Ordinances and Resolutions
BACKGROUND

This resolution declares the City of Columbus's support for the Solid Waste Authority of Central Ohio's (SWACO) Solid Waste Management Plan Update ("Plan Update") for the period covering 2011 to 2025. The Ohio Revised Code requires State solid waste management districts to periodically update their Solid Waste Management Plans to include a description of programs and projections for generation, recycling, and disposal over the planning period. The Plan Update is a blueprint for managing the waste stream, facilities and program activity in SWACO's district, and provides an assessment on achieving statewide recycling and waste reduction goals.

The planning process for the Plan Update was launched in April, 2009. SWACO staff hired a plan consultant, GT Environmental, to assist them in the development of the Plan Update. SWACO & GT Environmental spent the next 15 months reviewing the current plan, updating District information, and compiling the data into a draft Plan Update. The draft Plan Update was submitted to the Ohio Environmental Protection Agency (Ohio EPA) for review and comment in July 2010. SWACO received comments from the Ohio EPA in September 2010 and made necessary changes to the draft Plan Update based on Ohio EPA recommendations.

The draft Plan Update in its entirety has been posted on the SWACO website since March 3, 2011. SWACO held a 30 day public comment period from March 3, 2011 to April 3, 2011. SWACO then held a public hearing on April 7, 2011, for interested residents, businesses, or political jurisdictions to provide comments. The SWACO Board of Trustees adopted the draft Plan Update on May 3, 2011.

SWACO is seeking approval from this Council on the district Plan Update. Without approval from the City of Columbus City Council, this plan cannot be submitted to the Ohio EPA for final approval. A plan that is not accepted by legislative authorities representing a combined population of at least sixty percent (60%) of the Solid Waste Management District total population becomes one that the Ohio EPA could rewrite and possibly dictate programming that might be unacceptable or disadvantageous to Columbus businesses or residents.

Matter Type: Ordinance

Explanation: This legislation authorizes the Finance and Management Director to issue purchase orders to Finley Fire Equipment Company for fire fighting equipment and supplies such as portable foam packs, nozzles, and foam.

The Division of Fire was awarded an Assistance to Firefighters Grant from FEMA in August of 2010. The Division of Fire has been approved to purchase firefighting foam systems, nozzles, and foam via this grant award; these purchases will allow the Fire Division to standardize nozzles across all 34 engine companies and replace outdated hoses with new technology. This grant requires an 80/20 percent split between the grant funding and the capital match funding sources as detailed in Ordinance 0709-2011.

Bid Information: Bid solicitations SA003898 and SA003899 were opened on April 14, 2011 for firefighting nozzles and portable foam systems, respectively. Finley Fire Equipment Company submitted the sole bid for these solicitations.

Sole Source provisions are being utilized for the purchase of foam, as Finley Fire Equipment Company is the only authorized distributor in the region for the purchase of the specified foam.

Emergency Designation: Emergency action is requested as funds are needed immediately to ensure prompt acquisition of the aforementioned equipment in accordance with the grant expiration deadline.

FISCAL IMPACT: This ordinance authorizes an expenditure of $267,772.52 in capital and grant funds for the purchase of fire fighting equipment. Funds are available within the Division of Fire's General Government Grant Fund Budget (FEMA Assistance to Firefighters), and the Build America Bonds Fund for this purchase.

Explanation
BACKGROUND: This Ordinance is submitted to settle the lawsuit of Dale Maxstead v. City of Columbus, et al., Case No. 08CVC-09-12679, Franklin County Common Pleas Court. On March 8, 2004, Mr. Maxstead was injured when his Chevy Beretta, westbound on Sullivant Avenue, collided with a City truck, originally eastbound on Sullivant and turning left across the westbound lanes of travel. The City driver was cited for failure to yield on a left turn, and he pleaded no contest. He was found at fault in an administrative proceeding.

FISCAL IMPACT: Funds were not specifically budgeted for this settlement; however, sufficient monies are available in the appropriate account to pay the amount of these claims.
Title
To authorize and direct the City Attorney to settle the lawsuit of Dale Maxstead, pending in the Franklin County Common Pleas Court, by the payment of Two Hundred Thousand Dollars ($200,000.00), and to declare an emergency.

Body
WHEREAS, Dale Maxstead has filed a lawsuit against the City of Columbus in the Franklin County Common Pleas Court, Case No. 08CVC-09-12679, arising out of a March 8, 2004, motor vehicle collision; and,

WHEREAS, Mr. Maxstead had a spotty work history, had worked as a plumber and never returned to work after the accident. He was examined by many physicians, many of whom said he was permanently disabled by his injuries, and some of whom said he was not disabled. After many years, Mr. Maxstead got on welfare and obtained health insurance. He then had major surgery on his lower back and right shoulder. His surgeons connected his surgeries to his March 2004 accident. Mr. Maxstead has about Two Hundred Thousand Dollars ($200,000.00) in medical bills, of which $20,000.00 is unpaid. $30,000.00 has been paid by insurers, and $150,000.00 has been written off by providers. At trial, the jury would be given the gross amounts of the medical bills and the amounts the providers have accepted and asked to determine the reasonable amount of medical expense. If the jury decided that the City was liable, the verdict would include compensation for reasonable medical expense, physical injuries, lost wages, and pain and suffering; and,

WHEREAS, After investigation of the claims made therein and the injuries allegedly suffered by the Plaintiff, the City Attorney's Office has reached a settlement that is acceptable to both parties and that is recommended by the City Attorney as being in the best interest of the City to resolve this matter; and,

WHEREAS, By reason of the foregoing, an emergency exists in the usual daily operations of the City, and it would be in the City's best interest to compromise and settle this matter, and for the preservation of the public health, safety, and welfare,

Background: The mayoral New Neighborhood Initiative culminated in a 6-month effort by Parsons Avenue area stakeholders to create the Greater Parsons Avenue Area Vision Plan. Ordinance 0717-2006, passed April 3, 2006, Ordinance 1410-2006, passed July 31, 2006 and Ordinance 0700-2007, passed May 14, 2007 authorized the Director of Development to enter into contracts for purchase of certain real properties within the Greater Parsons Avenue Area Vision Plan and authorized the expenditure of $2,700,000. Gaining control of certain real properties is a key component to the success of the Vision Plan allowing the coordination of specific land uses. Several structures on these properties are vacant and possess no contributing value to the Vision Plan. Explanation

BACKGROUND: This legislation authorizes the Finance and Management Director to establish a UTC contract to
purchase Heavy Duty (HD) Refuse Vehicle Service Repairs and Parts for the Division of Fleet Management, the largest
user. The term of the proposed option contract would be two (2) years from the date of execution, with the option to
extend for two (2) additional years. The Purchasing Office opened formal bids on April 7, 2011.

The Purchasing Office advertised and solicited competitive bids in accordance with Section 329.06 (Solicitation No.
SA003877). Twelve (12) bids were solicited. Seventeen (17) bids were received. The solicitation requested vendors to
provide pricing on Twenty Six (26) line items for the different services and parts required to repair Heavy Duty Refuse
Vehicles. It is in the City's best interest to award all line items to all vendors per SA003877 which will allow the Division
of Fleet Management to operate in a cost effective manner. The Division of Fleet Management utilizes all the vendors for
different services and parts as required for the repair of Heavy Duty Refuse Vehicles. In the next year, the Purchasing
Office will work with the Fleet Management Division in an attempt to draft specifications that will allow for competitive
awards.

In order for the Division of Fleet Management to utilize all the vendors for the different services and parts, the Department
of Finance and Management respectfully requests the waiver of competitive bidding. This legislation waives the
competitive bidding requirements of Chapter 329 of the City Code, and allows the award of all items to all vendors that
submitted bids on SA003877.

FISCAL IMPACT: Funding to establish this option contract is budgeted in the Purchasing Contract Account. City Agencies will be required to obtain approval to expend from their own appropriations for their estimated annual expenditures.

Title

Matter Type: Ordinance

Explanation

BACKGROUND: American Addition, located in the Columbus Public School District, is contained within the boundaries of Joyce Avenue to the west, Petrel and Helena Alleys to the east, the alley north of 12th Avenue to the north and Dewey and Dolphin Alleys to the south. Central Ohio Housing Development Organization (COHDO) plans to redevelop the American Addition Neighborhood. The redevelopment will include construction of up to 120 new homes, renovation of existing homes, and new streets and infrastructure to replace the inadequate system now in place.

This legislation repeals Ordinance 1207-2008, passed July 17, 2008 and Ordinance 0561-2010, passed May 6, 2010 which authorized the Directors of Public Service and Development to enter into a development agreement with COHDO for reimbursement of infrastructure construction. Over the past two years, changes have been made in the scope of work;
foremost of which is that the City will now undertake the construction of the public infrastructure improvements while COHDO will undertake planning and design activities. Additionally, inclusion of green elements in the infrastructure design requires additional planning activities not envisioned by the original pieces of legislation. It is now necessary to reauthorize the Director of Development or other appropriate Directors of the City to enter into agreements and to take all actions necessary to implement this Ordinance.

Emergency action is requested in order to reimburse COHDO for substantial planning and pre-development activities already provided.

**FISCAL IMPACT:** The Auditor's Certificates established in Ordinances 1207-2008 and 0561-2010, totaling $1,110,000, will be cancelled and a new Auditor's Certificate for $1,110,000 will be established by this legislation.

**Title**
To repeal Ordinance 1207-2008, passed July 17, 2008 and Ordinance 0561-2010, passed May 6, 2010; to amend the 2011 Capital Improvement Budget; to transfer funds between projects within the same fund; to authorize the Director of Development and other appropriate Directors of the City to enter into agreements not to exceed $1,110,000.00 with the Central Ohio Housing Development Organization for the American Addition Redevelopment Project; to authorize the expenditure of $1,110,000 from the Northland and Other Acquisitions Fund; and to declare an emergency. Explanation

BACKGROUND: The City Treasurer and other city agencies require armored car services to pick up and deliver deposits on a daily basis. In 2008, the City Treasurer's Office advertised and solicited competitive bids in accordance with Section 329.06 (Solicitation SA002909). Eight (8) bids were solicited; one (1) bid was received. The only bidder submitted pricing that far exceeded budgeted amounts for the service. Negotiations were undertaken with the bidder to change the specifications in order to lower the pricing. As a result, the waiver of the competitive bidding provisions of the Columbus City Code was required. The original contract was for a period of one year, beginning August 1, 2008 through July 31, 2009 with an option for renewal of four one-year periods which was authorized by Columbus City Council on ordinance 1272-2008 passed July 21, 2008. On July 13, 2009 City Council passed ordinance 0945-2009 authorizing the City Treasurer's Office to modify and extend its contract with Brink's for the first year of the contract's four one-year renewal options. On June 14, 2010, City Council passed ordinance 0796-2010 authorizing the City Treasurer's Office to modify and extend its contract for the second year of the four one-year renewal options. The City Treasurer's Office now wishes to modify and extend its contract with Brink's for the third year of the four one-year renewal options.

Contract Compliance: Brink's Incorporated, 362478302, expires September 17, 2012

This company is not debarred according to the Federal Excluded Parties Listing or the State Auditor's Findings For Recovery Database.

This ordinance is being submitted as an emergency because, without emergency action, safe and secure deliveries of the city's deposits will be interrupted.

FISCAL IMPACT: Funding for these services is budgeted and available in various agencies throughout the city.

Title

Explanation
1. BACKGROUND
The Paving The Way Program has been serving the citizens of the Greater Columbus area since 1990. This Program provides up-to-date roadway construction information to the public and the media on traffic detours, alternate travel routes and road closures, technical advice and coordination for road construction related activities, public messages advocating work zone safety, demand reduction (carpooling, use of mass transit) and traffic management. Additionally, Paving The Way maintains a web site www.pavingtheway.org and automated mailing lists that send out construction updates to over 3,000 recipients daily.

This ordinance authorizes the appropriation and expenditure within a four-year contract with the Ohio Department of Transportation (ODOT) and the Mid-Ohio Regional Planning Commission (MORPC).

2. FISCAL IMPACT
The cost of the four-year program will be $795,000.00 of which eighty percent (80%) is funded with MORPC STP-M funds ($636,000.00) and twenty percent local funds ($159,000.00).

The city's share over the four-year period will be $159,000.00 and will come from the Street Construction, Maintenance and Repair Fund. The City share of this match was submitted and approved by City Council. This ordinance appropriates the entire MORPC share ($636,000.00) into the General Government Grant Fund, where it is then authorized for expenditure.

3. EMERGENCY DESIGNATION
Emergency action is requested so that no disruption in service occurs when the current contract expires on June, 30 2011.

($636,000.00)

BodyWHEREAS, the Director of Public Service has identified the need for the Paving The Way program for traffic management and roadway construction communication which is described as a program that disseminates roadway construction information to the public and media and provides construction traffic management, public relations and technical advice and coordination for construction-related activities, demand reduction and work zone safety with portions of the project both inside and outside the municipal corporation limits and hereinafter referred to as "the program"; and

WHEREAS, the Director of the Ohio Department of Transportation and the Executive Director of the Mid-Ohio Regional Planning Commission (MORPC) further desire cooperation from the City of Columbus in the planning and execution of this program; and
WHEREAS, the Director of Public Service received authorization to apply for and execute a four-year agreement with the Ohio Department of Transportation (ODOT) and the Mid-Ohio Regional Planning Commission (MORPC) by Ordinance 1031-2010; and

WHEREAS, an emergency exists in the usual daily operation of the Department of Public Service, Division of Planning and Operations, in that it is necessary to establish appropriation authority for the program, thereby preserving the public health, peace, property, safety and welfare; now, therefore,

BE IT ORDAINED BY THE COUNCIL OF THE CITY OF COLUMBUS:

SECTION 1. Explanation

1. BACKGROUND
The Division of Planning and Operations is responsible for pavement markings such as turn arrows and lane separation throughout the City to promote pedestrian safety and expedite vehicular traffic flow. The Purchasing Office has solicited formal competitive bids in the process of establishing universal term contracts (UTCs) for the purchase of Thermoplastic Pavement Marking Material. These materials will be used for various pavement marking operations throughout the City such as the separation of traffic into lanes.

This ordinance authorizes the expenditure of monies for these pavement marking materials, per solicitation SA003907 and the terms and conditions of the pending universal term contract. The total cost of the commodities needed is $175,000.00.

Searches in the Excluded Party List System (Federal) and the Findings for Recovery list (State) produced no findings against Ennis Paint Inc.

2. CONTRACT COMPLIANCE

3. FISCAL IMPACT:
Funding for these commodities is budgeted within the 2011 Capital Improvement Budget. This expense can be accommodated by appropriating and transferring funds needed in the amount of $175,000.00 from the Special Income Tax Fund. Bonds have yet to be sold for the whole project, necessitating a certification of $175,000.00 against the Special Income Tax Fund. Upon sale of bonds, this will be reimbursed. These Funds will then be transferred to the Streets and Highways G.O. Bonds Fund, appropriated and authorized to be expended.

4. EMERGENCY DESIGNATION
Emergency action is requested to procure the needed pavement marking commodities as soon as possible to provide sufficient supply for the needs of the Capital Improvement Program for the safety of the travelling public.
TitleTo authorize the Director of Finance and Management to establish a purchase order with Ennis Paint, Inc. for the purchase of Thermoplastic Pavement Marking Material, per solicitation SA003907 and the terms and conditions of a pending universal term contract for the Division of Planning and Operations; to authorize and direct the City Auditor to transfer $175,000.00 within the Streets and Highways G.O. Bonds Fund; to authorize the City Auditor to appropriate $175,000.00 within the Streets and Highways G.O. Bonds Fund; to authorize the expenditure of $175,000.00 from the Streets and Highways G.O. Bonds Fund for this purpose; and to declare an emergency.

Explanation

BACKGROUND: To authorize the Finance and Management Director to modify and extend the existing universal term contract to purchase Fuel Card Services for the Fleet Management Division through July 31, 2012.

Voyager Fuel Card Services is a "universal" fuel card which allows fuel products and car washes to be purchased for use in City vehicles at many locations. Each card is assigned to a specific Brass Tag number (vehicle) and Fleet Management receives online reports showing purchases, tax exemption, and cost per mile.

Voyager generates reports showing card usage, price per gallon, fuel type and gallons, odometer readings and the location of sale. These reports are uploaded to Fleet Anywhere system and will also allow for uninterrupted service while converting to a one card system. The Gas Boy system is being phased out of Fleet Management.

Formal proposals were opened by the Purchasing Office on March 7, 2002. The Purchasing Office advertised and solicited competitive bids though solicitation SA000207 in accordance with Section 329.12.

FL001215 with US Bank Voyager Fleet Systems Inc. was established in accordance with bids received. This company is not debarred according to the Federal Excluded Parties Listing or prohibited from being awarded a contract according to
1) Amount of additional funds: The estimated expenditure City wide for the extension period is $4,000,000.00. The City agency must obtain approval to expend from their own budgeted funds for their estimated expenditures.

2) Reason additional needs were not foreseen: New specifications are being developed for the next fuel card services contract. A complete review and overhaul of the existing contract is required to take advantage of the cost savings associated with the newest fuel card technologies. This additional extension request requires that competitive bidding requirements of Chapter 329 be waived since an extension beyond 7/31/2011 is not provided for in the original contract.

3) Reason other procurement processes not used: The Purchasing Office in conjunction with Fleet Management intends to competitively bid this product, but needs more time to do so.

4) How cost was determined: The cost, terms and conditions are in accordance with the original agreement

FISCAL IMPACT: No funding is required to extend the option contracts. City agencies must set aside their own funding for their estimated expenditures.

To maintain uninterrupted ability to purchase Fuel Card Services using the Universal Term Contract, this ordinance is be submitted as an emergency.

**Legislation Number:** 0896-2011  
**Drafting Date:** 06/03/2011  
**Current Status:** Passed  
**Version:** 1  
**Matter Type:** Ordinance

**Explanation**

**BACKGROUND:** Under the American Recovery and Reinvestment Act (ARRA) of 2009, the City of Columbus was awarded $7,403,500 from the U.S. Department of Energy as a formula allocation of the Energy Efficiency and Conservation Block Grant (EECBG). Funds are being used to develop, promote, implement and manage programs designed to reduce fossil fuel emissions, reduce total energy usage, improve energy efficiency, and create and retain jobs.

The City of Columbus planned to address these goals with the following activities:

- A revolving loan fund for use by businesses for energy efficiency retrofits
- Bike infrastructure improvements
- Energy efficient retrofit for the central safety building
- Energy efficient lighting at Columbus fire stations
- Participate with the State of Ohio to retrofit the Center of Science and Industry
- Retrofit the Cultural Arts Center with energy efficient lighting
- Retrofit the city's pedestrian signal heads with energy efficient LED technology
- Retrofit homes for low-income households in the Columbus area with energy efficient lighting and appliances.

Ordinance 0868-2009 authorized the city to apply for and accept the grant. Ordinances 1511-2009, 1581-2009, 0148-2010, 0769-2010, 0467-2011 and 0504-2011 have authorized appropriations in various divisions and object levels.

It has been determined that additional funding will benefit the fire stations' high efficiency lighting retrofit projects. Funds previously identified for the energy efficient retrofit for the central safety building are available for transfer to the fire stations lighting projects. These changes in project budgets require adjustments within appropriations to align funds properly in the city's accounting records.

**Fiscal Impact:** This legislation will transfer funds between OCA codes with no net impact on the total appropriation for the Department of Finance and Management.

This legislation is submitted as an emergency to allow the financial transactions to be posted in the City's accounting system as soon as possible. Up to date financial posting promotes accurate accounting and financial management.

**Title** To authorize the appropriations transfer of $945,532.00 between organizational cost account codes of the General Government Grant Fund to provide Energy Efficiency and Conservation Block Grant funding for approved programs; and
WHEREAS, the City of Columbus has been awarded $7,403,500 from the U.S. Department of Energy for the implementation of the Energy Efficiency and Conservation Block Grant programs; and

WHEREAS, adjustments are needed in the appropriations on the books of the City of Columbus in order to properly align funding for the EECBG programs; and

WHEREAS, an emergency exists in the usual daily operation of the City of Columbus, in that it is immediately necessary to transfer appropriation between departments and object levels within the general government grant fund, thereby preserving the public health, peace, property, safety and welfare; Now, Therefore

BE IT ORDAINED BY THE COUNCIL OF THE CITY OF COLUMBUS:

SECTION 1: That the Auditor's Office is hereby authorized to transfer appropriations of $945,532, within fund 220, grant number 459106, Dept 45-50 as follows:

FROM: OCA 459109, Object Level 01, $43,479
      OCA 459109, Object Level 06, $902,053

TO:    OCA 459110, Object Level 01, $43,479
       OCA 459110, Object Level 06, $902,053

SECTION 2: That for the reasons stated in the preamble hereto, which is hereby made a part hereof, this ordinance is hereby declared to be an emergency measure and shall take effect and be in force from and after its passage and approval by the Mayor, or ten days after passage if the Mayor neither approves nor vetoes the same.

BACKGROUND: This legislation authorizes the Finance and Management Director to modify and increase a contract on behalf of the Office of Construction Management with Capital City Electric, LLC. for the City of Columbus fire stations.

The original contract was authorized by Ordinance No. 1667-2010, passed December 9, 2010, in the amount of $961,254.00. The initial contract authorized the renovation of eleven (11) fire stations: Fire Station No. 4, 300 Winchester Pike; Fire Station No. 5, 211 McNaughten Road; Fire Station No. 6, 5750 Maple Canyon Avenue; Fire Station No. 11, 2150 West Case Road; Fire Station No. 21, 3294 East Main Street; Fire Station No. 22, 3069 Parsons Avenue; Fire Station No. 23, 4452 East Livingston Avenue; Fire Station No. 27, 7560 Smoky Row Road; Fire Station No. 28, 3240 McCutcheon Road; and Fire Station No. 29, 5151 Little Turtle Way.

The contract was modified by Ordinance No. 0547-2011, passed March 13, 2011, in the amount of $595,000.00. The modification authorized the renovation for energy efficient interior lighting for an additional five stations: Fire Station No. 26, 5433 Fisher Road; Fire Station No. 30, 3555 Fishinger Boulevard; Fire Station No. 31, 5305 Alkire Road; Fire Station No. 32, 3675 Gender Road; and Fire Station No. 33, 440 Lazelle Road.

This modification will authorize the renovation of energy efficient lighting for up to twelve (12) fire stations. The fire stations have been prioritized and will be completed in the following order: Fire Station No. 1, 300 North 4th Street; Fire Station No. 17, 2250 West Broad Street; Fire Station No. 7, 1425 East Indianola Avenue; Fire Station No. 24, 1585 Morse
Road; Fire Station No. 8, 1240 East Long Street; Fire Station No. 15, 1800 East Livingston Avenue; Fire Station No. 12, 3200 Sullivant Avenue; Fire Station No. 20, 2646 East 5th Avenue; Fire Station No. 25, 739 West 3rd Avenue; Fire Station No. 2, 150 East Fulton Avenue; Fire Station No. 16, 1130 East Weber Road; and Fire Station No. 13, 309 Arcadia Avenue.

Capital City Electric, LLC. has institutional knowledge of the project and performed the renovations on all of the initial 16 stations. It is practical and cost effective for the coordination and continuity of the project to use them for this modification since many of these 16 stations are very similar in age and design to the initial 12 stations. Therefore, it would not be in the best interests of the City to re-bid the renovations. Prices already established in the contract were used to determine the cost of this modification, and they were the initial lowest and most responsive and responsible bidder; however, monies were not available.

Funding for this project is available from the Energy Efficiency and Conservation Block Grants (EECBG) Program, under the American Recovery and Reinvestment Act (ARRA) of 2009, which represents a Presidential priority to deploy the cheapest, cleanest, and most reliable energy technologies available - energy efficiency and conservation - across the country.

Waiver of the competitive bidding provisions of the Columbus City Codes is requested so the renovations may commence as soon as possible since Capital City, LLC has detailed knowledge of these stations and it would be extremely difficult to bid this modification as a separate project and to meet the provisions of the Federal stimulus spending requirements.

Emergency action is requested so the renovations to be undertaken can begin as soon as possible, and to complete the provisions of the grant under which this project has been funded.

Capital City Electric. LLC. Contract Compliance No. 76-0774593; expiration date September 9, 2012.

Fiscal Impact: The amount of the original contract was $961,254.00. The cost of the first modification was $595,000.00. The cost of this modification is $852,053.00. The total cost of this contract is $2,408,307.00. The Federal Grant does not require any local match, and there are no other City monies budgeted or planned for this project.

Matter Type: Ordinance

BACKGROUND: This legislation authorizes the Finance and Management Director to modify a contract on behalf of the Office of Construction Management with Advanced Engineering Consultants, Ltd. for professional design and construction services for the renovation of interior energy efficient lighting upgrades for the City of Columbus fire stations.

The original contract was authorized by Ordinance No. 1559-2009, passed December 9, 2009, in the amount of $122,000.00. The initial design work focused on a master plan and design for interior energy efficient lighting retrofits for up to twenty-eight stations; however, only sixteen stations could be completed due to the extensive nature of work to be performed. A modification was authorized by Ordinance No. 0546-2011, April 14, 2011, in the amount of $55,000.00 and was for the design services for an additional twelve fire stations, but did not include construction administration services. This modification will authorize construction administration services for these twelve fire stations.

Advanced Engineering Consultants, Ltd. has institutional knowledge of the project and produced the original design plans. It is practical and cost effective for the coordination and continuity of the project to use them for the design modifications. Prices already established in the contract were used to determine the cost of this modification, and they were the initial lowest and most responsive and responsible bidder; however, monies were not available.

Funding for this project is available from the Energy Efficiency and Conservation Block Grants (EECBG) Program, under the American Recovery and Reinvestment Act (ARRA) of 2009, which represents a Presidential priority to deploy the cheapest, cleanest, and most reliable energy technologies available - energy efficiency and conservation - across the country.

3. FISCAL IMPACT
This project is budgeted within the Bridge Rehabilitation - Major Bridge Rehabilitation Project in the 2011 Capital Improvement Budget. An amendment to the Capital Improvement Budget is required to establish authority in the Bridge Rehabilitation - Front Street Over Railroad South of Nationwide Project. This ordinance authorizes the expenditure of $315,557.18 for construction and inspection. The Department of Public Service has received an Ohio Department of Transportation grant for this project of 80% of the project cost up to a maximum of $211,000.00. The City share of this project is estimated to be $104,557.18. This expense can be accommodated by appropriating and transferring funds needed in the amount of $104,557.18 from the Special Income Tax Fund. Bonds have yet to be sold for the whole project, necessitating a certification of $104,557.18 against the Special Income Tax Fund. Upon sale of bonds, this will be reimbursed. Those funds will then be transferred to the Fed-State Highway Engineering Fund. The project cost, $315,557.18, will then be appropriated within and expended from that fund.

1. **BACKGROUND**

This legislation authorizes the Director of Public Service to modify and increase the construction contract with Double Z Construction for the Bridge Rehabilitation - Annual Citywide Contract Project 1 project in an amount up to $480,488.80.

Work performed to date as part of this contract includes routine rehabilitation to several bridges within the City. This rehabilitation includes crack sealing, concrete rehabilitation on all elements of a bridge, railing rehabilitation, epoxy injection, maintenance of traffic, concrete removal, asphalt overlays, sealing cracks in bridge decks and replacement of expansion joint seals.

Work to be performed as part of this contract modification includes the hydrodemolition and microsilica overlay, including any concrete deck rehabilitation, of the High Street over SR-104 bridge and the Groveport Road over SR-104 bridge.

Deck rehabilitation on the High Street over SR-104 structure was included in the original contract. At the time of construction the amount of the rehabilitation was greater than what would be covered as routine rehabilitation. In working with ODOT, ODOT concurred and agreed to pay 80% of the cost of a new overlay. The Groveport Road bridge was in a similar condition, and ODOT agreed to include this bridge in our project to get an economy of scale price for this work.

The work to be performed as part of the contract modification cannot be bid out because of the additional time required to bid this project out and the need to perform this work this construction season. It is estimated that the High Street Bridge...
is 60% debonded and the Groveport Road bridge is 80% debonded. In order to reduce the City maintenance cost of these bridges, this work needs to be performed this construction season.

Original contract amount: $869,565.00  (Ordinance 1015-2010, City contract number EL010734)
Modification #1: $480,488.80
Total contract amount including this Modification: $1,350,053.80

Searches in the Excluded Party List System (Federal) and the Findings for Recovery list (State) produced no findings against Double Z Construction.

2. CONTRACT COMPLIANCE
Double Z's contract compliance number is 311788042 and expires 12/2/12.

3. FISCAL IMPACT
Funds are available for this modification within the 2011 Capital Improvement Budget. A C.I.B. Amendment is necessary to establish authority within the correct projects. This ordinance authorizes the expenditure of $480,488.80 for construction. The Department of Public Service has received an Ohio Department of Transportation grant for this project of 80% of the project cost up to a maximum of $384,391.04. The City share of this project is estimated to be $96,097.76. This expense can be accommodated by appropriating and transferring funds needed in the amount of $96,097.76 from the Special Income Tax Fund. Bonds have yet to be sold for the whole project, necessitating a certification of $96,097.76 against the Special Income Tax Fund. Upon sale of bonds, this will be reimbursed. Those funds will then be transferred to the Fed-State Highway Engineering Fund. The project cost, $480,488.80, will then be appropriated within and expended from that fund.

4. EMERGENCY DESIGNATION
The Department of Public Service is requesting City Council to enact this legislation as an emergency measure in order to allow for the execution of a construction contract modification, pursuant to the immediate commencement of the additional bridge work to ensure the safety of the structures that are included in this contract modification.

WHEREAS, contract no. EL010734 was authorized by ordinance no. 1015-2010, passed by City Council July 12, 2010, executed July 23, 2010 and approved by the City Attorney on July 30, 2010; and

WHEREAS, the Department of Public Service has determined it to be in the City's best interest to modify the subject contract for purposes of adding additional bridge work to the contract; and

WHEREAS, this ordinance authorizes the first modification to the Bridge Rehabilitation - Annual Citywide Contract Project 1 project in the amount of $480,488.80; and

WHEREAS, it is necessary to amend the 2011 Capital Improvement Budget; and

WHEREAS, it is necessary to transfer funds from the Special Income Tax Fund to this project; and

WHEREAS, the City will sell notes or bonds to fund this project and will reimburse the Special Income Tax Fund; and

WHEREAS, this transfer should be considered as a temporary funding method; and

WHEREAS, the aggregate principal amount of obligations which the city will issue to finance this project is presently
expected not to exceed $96,097.76; and

WHEREAS, the City anticipates incurring certain Original Expenditures (as defined in Section 1.150-2(c) of the Treasury Regulations (the "Treasury Regulations") promulgated pursuant to the Internal Revenue Code of 1986, as amended) with respect to the project described in this ordinance (the "Project").

WHEREAS, an emergency exists in the usual daily operation of the Department of Public Service, Division of Planning and Operations, in that the contract should be modified and increased immediately so that the project may be proceed and construction can occur during the 2011 construction season to ensure the safety of these bridges, thereby preserving the public health, peace, property, safety and welfare; now, therefore

It has come to the City's attention that the Gudenkauf Corporation, an Ohio corporation, is the owner of certain real property, located at 2679 McKinley Avenue, Columbus, Ohio 43204, which presently encroaches upon a portion of the adjacent City owned real property. Explanation

The Division of Planning and Operations and the Division of Mobility Options are engaged in a project for the Department of Public Health. As part of the Department of Public Health Art Walk initiative, the Division of Mobility Options will prepare work orders and provide basic engineering support, and the Division Planning and Operations crews will fabricate and install on various City streets informational signs for participants in Art Walks. The purpose of this signage is to inform the public of the Art Walk program, engage residents and visitors to be physically active in urban neighborhoods by creating a signed urban trail, and promote physical activity as a means of obesity and chronic disease prevention in our community.

The costs incurred for City Staff and equipment associated with the Sign Upgrading/Streetname Signs - Art Walk Sign Initiative project will be tracked. The Street Construction Maintenance and Repair Fund will then be reimbursed from Capital Funds.

This legislation authorizes reimbursement to the Street Construction, Maintenance and Repair Fund, the division's operating fund, for capital improvement labor and equipment associated with the Sign Upgrading/Streetname Signs - Art
Walk Sign Initiative project. These project costs will be tracked and billed against the auditor's certificate established by this ordinance in order to reimburse the Street Construction Maintenance and Repair Fund.

2. FISCAL IMPACT
This project is budgeted within the 2011 Capital Improvement Budget. This expense can be accommodated by appropriating and transferring funds needed in the amount of $64,000.00 from the Special Income Tax Fund. Bonds have yet to be sold for the whole project, necessitating a certification of $64,000.00 against the Special Income Tax Fund. Upon sale of bonds, this will be reimbursed.

3. EMERGENCY DESIGNATION
Emergency legislation is requested in order to process reimbursements to the Street Construction Maintenance and Repair Fund as expenses occur for this work and promote proper accounting practices.

Bonds Fund; and to declare an emergency. ($64,000.00)

WHEREAS, it is necessary to reimburse the Street Construction, Maintenance and Repair Fund for the cost of material, labor and equipment utilized for this project; and

WHEREAS, it is necessary to transfer funds from the Special Income Tax Fund to this project; and

WHEREAS, the City will sell notes or bonds to fund this project and will reimburse the Special Income Tax Fund; and

WHEREAS, this transfer should be considered as a temporary funding method; and

WHEREAS, the aggregate principal amount of obligations which the city will issue to finance this project is presently expected not to exceed $64,000.00; and

**Explanation**

**BACKGROUND:** In 1999 the Short North Special Improvement District of Columbus, Inc. (SID) was created by the property owners in a defined area of High Street in the Short North. The SID was created for a 12 year period and was very successful. The twelve-year SID period concludes in December, 2011 and now the property owners wish to reauthorize the SID, with slightly different boundaries, but again still called the Short North Special Improvement District. The property owners have initiated a one petition process in which at least 60% of the property owners within the District signed that they are interested in reauthorizing the SID and approving the Articles of Incorporation. This petition was accepted and approved by Columbus City Council by Ordinance 0341-2011, passed March 14, 2011. Another action required by the Ohio Revised Code is the approval of the Plan for Improvements and Services and the inclusion of City owned property in said plan. This legislation was approved by Columbus City Council by Resolution No. 0026X-2011, passed March 14, 2011. The third piece of legislation was to declare the necessity to implement the Plan of Services adopted by the Short North Special Improvement District of Columbus, Inc., and to levy a special assessment for the services. This legislation was approved by Columbus City Council by Resolution No. 0047-2011, passed April 4, 2011.

This legislation is an ordinance to proceed with the Plan of Improvements and Services of the Short North Special Improvement District, Inc. and to provide for the levy of assessment to property owners within the Special Improvement District.

Emergency action is requested to allow the special assessment process to proceed in a timely manner.

**FISCAL IMPACT:** No funding is required for this legislation.

Explanation

BACKGROUND: In 1999 the Capitol South Community Urban Redevelopment Corporation, the Greater Columbus Chamber of Commerce and the Columbus Department of Trade and Development initiated an effort to work with downtown property owners to create a Special Improvement District (SID) in the core area of downtown. Property owners were surveyed and overwhelmingly were in support of creating a SID. The SID was created for a five year period and was very successful. The five-year SID period concluded in the summer of 2006 and the property owners reauthorized the SID, with slightly different boundaries, but still called the Capital Crossroads Special Improvement District. The second five-year SID will conclude in the summer of 2011 and now the property owners wish to reauthorize the SID, with slightly different boundaries, but again still called the Capital Crossroads Special Improvement District. The property owners initiated a one petition process in which at least 60% of the property owners within the District signed that they are interested in forming a SID and approving the Articles of Incorporation. This petition was accepted and approved by Columbus City Council by Ordinance 0338-2011, passed March 14, 2011. Another action required by the Ohio Revised Code is the approval of the Plan of Improvements and Services and the inclusion of City owned property in said plan. This legislation was approved by Columbus City Council by Resolution 0025X-2011, passed March 14, 2011. The third piece of legislation was to declare the necessity to implement the Plan of Services adopted by the Capital Crossroads Special Improvement District of Columbus, Inc., and to levy a special assessment for the services. This legislation was approved by Columbus City Council by Resolution No. 0046X-2011, passed April 4, 2011.

This legislation is an ordinance to proceed with the Plan of Services of the Capital Crossroads Special Improvement District of Columbus, Inc., and to provide for the levy of assessments to property owners within the Special Improvement District.

Emergency action is requested on this legislation to allow the special assessment process to proceed in a timely manner.

FISCAL IMPACT: No funding is required for this legislation.

BACKGROUND: This ordinance is being submitted to set forth the municipal services and zoning conditions the city of Columbus will provide upon annexation of a territory located in Clinton Township. This ordinance is required by the Ohio Revised Code (ORC) as enacted by the General Assembly of the State of Ohio. An annexation petition has been filed with Franklin County for this property. A service ordinance must be passed before the annexation meeting takes place before the Board of County Commissioners of Franklin County. Information regarding municipal services that would be available, should the subject site be annexed, has been compiled and is reflected in this ordinance. If the petition is approved by the County Commissioners, a second City ordinance accepting the annexation will be required to complete the process. The time frames specified in the ORC require that this legislation be filed as emergency.

FISCAL IMPACT: The statement of municipal services and zoning conditions for a proposed annexation area has no fiscal impact. While provision of the stated services does represent cost to the city, annexation of land also has the potential to create revenue to the city.

Title
To set forth a statement of municipal services and zoning conditions to be provided to the area contained in a proposed annexation (AN11-005) of 6.18 ± acres in Clinton Township to the City of Columbus as required by the Ohio Revised Code; and to declare an emergency.

WHEREAS, the parcel is located within the boundaries of the adopted 5th by Northwest Plan, which recommends office/technology uses for this site;

WHEREAS, upon annexation, properties will have uniform access to City services as they become available; and

WHEREAS, an emergency exists in the usual daily operation of the Department of Development in that it is immediately necessary to present this ordinance to the Franklin County Board of Commissioners in accordance with the Ohio Revised Code, all for the preservation of the public peace, property, health safety and welfare; now, therefore,

BE IT ORDAINED BY THE COUNCIL OF THE CITY OF COLUMBUS:

Section 1. That the City of Columbus will provide the following municipal services for 6.18 ± acres in Clinton Township upon the annexation of said area to the city of Columbus:
Public Safety: The City of Columbus, Department of Public Safety will be able to provide the appropriate level of safety related services to the proposed annexation area. Such services will include police and fire protection as well as emergency medical service to the subject property.

While the petitioner for annexation may have proposed future development plans for the property in question, the Department of Public Safety requests that the City exercise its discretion in the coming development planning and review process to ensure any future development will be properly served by the Department of Public Safety. Discussions between the City and the present property owner or any future developers regarding post annexation changes in zoning or other changes to the property should include the Department of Public Safety and the Department of Development to ensure any proposed development of the annexation property may be adequately accommodated. Specific details for safety services are dependent upon the parameters of future development that is ultimately approved by the City.

Sanitation: Residential refuse collection services will be available for residential uses upon annexation of the property. Commercial/business uses are required to provide their own refuse collection.

Transportation: Maintenance will be available for any additional right-of-way that may be included in this annexation request. If this annexation contains existing signalized intersections, those intersections and signals are subject to Transportation Division Policy, which appeared in the December 6, 2003 Columbus City Bulletin, and any subsequent updates thereto.

Water: The site will be served by be served by the 20" water main located in Kinnear Road.

Storm Sewer: All storm sewers necessary for development/redevelopment of the area shall be designed in accordance with design policy and zoning codes in effect at the time of development. All sanitary and storm sewers required shall be constructed privately by the owners/developers at their own cost and expense with no cost to the city.

Section 2. If this 6.18 + acre site is annexed, and if the City of Columbus permits uses in the annexed territory that the City of Columbus determines are clearly incompatible with the uses permitted under current county or township zoning regulations in the adjacent land remaining within Clinton Township, the Columbus City Council will require, in the zoning ordinance permitting the incompatible uses, the owner of the annexed territory to provide a buffer separating the use of the annexed territory and the adjacent land remaining within Clinton Township. For the purpose of this section, "buffer" includes open space, landscaping, fences, walls, and other structured elements: streets and street right-of-way; and bicycle and pedestrian paths and sidewalks.

Section 3. That for the reasons stated in the preamble hereto, which is hereby made a part hereof, this ordinance is hereby declared to be an emergency measure and shall take effect and be in force from and after its passage and approval by the Mayor or ten days after passage if the Mayor neither approves nor vetoes the same.

Version: 1
Matter Type: Ordinance

Explanation
This ordinance will authorize the appropriation and transfer of $120,133 from the Cultural Services fund for operating expenses related to Glenwood and Maryland pools. Columbus Recreation and Parks Department has nine outdoor swimming pools that until 2007 were open in the summer months, and one indoor pool that was open year-round. Due to budget cuts in 2008, Glenwood, Fairwood and the Columbus Swim Center were not opened during the summer swim season. Upon further budget constraints during the 2009 and 2010 swim seasons, The Columbus Recreation & Parks Department kept six pools closed and only opened four outdoor pools: Dodge, Marion Franklin, Tuttle and Windsor.

The pools that remained open were chosen based upon by participation rates, overall maintenance costs and needs, and in consideration of other pools available for use by area residents. This season the same four pools, Dodge, 545 Sullivant Ave.; Marion Franklin, 2699 Lockbourne Rd.; Tuttle, 240 W. Oakland Ave.; and Windsor, 1300 Windsor Ave., opened for the season on Sunday, June 12, 2011. It has been a top priority of Columbus City Council to identify opportunities to increase the number of pools opens during the summer months. This legislation will authorize the Recreation and Parks Department to open Glenwood Pool located at 1925 W Broad Street on the Westside of Columbus and Maryland Pool located at Saunders Park 1380, Atcheson Street, on the Eastside of Columbus. Passage of this legislation will allow for the hiring of approximately 25 part-time seasonal workers at a cost of $89,133. Additionally, $18,000 dollars is needed for equipment and supplies including ladders and AEDs. Finally the cost of repairs is estimated at $10,200. An additional $2,800 will be allotted for unanticipated cost overruns.

FISCAL IMPACT: That funding for this ordinance is made available from sub fund 002 of the City's Hotel/Motel Tax Fund 231. This sub fund is the portion of bed tax devoted to expanding cultural services to the community.
