Council Variance Application: CV11-009

APPLICANT: Azeb Hussein; 1071 Ross Road; Columbus, Ohio 43227.

PROPOSED USE: Drive-thru and carry-out.

CITY DEPARTMENTS’ RECOMMENDATION: Approval. The site is comprised of two separate parcels zoned in the C-4, Commercial District, one of which is developed with a former transmission shop now being used as a carry-out, and the other used as a parking lot. The applicant requests a Council variance to allow a drive-thru business. The C-4, Commercial District allows accessory pick-up units, but does not permit a stand-alone drive-thru business which is a C-5, Commercial District use. Automotive uses are prevalent along this portion of East Main Street, but rezoning to the C-5 District would not alleviate the need for other variances because of the site's existing conditions. The site is also located within the Community Commercial Overlay (CCO). Variances for drive-in stacking, minimum number of parking spaces and CCO design standards are included in the request. The site is located within the planning area of the Eastmoor: Main and Broad Corridor Revitalization Plan (2007), which recommends development in accordance with the Community Commercial Overlay. The Planning Division does not support the variances to the CCO that are required for the building alterations. However, since the building had previously been used for automotive uses and already has a rear bay door, Zoning Staff is supportive of the requested variances to permit adaptive reuse of the building as a drive-thru. Approval of this request will not add a new or incompatible use to the neighborhood.

To grant a variance from the provisions of Sections 3356.03, C-4 Permitted uses; 3312.11, Drive-in stacking area; 3312.49, Minimum numbers of parking spaces required; and 3372.705(F) and (G) Building design standards, of the Columbus City codes, for the property located at 3163 EAST MAIN STREET (43213), to permit a drive-thru/carry-out business with reduced development standards in the C-4, Commercial District (CV11-009).

WHEREAS, by application No. CV11-009, the owner of property at 3163 EAST MAIN STREET (43213), is requesting a Council Variance to permit a drive-thru/carry-out business with reduced development standards in the C-4, Commercial District; and

WHEREAS, Section 3356.03, C-4, Permitted uses, allows accessory pick-up units, but does not permit stand-alone drive-thru/carry-outs, while the applicant proposes to convert a former automotive repair facility into a drive-in/carry-out; and
WHEREAS, Section 3312.11, Drive-in stacking area, requires eight (8) stacking spaces for the drive-in/carry-out with a minimum ten (10) foot wide by-pass lane, while the applicant proposes zero (0) stacking spaces and no by-pass lane while using the adjacent parking lot for circulation for the drive-thru instead; and

WHEREAS, Section 3312.49 Minimum numbers of parking spaces required, requires one (1) parking space per 250 square feet of retail space, a total of thirteen (13) spaces, while the applicant proposes zero (0) on-site parking spaces on the same parcel as the drive-in business, but has a minimum of four parking spaces available on the parcel immediately to the west (010-088752) which is part of the subject site; and

WHEREAS, Section 3372.705(F) (G) Building design standards, requires that for each primary building frontage, at least forty (40) percent of the area between the height of two (2) feet and ten (10) feet above grade shall be clear window glass that permits a full unobstructed view of the interior to a minimum depth of four (4) feet, and that pick-up units be located at the side or behind the primary building, while the applicant proposes a bay door that is not comprised of window glass along approximately half of the primary frontage, with vehicles exiting the front of the building for the drive-thru business; and

WHEREAS, City Departments recommend approval for the requested drive-thru business because the building had previously been used for automotive uses and already has a rear bay door. The C-4, Commercial District allows accessory pick-up units, but does not permit a stand-alone drive-thru business which is a C-5, Commercial District use. Automotive uses are prevalent along this portion of East Main Street, but rezoning to the C-5 District would not alleviate the need for other variances because of the site's existing conditions. Approval of this request will not add a new or incompatible use to the neighborhood; and

WHEREAS, said ordinance requires separate submission for all applicable permits and Certificate of Occupancy for the proposed use; and

WHEREAS, said variance will not adversely affect the surrounding property or surrounding neighborhood; and

WHEREAS, the granting of said variance will not impair an adequate supply of light and air to adjacent properties or unreasonably increase the congestion of public streets, or unreasonably diminish or impair established property values within the surrounding area, or otherwise impair the public health, safety, comfort, morals, or welfare of the inhabitants of the City of Columbus; and

WHEREAS, the granting of said variance will alleviate the difficulties encountered by the owner of the property located at 3163 EAST MAIN STREET (43213), in using said property as desired; now, therefore:

BE IT ORDAINED BY THE COUNCIL OF THE CITY OF COLUMBUS:

SECTION 1. That a variance from the provisions of Sections 3356.03, C-4 Permitted uses, 3312.11, Drive-in stacking area; 3312.49, Minimum numbers of parking spaces required; and 3372.705(F) and (G) Building design standards, of the Columbus City Codes, for the property located at 3163 EAST MAIN STREET (43213), insofar as said sections prohibit a drive-thru/carry-out business in the C-4, Commercial District, with no stacking spaces where eight (8) are required, no by-pass lane, no on-site parking spaces where thirteen (13) spaces are required, but with a minimum of four (4) spaces provided on the adjacent in the parking lot to the west, a solid bay door where window glass is required, and a pick-up unit that traverses through the front of the primary building, said property being more particularly described as follows;

BACKGROUND: For the option to establish a UTC contract for Byron Jackson Pump Parts and Services for the Division of Water and Power, the sole user. This contract will provide for purchase of parts and repair services to repair and/or rebuild existing Byron Jackson vertical turbine pumps. The term of the proposed option contract would be approximately two years, expiring August 31, 2013, with the option to renew for one (1) additional year. The Purchasing Office opened formal bids on July 28, 2011.

The Purchasing Office advertised and solicited competitive bids in accordance with Section 329.06 (Solicitation No. SA004029). Thirty-five (35) bids were solicited: (M1A-0, F1-0, MBR-0). One (1) bid was received, for all but Item 56. This item is for removal or installation of a specific pump unit for repair and, if needed, can be accomplished by Division maintenance personnel or contracted for on an informal basis if necessary.

The Purchasing Office is recommending award to the lowest, responsive, responsible and best bidder as follows:

APO Pumps & Compressors, Inc., MAJ, CC# 34-1760124 expires 05/04/2012, Items 1-55 and 57, 58 only, $1.00
Total Estimated Annual Expenditure: $45,000.00, Division of Water and Power, the sole user

The company is not debarred according to the Excluded Party Listing System of the Federal Government or prohibited from being awarded a contract according to the Auditor of State Unresolved Findings for Recovery Certified Search. SECTION 4. That for the reasons stated in the preamble hereto, which is hereby made a part hereof, this ordinance is hereby declared to be an emergency measure and shall take effect and be in force from and after its passage and approval by the Mayor, or ten days after passage if the Mayor neither approves nor vetoes the same.

1. BACKGROUND:
A. Need. This legislation authorizes the Director of Public Utilities (DPU) to modify (Mod #5) contracts with three plumbing contractors: The Waterworks ($124,000.00), Holdridge Mechanical ($63,000.00), and Fox Mechanical ($63,000.00) for the Project Dry Basement (PDB) program and authorize the expenditure of up to $250,000. The purpose of this program is to reduce water-in-basement occurrences in residential homes in the City of Columbus. Project Dry Basement Program was implemented in 2004 and authorized the Director of Public Utilities to enter into necessary agreements with homeowners, and contracts with licensed plumbers to perform work related to the installation of devices that are appropriate for the elimination of water in basement (WIBs) in residences within the City of Columbus. These devices will typically include an approved backwater prevention valve, but in some instances may include a sump pump. Sump pumps will be installed only where necessary. Other devices may be considered if deemed necessary to protect a residence from future WIBs incidents.

Eligible residences are single family or duplex structures in Columbus that have suffered a WIB after January 1, 2004 caused by a mainline sewer blockage or a mainline sewer surcharge. Backups caused by blockages or other conditions in residential service lateral sewers on the homeowner's property are not eligible for remediation under this program. WIBs must be reported to the Division and documented by the Sewer Maintenance Operations Center.

Eligible property owners are contacted by the Division and invited to take part in the Project Dry Basement Program. Responding eligible owners are contacted by division staff to assess the situation and estimate the extent of work necessary to correct the WIB problem. A contracted plumber is assigned by the division to complete the necessary installations. Contracting procedures comply with the provisions of Section 329.09 of Columbus City Codes. The contracted plumbers are required to secure any necessary permits and all work must be inspected and approved by appropriate City inspection personnel. Division personnel secure a release of future liability from the homeowner and pay the contracted licensed plumber directly.
The Department of Public Utilities is in the midst of developing an RFP for contracting with licensed plumbers to continue this program. This process is expected to take up to six (6) months to complete and will allow the City to award contracts on the basis of lowest and best price, as well as a demonstration by the bidders that they have the experience and capacity to fulfill the City's requirements to work closely with homeowners to install these backwater valves in people's basements. This ordinance, a modification to the existing plumbing contracts, is intended to allow for the continued installation of backwater valves while the RFP process is proceeding. With this legislation, the homes that are eligible as a result of the heavy rain experienced in the city in late July will be able to have backwater valves installed without delay. This modification will bridge current eligibility while the RFP process is completed.

Statistics To Date:
- 1763 application packets have been sent to homeowners
- 684 applications have been returned to the division by homeowners (39% response)
- 657 backwater valve installations have been completed
- The average cost for current valve installations is $3500.

Amount of additional funds to be expended: $250,000.00

Project Cost Breakdown:
- The Waterworks: $124,000.00
- Fox Mechanical: $  63,000.00
- Holdridge Mechanical:  $ 63,000.00
- Total Cost: $250,000.00

Reasons additional goods/services could not be foreseen:
Due to the unusually high amount of rainfall this summer more homeowners were eligible for the water in basement program / Program Dry Basement. This situation created a backlog and this ordinance will help reduce that backlog and allow for enough time for re-bid this several months from now.

Reason other procurement processes are not used:
This is a multi-year project that anticipated additional funding request through contract modifications. It would not be cost effect or beneficial to homeowners to delay this process at this time. The Department of Public Utilities is developing an RFP however the process could take up to six (6) months and this modification will allow the department to continue the program until a new RFP is bid and awarded.

How cost of modification was determined:
The amount of this modification is enough to continue the program and allow for processing of the backlog while allowing enough time to establish and complete a new RFP process without disruption to the homeowners.

B. Economic Impact: This project reduces the occurrences of water in basement for homeowners caused by a mainline sewer blockage or a mainline sewer surcharge.

1. BACKGROUND

This legislation authorizes the Director of Public Service to modify and increase the professional engineering services contract with Barr and Prevost for the Arterial Street Rehabilitation - North High Street Flint Road to County Line project in an amount up to $70,000.00.

This contract has been utilized for the design of this project which consists of the widening North High Street from Flint Road to the County Line by one lane each direction to match Ohio Department Of Transportation's(ODOT) interchange reconstruction project at SR23 and I-270. Project improvements include sidewalk, multi-use path, construction and replacement of traffic signals, and utility relocations.

During the coordination of the design of this project with ODOT's North Central Outerbelt project, a 1,700 foot long overlap between the two projects was identified. The City and ODOT requested that the Transportation Review Advisory Council(TRAC) committee allow the two projects be constructed as one (both projects are TRAC funded) which reduces the waste caused by the overlapping sections and the inconvenience to the public by decreasing the time of construction as the corridor will now experience one project instead of two. The TRAC committee approved this change which requires the City's project to be designed as a project to be bid by ODOT with the North Central Outerbelt project. This modification is required to modify the plans to ODOT requirements and specifications to allow it to be bid by ODOT as an
ODOT project.
The original contract amount was $209,840.00. Contract number CT-17926 was authorized by ordinance 3088-1996.
Modification Number 1 for $50,000.00 was authorized by ordinance 1141-2004 to update the plans to the current specifications and revise for topography changes.
Modification Number 2 for $44,817.00 was authorized by ordinance 1689-2005 to design a right turn lane from southbound High Street to westbound Lazelle Road and to add sidewalk and curb ramps along the west side of High Street.
Modification Number 3 for $23,084.00 was authorized by ordinance 1846-2007 to revise the plans to meet new EPA regulations and to change the sidewalk on the east side of High Street to a multi-use trail.
Modification Number 4 for $132,319.23 was authorized by ordinance 0186-2010 to modify the design to meet federal requirements as required by Transportation Review Advisory Council (TRAC) grant. This grant funds $6 million of the $6.7 million estimated construction cost.
The amount of this modification, Number 5, is $70,000.00.
The total contract amount including this modification is $530,060.23.

Searches in the Excluded Party List System (Federal) and the Findings for Recovery list (State) produced no findings against Barr and Prevost.

2. CONTRACT COMPLIANCE
Barr and Prevost's contract compliance number is 311347309.

3. EMERGENCY DESIGNATION
Emergency action is requested to upgrade the plans to ODOT specifications and requirements at the earliest time in order to meet the ODOT schedule for the project.

4. FISCAL IMPACT
The amount of this modification is $70,000.00. Funding for this modification is budgeted and available within the Streets and Highways G.O. Bonds fund.

BACKGROUND: This legislation authorizes the Finance and Management Director to modify a contract on behalf of the Office of Construction Management with Thomas & Marker Construction Company for pavement repairs at the Impound Lot, 2700 Impound Lot Road. Ordinance No. 1187-2009, passed September 22, 2009, authorized the original contract for construction of the new Impound Lot for the Division of Police and the Parking Violations Bureau. This contract modification is necessary because the previous surface utilized cannot withstand the heavy traffic along the traffic lane. The project shall include the removal of the existing recycled asphalt to installation of compacted concrete, fine grading, roller compacted concrete survey, and testing.

Due to the fact, that Thomas & Marker Construction Company was awarded the original contract; a modification with Thomas & Marker Construction Company is the logical and most expeditious option for addressing the pavement failure. Therefore, it would not be in the best interest of the City to bid for said services. Prices already established in the contract were used to determine the cost of this modification. Emergency action is requested to enable the contractor to complete this project during good weather.

Thomas & Marker Construction Company Contract Compliance No. 34-4476858, expiration date March 5, 2012.

Fiscal Impact: Funding is available in the Safety Voted Bond Fund, Police Facility Renovation Project. The cost of this contract is $170,000.00.

To authorize the Finance and Management Director to modify a contract on behalf of the Office of Construction Management with Thomas & Marker Construction Company for pavement repairs at the Impound Lot, 2700 Impound Lot; to authorize the expenditure of $170,000.00 from the Safety Voted Bond Fund; and to declare an emergency. BACKGROUND: This ordinance authorizes the option to purchase winter asphalt materials for the Department of Public Service, Transportation Division, the largest user, and other city agencies. The term of the proposed option contract will be through April 30, 2012. The Purchasing Office opened formal bids on September 1, 2011. These materials are to be used to pave City streets in the cold weather months.
The Purchasing Office advertised and solicited competitive bids in accordance with Section 329.06 (Solicitation No. SA004063). Seventeen bids were solicited (MAJ: 13, M1A:4); Three (MAJ: 3) bids were received.

The company is not debarred according to the Excluded Parties listing of the Federal Government and is not listed in the Auditor of State database for Findings for Recovery.

Information became available through this bid process that the #405 material was available year-round on the existing contract. Therefore, it is recommended that the #405 material not be awarded through this bid process as it is in the best interest of the city to use the existing universal term contract to purchase the material.

The Purchasing Office is recommending award of one contract to the lowest, responsive, responsible and best bidder for both items 1 and 2:

BACKGROUND: This legislation is needed to enter into a Memorandum of Understanding (MOU) with the Franklin County Sheriff's Office to participate in a FY-10 Justice Assistance Grant (JAG) awarded to the Franklin County Sheriff's Office. The JAG grant provides funding for the continued activities of the Franklin County Internet Crimes Against Children Task Force to locate, arrest and prosecute child sexual predators.

The Columbus Police Department will be one of six local collaborating agencies to share the funding for sworn overtime (base pay costs only) and specialized training. Columbus Police Detectives in the Exploited Children's Unit have actively worked as part of this task force since June 2009 via a different funding source and MOU.

The task force has been very successful and participating officers have benefitted from the training and experiences from their task force activities. It would be beneficial for the citizens of Columbus, the Columbus Division of Police and the Exploited Children's Unit detectives to be able to continue to be an active participant of this collaborative task force.

The MOU allocates $44,000.00 for sworn overtime and $4,166.00 for training to be shared by the six collaborating agencies. The MOU period is January 1, 2011 through December 31, 2011 with funded activities to begin October 1, 2011; therefore, there is a need to enter into the MOU and appropriate the available grant funds at the earliest possible time.

EMERGENCY DESIGNATION: Emergency legislation is necessary to enter into the Memorandum of Understanding and appropriate the funding authorized in it for grant activities which are scheduled to begin October 1, 2011.

FISCAL IMPACT: This ordinance authorizes the appropriation of $48,166.00 in the General Government Grant Fund for a Memorandum of Understanding to participate in a collaborative Internet Crimes Against Children Task Force to reduce and prevent child endangerment and protect the community from sexual predators. All funds appropriated are reimbursable through the FY-10 JAG grant via the Franklin County Sheriff's Office. However, the funds will be allocated by the Sheriff's Office to the collaborating agencies in an ongoing process based on grant activities. The General Fund will be required to pay an estimated maximum of $14,278.00 for non-reimbursed fringe benefits on the grant overtime amount of $44,000.00. Funds are available in the Division of Police 2011 General Fund budget to pay the fringe benefits for the share of the grant funded overtime that is allocated to Columbus Police Department.

WHEREAS, The Franklin County Sheriff's Office has been awarded an FY-10 Justice Assistance Grant (JAG) that will fund sworn overtime and training costs to locate, arrest and prosecute child sexual predators; and

WHEREAS, the City of Columbus Division of Police will collaborate with the Franklin County Sheriff's
Office on the Franklin County Internet Crimes Against Children Task Force activities; and

WHEREAS, the Franklin County Sheriff's Office will provide grant funded reimbursement to the Columbus Police Department for partial overtime costs and specialized grant training expenditures; and

WHEREAS, a Memorandum of Understanding between the Franklin County Sheriff's Office and the City of Columbus Police Division is needed to establish the terms and conditions for the FY-10 Justice Assistance Grant (JAG) collaboration; and

WHEREAS, an appropriation is needed to cover the costs associated with the FY-10 Justice Assistance Grant (JAG) activities; and

WHEREAS, the MOU period is January 1, 2011 through December 31, 2011 with the grant activities scheduled to begin October 1, 2011, so funds need to be made available at the earliest possible time; and

WHEREAS, an emergency exists is the usual daily operation of the Division of Police, Department of Public Safety in that it is immediately necessary to enter into the aforementioned MOU for the FY-10 Justice Assistance Grant (JAG) and to appropriate $48,166.00 for the grant activities cost, thereby preserving the public peace, property, health, safety and welfare; now, therefore

BE IT ORDAINED BY THE COUNCIL OF THE CITY OF COLUMBUS:

SECTION 1. That the Director of Public Safety is hereby authorized and directed to enter into a Memorandum of Understanding (MOU) with the Franklin County Sheriff's Office covering the partial reimbursement of overtime costs and specialized grant training expenditures funded through a FY10 Justice Assistance Grant (JAG).

SECTION 2. That from the unappropriated monies in the General Government Grant Fund and from all monies estimated to come into said fund from any and all sources and unappropriated for any other purpose during the MOU period the sum of $48,166.00 is appropriated as follows:

Legislation Number: 1576-2011
Drafting Date: 9/20/2011
Current Status: Passed
Version: 1
Matter Type: Ordinance

BACKGROUND: The purpose of this ordinance is to give the Directors of the Department of Finance and Management and the Department of Public Service the authority to enter into a Memorandum of Understanding (MOU) with the Solid Waste Authority of Central Ohio ("SWACO"). The MOU will outline the plans and certain commitments of the parties relating to the redevelopment of the Morse Road Eco Center. The authorizations to expend, and modifications (if necessary) to the current lease transfer agreement remain subject to authorization pursuant to the passage of appropriate legislation by Columbus City Council.

Under the MOU, subject to adoption of a future ordinance(s), the City will enter into a reimbursement agreement with SWACO to complete certain public improvements at this location. Public infrastructure improvements include, but are not limited to, a solid waste transfer station to be operated by SWACO, a Division of Refuse Collection station, a Division of Fleet Management vehicle repair facility, a truck washing facility and a diesel/unleaded gasoline fueling station. All structures housing vehicles will be equipped with safety features to accommodate CNG powered vehicles.
The City's agreement to provide financing is contingent upon authorization pursuant to the passage of appropriate legislation by Columbus City Council.

**FISCAL IMPACT:** None associated with the MOU.

To authorize the Directors of the Department of Finance and Management and the Department of Public Service to enter into a Memorandum of Understanding with the Solid Waste Authority of Central Ohio ("SWACO") in order to outline the plans and certain commitments of the parties relating to the redevelopment of the Morse Road Eco Center; and to declare an emergency.

**WHEREAS,** the Morse Road Transfer Station (hereinafter "MRTS") was built as part of an integrated trash management system by the City, initially designed as a shredder station to process trash for the Columbus Waste-to-Energy Facility. SWACO operates the MRTS as part of the municipal solid waste management system implemented for the region, and SWACO currently leases said from the City and utilizes the facility as a solid waste transfer station; and

**WHEREAS,** the facility accepts approximately 130,000 tons of trash per year from a growing suburban population in Northeast Columbus and southeastern Delaware County, despite the fact that the original design of the facility is not conducive to transfer station operations; and

**WHEREAS,** the facility, due to its age, is in deteriorating condition and requires renovations which SWACO and the City have agreed to jointly undertake since both entities conduct operations at the facility. Such renovations shall result in the construction of the Morse Road Eco-Station Facility, which shall serve as a SWACO Transfer Station, as well as Fleet and Refuse outposts for the City; and

**WHEREAS,** the required replacements and renovations to the original facility are necessary in order to secure a vital part of the community's solid waste infrastructure and ensure the continued provision of essential solid waste services to community residents; and

**WHEREAS,** SWACO shall act to oversee and/or supervise the facility project, and be responsible for hiring all Construction Manager(s), Construction Administration, Contractor(s), and/or other necessary personnel for the project. The City shall act as the owner representative for the project, and shall be responsible for reimbursing all costs relating to its facilities as part of the project as well as proportional costs of shared facilities pursuant to the terms of a subsequent reimbursement agreement; and

**WHEREAS,** the Parties desire to memorialize their understanding and agreements with respect to such cooperation in a Memorandum of Understanding; and

**WHEREAS,** agreement to this Memorandum of Understanding is not an authorization to proceed, nor does it obligate the expenditure of funds. All contracts will be subject to the approval of the Board of Trustees of SWACO and the Columbus City Council, including any subsequent amendments; and

**WHEREAS,** the reimbursement agreement remains subject to authorization pursuant to the adoption of appropriate legislation by Columbus City Council; and

**WHEREAS,** an emergency exists in the usual daily operation of the Department of Finance and Management.
and the Department of Public Service in that it is necessary to authorize this agreement in order to facilitate
and ensure that improvements occur at the at the earliest possible date and for the immediate preservation of
the public peace, health, safety, property and welfare; NOW, THEREFORE,

BE IT ORDAINED BY THE COUNCIL OF THE CITY OF COLUMBUS:

Section 1. That the Director of the Department of Finance and Management and the Director of Public Service
is hereby authorized to enter into a Memorandum of Understanding with the Solid Waste Authority of Central
Ohio ("SWACO) in order to outline the plans and certain commitments of the parties relating to the
redevelopment of the Morse Road Transfer Station Facility including contracting, engineering, permitting,
project letting and award, project financing and cost sharing and reimbursement terms, construction
management, reimbursement terms, temporary parking, fueling, and storm water maintenance.

Section 2. Appropriations and authorizations for expenditures are not authorized herein but are subject to
future ordinance(s) of City Council.

Section 3. That for the reasons stated in the Preamble hereto, which is hereby made a part hereof, this
Ordinance is hereby declared to be an emergency measure and shall take effect and be in force from and after
its passage and approval by the Mayor or ten days after the passage if the Mayor neither approves nor vetoes
the same.

1. BACKGROUND

This ordinance provides $140,555.00 to prevent inspection deficits for projects within the Department of
Public Service Capital Improvement Program. Construction Inspection funding is normally authorized in
construction legislation and available throughout the project.

The amount for inspection is generally estimated by taking a percentage of the construction cost and
occasionally the funds set up for this cost are not sufficient to cover the inspection of the project through
completion. It is then necessary to request additional funding for the remaining inspection costs. This
ordinance authorizes an additional amount of $140,555.00 to establish funding to prevent inspection deficits in
various projects. Inspection Funding for the following projects makes up this $140,555.00.

Department of Public Service
Downtown Streetscape - Cleveland Avenue $6,444.00
Bridge Rehabilitation - Arcadia over Glen Echo Ravine $41,997.00
High Street Share the Road $777.00
Pedestrian Safety Improvements - Cole - Mooberry Sidewalks $5,000.00
Roadway Improvements - Minnesota Avenue $2,600.00
RiverSouth Phase 2 $69,000.00
Arterial Street Rehabilitation - Lockbourne Road - Groveport to SR104 $5,718.00

$131,536.00

Department of Development
UIRF - Holtzman/Main $6,519.00
UIRF - Iuka Road Lighting $2,500.00

Total Needed $140,555.00

These projects require additional construction inspection funds for varying reasons including project modifications due to expanded scope, unforeseen conditions, weather, construction change orders, etc.

2. FISCAL IMPACT:
These expenses are budgeted within the 2011 C.I.B. and also funded from cancellations from completed projects.

3. EMERGENCY DESIGNATION
Emergency action is requested in the interest of maintaining proper accounting and Fund integrity in a timely manner.
To authorize the expenditure of $140,555.00 for the Department of Public Service and Department of Development from the Streets and Highways G.O. Bonds Fund, The State Issue II Street Projects Fund, and the Fed-State Highway Engineering Fund, for the purpose of providing sufficient funding for Construction Inspection and Administration Services on several projects; to authorize necessary transfer and appropriation of monies to insure proper accounting practices within these funds; to amend the 2011 C.I.B.; and to declare an emergency. ($140,555.00)

WHEREAS, capital improvement projects undertaken by Divisions within the City of Columbus generally include an inspection component; and
WHEREAS, the amount encumbered for inspection is ordinarily an estimate based on the project's construction expense; and
WHEREAS, the actual inspection amounts charged are subject to many variables including but not limited to modifications to contracts due to expanded project scope, unforeseen conditions, weather, construction change orders, and so on; and

WHEREAS, it is necessary to encumber additional funds for some of these projects that have or are projected to exceed the funds originally set up in legislation for construction inspection; and
WHEREAS, an emergency exists in the usual daily operation of the Department of Public Service in that funds should be established immediately in order to prevent a net inspection deficit and maintain proper accounting practices, thereby preserving the public health, peace, property, safety and welfare; now, therefore
BE IT ORDAINED BY THE COUNCIL OF THE CITY OF COLUMBUS:

### SECTION 5.

That the sum of $116,715.00 be and hereby is appropriated from the unappropriated balance of Fund 764, the State Issue II Street Projects Fund and Fund 765, the Federal-State Highway Engineering Fund, and from all monies estimated to come into said funds from any and all sources and unappropriated for any other purpose during the fiscal year ending December 31, 2010 as follows:
The City of Columbus, Ohio (the "City") has been engaged in cooperative efforts with the County of Franklin, Ohio (the "County"), the State of Ohio (the "State") and the Franklin County Convention Facilities Authority ("CFA") to facilitate the CFA's acquisition, operation and maintenance of Nationwide Arena, located in the Columbus Arena District, in Columbus, Ohio.

This ordinance authorizes the Mayor or the Director of Finance and Management to enter into a Lease
Agreement and Sublease Agreement on behalf of the City among Franklin County, the CFA, and the City, and
any other necessary agreements, for the purpose of facilitating part of the financing necessary for the CFA to
purchase, operate and maintain Nationwide Arena.

The acquisition of Nationwide Arena will protect and create thousands of jobs in the Arena District and allow
for the Arena District to continue as one of the City's most successful economic development performers. An
economic impact study conducted by the John Glenn Institute at The Ohio State University identified 7,000
jobs in the Arena District in 2006. Since then, the Arena District has added 1,230 jobs, and expansions are
underway now that will draw another 2,200 jobs over the next three years. The report by Stephen Buser, Ph.D.
for the Columbus Chamber stated that the Arena District and Nationwide Arena generate $20.4 million
annually in state and local income tax revenue.

Additionally, the Arena District has become a thriving residential community with more than 1,000 residents.
Nationwide Arena is a critical component to the economic and community development success of the Arena
District and the surrounding region. Both the public and private sectors value the Columbus Blue Jackets and
Nationwide Arena's contribution to Central Ohio's business and entertainment landscape.

The City and County will enter into a lease and sublease arrangement with the CFA that will allow the CFA to
purchase, operate and maintain Nationwide Arena. No general fund dollars from the City will be used for
either the lease or the sublease term. Annual appropriations for a specified percentage of the casino tax
proceeds received by the City from the State will be used for the purchase, operations and maintenance of
Nationwide Arena. The CFA will issue its arena lease revenue bonds secured by the City and County's lease
payments, and may enter into financing arrangements with the State also secured by such lease payments. This
ordinance also approves those financing arrangements.

Recognizing Nationwide Arena's impact on the economic viability of the Arena District, Downtown, and all of
Central Ohio; the City, County and State have formed a cooperative relationship to share in the cost to acquire,
operate and maintain Nationwide Arena. The City intends to and will contribute a percentage of its casino tax
proceeds based upon a comparable commitment by the County, which will contribute a percentage of its casino
tax proceeds. In addition, the State is expected to make an investment through a $10 million loan to the CFA.
The agreements authorized by this ordinance will be contingent upon all parties' approval and participation

**FISCAL IMPACT:** There will be no immediate fiscal impact; however, beginning with the lease and sublease
term, annual appropriation will be sought for a specified percentage of the casino tax proceeds received by the
City from the State for the remainder of the lease and sublease term.

To authorize the Mayor and/or Director of Finance and Management to enter into a Lease Agreement and
Sublease Agreement on behalf of the City among Franklin County, the Franklin County Convention Facilities
Authority, and the City, and any other necessary agreements, for the purpose of facilitating part of the
financing necessary for the Franklin County Convention Facilities Authority to purchase, operate and maintain
Nationwide Arena, and to approve loan arrangements with the State of Ohio and the issuance of arena lease
revenue bonds by the Franklin County Convention Facilities Authority for such purpose.
WHEREAS, the City of Columbus, Ohio (the "City") over the past 10 years has invested over $140 million dollars in Downtown public infrastructure improvements; and

WHEREAS, as a result of the investment, the City recognizes the Downtown as the region's largest employment center with approximately 100,000 jobs; and

WHEREAS, as a result of the investment, it is estimated that Downtown generates income tax revenue over $100 million annually; and

WHEREAS, the Arena District is a successful redevelopment project within Downtown; and

WHEREAS, the Arena District has an investment of over $1 billion of public and private improvements; and

WHEREAS, as a result of the investment, the Arena District has approximately 1.2 million square feet of office space; and

WHEREAS, as a result of the investment, the Arena District has more than 170 businesses, resulting in over 7,000 jobs; and

WHEREAS, as a result of the investment, the Arena District is home to a thriving residential community with more than 1,000 residents; and

WHEREAS, Stephen Buser, Ph.D.completed a study that stated that the Arena District and Nationwide Arena generate $20.4 million annually in state and local income tax revenue; and

WHEREAS, Nationwide Arena is a critical component to the economic and community development success of the Arena District; and

WHEREAS, the public and private sectors recognize that the Columbus Blue Jackets and Nationwide Arena have become an integral part of Central Ohio's business and entertainment landscape; and

WHEREAS, the City, Franklin County (the "County"), the Franklin County Convention Facilities Authority (the "CFA") and the State of Ohio (the "State") have formed a cooperative relationship intent on maintaining and increasing the economic viability of the City's Arena District, Downtown, and all of Central Ohio, and have been engaged in cooperative efforts to facilitate the CFA's acquisition, operation and maintenance of Nationwide Arena, located in the City's Arena District; and

WHEREAS, it is anticipated that the CFA will purchase, operate and maintain Nationwide Arena and will finance a portion of such purchase, operation and maintenance by entering into financing arrangements with the State acting through its Department of Development or other instrumentalities and agencies, which will make an investment in form of a $10 million loan (the "State Loan"), and by the issuance of arena lease revenue bonds (the "Bonds"); and

WHEREAS, it is anticipated that the County will provide specified percentages of the proceeds of the tax on gross casino revenue collected by the State and distributed to the County pursuant to Art. 15, Sec. 6 of the Ohio Constitution to the CFA to assist the CFA in financing the CFA's purchase, operation and maintenance of Nationwide Arena; and

WHEREAS, the City, in an effort to retain jobs, protect existing public investment, and encourage additional
job growth, will provide specified percentages of the proceeds of the tax on gross casino revenue collected by the State and distributed to the City pursuant to Art. 15, Sec. 6 of the Ohio Constitution (the "City Casino Taxes") described below (the "City Contribution") to the CFA to assist the CFA in financing the CFA's purchase, operation and maintenance of Nationwide Arena; and

WHEREAS, the City Contribution is to be in the form of lease payments to be made by the City to the CFA pursuant to a lease and sublease arrangement among the City, the CFA and the County (the "City Lease Payments"); and

WHEREAS, the CFA will pledge the City Lease Payments and payments to be received from the County pursuant to such lease and sublease arrangement as security for the State Loan and the Bonds; and

WHEREAS, the City Lease Payments will be paid exclusively from the City Contribution and will not use any City Income Taxes; and

WHEREAS, the City Lease Payments will have no impairment to the City's Capital Improvement Plans; and

WHEREAS, the City Lease Payments will be subject to annual appropriations, and such appropriations will be subject to approval by City Council; now, therefore,

SA004116 - Multiple Hearth Incinerator Improvements
The City of Columbus, Division of Sewerage and Drainage, operates two large interconnected municipal wastewater treatment plants, a biosolids composting facility, and a Sewer Maintenance Operations Center (SMOC). This work is part of the City’s continuing program to upgrade its wastewater treatment facilities, provide efficient, reliable, cost-effective operations, and enhance personnel safety.

The Department of Public Utilities has instituted an Asset Management policy that requires specific information be provided and analyzed before a project can move forward to Detailed Design. To meet these policy requirements a distinct problem statement, multiple alternative solutions, and a benefit to cost ratio must be developed for this project during the Preliminary Design Report phase of the project. The consultant shall incorporate all of the required elements of a BCE into the Final PDR document. The consultant shall attend the Department’s BCE training class.

New federal sewage sludge incinerator (SSI) rules for Maximum Achievable Control Technology (MACT) became effective on May 20, 2011 and could be applicable to both WWTFs, as early as September 21, 2013 or as late as March 21, 2016. Although the rules are being contested, the City wishes to evaluate current MACT equipment on the market and prepare a plan for execution if necessary.

The project deliverables shall include a preliminary design report, followed by a biddable detailed design package, and then concluded with technical project representation services during construction.

The City is currently performing minor upgrades to the multiple hearth incinerators and will be conducting stress testing, emission stack testing, and making operational changes to the incinerators over the next 6 months. Once the consultant is under contract, full participation in all incinerator matters is expected, as directed by the City.

The scope of work for the JPWWTP incineration process is expected to be significantly less than for the SWWTP incineration process. In general, the preliminary design for both WWTPs includes five tasks: task 1 will include information gathering, analysis, and the refinement of project goals; task 2 will include an assessment of the incineration process; task 3 will provide a technical and Business Case Evaluation (BCE) integral to the Preliminary Design Report (PDR); task 4 will deliver a Draft Preliminary Design Report and Design Drawings; and task 5 will deliver a final PDR. At a minimum, one workshop and two coordination meetings are required for each of the first four tasks to discuss findings and recommendations with City Staff. The Preliminary Scope of Services Section below contains the details of each task as well as requirements for Detailed Design Services and Services during Construction. The consultant shall assemble an I&C programming team capable of designing, programming, and integrating the I&C system to the City’s DOSD I&C standards.
