Explanation
This resolution supports the Director of Recreation and Parks' submission of a grant application to the Ohio Public Works Commission, District 3 Natural Resource Advisory Committee, for Clean Ohio Conservation Fund, Round 7, grants.

The application is for $1,812,630 to be used for natural area protection of Hellbranch Run Watershed, along Galloway Road and Alkire Road. This project will acquire 263 acres of high quality woods and wetlands and adjacent buffer land which will be restored with wetlands, prairie habitat, and vernal pools. The project will occur adjacent to a future city park site. The grant requires a 25 percent local match ($453,157.50).
The City's matching portion of this grant is to come from capital improvement bond funding.

The Hellbranch Run Watershed is considered one of the critical preservation components of the Darby Accord. The project proposes to protect high quality wetlands, mature forests, and hydric soils within the Hellbranch, a major tributary to Big Darby Creek. The site contains significant Tier 1 and Tier 2 critical resource habitat.

Emergency action is requested so the resolution of support can be included in the grant application package. The application deadline is October 29, 2010.

**Fiscal Impact:**
A future ordinance will address appropriation of matching funding.

Legislation Number: 1194-2010
Drafting Date: 08/12/2010 Current Status: Passed
Version: 1 Matter Type: Ordinance

Explanation
1. BACKGROUND:
This legislation will authorize the Director of Public Utilities to apply for a Federal ARRA (Stimulus) funded Transforming Waste to Value Program Grant through the Ohio Department of Development for the purpose of partially funding the Southerly WWTP Waste Digester Gas Utilization Improvements Project. The Transforming Waste to Value Program Grant is administered by the Ohio Department of Development, Ohio Energy Resources Division. The total cost of the project is $3,071,000.00. The amount of grant money requested is $1,000,000.00.

The Transforming Waste to Value Program Grant is administered by the Ohio Department of Development, Ohio Energy Resources Division. This grant is for the Southerly WWTP Waste Digester Gas Utilization Improvements Project. With
the requested $1 million grant, the Department of Public Utilities plans to improve the existing digester gas system at the Southerly Wastewater Treatment Plant by converting waste digester gas to energy for use in providing building heat at that location. The project will install a new digester gas pipeline to deliver gas to two sets of boilers, including three Screen and Grit Building (SGB) boilers and three Service Building (SEV) boilers. The SGB boilers are fitted with both digester and natural gas connections. The four existing fuel oil SEV boilers have exceeded their useful life by over twenty years and will be replaced under this project with boilers equipped to burn gas.

Providing the digester gas line will increase the beneficial use of digester gas and reduce flaring of digester gas as waste during the heating season. Currently, excess digester gas is combusted at the waste gas burner. Once the digesters are fully operational, an estimated average of 700 MMBTUs of digester gas per heating season will be available for use in providing building heat. The proposed connection of the digester gas system to the SEV and SGB boilers allows the excess gas to be consumed as fuel rather than burned at the waste gas burner. In addition to providing an outlet for the excess digester gas, replacement of the SEV fuel oil fired boilers with gas fired boilers will reduce the greenhouse gas production by increasing the boiler efficiency and burning a cleaner fuel. Additionally, according to the Intergovernmental Panel on Climate Change, burning digester gas results in a carbon neutral footprint for the boilers.

2. EMERGENCY:
The grant application deadline was August 23, 2010 and the Department of Public Utilities is requesting City Council to deem this legislation an emergency measure in order to expedite the project so the terms and conditions of the grant application are accomplished.

3. FISCAL IMPACT:
The amount of grant money requested is $1,000,000.00. The total cost of the project is projected to be $3,071,000.00 and will be paid from the Sanitary Super Build America Bonds (Super B.A.B.s) Fund 669. Should the grant be awarded, the $1,000,000.00 grant will be a reimbursement to the city at the end of the project and used to reduce the total project cost.

Title

($0.00)

Body
WHEREAS, the Ohio Department of Development, Ohio Energy Resources Division, has issued a federally ARRA funded grant through their Transforming Waste to Value Program, with the goal of converting municipal solid wastes and food and farm wastes to electricity, heat, fuel, and/or bio-products and to create jobs by building market-demand for Ohio manufacturers and distributors of biodigester components; and

WHEREAS, the Department of Public Utilities Southerly WWTP Waste Digester Gas Utilization Improvements Project meets the eligibility requirements of the grant; and

WHEREAS, it is necessary to apply for said grant; and

WHEREAS, it is necessary for City Council to authorize Director of Public Utilities to apply for said grant; and

WHEREAS, an emergency exists in the usual daily operation of the Department of Public Utilities in that it is immediately necessary to authorize the Director of Public Utilities to apply for the grant in order to expedite the project so the terms and conditions of the grant application are accomplished; for the immediate preservation of the public health, peace, property and safety; now, therefore,
BE IT ORDAINED BY THE COUNCIL OF THE CITY OF COLUMBUS:

Section 1. That the Director of Public Utilities, be and hereby is, authorized and directed to apply for a grant in the amount of $1,000,000.00 from the Ohio Department of Development, Ohio Energy Resources Division for the Southerly Waste Water Treatment Plant (SWWTP) Waste Digester Gas Utilization Improvements Project through the Transforming Waste to Value Program.

Section 2. That the Department of Public Utilities has committed to administer the grant through grant coordination, grant reporting, grant fund pay requests, and contract administration services.

Section 3. That for the reasons stated in the preamble hereto, which is hereby made a part hereof, this Ordinance is hereby declared to be an emergency measure and shall take effect and be in force from and after its passage and approval by the Mayor, or ten days after passage if the Mayor neither approved nor vetoes the same.

Explanation

1. BACKGROUND:

A. Need. This legislation authorizes the Director of Public Utilities to modify the professional engineering services agreement with Burgess & Niple, Inc., for the Jackson Pike Wastewater Treatment Plant B-Plant Secondary Clarifier Upgrade project. The Burgess & Niple, Inc. modification amount requested under this ordinance is $194,508.00. The contract total including this modification is $6,783,193.00. The proposed contract modification provides funding for additional Services during Construction and Commissioning tasks for Contract J210. The potential need for this work was foreseen as construction progressed and is therefore a continuation of the services originally included within the existing contract's scope of service. It is not deemed either feasible or reasonable to suspend work with the entity currently under contract and undertake continuation of these services with another provider.

| Original Contract | $ 872,190.00 |
| Modification No. 1 | $ 3,408,252.00 |
| Modification No. 2 | $ 2,308,243.00 |
| Proposed Modification No. 3 | $ 194,508.00 |
| CURRENT PROPOSED TOTAL | $ 6,783,193.00 |

Reasons additional goods/services could not be foreseen:
This Contract Modification No. 3 is a continuation of the services included within the existing contract's scope of service and was anticipated as construction progressed. The effort required for several construction-phase engineering services tasks and the commissioning assistance task were beyond the level originally estimated and included in the contract.

Reason other procurement processes are not used:
The funding provided by this contract modification is for completion of the existing work of the contract. Due to the highly complex and technical nature of this wastewater treatment plant infrastructure, it is not reasonable or cost efficient to undertake a new procurement effort to acquire these services. The process for initiating a new procurement, and for a new entity to gain understanding of the project, may cause project delays and additional cost.
**How cost of modification was determined:**
A cost proposal was provided by Burgess & Niple, Inc. and reviewed by the Division of Sewerage and Drainage and was deemed acceptable. The cost of this contract modification is consistent with the overhead, and profit rates established within the original proposal. The cost of this contract modification updates the direct labor rates from the original 2005 proposal.

B. **Contract Compliance No.:** 31-0885550 | (MAJ) | (Expires 12/10/2010)

C. **Emergency Designation:** Emergency designation is not requested.

2. **FISCAL IMPACT:**

This ordinance authorizes the Director of Public Utilities to transfer within and expend $194,508.00 in funds from the B.A.B.s (Build America Bonds) Fund for this expenditure and amend the 2010 Capital Improvements Budget to establish sufficient budget authority.

The Braun & Steidl Architects, Inc. modification amount requested under this ordinance is $24,152.00. The contract total including this modification is $567,538.00. **Reasons additional goods/services could not be foreseen:**
This Contract Modification No. 3 is a planned continuation of the services included within the existing contract's scope of service.

**Reason other procurement processes are not used:**
The funding provided by this contract modification is for the continuation of the existing work of the contract. Due to the highly complex and technical nature of this work it is not reasonable or cost efficient to undertake a new procurement effort to acquire these services. The lengthy process for initiating a new procurement, and for a new entity to gain understanding of the project, would likely cause an unacceptable project delay and additional cost.

**How cost of modification was determined:**
A cost proposal was provided by Braun & Steidl Architects, Inc. and reviewed by the Division of Sewerage and Drainage and was deemed acceptable. The cost of this contract modification is consistent with the direct labor, overhead, and profit rates established within the original proposal.

C. **Emergency Designation:** Emergency designation is not requested.

2. **FISCAL IMPACT:**

Explanation
This legislation authorizes the Director of the Department of Technology on behalf of the City of Columbus to enter into a contract with Iron Mountain Intellectual Property Management, Inc. for escrow services. This ordinance will provide for payment and authorize the City Auditor to certify funds established in order to pay for past due, current, and upcoming invoices in the amount of $2,100.00 for escrow services to house the Lawson Software code for the CHRIS Project. The coverage period for the past due invoices of $1,400.00 is from December 10, 2008 to November 26, 2010. The coverage period for the upcoming expenses of $700.00 is from November 27, 2010 to November 26, 2011.

Under the original contract with Lawson Software, Inc. (Ord.1799-2007), Iron Mountain Intellectual Property Management, Inc. was identified as the vendor of choice for escrow services and the City of Columbus was identified as the preferred beneficiary for these services. Lawson Software, Inc. originally (for the first year) agreed to pay the entire cost inclusive of the City's share, however for the second year and thereafter it was mutually agreed by all parties legal counsel that the City of Columbus would need to establish a contract directly with Iron Mountain Intellectual Property Management, Inc. to pay for the City's portion of the escrow services. This contract establishes an escrow account directly with Iron Mountain Intellectual Property Management, Inc. to provide for the retention, administration and controlled access of the proprietary technology materials of Lawson Software, Inc. (Depositor) code utilized for the CHRIS project.

This ordinance requests approval to continue services provided by Iron Mountain Intellectual Property Management, Inc., and to waive the competitive bidding provisions of the Columbus City Codes (Section 329). The bid waiver will allow the City to continue the escrow services in housing the Lawson Software code associated with the CHRIS Project, directly with Iron Mountain Intellectual Property Management, Inc.

EMERGENCY DESIGNATION:
Emergency designation is requested to immediately facilitate prompt payment and to avoid interruption in the performance of services in the usual daily operation.

FISCAL IMPACT:
The total cost associated with this contract between the City of Columbus, Department of Technology and Iron Mountain
Intellectual Property Management, Inc., for the escrow services of housing the Lawson Software code associated with the CHRIS Project; to pay past due, current, and upcoming invoices is $2,100.00. The coverage period for the past due invoices amount of $1,400.00 is from December 10, 2008 to November 26, 2010. The coverage period for the upcoming expenses of $700.00 is from November 27, 2010 to November 26, 2011. Funds to cover this cost are available within the department's 2010 budget.

Background:

In 1994, The Department of Public Utilities initiated a contract (CT-15918) for software and services related to water and sewer information management system (WASIMS) now called the Columbus Utility Billing System (CUBS). The original contract, Section 12, provided for modifications and changes in scope of service. However, the original contract, in fiscal year 2000, was assumed by the Department of Technology along with the maintenance, modifications and services responsibilities provided by Indus Utility Systems, Inc. (Indus); now known as Ventyx, Inc; this name change was previously addressed in ordinance number 0649-2007.

This legislation authorizes the Department of Technology (DoT), on behalf of the Department of Public Utilities, to renew an annual software maintenance and support contract with Ventyx Inc. This contract will allow the Department of Technology to continue utilizing services, provided by Ventyx Inc. associated with annual maintenance and support, for CUBS, which includes three software applications: Archive Manager (TCP+); Customer Suite, Service Suite & Advantage; and MicroFocus. The coverage period for the services related to this modification is for twelve months commencing October 1, 2010 through September 30, 2011, in the amount of $281,825.00.

Passage of this ordinance will also allow for services with the same company, provided by the same contract, for maintenance and support associated with the Archive Manager (TCP+) module, with a coverage period of July 1, 2010 through September 30, 2010, in the amount of $8,410.00.

This ordinance also requests approval to continue services provided by Ventyx, Inc. in accordance with sole source procurement provisions of Section 329 of the Columbus City Code; as it has been determined Ventyx is the sole distributor of the software products associated with the CUBS system, and does not utilize distributors or resellers to
provide maintenance and support for its software products.

**EMERGENCY:**
Emergency action is requested to expedite authorization of this contract in order to facilitate and maintain uninterrupted services from the supplier.

**FISCAL IMPACT:**
The 2008 cost for the annual maintenance associated with the CUBS system was $470,237.00 (PO# EL008765 authorized by Ord# 1117-2008). The 2009 cost for the annual maintenance associated with the CUBS system was $563,591.00 (PO# EL009535 authorized by Ord# 0615-2009). This ordinance will authorize $290,235.00 for the 2010 annual maintenance associated with the CUBS system. The aggregate contract total for the CUBS system (formerly WASIMS) is $5,132,818.23.

Explanation
BACKGROUND:
This legislation authorizes the Director of the Department of Technology to modify and extend the existing contract with Lawson Software for an additional one (1) year term, December 1, 2010 through November 30, 2011, for the installation and related services associated with the Central Payroll and Human Resources Information Management System (CHRIS). This system is replacing the City's aged, out-dated system that is reaching the limit capacity associated with maintaining data, processing information and programs. Without increasing total funding, this contract modification will extend the contract term period to allow for remaining deliverables and services to be performed and allow any remaining funds from purchase orders EL007511 (authorized via Ordinance No. 1799-2007; passed by Council November 26, 2007) and EL010074 (authorized via Ordinance No. 1340-2009; passed by Council December 1, 2009) to be expended as mutually agreed by both the City of Columbus and Lawson Software, with all other terms and conditions remaining the same. As of September 10, 2010 the remaining funds on EL007511 was $825,065.30 and EL010074 had $140,122.05 remaining.

In 2009, a total $650,004.000 was legislated via Ordinances 1110-2009, 0425-2009, and 1340-2009 to increase funding and extend the existing contract term periods. Passage of this ordinance will allow the contract to be extended for an additional one year term (12/01/2010 through 11/30/2011) for an accumulative total of three years the contract will have required extension beyond the initial first year. Additional contract details can be viewed via attachment ORD1243-2010 LAWSONHISTORY.
As the CHRIS project is not complete, and after further research and analysis, it has been determined that the Department of Technology has a need to extend the existing contract with Lawson Software for an additional one (1) year term, December 1, 2010 through November 30, 2011 and utilize any remaining funds from Purchase Orders EL010074 and EL007511 during this extended coverage period. While performing development tasks associated with the CHRIS project, there were circumstances that directly impacted deliverables and milestones associated with the implementation.

**FISCAL IMPACT:** In addition to the modifications to increase funding identified above for fiscal year 2009, the Department of Technology also expended in 2008 and 2009 $80,000.00 and $163,112.24 respectively for maintenance and support. Earlier this year $130,691.93 was expended via Ordinances 0187-2010 for maintenance and support bringing the contract aggregate total for maintenance and support to $373,804.17. There is no fiscal impact associated with this ordinance to extend the term period from 12/01/2010 through 11/30/2011.

**CONTRACT COMPLIANCE:**

The Ohio Department of Natural Resources awarded $112,500.00 as part of the NatureWorks Grant program. Grant is for the development of Sharon Park as a neighborhood park. Grant title: Sharon Park Development: FRAN-048. Award is for $112,500.00. This is a 75%/25% matching grant. CRPD will match the 25% with Capital Improvement funds. The details of the 25% match from CRPD are $28,125.00 from Fund 746, Project 510717-100002, OCA 767702.

As our standard, the Recreation and Parks Department strives to have a neighborhood park within ¼ mile of every Columbus resident. The closest park is 2.75 miles from this community. This park will fill a recreational need as well as provide community space.

Developing this park is a 20-year goal of the Sharon Heights Community Association. Volunteers are already organized and conducting events to help claim and maintain the park. The plans for development, including this grant, has been a very public process. CRPD has hosted earth day projects in the park in 2010 and attended numerous community meetings. A survey in 2009 was sent out by the Community to determine residents' expectations for the park. Input has been sought at every level.

Explanation

Background:
Construction of a new Port Columbus runway requires 12 of the 18 holes at Airport Golf course to be newly designed and constructed due to the realignment of the landing lights that are located on the golf course. The renovations to the 12 holes are to be at the expense of the Columbus Regional Airport Authority. However, the remaining six holes will need to be re-seeded, have drainage improvements, bunker renovations, and minor grading at the expense of the Columbus Recreation and Parks Golf Division at an estimated cost of $280,000, to which the division has agreed to pay, in order to match the other newly designed and constructed 12 holes. The work done on all 18 holes will occur simultaneously during which time the Golf Division will voluntarily close Airport Golf Course during the anticipated 18-month construction period. Thus, the course will close in September 2011 and will re-open in April 2013.

The Columbus Recreation and Parks Department has allocated $140,000 in 2011 and $140,000 in 2012 to fund this expense with Capital Improvement Voted Bond Funding.

The Federal I.D. Number for Columbus Regional Airport Authority is #311335829.

Fiscal Impact: Bonds have yet to be sold for the Golf Division's portion of the project, i.e. six holes, necessitating a certification of $280,000.00 against the Special Income Tax Fund. Upon the sale of the bonds, this will be reimbursed. Special Income Tax Funding is to be reimbursed after 2011 and 2012 voted bond sale.

Title

To authorize and direct the City Auditor to transfer $280,000.00 from the Special Income Tax Fund to the Recreation and Parks Capital Improvement Fund; to authorize the City Auditor to appropriate $280,000.00 within the Recreation and Parks Capital Improvement Fund; to authorize the expenditure of $280,000.00 from the Recreation and Parks Capital Improvement Fund; to amend the 2010 Capital Improvements Budget, and to authorize and direct the Director of Recreation and Parks to enter into an agreement with the Columbus Regional Airport Authority for the renovations to Airport Golf Course ($280,000.00).

Body

WHEREAS, the City of Columbus desires to continue operating Airport Golf Course with a consistent 18-hole layout; and

WHEREAS, The Columbus Regional Airport Authority will design and construct 12 holes at Airport Golf Course at their expense and will be reimbursed for the re-seeding, drainage improvements, bunker renovations and minor grading of six holes at the expense of The Columbus Recreation and Parks Department's Golf Division; and

WHEREAS, it is necessary to transfer funds from the Special Income Tax Fund to this project; and

WHEREAS, the City will sell notes or bonds to fund the Golf Division's portion of the project and will reimburse the Special Income Tax Fund; and
WHEREAS, this transfer should be considered as a temporary funding method; and

WHEREAS, the aggregate principal amount of obligations which the City will issue to finance this renovation is presently expected not to exceed $280,000.00; and

WHEREAS, the City anticipates incurring certain Original Expenditures (as defined in Section 1.150-2(c) of the Treasury Regulations (the "Treasury Regulations") promulgated pursuant to the Internal Revenue Code of 1986, as amended) with respect to the project described in this ordinance (the "Project"), and

WHEREAS, the 2010 CIB will be amended to reflect the transfer credited to project 510429-100020, and

BE IT ORDAINED BY THE COUNCIL OF THE CITY OF COLUMBUS

SECTION 1. That the Director of Recreation and Parks be and he is hereby authorized and directed to enter into an agreement with the Columbus Regional Airport Authority for the design and construction of 12 holes at the Airport Golf Course, and for the reimbursement to the Columbus Regional Airport Authority for the re-seeding, drainage improvements, bunker renovations and minor grading of the six remaining holes at this facility.

SECTION 2. The sum of $280,000.00 be and is hereby appropriated from the unappropriated balance of the Special Income Tax Fund, Fund 430, and from all monies estimated to come into said fund from any and all sources and unappropriated for any other purpose during the fiscal year ending December 31, 2010 to the City Auditor, Department 22-01, Object Level One 10, OCA Code 902023, Object Level Three 5502.

SECTION 6. That the Auditor is authorized to establish proper accounting project numbers, and to make any accounting changes to revise the funding source for any contract modification associated with the expenditure if funds transferred in Section 2, above.

SECTION 7. That the City intends that this ordinance constitutes an "official intent" for purposes of Section 1.150-2(e) of the Treasury Regulations, and that the City reasonably expects to reimburse itself for certain Original Expenditures incurred with respect to the Project from the proceeds of obligations to be issued by the City in a principal amount currently estimated to be $280,000.00 (the "Obligations"). The City intends to make a reimbursement allocation on its books for the Original Expenditures no later than 18 months following the later to occur of the date of the Original Expenditure to be reimbursed or the date the Project for which such Original Expenditures were made is "placed in service" within the meaning of the Treasury Regulations Section 1.150-2(c). Upon the issuance of the Obligations, the proceeds of such Obligations shall be used to reimburse the fund from which the advance for costs of the Project will be made.

SECTION 8. That the 2010 Capital Improvements Budget Ordinance No. 0564-2010, is hereby amended as follows, in order to provide sufficient budget authority for future expenditures legislation and to correct previous expenditure cancellations.

CURRENT:
Fund 702; Project 510429-100020 /Airport Golf Course Improvements/ $0.00

AMENDED TO:
Fund 702; Project 510429-100020 /Airport Golf Course Improvements/ $280,000

SECTION 10. All funds necessary to carry out the purpose of this ordinance are hereby deemed appropriate.

**Need:** The Ohio Water Development Authority (OWDA) requires this legislation which authorizes the Director of Public Utilities to apply for and execute an OWDA Local Government Agency Loan Program loan agreement for the construction of the Safford/Union Area Water Line Improvements Project, CIP No. 690236-100007 under the direction of the Division of Power and Water. This capital improvement project is planned to be financed through the OWDA Local Government Agency Loan Program. This loan program is administered by the OWDA. Explanation

BACKGROUND: The Fire Division needs to purchase CPR Manikins with feedback capabilities and a Lung Trainer for use in Paramedic and EMT initial training and continuing education, as part of City Council’s Project Second Chance Program. Columbus City Council initiated Project Second Chance, a public education and outreach effort started in 2003, to raise awareness of sudden cardiac arrest and the value of cardiovascular resuscitation (CPR) in saving lives. Funds are available in the Fire Division's Public Access Defibrillation Program Fund established by City Council for Project Second Chance Projects.

This legislation also authorizes the Columbus City Auditor to appropriate $22,473.00 within the Fire Division's Public Access Defibrillation Program Fund, to the Department of Public Safety, Division of Fire and authorizes the Finance and Management Director to issue a purchase order for EMS training equipment from existing Universal Term Contracts established by the Purchasing Office for such purposes with BoundTree Medical LLC in the total amount of $22,473.00.

Bid Information: Universal Term Contracts exist for these purchases.

Contract Compliance: BoundTree Medical LLC - CC# 311739487 expires 03/17/2011.

Emergency Designation: Emergency action is requested as funds are needed immediately for these purchases to allow EMS officers continued training.

FISCAL IMPACT: This ordinance authorizes an appropriation of $22,473.00 from the unappropriated balance of the Special Purpose Fund for Fire Division's Public Access Defibrillation Program and authorizes an expenditure of the same amount from this Special Purpose Fund to purchase EMS training equipment. Ordinance 0692-2008, passed in May 2008, appropriated $41,776.40 for similar equipment and supplies.

Explanation: The Division of Fire was awarded a grant from the Department of Homeland Security to purchase a Video X-ray system that can be safely used in the hand held or robot deployment method and various energetic tools for the bomb squad to remotely open packages. The total cost for this equipment is $73,860.20, the payment of which will be issued by Franklin County, on behalf of the Department of Homeland Security and Ohio Emergency Management Agency. The City of Columbus and Franklin County entered into an Intergovernmental Agreement via Ordinance 1917-2005 to enable this type of purchase.

This legislation will authorize and direct the Director of Finance and Management to execute those documents necessary for the acquisition of these equipment.

Bid Information: The Division of Fire was approved for a State Homeland Security Grant to purchase a video x-ray equipment from Envision CmosXray for $57,711.31 and various energetic tools from Cherry Engineering Inc for $16,148.89 for the Bomb Squad. The grant requirements are such that purchasing this equipment pursuant to section 329.06 (Formal Competitive Bidding) of the Columbus City Code is not possible due to the specialized nature of this equipment.

There are no other approved equipment vendors that meet Division of Fire's requirement at this time. This equipment is specific for Bomb Squads, and vendors are limited due to the sensitive nature and the small number of bomb squads in the United States.

**Explanation**

**AN10-001**

**BACKGROUND:** This ordinance approves the acceptance of certain territory (AN10-01) by the City. The Ohio Revised Code stipulates that once an annexation has been approved, it must be accepted by the receiving municipality within 180 days (but not sooner than 60 days) of receipt by the City Clerk of the approval notice from the county. Should City Council not take such action, the annexation will not take place. This petition was filed with Franklin County on June 14, 2010. FISCAL IMPACT: No funding is required for this legislation. Provision of municipal services does represent cost to the City; however the annexation of land also has the potential to create revenue to the city.

Explanation

BACKGROUND: This Ordinance authorizes the Director of Public Utilities to modify and increase the construction contract with Kokosing Construction Co., Inc., for the South Wellfield Expansion Collector Well 120, Phase 1A Project, for the Division of Power and Water.

The work to be performed in this modification includes additional electrical work including providing (1) new 300 KVA transformer, providing and installing 15 KV electrical cables and along with 600 V ground conductor from transformer to well house and such other incidental work necessary to complete the electrical service to the well house.

1. Amount of additional funds to be expended: $114,166.00
   Original Contract Amount: $1,753,285.60
   Amount of original contract and this modification: $1,867,451.60

2. Reasons additional goods/services could not be foreseen:
   This project, as originally conceived, was part of a larger project encompassing multiple wells at multiple locations. During the design process an agreement was reached between the then Division of Water and Division of Electricity (DOE) whereby the DOE would provide certain labor and materials necessary to connect the various well houses to electrical transmission lines. Funding and other considerations required breaking the comprehensive South Wellfield Expansion project into smaller individual well sites and delayed bidding. Among the consequences of this delay and division of work are that current staffing and other resources within the Division of Power and Water (Power) section will not permit them to complete their originally agreed upon portion of the work in a timely manner.

3. Reason other procurement processes are not used:
   This modification keeps the contractor on the project and on schedule to finalize the South Wellfield Expansion - Collector Well 120, Phase 1A, Part 1A & Part 2. Work contained in the modification (electrical service to well house) must be installed and operational in order to adequately test and calibrate other work completed in this project. In light of this, the
additional cost, delays and liability associated with bidding this integral portion of the work would well exceed any benefit.

4. How cost of modification was determined:
Costs were submitted by the Contractor and reviewed and verified by the Engineering Consulting Team providing Construction Services for the project.

Version: 1
Current Status: Passed
Matter Type: Ordinance

Explanation
BACKGROUND: This legislation authorizes the Director of Public Utilities to modify an existing Master Services Agreement (MSA) with American Municipal Power, Inc. (AMP) for purposes of partial participation in the energy efficiency program to be known as the Efficiency Smart Power Plant (ESPP), substantially in the form of the ESPP Schedule hereto attached and to take any action necessary for the City of Columbus to fulfill its obligation under the ESPP Schedule in an amount not to exceed $1,249,500.00 plus interest if one of two deferral options is selected. Explanation
BACKGROUND: To appropriate $66,668.00 in the Urban Development Action Grants Fund, to the Department of Finance and Management, and to authorize the expenditure of $66,668.00 from the Urban Development Action Grants Fund for the immediate and long term maintenance of the Ohio Theatre.

The development agreements for the use of two UDAGs received by the City for renovation of the Ohio Theatre require that loan repayments from the Columbus Association for the Performing Arts (CAPA, tax id. #31-0749884) to the city be used for maintenance of the theatre.

The development agreements established a 30-year term for CAPA to repay the UDAG. The use of the loan repayments...
for maintenance activities constitutes an expenditure by the City and is not a loan.

FISCAL IMPACT: Funds are available for these transactions in the Urban Development Action Grants subfunds.

This legislation is presented as an emergency to effectively execute the requirements of the UDAG agreement. The terms of the UDAG contract stipulate that CAPA make payment to the City, which in turn must reimburse that amount to CAPA on a timely basis to fund the aforementioned maintenance expenses.

Title

Explanation

BACKGROUND: The Police Crime Laboratory proposes to computerize the crime laboratory's information management processes and improve the quality and timeliness of forensic services. The crime laboratory currently utilizes an antiquated computer program to record and track cases and evidence received at the laboratory. The laboratory relies on photocopies of handwritten chain of custody labels for use in court proceedings.

The Crime Laboratory proposes to implement a forensic laboratory information management system that will allow for evidence transfers to be performed more quickly through use of electronic tracking. The project will also allow for reporting to include the number and types of cases received, those awaiting analysis at the laboratory, turnaround time of casework, and output for individual analysts. This computerization will reduce the time employees spend documenting evidence transfers and producing management reports, and will allow for more time to be utilized for the analysis of casework thereby reducing turnaround time and backlog.

BID INFORMATION: A Formal Request for Proposals (RFP-SA003600) was posted on June 21, 2010. The following vendors submitted bids as follows:

- JusticeTrax, Inc. (MAJ)
- Porter Lee Corporation (MAJ)
- Starlims Corporation
- The Computer Solution Company

After committee evaluation and vendor demonstrations, the Division of Police recommends acceptance of the proposal submitted by JusticeTrax, Inc. in the amount of $198,541.52. JusticeTrax was one of two vendors that met the minimum specifications and qualifications called for in the RFP. JusticeTrax received the highest scoring from the evaluation committee due to their proposal and their understanding of the tasks, as well as their product demonstration. Negotiations with JusticeTrax, Inc. resulted in the contract price of $198,541.52.

Contract Compliance No: 86-0960454, expires 6/08/2012

Emergency Designation: Emergency legislation is needed because the grant award period began October 1, 2009 and the acquisition, implementation, and payment of this system must be completed within the award period.

FISCAL IMPACT: This ordinance authorizes an expenditure of $125,000.00 from the FY2009 Coverdell Forensic Improvement Grant fund, and $73,541.52 from the Law Enforcement Drug Seizure fund to enter into contract with JusticeTrax, Inc. for the purchase of a Crime Laboratory Management System for the Division of Police. The procurement of the Crime Laboratory Management System will have no impact on the financial status of the General Fund.

Section 3. That for the reasons stated in the preamble hereto, which is hereby made a part hereof, this ordinance is hereby declared to be an emergency measure and shall take effect and be in force from and after its passage and approval by the Mayor or ten days after passage if the Mayor neither approves nor vetoes the same.
1. BACKGROUND
The Division of Planning and Operations is responsible for snow and ice removal and control and for maintaining the City's roadway system. To accomplish this mission the Division requires four single axle dump trucks. These trucks will replace older trucks beyond their useful service lives and provide for a more reliable fleet to carryout services provided by the Division. This purchase is consistent with the division's fleet replacement program.

In order to expedite delivery and reduce costs the Division of Planning and Operations, Fleet Management Division and the Purchasing Office, have developed a pilot program for acquiring the four single axle dump trucks. The proposed method entails procuring all the necessary parts and components from existing State of Ohio contracts, and then contracting with a local vendor to assemble (up-fit) the complete unit. The Committee has determined that the pilot program's method for acquiring these units will significantly reduce timelines for delivery of the same. It is estimated that these units could be "in-service" no later than early 1st Quarter FY 2011 for snow removal.

All the main parts and components and the cab and chassis necessary for the building of the single axle dump trucks are available on existing ODOT contracts with the exception of the snow plow which is available on an Ohio Department of Administrative Service Cooperative Contract. All items will be purchased from the appropriate contracts and drop shipped to the qualified up-fitter. Pengwyn Hydraulics is the preferred vendor for up-fitting. This decision was based upon their current and previous experience up-fitting similar units for the cities of Dublin, Upper Arlington, Westerville and other surrounding communities - they are a local vendor with specific experience and quality controls in place to significantly improve the quality of the final product as well as reduce both the expense and time frame to build the same unit. A negotiated price of $16,500.00 per unit cost for upfitting with an additional $500.00 per unit contingency fee has been established. Total cost for the upfitting of four units is $68,000.00.

Explanation

BACKGROUND: The Division of Police Crime Lab purchased an expanded capacity genetic analyzer in April 2009 using DNA Backlog Reduction Grant funds (Ord. #1875-2008). Due to the complexity of the instrument and new tests that are to be performed, the Crime Lab needs to validate the instrument for use in casework. The new testing to be performed is called Y-STR. This test will be extremely valuable in typing small quantities of male DNA when mixed with female DNA as is common with sexual assault cases.

Applied Biosystems $ 70,000.00.
Sorenson Forensics $106,500.00.

The Division of Police recommends the bid award be made to the most responsive, responsible, and lowest bidder, Applied Biosystems, LLC.

Legislation Number: 1427-2010
Drafting Date: 09/28/2010
Version: 1
Current Status: Passed
Matter Type: Ordinance

Explanation
BACKGROUND: This legislation is to authorize the purchase of two (2) Compressed Natural Gas (CNG) Flatbed Trucks
for the Public Service Department, Refuse Collection Division as part of the Congestion Mitigation and Air Quality (CMAQ) grant. These units will replace older ones which are beyond their useful service lives.

The CMAQ grant was awarded to the Fleet Management Division, from the Ohio Department of Transportation, sponsored by the Mid-Ohio Regional Planning Commission (MORPC). The goal of the project is to significantly reduce emissions from heavy-duty diesel vehicles. Ordinance 1178-2008 was passed on July 17, 2008 authorizing the acceptance and appropriation of this grant. Three interrelated projects are part of the grant; emission-reduction retrofit equipment purchases, anti-idling equipment purchases and CNG vehicle purchases.

CNG vehicles produce significantly lower amounts of harmful emissions such as nitrogen oxides, particulate matter and toxic and carcinogenic pollutants. Natural gas is a domestically available, inherently clean burning fuel. Using compressed natural gas as vehicle fuel increases energy security by reducing our dependence on foreign oil and improves public health and the environment. Currently, CNG is also significantly lower in cost than either gasoline or diesel. The City of Columbus has paid an average of $2.77 per gallon year to date in 2010 for diesel fuel. CNG is currently retailing in Columbus for $1.50 per gge (gasoline gallon equivalent), a $1.27 per gallon or 46% savings in fuel cost.

Formal bids for the Flatbed Trucks with the Compressed Natural Gas engine option were received from one (1) vendor by the Purchasing Office on June 10, 2010 via SA003579.

This ordinance authorizes the Finance and Management Director to issue a purchase order to Ricart Properties Inc. for two (2) CNG Flatbed Trucks for the Division of Refuse Collection.

Contract Compliance No.: Ricart Properties, Inc 31-1282546 expires 10/23/2010

Emergency Designation: Emergency legislation is requested so that the purchase orders can be issued as soon as possible, thereby ensuring that deadlines of the CMAQ grant are met.

FISCAL IMPACT: Funding for the base trucks and 20% of the CNG upgrade will be funded through the 2010 Capital Improvements Budget in the Refuse Collection General Obligation bonds. Of this, $83,400.00 is for the base cost of the Flat Bed Truck. An additional amount of $50,800.00 is necessary for the upgrade to CNG. Of this, 20% will be transferred from the Refuse Fund to the CMAQ Grant fund. The remaining $40,640.00, representing 80% of the cost of the CNG upgrade, will be funded by the CMAQ grant, from funds from the State Department of Transportation. The Get Green Initiative will provide funding in the amount of $3,514.00 for the base cost of one Flat Bed Truck.

WHEREAS, pursuant to Ordinance No. 0484-2009 adopted on April 13, 2009, notes in the aggregate principal amount of $286,000.00 (the "Outstanding Notes") were issued on April 16, 2009 in anticipation of the issuance of bonds in anticipation of the levy and collection of special assessments for the purpose hereinafter stated, which Outstanding Notes will mature November 16, 2010; and

WHEREAS it appears advisable in lieu of issuing bonds at this time to issue new notes in anticipation of the issuance
of bonds and to retire the Outstanding Notes; and

WHEREAS, the City Auditor has certified to this Council that the estimated life of the improvements to be constructed from the proceeds of the bonds and notes hereinafter referred to exceeds five (5) years, the maximum maturity of bonds being ten (10) years and the maximum maturity of notes being four (4) years.

NOW THEREFORE, BE IT ORDAINED BY THE COUNCIL OF THE CITY OF COLUMBUS:

Section 1. It is hereby declared necessary to issue bonds of the City of Columbus, Ohio, (the "City") in the principal sum of $286,000.00 (the "Bonds") in anticipation of the levy and collection of special assessments for the purpose of providing funds to pay the costs of constructing sanitary sewer improvements to an existing, unsewered residential area along Lockbourne Road from S.R. 104 to Watkins Road and portion of Evergreen Road and Koebel Road, in the City of Columbus, Ohio.

Section 2. The Bonds shall be in the denomination of $5,000.00 or any integral multiple thereof, shall be dated on or before the maturity date of the Notes hereinafter provided for and issued in anticipation of the issuance of such Bonds, shall bear interest at a rate presently estimated to be six per centum (6.00%) per annum, payable semiannually until the principal sum is paid and shall mature in ten (10) annual installments after their issuance.

Section 3. It is necessary to issue and this Council hereby determines that notes (the "Notes") in the principal amount of $286,000.00 shall be issued in anticipation of the levy and collection of said special assessments and in anticipation of the issuance of the Bonds for the purpose set forth above and to retire the Outstanding Notes.

Section 4. After said improvements are completed and the costs thereof ascertained, Council shall by ordinance assess upon the benefited property, in the manner provided in the legislation referring to said improvements and heretofore adopted by this Council, the entire cost and expense thereof, except the portion to be paid by the City in accordance with the provisions of the Ohio Revised Code and Section 178 of the City Charter, and shall authorize the issuance of the Bonds under the provisions of Section 133.30 of the Ohio Revised Code and Section 189 of the City Charter.

Section 5. All assessments collected for the improvements and the unexpended balances remaining in the special improvement fund after the cost and expense of the improvements have been paid, shall be applied to the payment of principal of and interest on the Notes, and then to the payment of principal of and interest on the Bonds.

Section 6. The Notes shall be the full general obligation of the City and the full faith, credit and revenue of the City are hereby pledged for the prompt payment of the same. The par value to be received from the sale of the Bonds and
any excess funds resulting from the issuance of the Notes shall, to the extent necessary, be used only for the retirement of the Notes at maturity, together with interest thereon, and is hereby pledged for such purpose.

Section 7. The Notes shall be designated "City of Columbus, Ohio Lockbourne Road Area Sanitary Sewer Assessment Bond Anticipation Notes, 11-10".

Section 8. The Notes shall be issued only as one fully registered note, in the denomination of $286,000.00; shall be numbered RN-1; shall be dated November 16, 2010; shall mature on November 16, 2011; and shall bear interest payable at maturity at the rate of one and two tenths percent (1.20%) per annum. Section 9. The Notes shall express upon their faces the purpose for which they are issued and that they are issued pursuant to this Ordinance; shall be executed by the Mayor and the City Auditor of the Municipality, in their official capacities, provided that any of those signatures may be a facsimile. No Note shall be valid or become obligatory for any purpose or shall be entitled to any security or benefit under this Ordinance unless and until a certificate of authentication, as printed on the Note, is signed by the Note Registrar (as defined in Section 10 hereof) as authenticating agent. Authentication by the Note Registrar shall be conclusive evidence that the Note so authenticated has been duly issued and delivered under this Ordinance and is entitled to the security and benefit of this Ordinance.

The principal of and interest on the Notes shall be payable in lawful money of the United States of America without deduction for the services of the Note Registrar as paying agent. The principal of and interest on the Notes shall be payable upon presentation and surrender of the Notes at their maturity at the office of the Note Registrar.

Section 10. The Trustees of the Sinking Fund of the City of Columbus is appointed to act as the authenticating agent, note registrar, transfer agent and paying agent (collectively, the "Note Registrar") for the Notes. So long as any of the Notes remain outstanding, the City will cause to be maintained and kept by the Note Registrar, at the office of the Note Registrar, all books and records necessary for the registration, exchange and transfer of Notes as provided in this Section (the "Note Register"). The person in whose name any Note shall be registered on the Note Register shall be regarded as the absolute owner thereof for all purposes. Payment of or on account of the principal of and interest on any Note shall be made only to or upon the order of that person. Neither the City nor the Note Registrar shall be affected by any notice to the contrary, but the registration may be changed as herein provided. All payments shall be valid and effectual to satisfy and discharge the liability upon the Notes, including the interest thereon, to the extent of the amount or amounts so paid.

A Note may be transferred only on the Note Register upon presentation and surrender thereof at the principal office of the Note Registrar, together with an assignment executed by the registered owner or by a person authorized by the owner to do so by a power of attorney in a form satisfactory to the Note Registrar. Upon that transfer, the Note Registrar shall complete, authenticate and deliver a new Note in the principal amount equal to the principal amount of the Note surrendered and bearing interest at the same rate and maturing on the same date.

The City and the Note Registrar shall not be required to transfer or exchange any Note for a period of fifteen days next preceding the date of its maturity.

In all cases in which Notes are transferred hereunder, the City shall cause to be executed and the Note Registrar shall authenticate and deliver Notes in accordance with the provisions of this Ordinance. The exchange or transfer shall be without charge to the owner; except that the City and Note Registrar may make a charge sufficient to reimburse them for any tax or other governmental charge required to be paid with respect to the transfer. The City or the Note Registrar may require that those charges, if any, be paid before it begins the procedure for the transfer of the Notes. All Notes issued upon any transfer shall be the valid obligations of the City, evidencing the same debt, and entitled to the same benefits under this Ordinance, as the Notes surrendered upon that transfer.

Section 11. The Notes shall be sold to the City's Treasury Investment Board at a price equal to 100% of the principal amount thereof plus accrued interest, if any, from the dated date of the Notes to the date of purchase.
The proceeds from the sale of the Notes, except accrued interest or costs of issuance, allocable to the Notes shall be deposited in the City Treasury and applied to the payment of the costs of the project described in Section 1 of this Ordinance, and retiring notes previously issued for such purpose.

Any accrued interest or premium received from such sale shall be deposited in the City Treasury and shall be credited to the proper Bond Retirement Fund to be applied to the payment of the principal of and interest on the Notes in the manner provided by law. Said proceeds are hereby appropriated for such purposes.

All moneys necessary to carry out the purpose of this Ordinance are hereby deemed appropriated and authorized for expenditure by the City Auditor.

Section 12. It is hereby found and determined that all formal actions of this Council concerning and relating to the adoption of this ordinance were adopted in an open meeting of this Council, and that all deliberations of this Council and of any of its committees that resulted in such formal action, were in meetings open to the public, in compliance with all legal requirements including Section 121.22 of the Ohio Revised Code.

Section 13. It is hereby found and determined that all acts, conditions and things necessary to be done precedent to and in the issuing of the Notes in order to make them legal, valid and binding obligations of the City have happened, been done and been performed in regular and due form as required by law; that the full faith, credit and revenue of the City are hereby irrevocably pledged for the prompt payment of the principal and interest thereof at maturity; and that no limitation of indebtedness or taxation, either statutory or constitutional, has been exceeded in issuing the Notes.

Section 14. The City Clerk is hereby directed to forward a certified copy of this ordinance to the Auditors of Franklin County, Fairfield County and Delaware County, Ohio.

Section 15. In accordance with Section 55(b) of the Charter of the City of Columbus, Ohio, this ordinance shall take effect and be in force from and immediately after its passage and approval by the Mayor, or ten days after passage if the Mayor neither approves nor vetoes the same.
utility.

This power purchase agreement demonstrates the City's commitment to reducing its own carbon footprint as well as committing to be a leader in the growth of the solar industry, especially in central Ohio.

Requests for Statements of Qualifications were available on June 9, 2010, and submitted on June 30, 2010. The City received six proposals (1 MBE*, 0 FBE): SolarVision LLC; Velocity Construction Services*, Tipping Point, Third Sun & Wind Power Ltd./Nextgen Builders LLC; Teynor Development Corp; and Hull & Associates, Inc. A three person committee evaluated the proposals, including one member each from the Office of Construction, the Finance and Management Director's Office, and the Mayor's Office.

Previously, Ordinance 1117-2010, passed July 19, 2010, authorized the Finance and Management Director to enter into a ten-year Solar Power Purchase Agreement with SolarVision LLC. During subsequent negotiations, SolarVision informed us that the ten-year agreement proposed in its Statement of Qualifications was unworkable. Therefore, the City entered negotiations with Tipping Point Energy, the second ranked firm while simultaneously attempting to reach terms with SolarVision LLC. Both firms proposed twenty-year terms. Tipping Point Energy's proposal was for a larger array at an overall lower rate. Its proposal started at 6 cents per kilowatt hour with a 3% escalator per year. SolarVision LLC's proposal started at 5 cents per kilowatt hour with a 5% escalator per year, with an unknown reset rate in year eleven with a 5% annual escalator from that rate in years twelve through twenty. The average kilowatt hour rate for Tipping Point's proposal over the course of the agreement will be 8.06 cents. The average kilowatt hour rate for SolarVision LLC's proposal is unknown but is estimated to be between 8.22 cents and 8.27 cents. Because of the price difference and a larger carbon offset, it is the recommendation of the evaluation committee and the Finance and Management Department to enter into contract with Tipping Point Energy.

This ordinance also repeals Ordinance 1117-2010.

Emergency action is requested so that Tipping Point Energy will be able to take advantage of tax credits that are currently set to expire December 31, 2010, thereby ensuring the project will come to fruition.

Fiscal Impact: The City will incur no upfront costs for the design and installation of the solar photovoltaic system at 4211 Groves Road. The estimated costs for solar electricity per year are $30,000 to $60,000, depending on the size of the final system. However, this cost will be offset by savings incurred with the regulated utility. In future years, City Council will be asked to provide expenditure authority per legislation as needed.

Tipping Point Energy 26-4833872, expiration date 07/13/2012.

BACKGROUND: To modify an existing contract for the option to purchase 300-Gallon Automated Refuse Containers and Replacement Parts for the Department of Public Service, Division of Refuse Collection. Formal bids were opened by the Purchasing Office on April 8, 2010.

The Purchasing Office advertised and solicited competitive bids in accordance with Section 329.06, Solicitation SA003535. Twenty-two (22) bids were solicited (F1-1, MBR-0, M1A-0). One (1) bid was received. FL004625, with Rotonics Manufacturing Inc., was established in accordance with the bid received.

The original bid instructed vendors to list all replacement parts required over the lifetime of the 300-Gallon Refuse Containers, and to provide pricing for these parts. Rotonics Manufacturing omitted the part numbers and pricing for replacement lids in their bid. As Rotonics was the only bidder the Purchasing Office negotiated competitive pricing for the replacement lids and has determined that it would be in the City's best interest to modify the existing contract to add the replacement lids required for this container. In order to make this addition to modify the existing contract, waiver legislation is required.

**Rotonics Manufacturing Inc.**: CC#36-2467474, expires 10/05/11. Estimated Annual Expenditure: $50,000.00 - the Department of Public Service, Division of Refuse Collection is the only Division that uses this contract.

The company is not debarred according to the Excluded Party Listing System or the State Auditor's Finding for Recovery Database.

This ordinance is being submitted as an emergency because, without emergency action, no less than 37 days will be added to this procurement cycle and the efficient delivery of valuable public services will be slowed.
