COUNCIL VARIANCE: CV10-036

APPLICANT: Robert Lytle; c/o Jackson B. Reynolds III, Atty.; Smith & Hale LLC; 37 West Broad Street, Suite 725; Columbus, OH 43215.

PROPOSED USE: To permit an existing self-storage and an existing fishing bait packaging operation in the L-C-4, Limited Commercial District.

FAR SOUTH COLUMBUS AREA COMMISSION RECOMMENDATION: Approval.

CITY DEPARTMENTS' RECOMMENDATION: Approval. This variance will allow the continuation of an existing self-storage and an existing fishing bait packaging operation in the L-C-4, Limited Commercial District. This site was recently rezoned in July, 2011. The self-storage and fishing bait packaging operation were originally developed under the zoning jurisdiction of Franklin County. The property was annexed into the City of Columbus in 1998. The site lies within the boundaries of the *Scioto Southland Area Plan (2007)*, which recommends commercial development for this location. Given the small scale of both uses and because the storage and fishing bait packaging operation have coexisted without detriment to the adjacent residences, Staff supports allowing this use to continue at its existing size and intensity.

To grant a Variance from the provisions of Section 3356.03, C-4 permitted uses, for the property located at **4037 LOCKBOURNE ROAD (43207)**, to permit a fishing bait packaging operation and self storage on a lot zoned in the L-C-4, Limited Commercial District. (Council Variance CV10-036)

WHEREAS, by application No. CV10-036, the owner of property at **4037 LOCKBOURNE ROAD (43207)**, is requesting a Council Variance to permit an existing self-storage and an existing fishing bait packaging operation in the L-C-4, Limited Commercial District; and

WHEREAS, Section 3356.03, C-4 permitted uses, does not permit the self-storage or the packaging and shipping of fishing bait, while applicant proposes to continue the operation an existing self-storage and an existing fishing bait processing facility; and

WHEREAS, the Far South Columbus Area Commission recommends approval; and

WHEREAS, the City Departments recommend approval of said variance, noting that given the small scale of both uses and that the site is located across Lockbourne Road from much larger industrial buildings zoned in the M-1, Manufacturing District and because the storage and fishing bait packaging operation have coexisted without detriment to the adjacent residences, Staff supports allowing this use to continue at its existing size and intensity; and

WHEREAS, a hardship exists in that the self-storage and fishing bait packaging operations can only be permitted in the existing L-C-4, Limited Commercial District by a Council variance; and

WHEREAS, the granting of said variances will not impair an adequate supply of light and air to adjacent properties or unreasonably increase the congestion of public streets, or unreasonably diminish or impair established property values within the surrounding area, or otherwise impair the public health, safety, comfort,

morals or welfare of the inhabitants of the City of Columbus; and

WHEREAS, said ordinance requires separate submission for all applicable permits and Certificates of Occupancy for the proposed uses; and

BE IT ORDAINED BY THE COUNCIL OF THE CITY OF COLUMBUS:

Section 1. That a variance from the provisions of Section 3356.03, C-4 permitted uses; of the Columbus City Codes is hereby granted for the property located at **4037 LOCKBOURNE ROAD (43207)**, insofar as this section prohibits self-storage and fishing bait packaging operations; said property being more particularly described as follows:

Version: 1

Matter Type: Ordinance

BACKGROUND:

This legislation authorizes the Director of the Department of Technology and the Director of the Department of Public Utilities to renew an annual software maintenance and support contract with Hach Company for the Water Information Management System (WIMS). The original contract (EL011006) was authorized by ordinance 1318-2010, passed October 4, 2010, and provided maintenance and support for the period October 1, 2010 to September 30, 2011. This contract renewal will provide maintenance and support for a one (1) year term period of October 1, 2011 to September 30, 2012, at a cost of \$11,532.00.

WIMS enables the Division of Sewerage and Drainage (DOSD) and the Division of Power and Water (DOPW) to manage water quality sample information, incorporate input from plant operations data sources, track 79,000 tests on 16,000 different samples annually, and transfer approved results to end users automatically. The WIMS system has replaced out dated information systems, allowing DOSD and DOPW to satisfy their regulatory reporting requirements more efficiently.

This ordinance also requests approval to continue services provided by Hach Company in accordance with sole source provisions of Section 329 of the Columbus City Code; as it has been determined the Hach Company is the sole distributor of WIMS, and does not utilize distributors or re-sellers to provide support for its WIMS software product.

EMERGENCY: Emergency designation is requested to immediately facilitate prompt payment and to avoid interruption in the performance of services necessary in the usual daily operation of the Department of Public Utilities.

FISCAL IMPACT: In 2005 (\$40,926.75; SA001712) and 2006 (\$43,822.08; SA002174) the Department of Public Utilities purchased WIMS via a formal bid process. In 2010 the Department of Technology legislated \$13,621.00 with Hach Company for software maintenance and support services. This request for the same service in the amount \$11,532.00, has been budgeted and identified within the Department of Technology Internal Services Fund. The aggregate contract total including this request is \$25,153.00.

CONTRACT COMPLIANCE:

BACKGROUND:

This ordinance authorizes the Directors of the Department of Technology (DoT) and the Department of Public Utilities (DPU) to renew a contract with Ventyx, Inc., formerly known as Indus Utility Systems, Inc. for annual software maintenance and support services for the Columbus Utility Billing System (CUBS). The original contract (CT-15918) was established in 1994, and most recently renewed by authority of ordinance 1229-2010, passed October 18, 2010. The renewal was subsequently modified by authority of ordinance 1579-2010, passed December 6, 2010 to increase funding for professional services and enhanced maintenance to upgrade and customize the Columbus Utility Billing System. This contract renewal for software maintenance and support services will provide support for term period October 1, 2011 to September 30, 2012, at a cost of \$296,436.00.

Council Variance Application: CV11-016

APPLICANT: City of Columbus and Affordable Housing Trust for Columbus and Franklin County; c/o James V. Maniace, Atty.; 65 East State Street, Suite 100; Columbus, Ohio 43215.

PROPOSED USE: Mixed-use office/retail/apartment building.

NEAR EAST AREA COMMISSION RECOMMENDATION: ~~Pending September 8, 2011 meeting~~ **Approval.**

CITY DEPARTMENTS' RECOMMENDATION: Approval. The site had formerly been developed with a mixed-use apartment building, a small retail structure, and three dwellings zoned in the R-2F, Residential District prior to demolition. The requested Council variance will allow the construction of a three-story, 19,970 square foot office/retail/apartment building. 971 square feet of retail space and 2,696 square feet of office space are proposed on the first floor with ten apartments total on the second and third floors. The site is located within the planning area of the *Near East Area Plan* (2005), which recommends higher-density residential and mixed-use development for this location. The site also lies within the East Long Street Urban Commercial Overlay (UCO), and the planning area of the *King-Lincoln District Plan* (2002), which identifies the intersection of East Long Street and North Seventeenth Street as a "Key Commercial Revitalization Site". A variance is necessary because the R-2F District prohibits commercial uses, and allows only a maximum of two units within one dwelling. Variances for building height, setback, a reduction of two required parking spaces, parking lot screening, and UCO provisions as they apply to upper-story windows and landscaping and screening are included in the request. A hardship exists in that commercial uses had previously been established on this site, and various City plans and overlays recommend commercial use of the site, but the R-2F zoning designation prevents redevelopment with a mixed-use building without City Council action. The applicant has committed to a site plan, including elevation drawings, which ensure compatibility with the Plan recommendations and incorporation of architectural features found throughout the historic neighborhood and the previous building.

To grant a Variance from the provisions of Sections 3332.037, R-2F, Residential District; 3312.21(B), (C), and (D), Landscaping and screening; 3312.49, Minimum number of parking spaces required; 3321.05(B) (2), Vision clearance; 3332.29, Height district; 3372.605(E) (3), Building design standards; and 3372.607(A), (B), and (D), Landscaping and screening, of the Columbus City Codes; for the property located at **905 EAST LONG STREET (43205)**, to permit a mixed use office/retail/ten-unit apartment building with reduced development standards in the R-2F, Residential District (Council Variance # CV11-016).

WHEREAS, by application No. CV11-016, the owner of the property at **905 EAST LONG STREET (43205)**, is requesting a Council Variance to permit a mixed use office/retail/ten-unit apartment building, with reduced development standards in the R-2F, Residential District; and

WHEREAS, Section 3332.037, R-2F, Residential District Use, permits one single-family or one two-family dwelling on a lot, while the applicant proposes an office/retail/apartment building with 971 square feet of retail space and 2,696 square feet of office space on the first floor, and a maximum of ten (10) apartment units total on the second and third floors; and

WHEREAS, Section 3312.21(B), (C), and (D), Landscaping and screening, requires interior landscaping, perimeter landscaping, and screening for commercial parking lots, while the applicant proposes no interior parking lot landscaping, no parking lot landscaping, and no screening along the west side of the parking lot, but instead proposes landscaping and screening as shown on the Site Plan; and

WHEREAS, Section 3312.49, Minimum number of parking spaces required, requires 1.5 parking spaces per dwelling unit, 1 parking space per 450 square feet of general office space, and 1 parking space per 250 square feet of retail space, or a maximum total of twenty-two (22) spaces with UCO reductions per 3372.609, while the applicant proposes twenty (20) parking spaces; and

WHEREAS, Section 3321.05(B) (2), Vision clearance, requires that a clear vision triangle shall be maintained on each residential lot adjacent to a street intersection, while the applicant proposes to encroach into the clear vision triangle at the intersection of East Long Street and North Seventeenth Street as shown on the Site Plan; and

WHEREAS, Section 3332.29, Height district, requires that no building or structure shall exceed a height of thirty-five (35) feet, while the applicant proposes a maximum building height of thirty-eight (38) feet for the building's turret; and

WHEREAS, Section 3372.605(E) (3), Building design standards, requires that twenty-five (25) percent of the second and third floor building frontages must be window glass, while the applicant proposes 17½ percent window glass; and

WHEREAS, Section 3372.607(A), (B), and (D), Landscaping and screening, requires parking lot screening comprised of a solid masonry or stone fence that does not exceed a height of four (4) feet, or a mixture of a four (4) foot high metal fence and a three (3) foot wide landscaped area; and ground-mounted mechanical equipment located behind the principal building screened to the height of the equipment, while the applicant proposes no perimeter parking lot landscaping, no screening along the west side of the parking lot, a wood privacy fence that is six (6) feet in height, and partially screened ground-mounted mechanical equipment located to the side of the building as shown on the Site Plan; and

WHEREAS, the Near East Area Commission recommends **approval**; and

WHEREAS, City Departments recommend approval because the requested Council variance will allow the new construction of a mixed use office/retail/ten-unit apartment building on a site that had been previously developed with mixed-use development. The site is located within the planning area of the *Near East Area Plan* (2005), which recommends higher-density residential and mixed-use development for this location. The site also lies within the East Long Street Urban Commercial Overlay (UCO), and the planning area of the *King-Lincoln District Plan* (2002), which identifies the intersection of East Long Street and North Seventeenth Street as a "Key Commercial Revitalization Site". A hardship exists in that commercial uses had previously been established on this site, and various City plans and overlays recommend commercial use of the site, but the R-2F zoning designation prevents redevelopment with a mixed-use building without City Council action. The applicant has committed to a site plan, including elevation drawings, which ensure compatibility with the Plan recommendations and incorporation of architectural features found throughout the historic neighborhood and the previous building; and

Council Variance Application: CV11-019

APPLICANT: Michael W. Sanders; 5462 Blue Ash Road; Columbus, OH 43229.

PROPOSED USE: Four-unit dwelling.

NORTH LINDEN AREA COMMISSION RECOMMENDATION: Approval.

CITY DEPARTMENTS' RECOMMENDATION: Approval. The requested Council Variance will allow a four-unit dwelling in the C-4, Commercial District. The building was originally constructed as office with two

dwellings on the second floor. When the current owner purchased the building 10 years ago, the offices on the first floor had been illegally converted into dwellings. The owner was recently cited and needs the requested variance in order to comply with building orders and a zoning violation. The request also includes variances for existing conditions for lack of parking lot screening and vision clearance, building and parking setbacks along Melrose Avenue, and a reduction of one required parking space. This block of Cleveland Avenue is mixed-use with residential uses located along the east side of Cleveland Avenue. Staff does not oppose the variance for residential use because the C-4, Commercial District will remain intact and future commercial development of the site will not be prohibited.

To grant a Variance from the provisions of Sections 3356.03, C-4, permitted uses; 3312.21, Landscaping and screening; 3312.27(3), Parking setback line; 3312.49, Minimum number of parking spaces required; 3321.05(B) (2), Vision clearance; and 3356.11, C-4 district setback lines, of the Columbus City Codes; for the property located at **2765 CLEVELAND AVENUE (43211)**, to permit a four-unit dwelling in the C-4, Commercial District with reduced development standards (Council Variance # CV11-019).

WHEREAS, by application No. CV11-019, the owner of property at **2765 CLEVELAND AVENUE (43211)** is requesting a Council variance to allow a four-unit dwelling in the C-4, Commercial District with reduced development standards; and

WHEREAS, Section 3356.03, C-4 Permitted Uses, permits dwelling units only above certain commercial uses, while the applicant proposes to convert first-floor office units into two dwelling units; and

WHEREAS, Section 3312.21, Landscaping and screening, requires perimeter landscaping and screening in commercial parking lots, while the applicant proposes to maintain no landscaping and screening for the existing parking lot; and

WHEREAS, Section 3312.27(3), Parking setback line, requires a ten-foot setback for parking along Melrose Avenue, while the applicant proposes to maintain a zero-foot parking setback line along Melrose Avenue; and

WHEREAS, Section 3312.49, Minimum number of parking spaces required, requires 1.5 parking spaces per dwelling unit, or six (6) spaces, while the applicant proposes five (5) parking spaces; and

WHEREAS, Section 3321.05(B) (2), Vision clearance, requires that a clear vision triangle shall be maintained on each residential lot adjacent to a street intersection, while the applicant proposes to maintain the encroachment into the clear vision triangle at the intersection of Cleveland Avenue and Melrose Avenue; and

WHEREAS, Section 3356.11, C-4 district setback lines, requires a 10-foot building setback line along Melrose Avenue, while applicant proposes to maintain a building setback line of zero feet along Melrose Avenue; and

WHEREAS, The North Linden Area Commission recommends approval; and

WHEREAS, City Departments recommend approval because this block of Cleveland Avenue is mixed-use with residential uses located along the east side of Cleveland Avenue. Staff does not oppose the variance for residential use because the C-4, Commercial District will remain intact and future commercial development of the site will not be prohibited; and

WHEREAS, said ordinance requires separate submission for all applicable permits and Certificate of Occupancy for the proposed use; and

WHEREAS, said variance will not adversely affect the surrounding property or surrounding neighborhood; and

WHEREAS, the granting of said variance will not impair an adequate supply of light and air to the adjacent property, unreasonably increase the congestion of public streets, increase the danger of fires, endanger the public safety, unreasonably diminish or impair established property values within the surrounding area, or in any other respect impair the public health, safety, comfort, morals or welfare of the inhabitants of the City of Columbus; and

WHEREAS, the granting of said variance will alleviate the difficulties encountered by the owner of the property located at **2765 CLEVELAND AVENUE (43211)**, in using said property as desired; now, therefore:

BE IT ORDAINED BY THE COUNCIL OF THE CITY OF COLUMBUS:

SECTION 1. Emergency action is requested in order to reimburse the Department of Public Service for work that has been completed.

3. FISCAL IMPACT: A transfer of funds within the Water Super Build America Bonds Fund will be necessary, as well as an amendment to the 2011 Capital Improvements Budget.

Matter Type: Ordinance

BACKGROUND: This legislation is to authorize the assignment of all past, present, and future business done by the City of Columbus with CH2M Hill, Inc. to CH2M Hill Engineers, Inc. This change will reflect a company name change and federal identification number change for all contracts and purchase orders established with CH2M Hill, Inc.

CH2M Hill, Inc. will now become CH2M Hill Engineers, Inc. and the previous vendor number / federal identification number 59-0918189 will change to 32-0100027. CH2M Hill, Inc. submitted the following statements in regards to the change:

CH2M HILL has decided to restructure our approach to delivering U.S. Federal and Non-Federal work. Today, the firm conducts business in both U.S. Federal and Non-Federal (commercial) markets, and until now, a significant portion of our Non-Federal business has been housed in the same entities that were set up to satisfy the heavily regulated U.S. Federal market. This change is intended to create a stronger client focus and more efficient delivery approach in both Federal and Non-Federal markets.

CH2M HILL's leadership has decided to move our commercial work out of U.S. Federal entities and into Non-Federal (commercial) entities. This will help us release our Non-Federal business from regulatory requirements that apply to our Federal business only and enhance our compliance position with the U.S. Federal Government.

CH2M HILL wants to assign Contracts from CH2M HILL, Inc. (INC) to CH2M HILL Engineers, Inc. (CHE). CHE will assume all of the rights and benefits under the Contract, but the liabilities and obligations under the Contract will still remain with INC, thereby resulting in no change to the City's degree of protection in accordance with the terms of Agreements and subsequent task orders/amendments.

CONTRACT COMPLIANCE INFO:

Former Company Name: CH2M Hill, Inc. | 59-0918189 | 2/22/13 | MAJ

The company is not debarred according to the Excluded Party Listing System of the Federal Government or prohibited from being awarded a contract according to the Auditor of State Unresolved Findings for Recovery Certified Search.

EMERGENCY DESIGNATION: Emergency designation is requested in order to cancel and re-establish current contracts to continue making payments without any delays.

FISCAL IMPACT: No financial impact is anticipated. Current contracts will be cancelled and re-established with identical funding.

To request Columbus City Council to authorize and direct the Director of Public Utilities to modify all contracts and agreements by assigning all past, present, and future contracts and purchase orders with CH2M Hill, Inc. to CH2M Hill Engineers, Inc., and to declare an emergency.

WHEREAS, the City of Columbus through the Department of Public Utilities has established various contracts and agreements with CH2M Hill, Inc.; and

BE IT ORDAINED BY THE COUNCIL OF THE CITY OF COLUMBUS:

SECTION 1. Matter Type: Ordinance

1. BACKGROUND:

This legislation authorizes the Director of Public Service to enter into a professional engineering services contract with Michael Baker, Jr, Inc.

The City of Columbus has developed a Bicentennial Bikeways Plan (BBP) which was adopted by City Council on June 2, 2008. The Plan identifies specific bikeways improvement projects located throughout the City. The Division of Mobility Options is responsible for the management of these improvement projects.

There are a variety of individual projects to be analyzed and designed as part of this contract. These improvements consist of projects identified in the Columbus Bicentennial Bikeways Plan such as shared use paths, bike lanes, and shared routes as well as communications and public involvement related to project development. Potential projects (tasks) include, but are not limited to, the following:

Bikeways:

Sullivant Avenue Corridor - (Georgesville Road to Scioto River)

North Hague Avenue Shared Route - (W. Broad Street to Camp Chase RR)

Whitethorne Avenue Bike Boulevard - (W. Broad Street to Eakin Road)

Trabue Road-Renner Road Corridor - (Riverside Drive to Alton Darby Creek Road)

Spot Improvements:

- Olentangy River Road and 5th Avenue
- Morse Road and Indianola Avenue
- E. North Broadway and I-71
- Ackerman Road and Kenny Road
- South High Street and Whittier Street
- Neil Avenue and West Lane Avenue
- Morse Road and North High Street
- Morse Road and Sharon Avenue

Railroad Crossing Improvements:

- McKinley Avenue and Harrison Road
- Mound Street West, west of Central Avenue
- Edgehill Road South, south of Fifth Avenue
- Hall Road, east of Norton Road

The completion of engineering design will result in improved bicycle travel at 14 spot and railroad crossing locations and 12.5 miles of roadways. Work also includes conducting the necessary traffic engineering analysis to refine BBP recommendations into practical “complete street” solutions. For example, road diets that require the removal of travel lanes must be analyzed for safety and capacity impacts.

The Department of Public Service, Office of Support Services solicited a Request for Proposals for the Bikeway Development - General Engineering Design contract. The project was advertised through the City's Vendor Services web site from May 24, 2011, to June 23, 2011. The city received 8 responses. 7 responses were deemed minimally compliant and were fully evaluated when the Evaluation Committee met on July 14, 2011.

1. BACKGROUND:

This legislation authorizes the Director of Public Service to enter into a professional engineering services contract with Bird & Houk Associates Inc./OHM.

The City of Columbus has developed a Bicentennial Bikeways Plan (BBP) which was adopted by City Council on June 2, 2008. The Plan identifies specific bikeways improvement projects located throughout the City. The Division of Mobility Options is responsible for the management and implementation of these improvement projects.

The consultant will deliver work products including such items as conceptual designs, preliminary alignments, traffic analyses, preliminary cost estimates, preliminary environmental analyses, as well as determinations of feasibility and constructability. Preliminary engineering reports shall serve as the source document for future detailed design efforts. There are a variety of individual projects to be analyzed as part of this contract. These improvements are mostly within the right-of-way, and will consist mainly of projects identified in the Bicentennial Bikeways Plan such as shared use paths, bike lanes, and shared routes and spot improvements. Potential projects to be analyzed include, but are not limited to, the following:

Bikeways:

Citywide Lane Striping and Road Diet Analysis

West Broad Street Bike Lanes (Central Avenue to COSI)
Livingston Avenue Bike Lanes (High Street to Brice Road)
Intersection Improvements
Railroad Crossing Improvements
Town Street and Rich Street Two-Way Conversion (SR315 to Scioto River)

Work also includes conducting the necessary traffic engineering and parking analysis to refine BBP recommendations in to practical "complete street" solutions. For example, road diets that require the removal of travel lanes and/or parking lanes must be analyzed for safety and capacity impacts as well as impacts to adjacent residents or businesses. Recommendations from the traffic engineering and parking analysis will be illustrated in a conceptual design with cost estimates.

The Department of Public Service, Office of Support Services solicited a Request for Proposals for the Bikeway Development - Bicentennial Bikeways Plan contract. The project was advertised through the City's Vendor Services web site from June 10, 2011, to July 7, 2011. The city received 7 responses. 6 proposals were deemed minimally compliant and were fully evaluated when the Evaluation Committee met on July 25, 2011.

Legislation Number: 1349-2011

Drafting Date: 8/29/2011

Current Status: Passed

Version: 1

Matter Type: Ordinance

BACKGROUND:

This legislation authorizes the Director of the Department of Technology to enter into a contract with the Xerox Corporation, for annual printer maintenance support services, effective October 1, 2011 through September 31, 2012, in the amount of \$90,336.00. These printer systems provide high volume printing support services critical to many city applications such as payroll, wage and tax statements, Auditor's warrants, jury summons, income tax forms and water bills.

An Invitation to Bid (SA004006) was published in June 2011. The solicitation received only (1) one offer to provide printer maintenance support services for the term period from October 1, 2011 through September 31, 2012. After reviewing the only bid that was submitted, it was recommended that the award be made to Xerox Corporation in the amount of \$90,336.00, as they were deemed to be the overall lowest, responsive, responsible and best bidder per specification.

The cost for the 2011 annual maintenance support services for the period of October 1, 2011 through September 31, 2012 is \$90,336.00, with \$894.00 contingency funds included to be utilized in the event of excess prints, overruns and/or any unforeseen circumstances. Earlier this year, the Department of Technology legislated \$44,854.64 (Ord. # 0404-2011, EL011569), with Xerox Corporation for annual maintenance and support services for the period April 1, 2011 through

September 30, 2011, with \$5,000.00 contingency funds included to be utilized in the event of excess prints, overruns and/or any unforeseen circumstances. The Department of Technology requests that the passage of this ordinance will also provide for the extension of existing purchase order (EL011569) and funds through December 31, 2011.

EMERGENCY DESIGNATION:

Emergency designation is being requested to immediately facilitate prompt payment; to continue with services that are necessary to support daily operations; to ensure no service interruptions.

FISCAL IMPACT:

During fiscal years 2009 and 2010, \$77,966.88 and \$88,000.00 were legislated respectively with the Xerox Corporation for annual printer maintenance support services. As a result of earlier legislation (Ord. # 0404-2011, EL011569), additional funding for annual printer maintenance support services is needed for the term period October 1, 2011 through September 31, 2012. Funds to cover the cost are available within the Department of Technology, Information Services Fund 2011 Budget as a result of cost savings from other contract expenditures being lower than budgeted; The total contract amount is \$90,336.00, as this annual printer maintenance support services contract with the Xerox Corporation was bid through the Department of Technology and is therefore considered a new contract.

1. Background:

The City of Columbus, Department of Public Service, received a request from The Affordable Housing Trust for Columbus and Franklin County asking that the City sell the unimproved east/west alley east of North 17th Street between East Long Street and Almond Alley, and the unimproved north/south alley north of Almond Alley and east of North 17th Street. Transfer of these rights-of-way will allow for the development and rehabilitation of property currently owned by The Affordable Housing Trust for Columbus and Franklin County. Per current practice, comments were solicited from

interested parties, including City agencies, private utilities and the applicable area commission, before it was determined that, subject to the retention of a general utility easement for those utilities currently located within these rights-of-way the City will not be adversely affected by the transfer of these rights-of-way. Then Department of Public Service submitted a request to the Department of Law, Real Estate Division, asking that they establish a value for these rights-of-way. A value of \$5,564.00 was established for these rights-of-way. After review of the request, the Land Review Commission voted to recommend the above referenced rights-of-way be transferred to The Affordable Housing Trust for Columbus and Franklin County for \$5,564.00.

2. FISCAL IMPACT:

The City will receive a total of \$5,564.00 that will be deposited in Fund 748, Project 537650, as consideration for the transfer of the requested rights-of-way.

3. EMERGENCY JUSTIFICATION:

Emergency action is requested to allow this transfer to occur as soon as possible, thereby allowing The Affordable Housing Trust for Columbus and Franklin County to complete their transfer and allow The Affordable Housing Trust for Columbus and Franklin County to proceed with construction plans without further delay in order to avoid incurring additional costs that would place a strain on the project budget.

To authorize the Director of the Department of Public Service to execute those documents required to transfer the unimproved east/west alley east of North 17th Street between East Long Street and Almond Alley and the unimproved north/south alley north of Almond Alley and east of North 17th Street to The Affordable Housing Trust for Columbus and Franklin County; and to declare an emergency.

WHEREAS, the City of Columbus, Department of Public Service, received a request from The Affordable Housing Trust for Columbus and Franklin County, asking that the City transfer the unimproved east/west alley east of North 17th Street between East Long Street and Almond Alley (.031 acre parcel), and the unimproved north/south alley north of Almond Alley and east of North 17th Street (.024 acre parcel), to them; and

WHEREAS, acquisition of these rights-of-way will allow The Affordable Housing Trust for Columbus and Franklin County to redevelop property that is currently owned by The Affordable Housing Trust for Columbus and Franklin County; and

WHEREAS, per current practice, comments were solicited from interested parties, including City agencies, private utilities and applicable area commissions, before it was determined that, subject to the retention of a general utility easement for those utilities currently located within these rights-of-way, the City will not be adversely affected by the transfer of this right-of-way to The Affordable Housing Trust for Columbus and Franklin County; and

WHEREAS, the Department of Public Service submitted a request to the Department of Law, Real Estate Division, asking that they establish a value for these rights-of-way; and

WHEREAS, a value of \$5,564.00 was established for these rights-of-way; and

WHEREAS, the Land Review Commission voted to recommend that the above referenced rights-of-way be transferred to The Affordable Housing Trust for Columbus and Franklin County for the amount of \$5,564.00; and now therefore

WHEREAS, an emergency exists in the usual daily operation of the Department of Public Service in that it is immediately necessary to authorize the Director to execute those documents which will provide for the immediate transfer of the unimproved east/west alley east of North 17th Street between East Long Street and Almond Alley, and the unimproved north/south alley north of Almond Alley and east of North 17th Street to The Affordable Housing Trust for Columbus and Franklin County, thereby allowing proposed construction to proceed without delay and preserving the public health, peace, property, safety and welfare now, therefore

BE IT ORDAINED BY THE COUNCIL OF THE CITY OF COLUMBUS:

BACKGROUND: The Division of Police was awarded funding through the FY2011 Forensic DNA Backlog Reduction Program from the National Institute of Justice. This federally supported program seeks to improve the infrastructure and analysis capacity of existing state and local crime laboratories that conduct DNA analysis so they can process DNA samples efficiently and cost effectively. Funds have been awarded for DNA analysis supplies, overtime for current analysts to work on casework, equipment and funds for training current and new DNA analysts in the latest technologies in this ever-evolving field. The cost breakdown for this grant award is: personnel overtime and fringe benefits = \$48,190.37, DNA testing supplies = \$69,294.63, other equipment and supplies = \$141,400.00 and training = \$13,430.00.

These grant funds will help the Division of Police Crime Lab to process DNA samples efficiently and reduce the wait time for DNA case analysis. The official city program contact authorized to act in connection with this \$272,315.00 grant is Crime Lab Manager, Jami St. Clair.

Emergency Designation: Emergency legislation is needed to complete the grant acceptance and make the awarded funds available as soon as possible to begin the grant funded activities. The grant award period start date is October 1, 2011.

FISCAL IMPACT: This ordinance authorizes an acceptance of the \$272,315.00 grant award and the appropriation of

those funds from the National Institute of Justice to improve DNA analysis. There is no fiscal impact on the General Fund budget. No matching funds are required and all grant expenditures will be reimbursed by the grant awarded funding.

To this point, The Harmony Project has been funded through the financial support of generous corporate sponsors, including Limited Brands, Wal-Mart, and The Dispatch Printing Company.
