Explanation
1. BACKGROUND:

A. **Need.** This legislation authorizes the Director of Public Utilities to modify the agreement with Malcolm Pirnie, Inc., for Professional Program Management Services for the Division of Sewerage and Drainage. The work in that program is a very substantial group of sewer capital improvements projects (CIPs), both collections systems and treatment works improvements, which have been agreed to by the City and Ohio EPA in order to conform to the requirements of the City's consent orders. The actual emplacement of the CIPs will be by construction contract; the professional program management contract is providing: program planning, scheduling, budgeting, and status reporting; construction management; design management; some design of critical projects; special services such as Value Engineering, and other services for this very large, important program, as directed by the City.

The initial authorization of, and appropriation of monies to, this contract was accomplished by Ordinance No. 0731-2006, passed May 8, 2006. The Malcolm Pirnie, Inc. modification amount requested under this ordinance is $8,395,600.00. The contract total including this modification is $85,113,625.00. This contract was always planned to be funded incrementally, via approximately annual appropriations. The current appropriation will be exhausted at the end of November, 2010, and this modification provides monies to continue this important work through scheduled completion in April, 2012.

1.2. Reasons additional goods/services could not be foreseen: This Contract Modification No. 6 was planned and so stated in the original contract's legislation. It is a planned continuation of the services originally included within the existing contract's scope of service.

1.3. Reason other procurement processes are not used: The funding provided by this contract modification is for continuation of the existing work of the contract. This work was planned for and anticipated within the original procurement, it is not reasonable or cost effective to undertake a new procurement to acquire these services.

1.4. How cost of modification was determined: The cost of this contract modification is consistent with the direct labor, overhead, and profit rates established within the original proposal. The estimate of the quantity of labor required to complete the remaining scope of services is within the anticipated level of funding originally forecast.

Explanation

1. BACKGROUND:

A. **NEED:** This legislation authorizes the Director of Public Utilities to enter into a planned modification of the professional engineering services contract with Stantec Consulting Services, Inc. in connection with the Early Ditch Relief Area I&I Project.

This work augments and extends the work already begun: cleaning, televising and condition assessment of selected sewers in the area (specifically storm); increased modeling efforts for selected area storm sewers and augmented sanitary sewer modeling services; and augmented sanitary and storm field investigation efforts for storm and sanitary modeling and system evaluation and recommendation efforts.

City engineers developing the project identified additional infrastructure decline of the original system and the effect poor storm drainage systems in the area would affect project design. As a consequence, significant additional flow monitoring, field investigations and modeling was required to assess the condition of the sanitary system. In so doing, it also has become evident that the success of this work is highly dependent on the understanding and investigation of the area storm sewers. To meet these requirements significant additional modeling and stormwater investigations are necessary.

B. **Amount of additional funds to be expended:** $1,325,501.35

<td><strong>Total Proposal Amount:</strong></td>
<td>$ 7,954,199.35</td>
</tr>
</tbody>
</table>

Estimated total contract amount with all existing and future modifications: $7,954,199.35

**Reasons additional goods/services could not be foreseen:**
A study was conducted that revealed there were deficiencies in the area's stormwater infrastructure this is severely hampering sanitary system performance. Thus, while not a major part of the original project scope, stormwater deficiencies would best be addressed in conjunction with sanitary improvements to most effectively remediate the area's I&I problems. Also, as a result of its evolving asset management focus, the City has requested additional detail and methodology in alternatives analysis and recommended project identification. This additional work, requires a higher level of project development as well as a more rigorous cost/benefit analysis than originally included in the approved contract scope of services

**Reason other procurement processes are not used:**
Re-bid of the project under the new requirements will likely result in a higher project costs as much of the project history would be lost and required to be rediscovered by another consultant unless won by the same consultant.
In such a case, we would have wasted significant time in acquiring and evaluating the new proposals without significant benefit.

**How was the cost of modification determined:**
Estimates were provided by the consultant for the number of hours needed to complete the remaining portions of work. Costs were generated using revised hourly rates to adjust the original contract rates approved in 2006.

C. **Contract Compliance No.:** 11-2167170 | 12/17/2011 | MAJ

Explanation
Council Variance Application: CV10-024

APPLICANT: TRZ Group, LLC; c/o Rebecca L. Egelhoff, Atty.; 88 East Broad Street, Suite 2000; Columbus, OH 43215.

PROPOSED USE: Two-unit dwelling.

NEAR EAST AREA COMMISSION RECOMMENDATION: Approval.

CITY DEPARTMENTS' RECOMMENDATION: Approval. This request will conform an existing two-unit dwelling in the R-3, Residential District. Variances for the dwelling's existing yard and area standards and a parking reduction to maintain zero parking spaces are included in the request. A Council variance is necessary in that a two-unit dwelling is not a permitted use in the R-3, Residential District. The site was part of a City-sponsored area-wide rezoning that rendered the use non-conforming. A hardship exists because the non-conforming nature of the site precludes financing options and prevents the owner from making improvements to the structure. The two-unit dwelling has been long established on this lot and is consistent with existing development in the surrounding residential neighborhood. Approval of this request will not add a new or incompatible use to the area.

Title
To grant a Variance from the provisions of Sections 3332.035, R-3, Residential District; 3312.49, Minimum numbers of parking spaces required; 3332.05, Area district lot width requirements; 3332.13, R-3 area district requirements; 3332.18, Basis of computing area; 3332.22, Building lines on corner lots; 3332.25, Maximum side yard required; and 3332.30, Vision clearance, of the Columbus City Codes; for the property located at 506-508 SOUTH CHAMPION AVENUE (43205), to conform an existing two-unit dwelling with reduced development standards in the R-3, Residential District and to declare an emergency (Council Variance # CV10-024).

Body
WHEREAS, by application No. CV10-024, the owner of property at 506-508 SOUTH CHAMPION AVENUE (43205), is requesting a Council Variance to conform an existing two-unit dwelling with reduced development standards in the R-3, Residential District; and

WHEREAS, Section 3332.035, R-3, Residential District, prohibits two-unit dwellings, while the applicant proposes to maintain an existing two-unit dwelling; and

WHEREAS, Section 3312.49, Minimum numbers of parking spaces required, requires two (2) parking spaces per dwelling unit, while the applicant proposes to maintain zero (0) parking spaces; and

WHEREAS, Section 3332.05, Area district lot width requirements, requires a lot width of fifty (50) feet in the R-3 district, while the applicant proposes to maintain a lot width of thirty-seven and one-half (37.5) feet; and

WHEREAS, Section 3332.13, R-3 area district requirements, requires that a single-family dwelling or other principal building shall be situated on a lot of no less than 5,000 square feet in area, while the applicant proposes to maintain an existing two-unit dwelling on a lot that contains 4,574± square feet; and

WHEREAS, Section 3332.18, Basis of computing area, requires that no dwelling shall occupy alone or together with any other building greater than fifty percent (50%) of the lot area, while the applicant proposes to maintain a fifty-six percent (56%) lot coverage for the existing building; and

WHEREAS, Section 3332.22, Building lines on corner lots, requires a corner property with a width of less than forty (40) feet to have a setback of at least twenty (20) percent of the property width minus two percent for each foot of lesser width than forty feet, or 4.5 feet for this property, while the applicant proposes to maintain the existing building setback of 1.5 feet along Fulton Street; and
WHEREAS, Section 3332.25, Maximum side yard required, requires the sum of the widths of each side yard to equal or exceed 20% of the thirty-seven and one-half (37.5) foot wide lot, or 7.5 feet, while the applicant proposes to maintain a maximum side yard of 4.5± feet for the existing building; and

WHEREAS, Section 3332.30, Vision clearance, requires that a clear vision triangle shall be maintained on each residential lot adjacent to a street intersection, while the applicant proposes to maintain encroachment of the existing dwelling into the clear vision triangle at the intersection of South Champion Avenue and Fulton Street; and

WHEREAS, the Near East Area Commission recommends approval; and

WHEREAS, the City Departments recommend approval because this request will not add a new or incompatible use to the area. This request will conform an existing two-unit dwelling in the R-3, Residential District. The site was part of a City-sponsored area-wide rezoning that rendered the use non-conforming. The two-unit dwelling has been long established on this lot and is consistent with existing development in the surrounding residential neighborhood; and

WHEREAS, said ordinance requires separate submission for all applicable permits for the proposed use; and

WHEREAS, said variance will not adversely affect the surrounding property or surrounding neighborhood; and

WHEREAS, the granting of said variance will not impair an adequate supply of light and air to adjacent properties or unreasonably increase the congestion of public streets, or unreasonably diminish or impair established property values within the surrounding area, or otherwise impair the public health, safety, comfort, morals, or welfare of the inhabitants of the City of Columbus; and

WHEREAS, the granting of said variance will alleviate the difficulties encountered by the owners of the property located at 506-508 SOUTH CHAMPION AVENUE (43205), in using said property as desired; and

WHEREAS, an emergency exists in the usual daily operation in the City of Columbus in that it is immediately necessary to pass this ordinance due to the applicant incurring unnecessary additional financial burdens and to complete contracts for the immediate preservation of the public peace, property, health and safety; now, therefore:

BE IT ORDAINED BY THE COUNCIL OF THE CITY OF COLUMBUS:

Explanation

1. BACKGROUND: This legislation authorizes the Director of Public Utilities to enter into an agreement with EMH&T, Inc., for professional engineering services for Existing Detention Basins Evaluation Project, CIP 610792-100000.

The City of Columbus owns and maintains numerous detention basins. The goal of this project is to determine which of these basins can be modified to meet current OEPAs water quality requirements.

The Engineer shall identify basins that can be modified, develop a concept plan of required modifications, determine real estate needs, estimate engineering design cost and construction cost for each basin and prepare a report presenting this information. This study is anticipated to begin winter 2010 and end winter 2012. No additional phases are currently anticipated.

2. ENGINEERING CONTRACT AWARD: EMH&T, Inc. was selected in accordance with the procedures set forth in Columbus City Code, Section 329.14, "Awarding professional service contracts through requests for proposals". The proposals evaluated were from: DLZ, EMH&T, Floyd Browne Group, GPD Group, Gresham Smith and Partners, Korda/Nemeth Engineering, Pomeroy & Associates, Prime Engineering & Architecture, Resource International, Stantec Consulting Services and URS.

Explanation
1. BACKGROUND
Section 5513.01 (B) of the Ohio Revised Code authorizes the Director of the Ohio Department of Transportation to allow political subdivisions to participate in Ohio Department of Transportation contracts for the purchase of machinery, materials, supplies or other articles which the Department has entered into. This legislation will authorize the Director of Finance and Management to participate in these contracts, subject to Council approval. This authorization will be valid for only a two year period in accordance with the limitations set by the Ohio Department of Transportation.

Additionally, this ordinance waives the competitive bidding provisions of the Columbus City Codes for all purchases to be established from this ODOT cooperative purchasing program. On a case by case basis, purchases deemed to be in the best interests of the City and those for which the value of purchasing from an ODOT established contract contain better or terms than what we believe we can otherwise secure, we will present ordinances for the purchase of machinery, materials, supplies or other articles to City Council for authorization.

**Explanation**

**BACKGROUND:**
This legislation authorizes the Director of the Department of Technology (DoT) to enter into an agreement with Becker Software for annual software maintenance and support for the Facil program used by media services to manage CTV programming and resources. This ordinance will renew support for the period October 18, 2010 to October 17, 2011. The amount of funds needed for the annual maintenance and support agreement is $250.00.

The City of Columbus, Department of Technology entered into an annual support agreement for Facil, associated with ED011649, provided by Becker Software, in July 2003 in the amount of $250.00. This ordinance also requests approval to continue services provided by Becker Software in accordance with sole source procurement provisions of Section 329 of the Columbus City Code; as it has been determined Becker Software is the sole distributor of Facil, and does not utilize distributors or resellers to provide maintenance and support for its software products.

Sufficient funds are available in the 2010 Information Services Fund budget to pay for the annual software maintenance and support services for the Facil software and cover the time period October 18, 2010 through October 17, 2011. The current contract aggregate total, through this and prior renewals, is $1,000.00.

BACKGROUND:
This legislation authorizes the Director of the Department of Finance and Management for the Department of Technology, on behalf of the Department of Building and Zoning Services, to purchase replacement database servers for its Accela application using an existing Universal Term Contract (UTC), FL004390, expiration date June 30, 2011 with Agilysys (SA003271 - SA003280, which expires 6/30/2011). Currently, the Accela application servers are installed on physical servers that will be replaced with new virtual servers. The database servers are to be replaced in order to provide redundancy in the event of a server malfunction. These replacement servers are used to issue building permits, track code enforcement activities and monitor the performance of the One-Stop-Shop. Replacement of the database servers is crucial for the Department of Technology to maintain the Accela Automation (AA) application; without it the department would lose the ability to provide web access for building permits, data and information utilized by citizens of the City regarding issues such as building permits and inspections.

This ordinance will allow for the continuation of providing building permit information to the local building industry in a timely and efficient manner, for the purpose of hardware and software services utilized by the Department of Building and Zoning Services; which also supports daily operational functions that benefit various city departments and divisions such as, yet not limited to, the Development Department, the Department of Public Utilities and the Transportation Division of the Public Service Department.

This legislation also authorizes the City Auditor to transfer funds between Object Level 1-06, 03, and 02 to allow for funding to be available within the appropriate object level to purchase hardware and software support services for this equipment and to have adequate funds within the appropriate object level one codes to cover other forthcoming purchases this year.

EMERGENCY: Emergency designation is requested to avoid interruption of service, and to maintain the Accela application utilized by citizens regarding building permits and inspections.

FISCAL IMPACT:
This ordinance will provide funding in the amount of $72,760.75, for the purchase of replacement equipment and hardware/software support service for the Accela application. A $140,000.00 transfer of funds between object levels within the Department of Technology Direct Charge budget for the Department of Building and Zoning Services is needed to allocate funds to the appropriate object level to cover the maintenance and support portion of this purchase and allow funding for upcoming purchases.

Explanation
Rezoning Application Z10-016

APPLICANT: Preferred Real Estate Investments II, LLC; c/o Jill S. Tangeman, Atty.; 52 East Gay Street; Columbus, OH
43215.
PROPOSED USE: Apartment complex.

DEVELOPMENT COMMISSION RECOMMENDATION: Approval (4-0) on September 9, 2010.

CITY DEPARTMENTS' RECOMMENDATION: Disapproval. The requested L-AR-1, Limited Apartment Residential District will allow a maximum of 186 apartment units at a density of 25.83 units per acre, substantially higher than what is permitted in the surrounding PUD-8 Districts and the adjacent elderly housing/assisted living facility. The limitation text includes commitments to a site plan and elevation drawings, applicable Northland Development Standards (1992), maximum lot coverage of 68%, landscaping, screening, tree preservation, exterior building materials, and lighting controls. The site is located within the planning area of The Northland Plan Volume II (2002), which encourages single-unit residential development east of Hamilton Road and south of East Dublin-Granville Road. The Plan also encourages preservation of existing tree stands, wetlands, and other natural areas through sensitive site design. Staff supports multi-unit residential development as a transitional use between the institutional use to the west and the adjacent single-unit residential development, but prefers a lower density that is more consistent with the surrounding developments.

Title
To rezone 5101 THOMPSON ROAD (43230), being 7.2± acres located on the south side of Thompson Road, 980± feet east of Chestnut Hill Drive, From: R, Rural District, To: L-AR-1, Limited Apartment Residential District (Rezoning # Z10-016).

Body
WHEREAS, application #Z10-016 is on file with the Department of Building and Zoning Service requesting rezoning of 7.2± acres from R, Rural District, to L-AR-1, Limited Apartment Residential District; and

WHEREAS, the Development Commission recommends approval of said zoning change; and

WHEREAS, the City Departments recommend disapproval of said zoning change because the requested L-AR-1, Limited Apartment Residential District will allow a maximum of 186 apartment units at a density of 25.83 units per acre, substantially higher than what is permitted in the surrounding PUD-8 Districts and the adjacent elderly housing/assisted living facility. Staff supports the proposed multi-unit residential development as a transitional use between the institutional use to the west and the adjacent single-unit residential development, but prefers a lower density that is more consistent with the surrounding developments, now, therefore:

BE IT ORDAINED BY THE COUNCIL OF THE CITY OF COLUMBUS:

**Limitation Overlay Text**
Proposed District:  L-AR-1
Property Address:  5101 Thompson Road
Owners:  Judith Davis and Daniel Galiardi
Applicant:  Preferred Real Estate Investments II LLC
Date of Text:  September 23, 2010
Application No:  Z10-016

I. Introduction:  The subject site is an in-fill property located between regional scale commercial uses, institutional uses and residential uses. The site is ideal for a multi-family project with increased density, due to the fact that infrastructure, support services, leisure activities and working environments are all in the immediate proximity. A traffic study for the site was completed and showed that there is already a sufficient roadway network in this area and that the proposed development would not have any significant impact on traffic levels. The traffic study has been reviewed and approved by the City of Columbus.

The applicant has committed to a Site Plan. The Site Plan identifies a tree preservation zone on the east and south sides of the property, as well as additional landscaping and fencing along Thompson Road and the east and south sides of the property.

The site is part of the Pay-As-We-Grow program and the applicant will be obligated to pay $2,300 per unit to the City of Columbus, which will result in $427,800.00 in additional income to the City of Columbus. The site can be developed at increased densities without impacting existing roadways and, at the same time, provide significant funds for area parks, services and infrastructure.

2. Permitted Uses: Multi-family and associated uses as shown on the "Site Plan".

3. Development Standards:

A. Density, Lot, and/or Setback Commitments.

1. The maximum number of dwelling units shall be 186.

2. The parking setback shall be 30 feet from Thompson Road.

3. There shall be a five (5) foot perimeter yard setback on the west side of the development as approved by CV10-029 and a twenty five (25) foot perimeter yard setback on the east and south sides of the development. No encroachment shall be permitted.

4. Maximum building height shall be 35'

B. Access, Loading, Parking and/or Other Traffic Related Commitments.

1. All curb cuts and access points shall be subject to the review and approval of the Planning and Operations Division of the City of Columbus.

2. The owner and/or developer must establish and maintain an agreement(s) with a private towing company(s), which authorizes the private towing company(s) to remove/tow any vehicles parked in restricted areas. There may be one or more such agreements with one or more towing company(s) for any times/lengths, terms, etc. as the owner and/or developer determines, so long as at least one such agreement will always, at all times be in force for the purposes of enforcements/removal towing as required above. Towing agreements will be filed annually with the Columbus Division of Fire, Fire Prevention Bureau, Plans Review Office, upon execution of contract. The owner and/or developer will designate the City of Columbus as an authorized agent for the sole and specific purposes of enforcement of parking restrictions and the issuance of citations and/or removal of vehicles parked in violation of posted parking restrictions.

C. Buffering, Landscaping, Open Space and/or Screening Commitments.
1. The frontage along Thompson Road shall be landscaped with 2 deciduous and 2 ornamental trees planted for every 100 feet of frontage and white horse-rail fencing that meets the New Albany Company standards. The trees may be evenly spaced or grouped together.

2. The developer shall install landscaping and basket weave fencing along the east and south property lines as shown on the Site Plan. Fencing shall be six feet in height and white in color.

3. A fifteen foot tree preservation zone shall be established along the east and south property lines as shown on the Site Plan. Indigenous plantings will be installed to fill voids within the tree preservation zone. Developer will consult with the City Forester.

4. All trees and landscaping shall be well maintained. Dead items shall be replaced within six months or the next planting season, whichever occurs first. The fencing shall be well maintained and painted regularly as needed.

5. Lot coverage for building and pavement shall be limited to 68% as shown on the Site Plan.

D. Building Design and/or Interior-Exterior Commitments.

1. Buildings will be constructed with an exterior mixture of brick or stone veneer, wood or cement wood siding and beaded vinyl siding.

2. Maximum height of light poles shall be fourteen feet.

E. Graphics and/or Signage Commitments.

1. All graphics and signage shall comply with Article 15, Chapter 33 of the Columbus City Code and any variance to those requirements will be submitted to the Columbus Graphics Commission for consideration.

2. The developer shall comply with the park land dedication ordinance by contributing money to the City's Recreation and Parks Department.

F. Miscellaneous

1. The proposed shall be developed in general conformance with the submitted site plan and building elevations. The plan may be adjusted to reflect engineering, topographical or other site data developed at the time that development and engineering plans are completed. Streets are schematic and subject to change. Any adjustment to the site plan or building elevations is subject to review and approval by the Director of the Department of Building and Zoning Services or his designee upon submission of the appropriate data regarding the proposed adjustment.

SECTION 4. That this ordinance shall take effect and be in force from and after the earliest period allowed by law.
CITY DEPARTMENTS' RECOMMENDATION: Approval. The applicant has received a recommendation of approval from Development Commission for a concurrent rezoning (Ord. No. 1455-2010; Z10-016) to the L-AR-1, Limited Apartment Residential District for the development of a 186-unit apartment complex. The applicant is requesting a variance to reduce the required perimeter yard of the subject property from twenty-five (25) feet to five (5) feet along the west property line. The proposed perimeter yard variance is supported because the site was designed to provide interior open space for the residents, while increasing the required setback along Thompson Road. In addition, the requested variance will not negatively impact the institutional use located to the immediate west which is required to have a minimum twenty-five (25) foot side yard. Staff believes that the combined thirty (30) foot wide side yard that will be accomplished between the two developments is sufficient.

Title
To grant a variance from the provisions of Section 3333.255, Perimeter yard, of the City codes, for the property located at 5101 THOMPSON ROAD (43230), to permit a reduced perimeter yard for an apartment complex in the L-AR-1, Limited Apartment Residential District (Council Variance # CV10-029).

Body
WHEREAS, by application No. CV10-029, the owner of property at 5101 THOMPSON ROAD (43230) is requesting a Council Variance to permit a reduced perimeter yard for an apartment complex in the L-AR-1, Limited Apartment Residential District; and

WHEREAS, Section 3333.255, Perimeter yard, requires a twenty-five (25) foot perimeter yard for an apartment complex, while the applicant proposes a five (5) foot perimeter yard along the west property line; and

WHEREAS, the City Departments recommend approval because the requested variance will not negatively impact the institutional use located to the immediate west which is required to have a minimum twenty-five (25) foot side yard. Staff believes that the combined thirty (30) foot wide side yard that will be accomplished between the two developments is sufficient; and

WHEREAS, said ordinance requires separate submission for all applicable permits and Certificate of Occupancy for the proposed use; and

WHEREAS, said variance will not adversely affect the surrounding property or surrounding neighborhood; and

WHEREAS, the granting of said variance will not impair an adequate supply of light and air to adjacent properties or unreasonably increase the congestion of public streets, or unreasonably diminish or impair established property values within the surrounding area, or otherwise impair the public health, safety, comfort, morals, or welfare of the inhabitants of the City of Columbus; and

WHEREAS, the granting of said variance will alleviate the difficulties encountered by the owners of the property located at 5101 THOMPSON ROAD, in using said property as desired; now, therefore:

BE IT ORDAINED BY THE COUNCIL OF THE CITY OF COLUMBUS:

SECTION 1. That a Variance from the provisions of Section 3333.255, Perimeter yard, is hereby granted for the property located at 5101 THOMPSON ROAD (43230), in so far as said section prohibits a reduced perimeter yard from twenty-five (25) feet to five (5) feet along the west property line in the L-AR-1, Limited Apartment Residential District, said property being more particularly described as follows:

5101 THOMPSON ROAD (43230), being 7.2± acres located on the south side of Thompson Road, 980± feet east of Chestnut Hill Drive, and being more particularly described as follows:

Situated in the State of Ohio, County of Franklin, City of Columbus, lying in Quarter Township 3, Situated in the State of Ohio, County of Franklin, Township of Plain, Quarter Township 3, Township 2, Range 16, United States Military District,
and being all the residuum of that tract conveyed to Daniel J. Galiardi of record in Official Record 18002B02 and Instrument Number 200312150394705 (A.P.N. 220-000634) and all the residuum of those tracts conveyed to Judith A. EXPLANATION

Council Variance Application: CV10-025

APPLICANT: TRZ Group, LLC; c/o Rebecca L. Egelhoff, Atty.; 88 East Broad Street, Suite 2000; Columbus, OH 43215.

PROPOSED USE: Two-unit dwelling.

SOUTH LINDEN AREA COMMISSION RECOMMENDATION: Approval.

CITY DEPARTMENTS' RECOMMENDATION: Approval. This request will conform an existing two-unit dwelling in the R-3, Residential District. Variances for the dwelling's existing yard and area standards and a parking reduction for two required parking spaces are included in the request. A Council variance is necessary in that a two-unit dwelling is not a permitted use in the R-3, Residential District. The site was part of an area-wide City-sponsored rezoning that rendered the use non-conforming. A hardship exists because the non-conforming nature of the site precludes financing options and prevents the owner from making improvements to the structure. The two-unit dwelling has long been established on this lot, and is consistent with existing development in the surrounding residential neighborhood. Furthermore, the site is located within the planning area of The South Linden Neighborhood Plan (2003), which supports the maintenance of the existing housing stock in the neighborhood. Approval of this request will not add a new or incompatible use to the area.

Title
To grant a Variance from the provisions of Sections 3332.035, R-3, Residential District; 3312.49, Minimum numbers of parking spaces required; 3332.05, Area district lot width requirements; 3332.25, Maximum side yard required; and 3332.26, Minimum side yard permitted, of the Columbus City Codes; for the property located at 1329-1331 EAST EIGHTEENTH AVENUE (43211), to conform an existing two-unit dwelling with reduced development standards in the R-3, Residential District and to declare an emergency (Council Variance # CV10-025).

Body
WHEREAS, by application No. CV10-025, the owner of property at 1329-1331 EAST EIGHTEENTH AVENUE (43211), is requesting a Council Variance to conform an existing two-unit dwelling with reduced development standards in the R-3, Residential District; and

WHEREAS, Section 3332.035, R-3, Residential District, prohibits two-unit dwellings, while the applicant proposes to maintain an existing two-unit dwelling; and

WHEREAS, Section 3312.49, Minimum numbers of parking spaces required, requires two (2) parking spaces per dwelling unit, or four (4) total, while the applicant proposes to maintain two (2) parking spaces; and

WHEREAS, Section 3332.05, Area district lot width requirements, requires a lot width of fifty (50) feet in the R-3 district, while the applicant proposes to maintain a lot width of thirty-five (35) feet; and

WHEREAS, Section 3332.25, Maximum side yard required, requires the sum of the widths of each side yard to equal or exceed 20% of the thirty-five (35) foot wide lot, or seven (7) feet, while the applicant proposes to maintain a maximum side yard of three (3) feet for the existing building; and

WHEREAS, Section 3332.26, Minimum side yard permitted, requires a minimum side yard of no less than three (3) feet, while the applicant proposes to maintain minimum side yards of 1.5 feet; and

WHEREAS, the South Linden Area Commission recommends approval; and
WHEREAS, the City Departments recommend approval because this request will not add a new or incompatible use to the area. This request will conform an existing two-unit dwelling in the R-3, Residential District. The site was part of an area-wide City-sponsored rezoning that rendered the use non-conforming. The two-unit dwelling has long been established on this lot, and is consistent with existing development in the surrounding residential neighborhood; and

WHEREAS, said ordinance requires separate submission for all applicable permits for the proposed use; and

WHEREAS, said variance will not adversely affect the surrounding property or surrounding neighborhood; and

WHEREAS, the granting of said variance will not impair an adequate supply of light and air to adjacent properties or unreasonably increase the congestion of public streets, or unreasonably diminish or impair established property values within the surrounding area, or otherwise impair the public health, safety, comfort, morals, or welfare of the inhabitants of the City of Columbus; and

WHEREAS, the granting of said variance will alleviate the difficulties encountered by the owners of the property located at 1329-1331 EAST EIGHTEENTH AVENUE (43211), in using said property as desired; and

WHEREAS, an emergency exists in the usual daily operation in the City of Columbus in that it is immediately necessary to pass this ordinance due to the applicant incurring unnecessary additional financial burdens and to complete contracts for the immediate preservation of the public peace, property, health and safety; now, therefore:

BE IT ORDAINED BY THE COUNCIL OF THE CITY OF COLUMBUS:

Explanation
Vacant and abandoned properties create costly disinvestment problems in Columbus neighborhoods; problems which have been exacerbated by the recent mortgage foreclosure crisis. With Columbus experiencing an influx of absentee investors, who buy inexpensive, dilapidated properties and then do nothing, hoping that the revitalization work of others in the community will increase their property values. These vacant and abandoned properties actually detract from the quality of life, as well as the economic opportunities, of those living around them. They are an impediment to individual neighborhood redevelopment and, ultimately, to achievement of city-wide economic development goals.

Minimizing the harm done by vacant and abandoned properties and restoring these properties to productive use are priorities for city government, land owners, neighborhood residents, and the business community who are all working together to develop strategies to mitigate the harm of vacant properties. Following up on earlier legislation that created and revised the Registry of Neglected Properties, Ord. 0946-04, Ord. 0947-04, and Ord. 0897-05, this legislation is needed to codify the procedure for and issuance of criminal penalties upon disappearing real property owners.

The following amendment to Article XI, "Neglected Properties Registry," of Title 47, "Nuisance Abatement Code," of the Columbus City Codes, 1959, with the enactment of "Penalties for Disappearing Real Property Owner" consisting of one section numbered 4711.11, was crafted in consideration of the needs expressed by The City Attorney's Office, Department of Development, property owners, neighborhood residents, community leaders, and locally based real-estate agents, over the course of four (4) separate public hearings and ongoing opportunities for input.

FISCAL IMPACT:
No funding is required for this legislation.

Title
To Amend Article XI, "Neglected Properties Registry," of Title 47, "Nuisance Abatement Code," of the Columbus City Codes, 1959, with the enactment of "Penalties for Disappearing Real Property Owner" consisting of one section numbered 4711.11

Body
WHEREAS, Ordinances 0946-2004 and 0947-2004, passed by City Council on July 19, 2004, and 0897-2005 passed by City Council on July 9, 2005 creating and then revising Title 47, Nuisance Abatement Code which included significant innovative measures intended to address nuisance vacant land and buildings having a blighting effect on the city's neighborhoods; and

WHEREAS, Since the passage of said ordinances, the Neighborhood Services Division's Code Enforcement Section, The City Attorney's Office, The City Council, as well as property owners and residents, have identified the need to codify procedures and penalties to address disappearing real property owners; and

WHEREAS, The current mortgage foreclosure crisis has intensified the number of abandoned properties whose absentee owners make little or no effort to or respond to notifications of code violations from City inspectors, allowing the properties to further deteriorate; and
WHEREAS, Vacant and abandoned properties detract from the quality of life, as well as the economic opportunities, of those living around them; and

WHEREAS, Citing a common goal to stabilize and maintain neighborhoods, four (4) separate public hearings and ongoing opportunities for input, built strong consensus between The City Attorney's Office, Department of Development, property owners, neighborhood residents, community leaders, and locally based real-estate agents on the notification process and penalties for disappearing real property owners; now therefore:

BE IT ORDAINED BY THE COUNCIL OF THE CITY OF COLUMBUS

Section 1. That Chapter 4711 of the Columbus City Codes, "Neglected Properties Registry," is hereby supplemented by the enactment of new Section 4711.11, entitled "Penalties for Disappearing Real Property Owner," reading as follows:

4711.11 Penalties for Disappearing Real Property Owner

(A) In the event the City determines that a City Code violation exists on a particular parcel of real property, it shall be evidence that the parcel of real property constitutes a public nuisance if the City by affidavit or sworn testimony demonstrates that the following requirements have been met in attempting to serve the notice of violation on the owner of the subject parcel:

(1) The notice of violation was sent by certified-mail-return-receipt requested to the owner's address listed in the public records maintained by the Franklin County Auditor, and the envelope containing the notice was returned with an endorsement showing failure of delivery; and

(2) The residence of the owner is not known and was not able to be ascertained with efforts conducted with reasonable diligence.

(B) If there has been no successful service of a notice of a violation upon a property owner, but the City has complied with the requirements set forth in division (A) of this section, any criminal charge that may subsequently be filed against the property owner for that code violation shall be a misdemeanor of the first degree.

Section 2. That this ordinance shall take effect and be in force from and after the earliest period allowable by law.

Explanation

BACKGROUND

Columbus City Code anticipates the potential for shared use paths in the public right-of-way serving pedestrians and bicyclists. Shared use paths can be composed of asphalt, concrete or bricks, and are typically 8 feet to 12 feet wide. Columbus City Code further anticipates the need to designate shared use paths as such, to allow their use by pedestrians and bicyclists without fear of violating the City's prohibition of riding bicycles on sidewalks.

Columbus has a bike trail system that has been developed primarily along north-south river corridors. However, there is a
deficiency in east-west bikeway routes which connect these systems. One of the high priority projects identified in the Columbus Bicentennial Bikeways Plan is an east-west connector through the downtown, connecting the Scioto Trail to the shared use path along I-670.

This bikeway project, now known as the Scioto-Alum Creek Connector (formerly named Downtown Bikeway Connector) is in the final stages of design development. In order to complete this project it is necessary to designate portions of existing sidewalk at two locations as shared-use path. Those locations consist of the existing 12-foot wide sidewalk along the east side of Neil Avenue from Long Street to Nationwide Boulevard; and the existing 8-foot wide sidewalk along the west side of Cleveland Avenue from McCoy Street to Jack Gibbs Boulevard.

2. FISCAL IMPACT
None

3. EMERGENCY DESIGNATION
Emergency action is requested to have these portions of sidewalk designated as shared use path to coincide with the scheduled completion of the Scioto-Alum Creek Connector on or around October 31, 2010.

SECTION 2. That for the reasons stated in the preamble hereto, which is hereby made a part hereof, this ordinance is hereby declared to be an emergency measure and shall take effect and be in force from and after its passage and approval
ExplanationBACKGROUND: This ordinance authorizes the Finance and Management Director to enter into a contract with Statewide Ford Lincoln Mercury, Inc. for the purchase of fifty-one (51) Crown Victoria Police vehicles. This purchase is necessary to replace high mileage and high maintenance patrol cruisers. Formal bids were originally received by the Purchasing Office on November 30, 2009 for the purchase of marked police cruisers via SA#003433. Ordinance 1687-2009 subsequently authorized the purchase of sixty-two (62) cruisers from this bid. This last bid with Statewide Ford Lincoln Mercury is now expired. However, Statewide Ford has agreed to hold their pricing from the original bid of $25,563.00 per vehicle. This is a unique opportunity for the Division of Police to secure cruisers in a relatively short delivery time and at a competitive price. Information provided by the industry suggests that the City will save approximately $1,200.00 per vehicle by taking advantage of this opportunity to buy the vehicles now. Because the original bid was for a onetime purchase, a bid waiver will be necessary to enter into this purchase contract.

This company is not debarred according to the Federal excluded parties listing or prohibited from being awarded a contract according to the Auditor of State unresolved findings for recovery certified search.

Emergency Designation: Emergency action is necessary so that the purchase order for these vehicles can be issued as soon as possible in order to take advantage of the manufacturer's current bid pricing and to have these police cruisers on the street as soon as possible.

FISCAL IMPACT: This ordinance authorizes an appropriation and expenditure of $1,303,713.00 in General Permanent Improvement funds for the purchase of fifty-one (51) cruisers for the Division of Police. In 2009 the Division of Police purchase of 62 cruisers in the amount of $1,584,906.00. In May 2007, Police purchased 41 marked police cruisers at a total cost of $1,659,934. An additional 20 cruisers were purchased in September 2007 for $688,000 and 109 cruisers were purchased in December 2007 for $3.42 million.

Additional purchases for light bars, computers, video cameras, and other necessary equipment for the cruisers will likely be legislated from the General Permanent Improvement fund in the following weeks.

Title
To appropriate and transfer $1,303,713.00 within the General Permanent Improvement Fund; to authorize the Finance and Management Director to issue a purchase order to Statewide Ford Lincoln Mercury Inc. for the purchase of marked police cruisers for the Division of Police; to authorize the expenditure of $1,303,713.00 from the General Permanent Improvement Fund; to waive the competitive bidding provisions of Columbus City Codes; and to declare an emergency. ($1,303,713.00)

Body
WHEREAS, the Division of Police needs to replace marked police cruisers; and

WHEREAS, funds are available for appropriation for this expenditure in the General Permanent Improvement Fund; and

WHEREAS, a formal advertisement for bid (SA003433) was conducted in 2009; and

WHEREAS, Statewide Ford Lincoln Mercury Inc. has agreed to keep 2010 pricing in effect for 2011 vehicles; and

WHEREAS, it is in the best interest of the City to waive the competitive bidding provisions of Section 329.06(a) of the
City Codes, 1959; and

WHEREAS, an emergency exists in the usual daily operation of the Division of Police, Department of Public Safety, in that it is immediately necessary to authorize the Finance and Management Director to issue a purchase order for the purchase of marked police cruisers for the Division of Police, thereby preserving the public peace, health, property, safety and welfare; now, therefore

BE IT ORDAINED BY THE COUNCIL OF THE CITY OF COLUMBUS:

Legislation Number: 1534-2010
Drafting Date: 10/19/2010 Current Status: Passed
Version: 1 Matter Type: Ordinance

Explanation 1. BACKGROUND
The Division of Planning and Operations is responsible for snow and ice removal and for maintaining the City's roadway
system. To accomplish this mission the Division requires four single axle dump trucks. These trucks will replace older
trucks beyond their useful service lives and will provide for a more reliable fleet to carry out services provided by the
Division. This purchase is consistent with the division's fleet replacement program.

In order to expedite delivery and reduce costs, the Division of Planning and Operations, Fleet Management Division and
the Purchasing Office, have developed a pilot program for acquiring four single axle dump trucks. The proposed method
entails procuring all the necessary parts and components from existing State of Ohio contracts, and then contracting with a
local vendor to assemble (up-fit) the complete unit. The Committee has determined that the "test" method for acquiring
these units will significantly reduce timelines for delivery of the same. It is estimated that these units could be "in-service"
no later than early 1st Quarter FY 2011 for snow removal.

All the main parts and components and the cab and chassis necessary for the building of the single axle dump trucks are
available on existing ODOT contracts with the exception of the snow plow which is available on an Ohio Department of
Administrative Service Cooperative Contract. All items will be purchased from the appropriate contracts and drop shipped
to the qualified up-fitter.

The components required for a completed single unit cost $121,314.27. Total cost for four units is $485,257.08.

The quotations are on file with the Purchasing Office. This purchase has been approved by the Fleet Management Division.

This equipment does offer environmentally preferred fuel options at this time, but examples are already being purchased through the Fleet Management Division utilizing Federal Government grants.

Searches in the Excluded Party List System (Federal) and the Findings for Recovery list (State) produced no findings against any of the companies listed above.

This purchase is consistent with the division's fleet replacement program.

In order to expedite delivery and reduce costs, the Division of Planning and Operations, Fleet Management Division and the Purchasing Office, have developed a pilot program for acquiring four single axle dump trucks. The proposed method entails procuring all the necessary parts and components from existing State of Ohio contracts, and then contracting with a local vendor to assemble (up-fit) the complete unit. The Committee has determined that the "test" method for acquiring these units will significantly reduce timelines for delivery of the same. It is estimated that these units could be "in-service" no later than early 1st Quarter FY 2011 for snow removal.

All the main parts and components and the cab and chassis necessary for the building of the single axle dump trucks are available on existing ODOT contracts with the exception of the snow plow which is available on an Ohio Department of Administrative Service Cooperative Contract. All items will be purchased from the appropriate contracts and drop shipped to the qualified up-fitter.
