorize the SID in which at least 60% of the property owners within the District signed that they are interested in reauthorizing the SID and approving the Articles of Incorporation. This petition was accepted and approved by Columbus City Council by Ordinance 0479-2010, passed April 5, 2010. Another action required by the Ohio Revised Code is the approval of the Plan for Improvements and Services and the inclusion of City owned property in said plan. This legislation was approved by Columbus City Council by Resolution No. 0033X-2010, passed April 5, 2010. The third piece of legislation was to declare the necessity to implement the Plan of Services adopted by the Discovery Special Improvement District of Columbus, Inc., and to levy a special assessment for the services. This legislation was approved by Columbus City Council by Resolution No. 0059X-2010, passed May 10, 2010.

This legislation is an ordinance to proceed with the Plan of Services of the Discovery Special Improvement District of Columbus, Inc., and to provide for the levy of assessments to property owners within the Special Improvement District.

Emergency action is requested on this legislation to allow the special assessment process to proceed in a timely manner.

FISCAL IMPACT: No funding is required for this legislation.

The Plan identifies specific bikeways improvement projects located throughout the City. The Division of Mobility Options is responsible for the management and selection of these improvement projects.

There are a variety of individual projects to be analyzed and designed as part of these contracts, the first of which is the Pedestrian Safety Improvement - Olentangy River Road Shared Use Path project.

These improvements are mostly within the right-of-way, and will consist of projects identified in the Columbus Bicentennial Bikeways Plan such as shared use paths, bike lanes, and shared routes as well as communications and public involvement related to bicyclist education and encouragement. In addition to yearly spot improvement projects, potential projects (tasks) include, but are not limited to, the following:

Share the Road Campaign
Summit Street Bike Lanes
Fourth Street Bike Lanes
Bike Parking Shelters
SR 161 Bikeway Connector Bike Path
East-West Connector/Sullivant Avenue Corridor
Olentangy River Road Shared-use Path

The City shall assign tasks to each contract and the Consultant shall provide a scope and cost proposal for each task assigned. The City and the Consultant shall come to agreement on the scope and cost of each task.
