Explanation
1. BACKGROUND:

   Need. This legislation authorizes the Director of Public Utilities to enter into a planned modification of the professional engineering services contract with Camp, Dresser, McKee, Inc. (CDM), for the Sewer System Capacity Model Update Project, for the Division of Sewerage and Drainage. This ordinance will authorize the establishment of $3,225,880.02 in additional funding. Under the terms of this contract, the City has the right to contract for additional
services to fulfill emergency capital improvements or smaller scoped projects, subject to the approval of a contract modification by City Council to provide general engineering services for the Division of Sewerage and Drainage.

The potential need for the additional work was foreseen and so stated in the original contract’s legislation, and is therefore a planned continuation of the services originally included within the existing contract’s scope of service. It is not deemed either feasible or reasonable to suspend work with the entity currently under contract and undertake continuation of these services with another procurement. The cost of this third modification is a continuation of the vendor’s current pricing structure, as verified by City staff. The Division has determined that these services cannot be performed by City personnel at this time, and has planned for the procurement of these services on a routine basis.

This project will continue development and enhancement of the City’s Sewer System Capacity Model (SSCM). The SSCM is the City’s long-term commitment to accurately evaluate collection system capacity deficiencies and devise economical solutions to those deficiencies. Columbus’ efforts to accurately predict sanitary flows began with the "Olentangy Scioto Interceptor Sewer Tributary Study - Phase I Report". That first effort ended with the "Columbus Sewer Capacity Study - Phase III" report and model. This, in turn, was updated in method and extent by the Model Update 2000 project (MU 2000).

The basic services to be provided under this Agreement are professional specialized technical services necessary to update the SSCM from year 2000 to 2006 conditions and then use this updated model to evaluate current and future system scenarios. The model update is necessary to ensure continued conformance with the existing Consent orders between the City of Columbus and the State of Ohio, ongoing efforts to eliminate sanitary sewer overflows, minimize Water-in-Basement (WIB) occurrences, evaluate future development/expansion of served areas and evaluate collection system capital improvement projects included in the City's Wet Weather Management Plan (WWMP), submitted to the Ohio EPA on July 1, 2005.

The original contract with Camp, Dresser, McKee, Inc (CDM) was a multi-year agreement for professional engineering and technical services.

1.1. Amount of additional funds to be expended: $3,225,880.02

Original Contract Amount: $1,954,291.68
Modification 1 $2,562,564.93
Modification 2 $2,754,801.94
Modification 3 $3,225,880.02
Total (Orig. + Mod 1, 2, 3) $10,497,538.57

1.2. Reasons additional goods/services could not be foreseen:
The technology of computer hydraulic modeling of sewers has been changing rapidly over the past several years and the City must utilize the best available methods to represent the reaction of the City's sewer system to various rain events in order to most cost effectively address sewer overflows as mandated in the City's consent orders with the Ohio EPA. During year 3 (mod #2) of this project the City made the decision to move toward a new approach in modeling, continuous calibration and continuous simulation. Also during this timeframe new tasks evolved that required immediate attention such as the Interim Wet Weather Operational Plan and new SWMM modeling guidelines. Time spent on these new tasks caused some delay in completing all the previously prescribed tasks and therefore necessitated a third and final modification to this contract.

1.3. Reason other procurement processes are not used:
The work included herein is an integral part of the original requested product. Seeking to provide such from another vendor will cause significant increases in cost and jeopardize the City’s ability to fulfill its consent order obligations to the Ohio Environmental protection Agency.

1.4. How cost of modification was determined:
The rates schedules established within this contract will remain in force throughout the life of the contract.

2. MULTI-YEAR CONTRACT:
This ordinance will authorize the expenditure of $3,225,880.02. The Department anticipates requesting additional future appropriations to this contract through planned contract modifications duly authorized by City Council. Under the terms of
this contract, the City has the right to contract for additional services to fulfill emergency capital improvements related needs subject to the approval of a contract modification by City Council. The rates schedules established within this contract will remain in force throughout the life of the contract.

3. **Contract Compliance No.:** 04-2473650 | (MAJ) | (Expires 04/23/2012)

This company is not debarred according to the Federal excluded parties listing or prohibited from being awarded a contract to the Auditor of State unresolved findings for recovery search.

4. **Emergency Designation:** Emergency designation is not requested.

5. **Economic and Environmental Impact:**

The computer modeling efforts performed under this contract will help the City get the best performance (least overflows) out of its sewer collection system while minimizing the cost of implementing improvements mandated by the City's consent order with the Ohio EPA.

Reports of sewer backups from manholes or into basements are used by this project to aid in determining where shortcomings exist in the sewer collection system.

One of the main objectives of this project is to assure compliance with the City's consent order with the Ohio EPA. The consent order is an agreement by which the City will significantly lessen its impact on the environment by reducing wet weather sewage overflows.

6. **FISCAL IMPACT:**

This ordinance authorizes the Director of Public Utilities to transfer within and expend $1,530,665.17 in funds from the Sanitary Sewer General Obligation Bond Fund, Fund 664 and $1,695,214.85 from the Sanitary Sewer Build America Bond Fund, Fund 668 for a total expenditure of $3,225,880.02 for the Sewer System Capacity Model Update project; and to amend to the 2011 Capital Improvements Budget to create and establish sufficient budget authority to cover the expenditure upon passage of the ordinance.

Explanation
Council Variance Application # CV11-002

APPLICANT: Columbus Metropolitan Housing Authority; c/o Michael E. Zatezalo, Atty.; Kegler, Brown, Hill & Ritter; 65 East State Street, Suite 1800; Columbus, OH 43215.

PROPOSED USE: One-hundred unit apartment building with up to 4,089 square feet of commercial space.
FRANKLIN TOWN AREA COMMISSION RECOMMENDATION: Approval.

CITY DEPARTMENTS' RECOMMENDATION: Approval. The site is developed with a truck dealership and parking lots in the C-4, Commercial, and M, Manufacturing Districts, and is located in both the East Franklinton (EFO) and Urban Commercial (UCO) overlays. The requested Council Variance will allow a 100-unit apartment building with up to 4,089 square feet of commercial space. A Council variance is necessary because apartment residential development is only permitted above certain commercial uses in the C-4, Commercial District, and is prohibited in the M, Manufacturing District. Variances for building height, minimum number of required parking spaces, and EFO and UCO provisions as they apply to parking setback, circulation, building design, and parking lot screening are included in the request. The site is located within the planning area of The Franklinton Plan (2003), which recommends mixed-use development for this location. The requested variance would permit a mixed-use development that is consistent with the development patterns and historic character of the surrounding neighborhood. Variances to the EFO and UCO provisions are supported due to the mixed-use nature of the site and the practical difficulty of having to comply with design standards of two different overlays.

Title

To grant a variance from the provisions of Sections 3356.03, C-4 Permitted Uses; 3363.01, M-Manufacturing districts; 3309.14, Height districts; 3312.49 Minimum numbers of parking spaces required; 3372.406 (B), (C), and (H), Design standards; 3372.407 (A), Parking and circulation; 3372.604 (B), Setback requirements; 3372.607, Landscaping and screening; and 3372.609(A), Parking and circulation, of the Columbus City codes, for the property located at 540 WEST BROAD STREET (43215), to permit a 100-unit apartment building with up to 4,089 square feet of commercial space with reduced development standards in the C-4, Commercial, and M, Manufacturing Districts and to declare an emergency (Council Variance # CV11-002).

Body

WHEREAS, by application No. CV11-002, the owner of property at 540 WEST BROAD STREET (43215) is requesting a Council Variance to permit a 100-unit apartment building with up to 4,089 square feet of commercial space with reduced development standards in the C-4, Commercial, and M, Manufacturing Districts; and

WHEREAS, Section 3312.49 Minimum numbers of parking spaces required, requires 1.5 parking spaces per dwelling unit, 1 parking space per 450 square feet of general office space, 1 parking space per 300 square feet of medical office space, and 1 parking space per 250 square feet of retail space or a maximum total of one hundred sixty-seven (167) parking spaces for 100 apartment units with up to 4,089 square feet of accessory office or retail service space, while the applicant proposes forty-nine (49) parking spaces; and

WHEREAS, Section 3372.406 (B), (C), and (H), Design standards, requires the following design standards for all residentially used or zoned properties within the East Franklin Overlay: that the main entrance of all properties shall be accompanied by a concrete stoop or roof-covered wood porch a minimum of 30 inches high; that windows in all building frontages of the principal building must be double-hung; and that a minimum of 30 inches of the principle building's foundation must be visible on the exterior of the structure and must be rusticated on all building frontages, while the applicant proposes no stoop or porch, windows that are not double-hung, and no foundation exposure of rusticated block; and
WHEREAS, Section 3372.407 (A), Parking and circulation, prohibits parking, stacking and circulation aisles between a public street right-of-way line and a principal building for properties within the East Franklin Overlay, while applicant proposes a parking lot between the proposed building and North May Street; and

WHEREAS, Section 3372.604 (B), Setback requirements, requires parking to be located behind the principle building, while the applicant proposes parking to the side of the principle building; and

WHEREAS, Section 3372.607, Landscaping and screening, requires perimeter landscaping and screening and interior landscaping for commercial parking lots in the Urban Commercial Overlay, while the applicant proposes landscaping and screening as shown on the Site Plan; and

WHEREAS, Section 3372.609 (A), Parking and circulation, prohibits parking, stacking and circulation aisles between a public street right-of-way line and a principal building for properties within the East Franklin Overlay, while applicant proposes a parking lot between the proposed building and North May Street; and

WHEREAS, the City Departments recommend approval of the requested variances because the proposal would permit a mixed-use development that is consistent with the development patterns and historic character of the surrounding neighborhood, and with the land use recommendations of The Franklinton Plan (2003); and

WHEREAS, said ordinance requires separate submission for all applicable permits and Certificate of Occupancy for the proposed use; and

WHEREAS, said variance will not adversely affect the surrounding property or surrounding neighborhood; and

WHEREAS, the granting of said variance will not impair an adequate supply of light and air to adjacent properties or unreasonably increase the congestion of public streets, or unreasonably diminish or impair established property values within the surrounding area, or otherwise impair the public health, safety, comfort, morals, or welfare of the inhabitants of the City of Columbus; and

WHEREAS, the granting of said variance will alleviate the difficulties encountered by the owners of the property located at 540 WEST BROAD STREET (43222), in using said property as desired; and

WHEREAS, an emergency exists in the usual daily operation in the City of Columbus in that it is immediately necessary to pass this ordinance to begin construction as soon as possible for the immediate preservation of the public peace, property, health and safety; now, therefore:

BE IT ORDAINED BY THE COUNCIL OF THE CITY OF COLUMBUS:

Explanation

1. BACKGROUND: This legislation is to authorize the Director of Public Utilities to enter into a professional services agreement with Woolpert, Inc., in the amount of $219,929.00, to develop GIS data showing 1-foot contour lines. Contour lines show elevation on maps.

Under Ordinance No. 0412-2011, passed April 4, 2011, Woolpert provided ortho-photography, or aerial images of the earth and LiDAR data. Under this agreement, Woolpert will take those images and LiDAR data, extract out the elevations, and show those lines on our electronic maps (GIS). The Department will use this information for modeling purposes to see ground elevation and slope change (i.e. hills and depressions).

2. BID INFORMATION: The Department will be contracting with Woolpert, Inc. in accordance with State of Ohio Contract CSP#0A1078. This contract was formally bid through and awarded by the State of Ohio, Department of Information Technology, and was bid specifically to be a cooperative contract for use by other government agencies in accordance with Chapter 1545 of the Ohio Revised Code (ORC). Ordinance 582-87 authorizes the City of Columbus to participate in cooperative purchasing contracts.

The Contract Compliance Number for Woolpert, Inc. is 20-1391406 (expires 6/17/13, Majority). Searches in the Excluded Party List System (Federal) and the Findings for Recovery list (State) produced no findings against Woolpert, Inc.

3. FISCAL IMPACT: Funding for this project will come from the Divisions of Sewerage and Drainage and Power and Water.

A transfer of funds within the Sanitary Sewer General Obligation Fund, Fund 664 and an amendment to the 2011 Capital Improvements Budget will be necessary.

A transfer of funds within the Water Build America Bonds Fund and an amendment to the 2011 Capital Improvements Budget will be necessary.

FIFTH BY NORTHWEST AREA COMMISSION RECOMMENDATION: Approval.

CITY DEPARTMENTS' RECOMMENDATION: Disapproval. Approval The rezoning to the C-4, Commercial District along Olentangy River Road represents a down zoning of the site from the M, Manufacturing District. The requested L-AR-O, Limited Apartment Residential District is laid out so that the proposed parking will provide some buffering between the dwelling units and the fire station and Railroad. The introduction of dwellings at the site that will be in close proximity to existing restaurants and offices provides for a mix of uses within walking distance. The proposal is consistent with the Fifth by Northwest Neighborhood Plan (2009), zoning and development patterns of the area. However, due to the Division of Planning and Operations' recommendation of disapproval for the needed setback variances along Third Avenue, this site plan cannot be built unless Council approves the concurrent Council variance request over the Public Service Division's objections. Staff would suggest the applicant continue working with the Division of Planning and Operations to revise the proposed site plan to either reduce or eliminate the need for setback variances along Third Avenue, at which time Staff will reconsider our position.

**Legislation Number:** 1084-2011  
**Drafting Date:** 06/28/2011  
**Current Status:** Passed  
**Version:** 1  
**Matter Type:** Ordinance

**Explanation**

**BACKGROUND:**

This legislation authorizes the Director of the Department of Technology (DoT), to modify and increase an existing contract with OARnet/OSU, established through ordinance 1716-2010, passed by Columbus City Council December 13, 2010; and established purchase order EL011737 (certified by the City Auditor on 6/8/11) to acquire VMware software licenses, training and maintenance support services for a three (3) year term period. This purchase was to provide a recovery platform in case of any outage at the primary data center, provide software to establish lower cost database platforms, and establish a virtual desktop platform to better utilize existing desktop computing resources within the city.

However, VMware had a price increase on the the software licenses that took effect February 1, 2011. The Department of Technology could not place an order until after the associated purchase order (EL011737) was certified, June 8, 2011. As such, OARnet/OSU, a value added reseller of VMware products and services, could not fill the order utilizing the previous software license pricing.

- The contract modification amount is $11,066.58.
- The need for additional funds could not be foreseen because the legislation had already passed when DoT was notified about the price increase.
- Other procurement methods would not be an option as it has been demonstrated through previous bids that OARnet pricing discounts for VMware software are greater than can be achieved through the bid process. With the price increase taken in consideration on the VMware license purchase, OARnet pricing remains 40% lower than the lowest bid response; which is a projected savings of over $105,000.00 on this purchase.
- The new/additional prices were set by VMware. The State of Ohio is utilizing an existing Ohio Revised Code as their purchase authority for VMware (ORC 127.16(D)(23)).
This contract modification will also allow the three (3) year contract term period dates established via EL011737 to be revised to reflect the date the original purchase order was certified; June 8, 2011 through June 7, 2014.

This ordinance also requests to waive the competitive bidding provisions in accordance with section 329 of the Columbus City Codes. This purchase with OARnet includes pricing discounts for VMware software that are greater than can be achieved through the bid process.

**EMERGENCY:**
Emergency action is requested to expedite the contract and ensure that the needed services are not delayed.

**FISCAL IMPACT:**
In 2010 the Department of Technology legislated $170,831.53 with OARnet/OSU for VMware software licenses, training and associated services. This modification request in the amount of $11,066.58 is to cover the cost increase of the VMware software licenses. Funds to cover the additional cost are available within the Department of Technology, Information Services Fund 2011 Budget as a result of cost savings from other contract expenditure being lower than budget. The aggregate contract total including this request is $181,898.11.

**CONTRACT COMPLIANCE:**

Explanation: BACKGROUND: This legislation authorizes the Finance and Management Director to issue purchase orders to Ohio Machinery Co. dba Ohio CAT for firefighting foam trailers.

The Division of Fire was awarded an Assistance to Firefighters Grant from FEMA in August of 2010. The Division of Fire has been approved to purchase firefighting foam systems, nozzles, and foam via this grant award. These purchases will allow the Fire Division to replace four venerable foam supplying engines with new attack and supply foam trailers. These trailers offer new technology in supplying foam in fire suppression incidents and emergencies. This grant requires an 80/20 percent split between the grant funding and the capital match funding sources as detailed in Ordinance 0709-2011.

Bid Information: Bid solicitation SA003967 were opened on June 2, 2011 for fire fighting foam trailers. Three (3) vendors supplied bids for this solicitation as follows:

Warren Fire Equipment (FBE) ~ $267,000.00 ~ took exception to their bid in all of the following sections: 3.2.6, 3.3.1, 3.4.1, 3.4.3, 3.6.3, 6.1, 6.1.2.2, 6.3, and 6.4.
Finley Fire Equipment Co.(Majority) ~ $281,201.00 ~ did not meet the local warranty service location in section 6.1 of bid specifications
Ohio Machinery Co. dba Ohio CAT (Majority) ~ $290,000.00 ~ met all specifications

The Division of Fire recommends the bid award to Ohio Machinery dba Ohio CAT as the lowest, best, and most responsive bid.

Contract Compliance: Ohio Machinery Co. dba Ohio CAT~ 340672363 exp. 9/22/2011

Emergency Designation: Emergency action is requested as funds are needed immediately to ensure prompt acquisition of
the aforementioned equipment in accordance with the grant expiration deadline.

This project is for the evaluation and potential design of improvements to the Division of Power and Water's 910 Dublin Road Administrative Building and 3568 Indianola Avenue Building. The Building Improvements project is a three step project.

The first phase included the evaluation of the 910 Dublin Road building HVAC system, façade/windows, and ADA compliance for access to the building and its restrooms. Additionally, Dynamix Engineering Ltd. completed an analysis for 3568 Indianola Avenue to determine various options for housing the Meter Operations group which currently work out of that facility. Phase one is now complete and Dynamix has made recommendations for necessary upgrades and improvements for each building. With approval of Dynamix's recommendations by the City, phase two will consist of modifying the agreement for design services.

Modification No. 1 will provide for phase two, which include design services of the approved improvements at 910 Dublin Road and design of fire protection/fire alarm systems for the 3568 Indianola Avenue facility. The building improvements that will be designed under this contract modification will provide substantial energy savings with the increased efficiency of the HVAC system to be designed as well as increased efficiency of the plumbing fixtures. This project will also provide improved social impacts with the design of ADA compliant building access and public restroom facilities. Design of the fire alarm/fire suppression modifications and a PA system for the buildings will reduce the risks of loss of life and property under emergency situations.

2. FUTURE CONTRACT MODIFICATIONS:
Phase one, authorized under Ordinance No. 0714-2010, stated the agreement would be modified in order to provide for phase two (design) services. The agreement may also be modified again for phase three (construction) services, or it may be split between Dynamix (review of shop drawings, etc.) and another consultant that will be responsible for Construction Administration/Observation services.

2.1 Amount of additional funds to be expended: $432,472.31
Original Contract Amount: $  264,981.65
Modification #1 (current) $  432,472.31
Amount of original contract and Mod #1: $  697,453.96

2.2 Reasons additional goods/services could not be foreseen:
This modification was anticipated and explained in the original agreement authorized under Ordinance No. 0714-2010. This Ordinance stated the agreement would be modified in order to provide for step two (design) services, as well as a possible second modification for step three (construction) services.

2.3 Reason other procurement processes are not used:
Dynamix performed the evaluation and recommendations for each of the facilities and are familiar with the project. It is mandatory that we proceed immediately with the fire suppression/fire alarm design and improvements at 3568 Indianola Avenue for safety reasons.

2.4 How cost of modification was determined:
A proposal from Dynamix Engineering was submitted to the City upon request.

3. CONTRACT COMPLIANCE INFO:

Legislation Number: 1129-2011

Current Status: Passed
Version: 1
Matter Type: Ordinance

Explanation

BACKGROUND: This legislation authorizes the Finance and Management Director to modify and increase a contract on behalf of the Office of Construction Management with Miles McClellan Construction Company for project management services.

Ordinance No. 1126-2010, passed July 21, 2010, authorized the original contract for project management services. This contract modification will serve as a blanket contract for City buildings. The requested consulting services are for contract administration and other project management tasks necessary to perform work associated with the renovation and repair of City buildings. The work will be executed on behalf of the Office of Construction Management, in order to meet the operational needs of various departments of the City of Columbus.

Due to the fact that Miles McClellan was awarded the original contract, a modification with Miles McClellan is the logical and most expeditious option for addressing the additional project management services. Involving another firm at this point would likely lead to logistical problems, the possibility of errors, and the need to redesign and reengineer many items already completed. Therefore, it would not be in the best interests of the City to bid the additional project management services. Prices already established in the contract were used to determine the cost of this modification.
**Fiscal Impact:** A current unencumbered cash balance of $200,000.00 is available from the Gov'l SuperB.A.B.'s (Build America Bonds) Fund, Staff Augmentation.

WHEREAS, Ordinance No. 1126-2010, passed July 21, 2010, in the amount of $250,000.00 authorized the original contract with Miles McClellan for project management services; and

Explanation BACKGROUND: An additional appropriation is needed for the Operating a Vehicle Impaired (OVI) Checkpoints 2011 project due to additional funding provided by the Ohio Traffic Safety Office (OTSO), State of Ohio. Explanations

1. BACKGROUND: This legislation authorizes the Director of Public Utilities to enter into a construction contract with U.S. Utility Contractor Company; and to encumber funds with the Division of Design and Construction for prevailing wage coordination services for the 2011 Street Light Maintenance Contract for the Division of Power and Water (Power).

This project consists of the rehabilitation and/or replacement of various components of two street lighting circuits in the area between Livingston Avenue on the south, Moberly Street on the north, South 18th Street on the west and Alum Creek Drive on the east. The components to be replaced include wire, poles, lights, brackets and standoff arms which are old and deteriorated. Due to the age of the system, there are frequent light outages. Rehabilitation of these circuits will enhance the safety of the residents and their property. This will also make the residential units in the area more attractive to current residents and potential buyers.

2. CONSTRUCTION CONTRACT AWARD: The Director of Public Utilities publicly opened four bids on June 29, 2011. Bids were received from: U.S. Utility Contractor Company - $111,570.19; Complete General - $164,154.50; Xtreme Powerline Construction. - $165,576.16; and Jess Howard Electric Company - $192,046.27.

The lowest and best bid was from U.S. Utility Contractor Company in the amount of $111,570.19. Their Contract Compliance Number is 34-1606689 (expires 01/19/12, FBE). LEGISLATION NUMBER: 1150-2011

Current Status: Passed

Drafting Date: 07/06/2011

Version: 1

Matter Type: Ordinance

Explanation 1. BACKGROUND
The Mid-Ohio Regional Planning Commission (MORPC) is accepting Ohio Public Works Commission (OPWC) Round 26 applications for the Local Transportation Improvement Program (LTIP) and State Capital Improvement Program (SCIP). MORPC serves in a staff support capacity to the District Three (Franklin County) Public Works Integrating Committee (PWIC).

OPWC requires that a designated official be authorized to submit said applications and execute project agreements for approved projects. Additionally, OPWC is required to award a minimum of 20% of the SCIP funding as a no interest 20-year loan; in order to make City applications more favorable, some of the applications may include a request for a no interest loan. Therefore, the applications and ensuing agreements may also require a signature from the Director of Finance and Management and City Auditor, as appropriate, to sign for funding use certification, local match availability, and to certify loan portion repayment.

This legislation will authorize the Director of Public Service to submit applications and to execute project agreements for approved projects. The legislation will also authorize the Director of Finance and Management and City Auditor, as appropriate, to sign for funding use certification, local match availability, and to certify loan portion repayment.

2. EXPECTED PROJECTS
The Department of Public Service plans to submit applications for the following projects:

NCR-Milo Grogan (5th and Cleveland): The Department of Development has money budgeted in the 2011 CIB for this project. A successful award would reduce the funding required by Development. (Expected ask approximately $2.7M). This is the old Columbus Coated Fabric and Timken sites. In collaboration with Wagenhrenner Development this project fixes deteriorating roadways, widens sidewalks, and realigns an intersection to improve safety. This is a desired project because of its location and public private collaborations as well as fixing safety and pedestrian issues.

Group Intersections: Three intersections have been chosen to be combined into a single application and will likely be sold under one construction bid. All three intersections have completed design and are awaiting funds for construction. (Expected ask approximately $2.2M). These three locations were chosen due to safety concerns. The intersections are:

Hudson/McGuffey - this project will fix an offset intersection which is currently creating an accident issue as vehicles must make a “jog” to continue straight thru (north/south) the intersection.

Livingston/Lockbourne - this project will add left turn lanes. The lack of such turn lanes currently results in congestion issues and accidents.

Alkire/Holt - this project will add left turn lanes in all directions as well as a right turn lane on Alkire. This will alleviate congestion and safety concerns.

Third Avenue (near Grandview Yard Development) in cooperation with NRI: This project was submitted last year, but just missed being funded. (Expected ask approximately $1.2M). At this time, Third Avenue Phase 1 improves Third Avenue from the railroad bridge west to Norton Avenue. This will help alleviate future traffic congestion and crashes resulting from increased traffic from the Grandview Yard Development. This project is another good example of public private collaborations. (This listing is meant to be illustrative and is believed to be accurate and complete; however, last minute project additions and substitutions are at the discretion of the Director of Public Service.)

3. FISCAL IMPACT
Approval of this legislation will provide an opportunity to secure funds for various projects. The approximate available funding to the District Three Public Works Integrating Committee is approximately $20,349,000.00, and it is to be awarded in the form of grants and loans. As a part of the application for grant funds, the City will apply for a maximum of $3,000,000 in loans as necessary to make the applications more favorable to OPWC and the City.

Based on population, the City of Columbus' share can be 40%, more or less, of the total amount available. No financial participation is required at this time. City funds will be approved in the form of design contracts and/or construction contracts that will be or have been submitted for Council's approval.
Improvement Program and State Capital Improvement Program and to execute project agreement forms for approved projects for the Department of Public Service on behalf of the City of Columbus, and to authorize the Director of Finance and Management and City Auditor, as appropriate, to sign for funding use certification, local match availability, and to certify loan portion repayment. ($0.00)

WHEREAS, the Ohio Public Works Commission requires that the City of Columbus designate and authorize officials to submit Round 26 applications, execute project agreements, sign for funding use certification and local match availability, and to certify loan portion repayment for Local Transportation Improvement and State Capital Improvement Programs; and

WHEREAS, application amounts are approximate depending upon OPWC scoring criteria; and

WHEREAS, approved applications will require execution within 45 days of notification by the Ohio Public Works Commission; now, therefore

BE IT ORDAINED BY THE COUNCIL OF THE CITY OF COLUMBUS:

SECTION 1. The Director of Public Service be and is hereby authorized to submit applications and execute project agreements with the Ohio Public Works Commission on behalf of the City of Columbus Department of Public Service for the Local Transportation Improvement Program and State Capital Improvement Program projects. The Director of Public Service and Director of Finance and Management be and are hereby authorized to submit loan documents and borrow money from the Ohio Public Works Commission on behalf of the City of Columbus Department of Public Service for projects as awarded under the State Capital Improvement Program. The Director of Finance and Management and City Auditor, as appropriate, are authorized to sign any consequential promissory notes for a grand total of no more than $3,000,000 to certify Round 26 OPWC funding for the City's SCIP loan portion of any project that is awarded a 20-year no interest loan.

This ordinance initiates the project by funding the artist selection process using a $50,000 allocation from the Miranova TIF - Riverfront Vision Account. This initial allocation will be used for three primary purposes: 1) hiring an art professional to oversee and manage the process; 2) funding artists to create site specific project proposals; and 3) retaining an individual to assist with staffing the artist selection panel and curatorial team, and other project related duties. The Director of Development will enter into a series of contracts to undertake these steps, with no single contract exceeding $20,000.

This ordinance also authorizes the Director of Development to enter into a professional services contract with Shelly Willis and to waive the competitive bidding provisions of Chapter 329 of the City Code. Ms. Willis is a nationally noted art professional with over 15 years experience managing complex public art projects. She is currently serving as a curator for Columbus Public Art 2012, a temporary public art exhibition planned for downtown Columbus during the city's bicentennial year. Her selection to lead the artist selection process and advise the City during the commissioning phase will contribute to a coordinated effort. This legislation is filed as emergency to meet the timeframes of the 2012 Bicentennial celebration.

Legislation Number: 1161-2011
Drafting Date: 07/07/2011
Current Status: Passed
Version: 1
Matter Type: Ordinance

Explanation
BACKGROUND: This legislation is to authorize the purchase of three (3) Compressed Natural Gas (CNG) Single Axle Dump Trucks for the Public Utilities Department, Sewers and Drains Division and the Division of Power and Water as part of the Congestion Mitigation and Air Quality (CMAQ) grant. These dump trucks will replace older units that are beyond their useful service life and to provide a more reliable fleet to carry out services provided by the Divisions of Sewers and Drains and Power and Water.

The CMAQ grant was awarded to the Fleet Management Division, from the Ohio Department of Transportation, sponsored by the Mid-Ohio Regional Planning Commission (MORPC). The goal of the project is to significantly reduce emissions from heavy-duty diesel vehicles. Ordinance 1178-2008 was passed on July 17, 2008 authorizing the acceptance and
appropriation of this grant. Three interrelated projects are part of the grant: emission-reduction retrofit equipment purchases, anti-idling equipment purchases and CNG vehicle purchases.

CNG vehicles produce significantly lower amounts of harmful emissions such as nitrogen oxides, particulate matter and toxic and carcinogenic pollutants. Natural gas is a domestically available, inherently clean-burning fuel. Using compressed natural gas as vehicle fuel increases energy security by reducing our dependence on foreign oil and improves public health and the environment. Currently, CNG is also significantly lower in cost than either gasoline or diesel. The City of Columbus has paid an average of $3.65 per gallon year to date in 2010 for diesel fuel. CNG is currently retailing in Columbus for $2.11 per gge (gasoline gallon equivalent), a $1.54 per gallon or 42% savings in fuel cost.

Solicitaion SA003963 was publicly posted to the City of Columbus Vendor Services website through June 16, 2011. A total of two (2) companies responded to this bid. Fyda Freightliner Columbus Inc. and Center City International Trucks Inc. CC# 31-0789102 expires 9/22/2012. Center City International Trucks Inc. CC# 31-1048371 expires 06/15/2012.

Emergency Designation: Emergency legislation is requested so that the purchase order can be issued as soon as possible, thereby ensuring that deadlines of the CMAQ grant are met.

FISCAL IMPACT: Funding for two (2) trucks will be through the Public Utilities Department, Division of Sewers and Drains Sewer Operating Fund, 650 and the CMAQ grant 458086. One (1) truck will be funded through the Division of Power and Water Operating Fund 600.

Explanation
Background:
This ordinance authorizes the Director of Finance and Management to enter into contract with AssetWorks Inc to upgrade eleven (11) remaining fuel sites to the Fuel Focus system. Currently, Fleet Focus provides a system for the Fleet Management Division to bill, manage, monitor and analyze all maintenance related data within Fleet Management. Fleet Focus and Fuel Focus will be integrated and allow for all information to be retained in a single data source.

Fuel Focus is an automated fuel management system that supports real time monitoring of receipt and usage of all fuels. There are currently sixteen (16) monitored fueling sites in the City of Columbus. Of those, five (5) have already been upgraded to Fuel Focus hardware and software and are compatible with the Fleet Focus system. The remaining eleven (11) sites are still using the Gas Boy system which is outdated, unreliable and inefficient. When these monitoring systems break down, the fuel pumps are inoperable. Parts for Gas Boy are no longer available for repair and this interrupts the pumping of fuel as well as collection of data used for reporting purposes.

The Finance and Management Department, Division of Fleet Management respectfully requests to waive competitive bidding requirements, Chapter 329 of the City Code, so that the upgrade can be completed as quickly as possible.

AssetWorks contract compliance number 46-0521049 which expires 03-10-2013.

Fiscal Impact: Funding for this contract will come from the Fleet Automated Fuel Location Upgrades project, project number 550002-100000, Fleet Management bond fund 513, subfund 005. The current unencumbered cash balance in this project is $500,000.00.

Emergency Designation is being requested so that the remaining fuel sites can be upgraded and available to provide fuel to designated locations without interruption.

Legislation Number: 1180-2011
Drafting Date: 07/11/2011
Version: 1
Current Status: Passed
Matter Type: Ordinance

Explanation:

BACKGROUND:
The City of Columbus, Department of Public Service, received a request from Columbus Metropolitan Housing Authority asking that the City sell a portion of the Gay Street right-of-way north of Broderick Street between Mill Street and May Avenue, and a portion of the Broderick Street right-of-way north of Broad Street between Mill Street and May Avenue. Transfer of these rights-of-way will facilitate the construction of a three story, 100 unit housing facility.

Per current practice, comments were solicited from interested parties, including City agencies, private utilities and the applicable area commission, before it was determined that, subject to the retention of a general utility easement for those utilities currently located within these rights-of-way, the City will not be adversely affected by the transfer of these rights-of-way. Then Department of Public Service submitted a request to the Department of Law, Real Estate Division, asking that they establish a value for these rights-of-way. A value of $37,781.00 was established for these rights-of-way. A request for mitigation was submitted by Columbus Metropolitan Housing Authority and after review of the request and based upon meeting a number of mitigating circumstances, the Land Review Commission voted to recommend a fifty percent reduction in the established value, and the above referenced rights-of-way be transferred to Columbus Metropolitan Housing Authority for $18,890.50.

It has also been determined by The Division of Mobility Options that in order to provide for future accessibility, a 16 foot shared use path easement will be granted by Columbus Metropolitan Housing Authority to the City of Columbus to provide connectivity between May Avenue and Mill Street.

2. FISCAL IMPACT:
The City will receive a total of $18,890.50 that will be deposited in Fund 748, Project 537650 and a 16 foot shared use path easement, as consideration for the transfer of the requested rights-of-way.

3. EMERGENCY JUSTIFICATION:
Emergency action is requested to allow this transfer to occur as soon as possible, thereby allowing Columbus Metropolitan Housing Authority to complete their transfer and allow Columbus Metropolitan Housing Authority to proceed with construction plans without further delay in order to avoid incurring additional costs that would place strain on the project budget.

Title
To authorize the Director of the Department of Public Service to execute those documents required to transfer a portion of the Gay Street right-of-way north of Broderick Street between Mill Street and May Avenue, and a portion of the Broderick Street right-of-way north of Broad Street between Mill Street and May Avenue to Columbus Metropolitan Housing Authority; and to declare an emergency.

Body
WHEREAS, the City of Columbus, Department of Public Service, received a request from Columbus Metropolitan Housing Authority, asking that the City transfer a portion of the Gay Street right-of-way north of Broderick Street between Mill Street and May Avenue, and a portion of the Broderick Street right-of-way north of Broad Street between Mill Street and May Avenue, to them; and

WHEREAS, acquisition of these rights-of-way will allow Columbus Metropolitan Housing Authority to redevelop property that is currently owned by Columbus Metropolitan Housing Authority; and

WHEREAS, per current practice, comments were solicited from interested parties, including City agencies, private utilities and applicable area commissions, before it was determined that, subject to the retention of a general utility easement for those utilities currently located within these rights-of-way, the City will not be adversely affected by the transfer of these rights-of-way to Columbus Metropolitan Housing Authority; and

WHEREAS, the Department of Public Service submitted a request to the Department of Law, Real Estate Division, asking that they establish a value for these rights-of-way; and

WHEREAS, a value of $37,781.00 established for these rights-of-way; and

WHEREAS, a request for mitigation was submitted by Columbus Metropolitan Housing Authority; and

WHEREAS, after review, the Land Review Commission has determined that a number of mitigating circumstances have been met; and

WHEREAS, a 16 foot shared use path easement shall be donated to The City of Columbus by Columbus Metropolitan Housing Authority; and

WHEREAS, the Land Review Commission voted to recommend a fifty percent reduction in the established value and that the above referenced rights-of-way be transferred to Columbus Metropolitan Housing Authority for the amount of $18,890.50 and the donation of the 16 foot shared use path easement; and now therefore

WHEREAS, an emergency exists in the usual daily operation of the Department of Public Service in that it is immediately necessary to authorize the Director to execute those documents which will provide for the immediate transfer of a portion of the Gay Street right-of-way north of Broderick Street between Mill Street and May Avenue, and a portion of the Broderick Street right-of-way north of Broad Street between Mill Street and May Avenue to Columbus Metropolitan Housing Authority, thereby allowing proposed construction to proceed without delay and preserving the public health, peace, property, safety and welfare now, therefore

This modification will extend the contract to provide internet marketing services for an additional twelve (12) month term period from the date of a purchase order certified by the Columbus City Auditor, and will provide $39,600.00 to promote the city's online resources to the public.

Webbed Marketing LLC will provide internet marketing services targeted at the new My Neighborhood web site, MyColumbus mobile application, and GreenSpot web site. They will also execute social media marketing campaigns to raise awareness and build excitement about city initiatives, in addition to measuring and benchmarking all city social media sites. Finally, they will provide recommendations for online branding to ensure a unified online presence for the City of Columbus.

Contract modification amount $39,600.00.
There is an immediate need to initiate new internet marketing for the new My Neighborhood web site and MyColumbus mobile application. These needs were not known when the original contract with Webbed Marketing LLC was established. Given the immediacy of these needs, there is not sufficient time to procure these services through a competitive procurement process. Webbed Marketing is offering the additional twelve (12) months of service at pricing consistent with the original agreement, as negotiated with the Department of Technology.

As stated above, there is not sufficient time to utilize other procurement processes for the services needed; therefore, this ordinance also requests a waiver of competitive bidding requirements of Columbus City Code, in accordance with section 329.

FISCAL IMPACT: In 2010 the Department of Technology expended $19,200.00 with Webbed Marketing LLC for internet marketing services. This modification for the same services for an additional twelve (12) months in the amount of $39,600.00, has been identified and available within the Department of Technology Information Services Fund as a result of cost savings from other contract expenditure being lower than budget. The aggregate contract total including this request is $58,800.00.

EMERGENCY: Emergency action is requested to expedite authorization of this contract modification in order to initiate services from the supplier at the negotiated prices.

Explanation

BACKGROUND: This legislation authorizes the Finance and Management Department, Office of Construction Management, to make various expenditures for labor, materials, equipment, and services in conjunction with various facility improvements that are at times unplanned, but necessary. Work may include small scale renovation of City-owned facilities, such as electrical, HVAC, and plumbing. Often work is of an emergency nature - such as a failed heating or cooling unit, is capital eligible, and must be addressed quickly. Establishing this Auditor Certificate enables us to react and solve problems more quickly and efficiently. All work will be done in accordance with the competitive bidding provisions of the Columbus City Codes. Funding for these expenditures is from the Construction Management Capital Improvement Fund 707.

Fiscal Impact: The Office of Construction Management budgeted $400,000.00 in the 2011 Capital Improvements Budget for various facility renovations. This legislation authorizes an expenditure of $200,000.00.

WHEREAS, various unexpected facility renovations will likely become necessary within the Finance and Management Department, Office of Construction Management; and

WHEREAS, an Auditor's Certificate is necessary to provide funding for these renovations; and

BE IT ORDAINED BY THE COUNCIL OF THE CITY OF COLUMBUS:

SECTION 1. That the purchase of labor, materials, services and equipment will likely become necessary for various facility renovations within the Finance and Management Department, Office of Construction Management.

SECTION 2. That the expenditure of $200,000.00, or so much thereof as may be necessary, be and is hereby authorized from the Construction Management Capital Improvement Fund No. 707, to pay the cost thereof. All work will be done in accordance with the competitive bidding provisions of the Columbus City Codes. City Council recognizes this ordinance does not identify the contractor(s) to whom the contract(s) will be awarded and understands its passage will give the Finance and Management Director the final decision in determining the lowest best responsive and responsible bidder for such contract(s). This Council is satisfied it is in the best interests of the City to delegate this contracting decision.

Matter Type: Ordinance

Explanation

BACKGROUND: The purpose of this ordinance is to give the Director of the Department of Development the authority to enter into the American Addition Neighborhood Economic Development Agreement (EDA) with Central Ohio Housing Development Organization (also known as COHDO) for the redevelopment of the American Addition. The EDA outlines various actions and associated agreements required for the completion of the American Addition redevelopment project. Execution of the EDA will be followed by subsequent legislation to authorize portions of the EDA to be implemented.

The American Addition is located in the northeast quadrant of the City and is bounded on the north by the alley north of 12th, on the south by Dolphin Alley, on the east by Petrel and Helena Alleys and on the west by Joyce Avenue. Both COHDO and its affiliate Columbus Housing Partnership have worked extensively with American Addition residents to ensure the proposed development complements the neighborhood and area plans to construct over 100 residential units. Over 100 vacant parcels have been purchased to date. The private investment is estimated at $12 to $22 million.

Under the EDA, subject to passage of future ordinances, the City commits to constructing street and utility improvements benefiting the area and the project in the amount of $10 million. The boundaries of the Linden Community Reinvestment Area have been expanded to include the American Addition allowing for a 100% tax exemption for 10, 12 and 15 years, depending on the type of unit.

FISCAL IMPACT: There are no immediate costs to the City of Columbus associated with the EDA. Future legislation will be submitted to authorize design and construction contracts totaling $10 million.

EMERGENCY JUSTIFICATION: This legislation is submitted as an emergency to facilitate subsequent legislation required to move the project forward.

Title

Explanation

BACKGROUND: This legislation authorizes the Finance and Management Director to enter into a contract on behalf of the Office of Construction Management with Schorr Architects, Inc for professional architectural and engineering consulting services for various City renovation projects. This would serve as a blanket contract for renovations to City building and building components.

As bid, this contract may be requested to be modified as additional projects and resources are identified over time. Establishing a blanket contract is an efficient mechanism by which smaller renovation projects can be scoped and bid. Actual construction projects designed under this contract come back to Council for authorization.

Emergency action is requested so that needed renovations within the City may be accomplished as quickly as possible.

Schorr Architects Contract Compliance No. 03-0499713; expiration date February 9, 2013.

Fiscal Impact: This ordinance authorizes the expenditure of $200,000.00 from the Construction Management Capital Improvement Fund. As well, the Department of Public Safety is adding $250,000.00 to this contract. In order to spend
these funds, it is necessary to authorize transfers between projects in the Construction Management Capital Improvement Fund and the Safety Capital Improvement Fund and to amend the 2011 Capital Improvement Budget. A previously established Auditors Certificate (AC030252-001) is included in the amount of $25,000.00.

MATTER TYPE: Ordinance

EXPLANATION

AN11-008

BACKGROUND: This ordinance is being submitted to set forth the municipal services and zoning conditions the city of Columbus will provide upon annexation of a territory located in Franklin Township. This ordinance is required by the Ohio Revised Code (ORC) as enacted by the General Assembly of the State of Ohio. An annexation petition has been filed with Franklin County for this property. A service ordinance must be passed before the annexation meeting takes place before the Board of County Commissioners of Franklin County. Information regarding municipal services that would be available, should the subject site be annexed, has been compiled and is reflected in this ordinance. Should the petition be approved by the County Commissioners, a second City ordinance accepting the annexation will be required to complete the process. The time frames specified in the ORC require that this legislation be filed as emergency.

FISCAL IMPACT: The statement of municipal services and zoning conditions for a proposed annexation area has no fiscal impact. While provision of the stated services does represent cost to the city, annexation of land also has the potential to create revenue to the city.

Title
To set forth a statement of municipal services and zoning conditions to be provided to the area contained in a proposed annexation (AN11-008) of 108± acres in Franklin Township to the city of Columbus as required by the Ohio Revised Code; and to declare an emergency.

Body
WHEREAS, a petition for the annexation of certain territory in Franklin Township was duly filed on behalf of CD Gaming Ventures Inc et al.; and

WHEREAS, a hearing on said petition is scheduled before the Board of County Commissioners of Franklin County in August, 2011; and
WHEREAS, the Ohio Revised Code requires that before said hearing the Municipal Legislative Authority shall adopt a statement indicating what services, if any, the municipal corporation will provide to the territory proposed for annexation upon annexation; and

WHEREAS, the Ohio Revised Code requires that before said meeting the Municipal Legislative Authority to adopt an ordinance stating zoning buffering conditions; and

WHEREAS, properties proposed for annexation are included within the Columbus Comprehensive Plan study area and within the Hilltop planning area; and

WHEREAS, upon annexation, properties will have uniform access to City services as they become available; and

WHEREAS, an emergency exists in the usual daily operation of the Department of Development in that it is immediately necessary to present this ordinance to the Franklin County Board of Commissioners in accordance with the Ohio Revised Code, all for the preservation of the public peace, property, health safety and welfare; now, therefore,

BE IT ORDAINED BY THE COUNCIL OF THE CITY OF COLUMBUS:

Section 1. That the city of Columbus will provide the following municipal services for 108 ± acres in Franklin Township upon the annexation of said area to the city of Columbus:

Public Safety: The City of Columbus, Department of Public Safety will be able to provide the appropriate level of safety related services to the proposed annexation area. Such services will include police and fire protection as well as emergency medical service to the subject property.

Sanitation: Residential refuse collection services will be available upon annexation of the property.

Transportation: Maintenance will be available for any additional right-of-way that may be included in this annexation request. If this annexation contains existing signalized intersections, those intersections and signals are subject to Transportation Division Policy, which appeared in the December 6, 2003 Columbus City Bulletin, and any subsequent updates thereto.

Water: The proposed annexation site will receive water service from the Division of Power and Water via an existing 20” main located within Georgesville Road.

Sewer:

Sanitary Sewer:

The proposed annexation site can be served by an existing 24-inch sewer situated along the north side of West Broad Street. A mainline sewer extension is required to serve the site. Said mainline extension is to be designed and installed at the cost of the property owner and reviewed and approved under a CC plan submittal.

Storm Sewer:

All storm sewers necessary for development/redevelopment of the area shall be designed in accordance with design policy and zoning codes in effect at the time of development.

All sanitary and storm sewers required shall be constructed by the owners/developers at their own cost and expense with no cost to the city.
Section 2. If this 108+/- acre site is annexed and if the City of Columbus permits uses in the annexed territory that the City of Columbus determines are clearly incompatible with the uses permitted under current county or township zoning regulations in the adjacent land remaining within Franklin Township, the Columbus City Council will require, in the zoning ordinance permitting the incompatible uses, the owner of the annexed territory to provide a buffer separating the use of the annexed territory and the adjacent land remaining within Franklin Township. For the purpose of this section, "buffer" includes open space, landscaping, fences, walls, and other structured elements: streets and street right-of-way; and bicycle and pedestrian paths and sidewalks.

Section 3. That for the reasons stated in the preamble hereto, which is hereby made a part hereof, this ordinance is hereby declared to be an emergency measure and shall take effect and be in force from and after its passage and approval by the Mayor or ten days after passage if the Mayor neither approves nor vetoes the same.

Legislation Number: 1206-2011
Drafting Date: 07/22/2011
Version: 1
Current Status: Passed
Matter Type: Ordinance

Explanation

BACKGROUND: The purpose of this ordinance is to give the Director of the Department of Development the authority to enter into a Memorandum of Understanding (MOU) with NWD INVESTMENTS, LLC ("NWD"). The MOU will outline the plans and certain commitments of the parties relating to the redevelopment and revitalization of the Pen West area and the shoreline along the Olentangy River. The plans and proposals remain subject to authorization pursuant to the adoption of appropriate legislation by Columbus City Council.

As part of its commitment to the City, NWD will follow through on its intention to acquire the former Jaeger Commercial Park site, located at 560 West Nationwide Boulevard (the "Jaeger Property"). Subject to the adoption of future ordinances, the City will sell to approximately 4.5 acres of City owned land (the "City Property"), at a purchase price equal to fair market value (to be determined by an appraisal process acceptable to both Parties). The City Property is generally described as north of Nationwide Boulevard and approximately 100 feet east of the AEP transmission line. NWD shall pay for a survey to determine the exact location of the AEP transmission line and reserve area necessary per AEP requirements along with the legal descriptions and exhibits necessary to file new parcel descriptions or splits with the Franklin County Engineer's Office. City utility easements will also be identified, surveyed, and reserved. NWD will be responsible for demolition of the buildings located on the City Property. NWD intends to redevelop the Jaeger Property and the adjacent City Property as a residential use but reserves the right to convert all or a portion of the Property to a commercial use.

NWD will be responsible for performing a Phase I and, if necessary, a Phase II of the City Property. The City and NWD recognize that the City property may need environmental remediation, the extent of which will be unknown until the Phase II is completed. If upon completion of the Phase II, NWD decides to go forward with the purchase it will enter into a binding purchase agreement by no later than February 1, 2012 and will close on the purchase of the City property no later than July 1, 2014. The City and NWD will agree to work cooperatively to seek a grant from Clean Ohio or any other appropriate entity to pay for the costs of the remediation. If the City and NWD are unsuccessful in obtaining a grant for the remediation, then contingent upon City Council approval, the City and NWD may amend the 1998 Arena District Development and Reimbursement Agreement to allow the use of the Environmental Remediation fund. The City and NWD acknowledge that the first priority for this fund is the land known as the former Pen Site. Remediation of the City Property will be the next priority. Remediation to the City Property from the Environmental Remediation Fund shall be limited to $250,000 if the first priority described above is not completed at the time NWD needs to remediate the City Property. To the extent that remediation costs exceed the amount of the Environmental Remediation fund, the City agrees
to reimburse NWD for out-of-pocket expenses for the remediation incurred within two years after closing, up to the cost of the purchase price of the City Property. If there are funds remaining in the Environmental Remediation fund after satisfaction of the Pen Site property and the City Property, then NWD will have the right to use any such remaining funds to pay for any unsuitable soils conditions existing on the Jaeger Property.

Under the MOU, subject to adoption of a future ordinance(s), the City will enter into reimbursement agreements with NWD to complete certain public improvements in the Pen West area. Public infrastructure improvements include, but are not limited to, Hocking Street improvements; MELP duct bank in W. Nationwide; MELP duct in Hocking St; replace water mains located in the area generally bounded by the Scioto River, Nationwide Boulevard, the railroad, and Spring Street; and the City will reline the Franklin Main Sewer. The City will designate the Pen West area as an underground utility district for future utilities, subject to future City Council approval.

In addition, NWD will be reimbursed by TIF proceeds consistent with the 2009 TIF Reimbursement Agreement for improvements to West Nationwide Blvd including a traffic signal at Hanover/ Spring/Long; the development of a park on the portion of City-owned property located north of Nationwide Boulevard (which may include the City Property if NWD elects not to purchase such property); and additional public improvements (roads and utilities) which may be necessary to develop the property.

The City has agreed, upon the approved sale and closing, to vacate its buildings and operations located at 640-64 West Nationwide Boulevard on or before July 1, 2014, to permit NWD to complete demolition. With regard to its operations located on the park and boat launch parcel, the City agrees to make reasonable accommodations regarding access. The City acknowledges other improvements to City-owned property located in the Pen West area are needed. Such improvements include the demolition of the old pump station at the end of Nationwide Boulevard; and the need to improve or remove its buildings on the south side of Nationwide Boulevard. However, the City needs to evaluate the cost of the various options before it can commit to a specific solution. The City will complete the evaluation and the appropriate improvements or demolition on or before July 1, 2015.

The proposed residential redevelopment of the Pen West area is eligible under the Downtown Housing CRA for a 10-year, 100% property tax abatement.

The City's agreement to provide the referenced financial assistance is contingent upon authorization pursuant to the adoption of appropriate legislation by Columbus City Council.
