Ordinances and Resolutions
The following is a resolution to declare the necessity and intent to appropriate fee simple title and lesser interests in and to real estate in connection with the Alum Creek Drive Improvement Project. During negotiations with the owner and tenant of the property, it was determined that minor changes in the design of the road improvement would result in a smaller taking of property and thereby lessen the level of compensation due the owner. As a consequence it is necessary to adopt a new resolution with a different description of the proposed taking.

Fiscal Impact:
N/A

Emergency Justification:
Emergency action is requested to allow the acquisition of the parcels necessary for this project to proceed without delay in order that the project may meet its deadline.

Version: 1
Matter Type: Ordinance

Explanation

BACKGROUND:

This ordinance authorizes the Director of the Department of Technology and the Director of the Department of Human Resources to modify an existing contract to increase funding and extend the term period for an additional six (6) months, October 31, 2010 through April 30, 2011 for software/license maintenance and support with Manan LLC (dba Gyrus Systems) for Gyrus’ Training Wizard software.

Previous ordinance No. 0695-2010 in the amount of $12,866.52 was passed by Columbus City Council June 7, 2010, to renew the existing annual contract agreement with Manan LLC (dba Gyrus Systems) for a six (6) month term period (May 1, 2010 through October 30, 2010) on behalf of the Human Resources Department. However, it has been determined that the Gyrus system, which will eventually be replaced by CourseMill and Intellivue application, needs to remain in
production until the Human Resource application (CHRIS) goes into production.

The Gyrus software license provides for the scheduling, tracking, data collection and reporting of training classes offered by citywide training and development office and other city departments. The license provides for unlimited administrative license users and assists in managing a learning environment, facilitating training events and records, learning management and skills development, software support, web access for upgrades, updates and real-time downloads from other Gyrus technology applications. In addition, it will provide the resources to ensure proper documentation of all class attendance, as proof of compliance with various state and federal laws, which require training as a proactive measure for compliance.

This ordinance also requests approval to continue services provided by Manan LLC (dba Gyrus Systems), in accordance with sole source procurement provisions of Section 329 of the Columbus City Code; as it has been determined that Manan LLC is the sole supplier for the software license, maintenance and support.

FISCAL IMPACT:
During fiscal year 2008 and 2009 the Department of Technology expended $32,936.00 and $34,415.00 respectively for each year's contract. This year, $12,866.52 was expended for the term period of 05/01/2010 through 10/30/2010 from the Information Services Fund. The additional funding in the amount of $12,866.48 is for the period of 10/31/2010 through 04/30/2011 to support the extended coverage period was budgeted and is available within the Department of Technology's Information Services Fund 2010 budget. Explanation
The City owns fee title to the real property located at 2682 Cleveland Avenue, Columbus, Ohio 43211, Franklin County
Tax Parcel Number 010-059116. The property was formerly leased as the Linden's Veterans Center and was vacated in February 2006 upon termination of that lease.

Ordinance No. 1176-2009, passed by Columbus City Council on 11/17/2009 granted authority to the Director of the Department of Finance and Management to determine the current marketability of this property and to entertain discussions and negotiations with interested parties with respect to the sale of this property. The ordinance provided that any agreement for the sale of the property would require approval by subsequent Council ordinance.

The Cleveland Avenue property has been exposed to the market through public notices in the Columbus City Bulletin since 11/21/2009, by a commercial real estate listing since 12/08/2009, and by a "For Sale" sign on the property. The property has been shown to a number of interested parties and several purchase offers terms unacceptable to the City have been received. The City has now received a purchase offer within the estimated market value range for this property and with terms acceptable to the City. It is, therefore, deemed to be in the City's best interest to enter into a formal contract with the prospective purchaser for the sale of the property commonly known as 2682 Cleveland Avenue, Columbus, Ohio 43211 and described as follows:

Being all of Lot No. 2 (67.31 feet frontage by plat and 67.40 feet frontage by filed survey of Cleveland Avenue) and 12.60 feet off of the entire north side of Lot No. 1 of Elmdale Addition as said addition is of record in Plat Book No.7, Page 454, Recorder's Office, Franklin County, Ohio, the intention being to describe a tract of land with 80 feet of frontage on Cleveland Avenue, including any surplus in Lot No. 2.

This ordinance authorizes approval for the sale of that City owned real property and authorizes the Director of the Department of Finance and Management to execute those documents necessary to enter into a contract with the Jeffrey Dean Foundation, an Ohio non-profit corporation, for the sale of the property for a price of $80,000.00 and to execute a quitclaim deed and any ancillary documents necessary to grant fee simple title to said property.

**Fiscal Impact:** Proceeds from this transaction shall be deposited in Fund 748, the General Permanent Improvement Fund.

**Emergency Justification:** Emergency action is requested to enable the City to immediately enter into contract and schedule a closing date, to allow the City to eliminate the cost associated with maintenance of this property and receive income of $80,000.00 from the proceeds of the sale.

**Title**
To authorize the Director of Finance and Management to execute those documents necessary to enter into contract with the Jeffrey Dean Foundation, an Ohio non-profit corporation, for the sale of City-owned surplus property commonly known as 2682 Cleveland Avenue, Columbus, Ohio 43211 and to execute those documents necessary to grant fee simple title; and to declare an emergency.

**Body**
WHEREAS, that real property owned by the City of Columbus and commonly known as 2682 Cleveland Avenue, Columbus, Ohio 43211 has been deemed to be surplus City property; and

WHEREAS, pursuant to Ordinance No. 1076-2009, the Department of Finance and Management received authority to determine the current marketability of this property and to entertain discussion from and enter into negotiations with interested parties with respect to the sale of this property; and

WHEREAS, the property was offered for sale through public notice, a commercial real estate listing service, and property sign; and

WHEREAS, the City has received a purchase offer for said property from the Jeffrey Dean Foundation, an Ohio non-profit corporation,

Columbus City Bulletin (Publish Date 10/09/10)
non-profit corporation, in the amount of $80,000.00 and with other terms acceptable to the City; and

WHEREAS, the Director of Finance and Management deems that it is in the best interest of the City to enter into a sale contract with the Jeffrey Dean Foundation, an Ohio non-profit corporation, for consideration in the amount of $80,000.00; and

WHEREAS, an emergency exists in the usual daily operation of the City, in that it is necessary to immediately authorize the Director of the Department of Finance and Management to execute those documents necessary to enter into a contract with the Jeffrey Dean Foundation for the sale of property located at 2682, Cleveland Avenue, and to execute a quitclaim deed and any ancillary documents necessary to grant fee simple title to the same real property thereby preserving the public health, peace, property, safety and welfare; now, therefore:

BE IT ORDAINED BY THE COUNCIL OF THE CITY OF COLUMBUS:

SECTION 1. That the Director of the Department of Finance and Management be and is hereby authorized to execute those documents on behalf of the City of Columbus, as approved by the Department of Law, Division of Real Estate, necessary to enter into a contract with the Jeffrey Dean Foundation for the sale of City-owned property commonly known as 2682, Cleveland Avenue, Columbus, Ohio 43211, and to execute a quitclaim deed and any ancillary documents necessary to grant fee simple title to said property.

SECTION 2. That the sale proceeds to be received by the City shall be deposited in Fund 748, the General Permanent Improvement Fund.

SECTION 3. That for the reasons stated in the preamble hereto, which is hereby made a part hereof, this ordinance is hereby declared to be an emergency measure and shall take effect and be in force from and after its passage and approval by the Mayor or ten days after its passage if the Mayor neither approves nor vetoes the same.

Explanation

BACKGROUND: The purpose of this legislation is to authorize the Director of Public Utilities to pay Columbus Southern Power dba American Electric Power (AEP) for pole attachment rental fees in accordance with an agreement signed in 2002 and to modify said agreement to reflect amended terms and conditions.

The City of Columbus, Division of Power and Water and AEP own and operate electric transmission and distribution system facilities throughout Franklin County. Each party owns certain poles which have facilities owned by the other party attached to such poles. An agreement signed in 2002 between Columbus Southern Power and the City of Columbus authorized the terms, conditions and rates to be paid for the joint use of poles. The payment terms of said agreement provided a setoff of the amounts Columbus Southern Power would otherwise owe the City under Section 910 for right-of-way permit fees. In December 2008, it was determined that the joint use fees would no longer be deducted from AEP's Right-of-Way Permit fees and that AEP would be allowed to bill the Division of Power and Water directly for its joint pole usage. An invoice has been received by the City from AEP for annual rental fees in the amount of $162,051 for the period of 8/5/09 through 8/6/10. In addition, the prorated amount of $94,529.75 for the period of 1/1/09 through 8/4/09 is included in this invoice for a total amount due of $256,580.75.

For annual rental fees going forward, the contract modification provides that funds will be approved annually by ordinance.
of City Council.

Columbus Southern Power dba American Electric Power's contract compliance number is 314154203, expires 02/01/12.

Emergency action is requested in order to process payment in a timely manner.

FISCAL IMPACT: This expense was not included in the 2010 budget; however, there is sufficient budget authority in the Electricity Operating Fund for this expenditure due to other Object Level Three: 03 expenses being under budget.

Title

($256,580.75)

Body

WHEREAS, it is also necessary to modify the aforesaid agreement to reflect amended terms and conditions; and

WHEREAS, AEP, as owner and operator of said poles, is the sole provider for the required services and therefore this legislation is being submitted in accordance with the sole source provisions of Columbus City Code Section 329.07(e); and

1. BACKGROUND:
This legislation will authorize the Director of Public Utilities accept a $5,000.00 Ohio Environmental Education Fund Mini Grant and enter into an agreement with the State of Ohio, Ohio Environmental Protection Agency, Ohio Environmental Education Fund for the purchase and installation of Green Infrastructure Interpretive Signage at sites along Griggs and Hoover Reservoirs.

Protecting the raw water sources for our drinking water is extremely important. In 2010, many green infrastructure best management practices are being installed around our drinking water reservoirs to help address stormwater issues that degrade our water sources. The Ohio Environmental Education Fund Mini Grant has been awarded to the Department of Public Utilities for the purchase and installation of interpretive signage at various locations throughout the green infrastructure projects being installed around Griggs and Hoover Reservoirs. This action will help protect the raw water supply by educating the citizens of Central Ohio about stormwater runoff issues, the steps we are taking to protect our water sources, and encouraging them to take steps at home to protect our watershed. The award amount is $5,000.00. The City's match requirement is $3,750.00 and will come from Division of Power and Water Build America Bond funds. With the grant funds and the City's required match the total project amount will be $8,750.00.

2. EMERGENCY:
The grant award has been offered to the Department of Public Utilities and it is immediately necessary to accept the grant and appropriate the funds. The Department of Public Utilities is requesting City Council to deem this legislation an emergency measure to allow the Director to enter into the grant agreement as soon as possible.

3. FISCAL IMPACT:
There is a $3,750.00 match requirement for this grant. These matching funds will come from the Water Build America Bonds Fund, via internal transfer. This Ordinance also requests the authority for the City Auditor to appropriate the proceeds of said grant for purposes of funding this project work. The 2010 Capital Improvements Budget will also need to be amended.

Explanation
Council Variance Application: CV10-022

APPLICANT: Serenity Housing Foundation; c/o Michael D. Bridges, Atty.; 65 East State Street; Columbus, OH 43215.

PROPOSED USE: Shared living facility.

COLUMBUS SOUTH SIDE AREA COMMISSION RECOMMENDATION: Approval.

CITY DEPARTMENTS' RECOMMENDATION: Approval. The Serenity Housing Foundation was granted a Council variance (Ord. No. 0169-2010; CV09-031) to allow the construction of a shared living facility for fourteen residents with four parking spaces accessed from the rear alley on a vacant lot zoned in the R-2F, Residential District on February 22, 2010. The applicant would have been responsible for improving the alley to make the parking lot access possible. Because of the funding restraints that the alley improvement would have created, the applicant requests a new Council Variance to allow the same development, but with 0 parking spaces. Variances for minimum lot width, lot size, and a parking variance for eight (8) required spaces are included in the request. The R-2F, Residential District only allows residential care facilities which are for five residents or less. Shared living facilities, which are for six or more residents, must be located within the AR-3, AR-4 or AR-O, Apartment Residential Districts. The Serenity Housing Foundation is the housing arm of The Serenity Street Foundation, an Ohio not-for-profit corporation. The Serenity Street Foundation offers a residential and employment program for men in recovery from alcohol and drug addiction through a faith-based recovery program that provides a home, a job, and a network of support that promotes recovery, health, and responsible living. The
organization was originally founded in 1996 and is currently operating a residential care facility at 31 E. Woodrow Avenue, which is across the street from the subject property. The request will allow the applicant to serve additional clients while maintaining current staffing and volunteer levels. Furthermore, retaining the underlying zoning classification, which was established by a City-sponsored down-zoning of Merion and Hungarian Villages (Ordinance No. 2110-2004), will ensure that the residential character of the neighborhood will be maintained.

Title
To grant a Variance from the provisions of Sections 3332.037, R-2F, Residential district; 3332.05, Area district lot width requirements; 3332.14 R-2F Area District Requirements; and 3312.59, Minimum numbers of parking spaces required, of the Columbus City codes, for the property located at 30 EAST WOODROW AVENUE (43207), to permit a shared living facility with reduced development standards in the R-2F, Residential District, and to repeal Ordinance No. 0169-2010 passed February 22, 2010 and to declare an emergency (Council Variance # CV10-022).

WHEREAS, Section 3332.05, Area district lot width requirements, requires that no building shall be erected or altered on a lot with a width measurement at the front line of no less than fifty (50) feet in the R-2F, Residential District, while the applicant proposes to construct shared living facility on a lot with a 40.9-foot width; and

WHEREAS, Section 3332.14 R-2F Area District Requirements, requires a single-family dwelling or other principal building to be situated on a lot of no less than six thousand (6,000) square feet in area, while the applicant proposes to construct a shared living facility on a lot that contains 4,939± square feet; and

WHEREAS, Section 3312.49, Minimum numbers of parking spaces required, requires one parking space per 400 square feet, a total of eight (8) spaces, while the applicant proposes zero (0) parking spaces; and

The organization was originally founded in 1996 and is currently operating a residential care facility at 31 E. Woodrow Avenue, which is across the street from the subject property. The request will allow the applicant to serve additional clients while maintaining current staffing and volunteer levels. the City of Columbus; and

WHEREAS, the granting of said variance will alleviate the difficulties encountered by the owners of the property located at 30 EAST WOODROW AVENUE (43207), in using said property as desired; and

Explanation

BACKGROUND:

On November 24, 2008 Council approved and passed ordinance 1738-2008 that authorized the Director of the Department of Public Utilities to enter into an agreement with PerkinElmer Health Sciences, Inc. in the amount of $519,852.00 for the design, purchase and implementation of a new Laboratory Information Management System with accompanying Operations Data System. The selection of PerkinElmer Health Sciences was performed in accordance with the procedures set forth in Columbus City Code, Section 329.14, "Awarding professional service contracts through requests for proposals."

PerkinElmer Health Sciences, Inc. subcontracted with Hach Company to provide the WIMS software as part of the overall technology system investment. As the prime contractor, PerkinElmer Health Sciences, Inc. purchased the WIMS software licenses with the first year of maintenance and support on behalf of the Department of Public Utilities. This legislation will enable the Director of the Department of Technology and the Director of the Department of Public Utilities to continue with software support by entering into an agreement with Hach Company.
This legislation authorizes the Director of the Department of Technology and the Director of the Department of Public Utilities to enter into an annual agreement (Service Contract # HACH128744) with Hach Company for maintenance and support of a Water Information Management System (WIMS). The twelve month term period for maintenance and support is October 1, 2010 through September 30, 2011. This agreement provides computer programming software maintenance on the WIMS system and obligates Hach Company to provide upgrades, new releases, and technical support for the software licensed to the Department of Public Utilities. The amount of funds needed for this annual maintenance and support agreement is $13,621.00. This ordinance also requests approval to continue services provided by Hach Company in accordance with sole source procurement provisions of Section 329 of the Columbus City Code; as it has been determined the Hach Company is the sole distributor of WIMS, and does not utilize distributors or re-sellers to provide support for its WIMS software product.

WIMS enables the Division of Sewerage and Drainage (DOSD) and the Division of Power and Water (DOPW) to manage water quality sample information, incorporate input from plant operations data sources, track 79,000 tests on 16,000 different samples annually, and transfer approved results to end users automatically. The WIMS system has replaced out dated information systems, allowing DOSD and DOPW to satisfy their regulatory reporting requirements more efficiently.

**EMERGENCY:** Emergency designation is requested to immediately facilitate prompt payment and to avoid interruption in the performance of services necessary in the usual daily operation.

**FISCAL IMPACT:** In 2008 $519,852.00 was established on a contract (purchase order EL008929) with PerkinElmer Health Sciences, Inc. for software and related services to support the LIMS and WIMS project. Passage of this ordinance will authorize $13,621.00 to be expended for the WIMS maintenance and support agreement for a 12 month term period being October 1, 2010 through September 30, 2011.

Legislation Number: 1327-2010
Drafting Date: 09/13/2010
Version: 1
Current Status: Passed
Matter Type: Ordinance

Explanation
BACKGROUND:

Previously ordinance 1296-2009 passed by City Council October 5, 2009 authorized the Director of the Department of
Technology to enter into a contract of sale for fiber and underground conduit with Columbus Fibernet, LLC, to acquire a portion of the conduit system known as Fibernet and authorized the expenditure of $250,000.00 from the Department of Technology Capital Improvement Fund. The portion of the conduit system purchased consisted of one (1) point nine inch (1.9") duct with ninety-six (96) strand single mode fiber installed therein.

This ordinance authorizes and directs the Director of the Department of Technology, on behalf of the City of Columbus to modify the existing contract of sale for fiber and underground conduit with Columbus Fibernet, LLC to increase funds by $4,026,556.00 to purchase the remaining portion of the conduit system known as Fibernet (353,278 ft), to acquire the rights and interests in the conduit and fiber. This portion of the conduit system to be purchased consists of one (1) point nine inch (1.9") duct with a ninety-six (96) strand single mode fiber installed therein as well. Funds for this portion of the acquisition were not available until the August 2010 bond sale. Negotiations were conducted with Columbus Fibernet to determine the pricing structure for the additional goods and services.

Columbus City Council continues to work with the Department of Technology in conjunction with the Department of Development to utilize the conduit and fiber as an economic development asset that can be integrated into an overall strategy to assist current businesses and attract new ones. The conduit and fiber will be used as an economic development incentive to bring high-tech companies to Columbus by providing an existing "telecommunications pathway" within the City's business district, allowing these prospective businesses to avoid the costs associated with constructing their own conduits.

The Department of Technology will also utilize the conduit and fiber to further build out the City of Columbus' existing fiber-optic network, while making the network more robust and redundant. Acquisition of these conduits and fiber will enhance service ability to the City's citizenry by providing the Department of Technology with alternate pathways for future fiber-optic connectivity to City agencies, partner agencies and businesses within the downtown business district. This conduit can provide access points for fiber-optic backhaul to future wireless networks, or fiber-to-the-premise networks.

This contract is a sole source contract, as obtaining access to the Fibernet conduit system may only be obtained through contractual arrangement with Columbus Fibernet, LLC and expansion of the City's existing fiber-optic network through other means would be an endeavor much more costly than the fiscal impact for entering into the arrangement contemplated by this ordinance.

**EMERGENCY:** Emergency destination is requested in order to expedite processing the necessary contract paperwork and to avoid interruption or delays in the performance of service.

**Fiscal Impact:** For this project in 2009, $250,000.00 was expended and funded via the 2009 Capital Improvement bond sale. In August, bonds were sold to fund the remaining portion of the purchase cost totaling $4,026,556.00. With passage of this ordinance the aggregate total of the contract of sale for fiber and underground conduit with Columbus Fibernet, LLC to purchase the fiber-optic network to acquire the rights and interests in the conduit and fiber will be $4,276,556.00.

BACKGROUND: For the option to establish a UTC contract to purchase Motorola Two Way Radios and Accessories for the Division of Support Services, the largest user, in accordance with sole source provisions. These Motorola radios will be utilized by all City agencies for replacement and new 800MHz, UHF and VHF radio purchases. The sole source, Motorola Inc., is the manufacturer for these items and they have not authorized any Motorola partners access to sell this equipment to the City of Columbus. Formal bid SA003358 was conducted by the Purchasing Office in 2009 and ordinance 1652-2009 authorized the Finance and Management Director to enter into UTC contract FL004514 with Bear Communications (one of four bidders) for the purchase of Two Way Radios. The City has since received written notification from Motorola Inc. stating that none of the three other bidders were granted access to sell these items to the City of Columbus and that Motorola Inc. is the sole source for the City of Columbus to purchase these radios. The term of the proposed option contract would be three (3) years, expiring September 30, 2013, with the option to renew for one (1) additional year.

The Purchasing Office has negotiated terms and conditions with Motorola Inc., and completed a contract proposal document:

Motorola Inc., CC# 36-1115800 expires 4/08/12

Total Estimated Annual Expenditure: $900,000.00

The company is not debarred according to the Excluded Party Listing System of the Federal Government or prohibited from being awarded a contract according to the Auditor of State Unresolved Findings for Recovery Certified Search. This ordinance is being submitted as an emergency because, without emergency action, no less than 37 days will be added to this procurement cycle and the efficient delivery of valuable public services will be slowed.
FISCAL IMPACT: Funding to establish this option contract is budgeted in the Mail, Print Services and UTC Fund Account. City Agencies will be required to obtain approval to expend from their own appropriations for their estimated annual expenditures.

Title
To authorize and direct the Finance and Management Director to enter into a contract for the option to purchase Two Way Radios and Accessories with Motorola Inc., in accordance with sole source provisions; to authorize the expenditure of $1.00 to establish the contract from the Mail, Print Services and UTC Fund Account, and to declare an emergency. ($1.00).

Body
WHEREAS, the Division of Support Services and other City agencies are in need of two way radios and accessories for the purchase of replacement and new radios throughout the City; and,

WHEREAS, Motorola Inc. is the sole source for these parts; and,

WHEREAS, this ordinance addresses Purchasing objective of 1) maximizing the use of City resources by obtaining optimal products/services at low prices and 2) encouraging economic development by improving access to City bid opportunities and 3) providing effective option contracts for City agencies to efficiently maintain their supply chain and service to the public; and

WHEREAS, in order to maintain a supply of two way radios and accessories, this is being submitted for consideration as an emergency measure; and

WHEREAS, an emergency exists in the usual daily operation of the Purchasing Office in that it is immediately necessary to enter into a contract for an option to purchase two way radios and accessories, thereby preserving the public health, peace, property, safety, and welfare; now, therefore,

BE IT ORDAINED BY THE COUNCIL OF THE CITY OF COLUMBUS:

SECTION 1. That the Finance and Management Director be and is hereby authorized and directed to enter into the following contract for the option to purchase two way radios and accessories in accordance with the negotiated terms and specifications for a term of approximately three (3) years, expiring September 30, 2013, with the option to renew for one (1) additional year, as follows:

Motorola Inc., All Items, Amount: $1.00

SECTION 2. That the expenditure of $1.00 is hereby authorized from Mail, Print Services and UTC Fund, Organization Level 1: 45-01, Fund: 05-517, Object Level 3: 2270, OCA: 451130, to pay the cost thereof.

SECTION 3. That this purchase is in accordance with the provisions of the Columbus City Code, Section 329.07(e), "Sole Source Procurement."

SECTION 4. That for the reasons stated in the preamble hereto, which is hereby made a part hereof, this ordinance is hereby declared to be an emergency measure and shall take effect and be in force from and after its passage and approval by the Mayor, or ten days after passage if the Mayor neither approves nor vetoes the same.
Previously ordinance 1297-2009 passed by City Council October 5, 2009 authorized the Director of the Department of Technology to enter into a contract with James H. Hyland, III to acquire the rights and interests in one (1) fiber-optic conduit, which is to be populated with seventy-two (72) strand single mode fiber optic cable and authorized the expenditure of $250,000.00 from the Department of Technology Capital Improvement Fund - Fiber Project.

This ordinance authorizes and directs the Director of the Department of Technology, on behalf of the City of Columbus to modify the existing contract of Sub-Indefeasible Rights of Use (IRU) with James H. Hyland, III to increase funds by $775,000.00 to acquire the remaining portion of the rights and interests in one (1) fiber-optic conduit contained within the duct bank system known as Citynet (7.5 miles), which is to be populated with seventy-two (72) strand single mode fiber optic cable and is located within the downtown business district of the City of Columbus. Funds for this portion of the acquisition were not available until the August 2010 bond sale.

Columbus City Council continues to work with the Department of Technology in conjunction with the Department of Development to utilize the conduit and fiber as an economic development asset that can be integrated into an overall strategy to assist current businesses and attract new ones. The conduit and fiber will be used as an economic development incentive to bring high-tech companies to Columbus by providing an existing "telecommunications pathway" within the City's business district, allowing these prospective businesses to avoid the costs associated with constructing their own conduits.

The Department of Technology will also utilize the conduit and fiber to further build out the City of Columbus' existing fiber-optic network, while making the network more robust and redundant. Acquisition of these conduits and fiber will enhance service ability to the City's citizenry by providing the Department of Technology with alternate pathways for future fiber-optic connectivity to City agencies, partner agencies and businesses within the downtown business district. This conduit can provide access points for fiber-optic backhaul to future wireless networks, or fiber-to-the-premise networks.

This ordinance waives the competitive bidding provisions of the City Code Section 329, as it was determined that there were only two providers of conduit/fiber optic cabling serving the downtown area. Both companies provided information and quotes to assist with determining what would be suitable for this project. The information and quotes received were from Citynet ($1,500,000.00 to $1,750,000.00) and James H. Hyland, III ($1,025,000.00), the lowest quote.

**EMERGENCY ACTION:** Emergency legislation is requested in order to expedite processing of the necessary paperwork, to avoid interruption or delays in the performance of service, and because this item is weather dependent.

**Fiscal Impact:** For this project in 2009, $250,000.00 was expended and funded via the 2009 Capital Improvement bond sale. In August, bonds were sold to fund the remaining portion of the cost totaling $775,000.00. With passage of this ordinance the aggregate total of the contract of Sub-Indefeasible Rights of Use (IRU) with James H. Hyland, III to acquire the rights and interests in one (1) fiber-optic conduit to be populated with seventy-two (72) strand single mode fiber optic cable contained within the duct bank system know as Citynet (7.5miles) will be $1,025,000.00.

**Title**

To authorize and direct the Director of the Department of Technology on behalf of the City of Columbus to modify and increase funds on an existing contract of Sub-Indefeasible Rights of Use with James H. Explanation

Background: This Council passed Ordinance No. 3064-99 on December 13, 1999 (the TIF Ordinance) declaring as a public purpose increases in assessed value of parcels of certain real property located within the City's Gateway Area (the TIF Area, as described and depicted in the TIF Ordinance), which has been redeveloped by Campus Partners for Community Urban Redevelopment (Campus Partners). The TIF Ordinance provides for a 100% exemption on all increases in assessed value within the TIF Area for a period of not more than 30 years. The TIF Ordinance also specifies that the annual service payments in lieu of taxes paid in respect of the TIF Area are first used to make payments to the Columbus City School District in the amount of real property taxes that the School District would have received without that exemption. Pursuant to a TIF Agreement by and between the City and Campus Partners, approved pursuant to Ordinance No. 1367-2005, passed on September 28, 2005, the remaining annual service payments in lieu of taxes received in respect of the TIF Area are used to reimburse Campus Partners for costs of public improvements constructed in the Gateway Area. The City is not obligated to reimburse Campus Partners from any other funds for costs of the public improvements constructed in the Gateway Area.

The Ohio State University (OSU) plans to move the OSU University Communications Office to approximately 7,979 square feet (the Subject Property) of rentable space on the first floor of Building C in the South Campus Gateway development, which is within the TIF Area. The Subject Property would normally qualify for an exemption from real property taxation because of its use in support of OSU, but the TIF exemption provided by the TIF Ordinance currently takes priority over all other property tax exemptions. By statute, in order for a use-based property tax exemption, such as the one for the Subject Property, to take priority over a TIF exemption that has been established as one with priority over other exemptions, the political subdivision's legislative authority must pass a resolution or ordinance consenting to the
priority of the use-based exemption over the TIF exemption.

The attached ordinance, which has been requested by Campus Partners, consents to the priority of the use-based exemption over the TIF exemption for the Subject Property.

**Fiscal Impact:** No funding is necessary for this legislation.

**Title**

To consent to the priority of a use-based property tax exemption over a TIF exemption in connection with the leasing of certain property located in the South Campus Development Gateway TIF Area by The Ohio State University.

WHEREAS, the Subject Property would normally qualify for an exemption from real property taxation because of its use in support of OSU, but the TIF exemption provided by the TIF Ordinance currently takes priority over all other property tax exemptions; and

**BE IT ORDAINED BY THE COUNCIL OF THE CITY OF COLUMBUS:**

Section 1. Pursuant to Division (B) of Ohio Revised Code Section 5709.911, Council hereby consents to the priority of any use-based exemption for the Subject Property attributable to the use of the Subject Property in support of OSU, including, but not limited to, the exemption set forth in Ohio Revised Code Section 5709.07, over any TIF exemption for the Subject Property.
Section 2. Council hereby authorizes and directs the Director of Development, the City Auditor, the City Attorney, the Clerk of Council, or other appropriate officers of the City to make such arrangements as are necessary and proper, including, but not limited to, signing any documents that are necessary and proper, for the use-based exemption to take priority over the TIF exemption for the Subject Property.

Section 3. That all formal actions relative to the passage of this Ordinance were taken in an open meeting of the Council, and that all deliberations of the Council and of its committees, if any, which resulted in formal action, were taken in meetings open to the public, in full compliance with applicable legal requirements, including R.C. Explanation

BACKGROUND: This legislation authorizes the Director of the Department of Development to modify contract EL008090 with Rebuilding Together Central Ohio by extending the contract termination date from March 31, 2010 to December 31, 2010. The additional time will allow the contractor to extend the Home Modification initiative for persons with disabilities in low income households.

This contract with Rebuilding Together Central Ohio (RBTCO) provides matching funds for RBTCO's grant ($74,000) from the Federal Home Loan Bank (FHLB) for their Home Modification Project. The City's contract provided $30,000 from the Community Development Block Grant Fund for the purpose of building ramps and/or lifts for low income disabled homeowner-occupants within the city of Columbus. RBTCO has met the requirements for the FHLB funding and matched each of 11 projects with CDBG dollars provided by this grant. There is a surplus of CDBG funds remaining. The extension of the contract will allow RBTCO to use the remaining funds to match against new funding from the FHLB that became available after August 2, 2010. RBTCO has received 78 calls for ramps so far this year.

Emergency action is requested so program services can continue without interruption.

FISCAL IMPACT: No additional funds are required.

Matter Type: Ordinance

Explanation: BACKGROUND
This legislation authorizes the Director of Public Service to enter into a professional services contract with Korda Nemeth Engineering, Inc. for the Bikeway Development - Bikeway Design project for $500,000.00.
The City of Columbus has developed a Bicentennial Bikeways Plan, which was adopted by City Council on June 2, 2008. The Plan identifies specific on-street bikeway improvement projects located throughout the City. The Division of Mobility Options is responsible for the management of these improvement projects. It is the responsibility of the consultant to provide traffic analysis, conceptual designs and construction plans in a timely manner.

There are a variety of individual projects to be analyzed and designed as part of this contract. These improvements are mostly within the right-of-way, and will consist of projects identified in the Bicentennial Bikeways Plan such as shared use paths, bike lanes, and shared routes, as well as communications and public involvement related to bicyclist education and engagement in support of these projects. In addition to yearly spot improvement projects, potential projects (tasks) include, but are not limited to, the following:

- Share the Road Campaign
- Summit Street Bike Lanes
- Fourth Street Bike Lanes
- Bike Parking Shelters
- SR 161 Bikeway Connector Bike Path
- East-West Connector/Sullivant Avenue Corridor

The City will negotiate each task assignment with the consultant and shall assign tasks to the consultant as it deems necessary, according to the task scope, and availability of consultant resources.

Work also includes conducting the necessary traffic engineering analysis to refine BBP recommendations into practical "complete street" solutions.

The Department of Public Service, Office of Support Services solicited a Request for Proposal for the Bikeway Development - Bikeway Design project and Pedestrian Safety Improvement - Olentangy River Road Shared Use Path projects. Two contracts will be awarded from these proposals. The Pedestrian Safety Improvement - Olentangy River Road Shared Use Path project will be legislated in a separate ordinance. The projects were formally advertised through the City's Vendor Services from June 10, 2010, to July 7, 2010. The city received fourteen (14) responses. Twelve of Fourteen proposals were deemed minimally compliant and were fully evaluated when the Evaluation Committee met on July 30, 2010.

Version: 1
Current Status: Passed
Matter Type: Ordinance

Explanation 1. BACKGROUND
This legislation authorizes the Director of Public Service to enter into a professional services contract with Evans Mechwart Hambleton & Tilton, Inc. (EMH&T) for the Pedestrian Safety Improvements - Olentangy River Road Shared Use Path project for $533,000.00.

The City of Columbus has developed a Bicentennial Bikeways Plan, which was adopted by City Council on June 2, 2008. The Plan identifies specific on-street bikeway improvement projects located throughout the City. The Division of Mobility Options is responsible for the management of these improvement projects. It is the responsibility of the consultant to provide traffic analysis, conceptual designs and construction plans in a timely manner.

There are a variety of individual projects, including the Olentangy River Road Shared-use Path, to be analyzed and designed as part of this contract. These improvements are mostly within the right-of-way, and will consist of projects identified in the Bicentennial Bikeways Plan such as shared use paths, bike lanes, and shared routes, as well as
communications and public involvement related to bicyclist education and engagement in support of these projects. In addition to yearly spot improvement projects, potential projects (tasks) include, but are not limited to, the following:

Share the Road Campaign
Summit Street Bike Lanes
Fourth Street Bike Lanes
Bike Parking Shelters
SR 161 Bikeway Connector Bike Path
East-West Connector/Sullivant Avenue Corridor
Olentangy River Road Shared-use Path

The City will negotiate each task assignment with the consultant and shall assign tasks to the consultant as it deems necessary, according to the task scope, and availability of consultant resources.

Work also includes conducting the necessary traffic engineering analysis to refine BBP recommendations into practical "complete street" solutions.

The Department of Public Service, Office of Support Services solicited a Request for Proposal for the Bikeway Development - Bikeway Design project and Pedestrian Safety Improvement - Olentangy River Road Shared Use Path projects. Two contracts will be awarded from these proposals. The Bikeway Development - Bikeway Design project will be legislated in a separate ordinance. The projects were formally advertised through the City's Vendor Services from June 10, 2010, to July 7, 2010. The city received fourteen (14) responses. Twelve of Fourteen proposals were deemed minimally compliant and were fully evaluated when the Evaluation Committee met on July 30, 2010.

Legislation Number: 1371-2010
Drafting Date: 09/20/2010
Version: 1
Current Status: Passed
Matter Type: Ordinance

Explanation1. BACKGROUND:
This legislation authorizes the Director of Public Service to enter into a professional engineering services contract with Crawford Murphy and Tilly.

The Department of Public Service initiated a single procurement effort that will result in the award and execution of three
(3) separate general engineering contracts. The intent of these contracts is to provide the Department of Public Service with continuing, contractual access to additional resources that are necessary to perform various professional engineering, survey and technical expertise for the department to complete its capital and operating budget commitments. The Department anticipates funding each of these contracts with an initial appropriation of $200,000.00 each from the FY2010 Capital Improvements Budget. The Department anticipates submitting planned requests to modify these contracts as the operational need arises and as funding capacity will allow over the three year term of these contracts. The other two contracts will be authorized in separate legislation.

The projects developed under this program are typically small to moderate size improvements, and frequently include a significant emphasis on pavement rehabilitation, curb replacement, sidewalks, curb ramps, drainage, minor rehabilitations, and aesthetic improvements. These contracts may be used for quick response design services. The selected consultants will perform such tasks when requested by the City.

The Department of Public Service, Office of Support Services solicited a Request for Proposals for the Roadway Improvements - General Engineering 2010-2012 project. The project was advertised through the City's Vendor Services web site from June 10, 2010, to July 6, 2010. The city received Twelve (12) responses. All Twelve were fully evaluated when the Evaluation Committee met on August 3, 2010.
