To Honor and Recognize November 11, 2011 as Veteran’s Day in Columbus.

WHEREAS, Veterans Day commemorates the sacrifices of our nation’s veterans and is held on November 11th, the anniversary of the armistice which ended World War I; and

WHEREAS, of the nearly five million Americans who served, Ohio has the fifth largest number of Veterans. Today we stand ready to thank all those in the country who have served our nation; and

WHEREAS, the City of Columbus honors and recognizes all our Veterans, this year we specifically highlight and celebrate our Vietnam Veterans; and

WHEREAS, thirty-seven years ago, March 29, 1973; the last 2,500 troops were withdrawn from South Vietnam, ending military involvement in what is now the longest war in our country’s history; and

WHEREAS, due to the unpopularity of this 11 year war, men and women who survived along with the 58,195 brave souls who fought and died, were never shown the respect and gratitude they deserved for serving and defending this county; and

WHEREAS, the City of Columbus pauses, in the spirit of pride and gratitude to recall the heroic accomplishments of our Vietnam Veterans in the great state of Ohio and thank them for their unselfish devotion to duty; now, therefore

BE IT RESOLVED BY THE COUNCIL OF THE CITY OF COLUMBUS:

That this Council does hereby honor and recognize November 11, 2011 as Veteran’s Day and thanks the thousand of heroic Vietnam Veterans for their unselfish devotion to our country.

1. BACKGROUND:
The requirements of the various review (FEMA and Reynoldsburg) agencies were more involved than anticipated by the consultant. The submission requirements for approval of the FEMA Conditional Letter of Map Revision (CLOMR) application required the consultant to recreate a 1977 stream hydraulic model previously generated in WSP-2 and submit the model results using HEC-RAS. This effort exhausted the consultant's anticipated fee and that did not include the submission and approval of the Letter of Map Revision (LOMR) application required by Reynoldsburg for basin construction. This extensive effort also delayed the anticipated construction date from 2010 to 2012, and did not include increases in the hourly billing rates for the consultant and wetlands subconsultant.

Contract Compliance No.: 31-0922991, Expiration date: 07/06/2013, Majority

2. FISCAL IMPACT:
   A. Budgeted Amount. There are sufficient funds and spending authority available for this expenditure.
B. **Contract Modification Information Pursuant to Section 329.13C.C.C.:**

1) **Amount of Additional Funds - This Modification:** $52,218.00.

2) **Why the Need for Additional Work Could Not Be Foreseen:** The requirements of the various review (FEMA and Reynoldsburg) agencies were more involved than originally anticipated. With the extensive review by these agencies, the construction of this project was delayed by 2 years. Wetland construction and mitigation required specialized expertise during construction and maintenance period. The consultant will perform this specialized oversight which will ensure the tasks are performed in compliance with the plans and USACE permits. These services were not included in the scope of the original contract. It is, therefore, necessary to add these services through this contract modification. The original agreement assumed the Division of Design and Construction would provide inspection and construction administration services.

3) **Why Other Procurement Processes Would Not Be In the City's Best Interest:** The requirements of the various review (FEMA and Reynoldsburg) agencies were more involved than anticipated by the consultant causing long delays, additional work and increased costs. It is not deemed either feasible or reasonable to suspend work with the entity currently under contract and undertake continuation of the work under a new procurement.

4) **How the Cost of the Modification Was Determined:** Price quotes for the additional services under this modification were requested by the Division, prepared by the design engineer, and were subsequently reviewed and revised by Sewer System Engineering Section staff and deemed to be appropriate.

C. **Contract Amount:** The contract amount including this modification is $2,124,069.00.

Such partnership or corporation may provide evidence of liability protection required by Section 587.15 for each taxicab owner who is a member of such partnership or corporation by filing a liability agreement as provided in Section 587.15(b) agreeing to pay all final judgments recovered against any owner who is a member of such partnership or corporation within the limits set forth in Section 587.15. Such agreement shall be secured by the deposit by the partnership or corporation of cash or obligations of the United States Government, bank certificates of deposit or bond issued by the city of Columbus with the city treasurer, or placed in a custodial account as approved by the City, in the amounts and under the conditions set forth in Section 587.18(b)(1), (2) and (3). The partnership or corporation shall be considered one partnership for such purposes.

Such partnership or corporation shall immediately provide the names and addresses of all owners and taxicabs operated by such owners which the partnership or corporation is providing evidence of liability protection for to the director. Such partnership or corporation shall notify the director in writing twenty-one (21) days prior to the cancellation, change of cancellation or of any change in the membership status of any owner or member which would result in the owner or members having less than the minimum amount of liability coverage with the organization.

BACKGROUND: This legislation authorizes the Director of Public Safety to modify the existing contract with MED3000, Inc. for EMS billing, collection, and reporting services. The City entered into a contract with MED3000, Inc. via ordinance 1508-2007 in October 2007. The term of the original contract was for three years ending in October 2010. The contract contained options to renew by mutual written agreement of the parties for up to two additional one year terms after October 2010. Ordinance 1682-2010 passed Council on December 6, 2010, modified and extended the contract with MED3000 until October 31, 2012, and provided $750,000 in funding through March 2011. This ordinance will provide funding and incentive pay through
February 2012.

The Division of Fire's third party EMS reimbursement program was initiated via ordinance #1184-2002 passed in July 2002.

Public Safety contracts for the billing, collection, and reporting of those who are transported to hospitals by EMS personnel for emergency medical care. These billing, collection, and reporting services have generated a multitude of patient care information used by the Fire Division to better prepare EMS response protocols and, in turn, respond to citizens in a more effective manner. The division also generates reports for various fire organizations that are catalogued nationwide. Revenue generated since inception of the program amounted to approximately $87M through mid October 2011.

Contract Compliance: 251837785; expires 02/01/2012

Emergency Designation: Emergency action is requested so that EMS billing, collection and reporting services can continue without interruption.

FISCAL IMPACT: The Division of Fire budgeted $1.8 million in the 2011 General Fund operating budget for these services; to date $1.4M has been expended/encumbered for these services. Total 2010 expenses amounted to $2,290,611.08. EMS revenues have exceeded $11 million thus far in 2011. To authorize the Director of Public Safety to modify and extend the current contract with MED3000, Inc. for EMS billing, collection, and reporting services for the Division of Fire; to authorize the expenditure of $150,000.00 from the General Fund; and to declare an emergency. WHEREAS, the parties agree that certain modifications to the contract are required in order to extend the contract and modify the compensation as well as the obligations concerning computers.

WHEREAS, an emergency exists in the usual daily operation of the Division of Fire, Department of Public Safety, in that it is immediately necessary to modify and extend the current contract with MED3000, Inc. so that EMS billing, collection and reporting services can continue without interruption, thereby preserving the public health, peace, property, safety and welfare; Now, therefore

BE IT ORDAINED BY THE COUNCIL OF THE CITY OF COLUMBUS:

SECTION 1. That the Director of Public Safety is hereby authorized to modify and extend the existing contract between the City and MED3000, Inc. for the Division of Fire's EMS billing, collection and reporting services.

BACKGROUND:
This legislation authorizes the Director of the Department of Technology to renew an annual agreement with Business Software, Inc. (BSI) for software maintenance and support (software/seat licenses), as it relates to the BSI Tax Factory application utilized with the Lawson software application formerly known as CHRIS (Columbus Human Resource Information System). The Department of Technology requires software maintenance and support from Business Software, Inc. (BSI) to support ongoing operations of the BSI Tax Factory application. This software maintenance and support renewal contract is for a 12 month term with a coverage period of December 9, 2011 through December 8, 2012.

The BSI Tax Factory application performs calculations of US Federal, State, Possession and Local payroll taxes for the employer and employee. The burden of tracking regulatory rules is eliminated for tax calculations, wage, and benefit plan taxability, wage attachments and deferred income.

This legislation requests approval to waive the competitive bidding provisions of the Columbus City Code Section 329 due to the fact that the maintenance and support for the BSI Tax Factory application is only available through the reseller from which the system was licensed. Under the original contract with Lawson Software Ord.1799-2007, passed by Columbus City Council on November 26, 2007, it was identified that the named reseller for the Tax Factory application, which is utilized with the Lawson software for the CHRIS project, would be Business Software, Inc. The initial software maintenance and support contract with Business Software, Inc. (BSI), ED040348, was established in 2009. The bid waiver will allow the City to continue the maintenance and support necessary for the operation of the BSI Tax Factory application.

EMERGENCY: Emergency designation is requested as to avoid interruption in the performance of services necessary in the usual daily operation, and to facilitate contract execution and related payment for deliverables and other services.

FISCAL IMPACT: For year 2010, the department expended $9,040.50 with Business Software, Inc. (BSI) for maintenance and support services. The cost associated with this contract renewal and ordinance for the software maintenance support for a one year term period (December 9, 2011 through December 8, 2012) is $9,040.50. Funds were budgeted and are available within the 2011 Department of Technology, Information Services Division, internal service fund. The total aggregate contract cost for maintenance and support services for the Business Software, Inc. (BSI) Tax Factory is $26,650.50.

1. BACKGROUND
The Department of Public Service, Keep Columbus Beautiful (KCB) program is eligible to apply for a grant sponsored by The Ohio Department of Natural Resources, Division of Recycling & Litter Prevention in conjunction with its affiliation with Keep Ohio Beautiful. The grant, called "2012 Litter Cleanup Grant", is requesting funding to support a new litter abatement effort targeted at helping Franklinton, the City's founding neighborhood, remove accumulated trash and debris from one of its primary arteries, Sullivant Avenue. The project, named The Sullivant Avenue Litter Bust, is an effort to engage local organizations to host a monthly cleanup on the Avenue. The establishment of an ongoing monthly cleanup will re-build pride in the area and help to motivate neighborhoods and businesses to work together to target blight and improve the area's image.

The Ohio Revised Code (ORC), Chapter 1502, authorizes the Division of Recycling & Litter Prevention, with the approval of the Ohio Department of Natural Resources, to award grants for the purpose of supporting litter cleanup activities. Grant awards may range up to $2,000 and all proposals must contain an actual litter collection component. No cash match is required, but local financial or in-kind contributions will help to demonstrate a sense of commitment.

Those eligible to apply include Ohio counties, municipal corporations, townships, villages, solid waste management districts or authorities, soil & water conservation districts, Keep Ohio Beautiful affiliates and any agencies of the state as defined in Chapter 119 of the Ohio Revised Code.

Keep Columbus Beautiful is requesting funding from ODNR to develop and support regular monthly cleanups of a 1.5 mile stretch of Sullivant Avenue beginning at Dodge Park to Central Avenue. The area targeted is both commercial and residential. Grant funds would be used to support this collaborative community improvement effort with litter abatement supplies, such as litter grabbers, gloves, bags, brooms and rakes.

This legislation authorizes the Director of Public Service to formally apply for the grant and accept it, if awarded. This ordinance authorizes the appropriation of these funds within the General Government Grant Fund Fund and its subsequent expenditure from said fund.

2. FISCAL IMPACT
None. No city match is required for this grant. No cash match is expected, but local financial or in-kind contributions will help to demonstrate a sense of commitment, and offset the overall cost of the project.

3. EMERGENCY DESIGNATION

Legislation Number: 1795-2011

Drafting Date: 10/17/2011

Current Status: Passed

Version: 1

Matter Type: Ordinance

1. Background:
The City of Columbus, Department of Public Service, received a request from the Columbus Regional Airport Authority, asking that the City sell a portion of the Thirteenth Avenue right-of-way east of Sterling Street, and a portion of the unimproved east/west alley north of Thirteenth Street and east of Sterling Street. Transfer of these rights-of-way will facilitate the establishment of a required safety zone for the proposed relocation of the south runway at Port Columbus International Airport. Per current practice, comments were solicited from interested parties, including City agencies, private utilities and the applicable area commission, before it was determined that, subject to the retention of a general utility easement for those utilities currently located within these rights-of-way, the City will not be adversely affected by the transfer of these rights-of-way. The Department of Public Service submitted a request to the Department of Law, Real Estate Division, asking that they establish a value for these rights-of-way. A value of $37,961.00 was established for these rights-of-way. After review of the request, the Land Review Commission voted to recommend a fifty percent reduction in the appraised value and transfer the aforementioned rights-of-way to the Columbus Regional Airport Authority for the amount of $18,980.50.

2. FISCAL IMPACT:
The City will receive a total of $18,980.50 that will be deposited in Fund 748, Project 537650, as consideration for the transfer of the requested rights-of-way.

**DATE OF TEXT:** September 26, 2011

**APPLICATION NUMBER:** Z11-015

**INTRODUCTION:**
The 6.9 +/- acre site consists of property on both the west and east sides of North Nelson Road. St. Charles Preparatory School and the Catholic Diocese of Columbus propose to redevelop the former lumber yard site at the northwest quadrant of North Nelson Road and East Long Street (Subarea A) for use as an auxiliary athletic facility (Subarea A) for St. Charles Preparatory School, located at 2210 East Broad Street, Bexley, OH and to develop property on the east side of Nelson Road (Subarea B) as a parking lot. Residual property (Subarea C) on the east side of Nelson Road will continue to be used for C-2, Commercial District office uses, as presently permitted (CPD, Z86-1058A). St. Charles Preparatory School is located to the east of North Nelson Road, on the east side of Alum Creek. Applicant proposes to connect the main St. Charles Preparatory School campus with the auxiliary athletic facility and parking by building a pedestrian bridge across Alum Creek to enhance connectivity and pedestrian movement between the main campus and auxiliary. The drawings titled “St. Charles Preparatory West Campus, CPD zoning Site Plan (Z11-015)” (Sheet 1 of 2) and “St. Charles Preparatory West Campus, Sight Distance Exhibit, Z11-015, Subarea B” (Sheet 2 of 2), both dated September 26, 2011, are incorporated by reference.

**1. PERMITTED USES:** The permitted use of Subarea A shall be an auxiliary athletic facility and all customary accessory uses for/of an athletic facility. One (1) ground level dwelling unit shall also be permitted in the Support Building, subject to approval of pending Council Variance application CV11-011.

**2. DEVELOPMENT STANDARDS:** Unless otherwise specified in the following Development Standards, the Development Standards shall be as specified in Chapter 3356 of Columbus City Code (C-4, Commercial District), Chapter 3312, Off-Street Parking and Loading, and Chapter 3321, General Site Development Standards.

SECTION 4. That for reasons stated in the preamble hereto, which is hereby made a part thereof, this ordinance is hereby declared to be an emergency measure and shall take effect and be in force from and after its passage and approval by the Mayor or ten days after passage if the Mayor neither approves nor vetoes the same.

1. BACKGROUND: This legislation authorizes the Director of Public Utilities to enter into an agreement with Floyd Browne Group, in the amount of $663,108.00, for professional engineering services for the Nationwide Boulevard Transmission Main Improvements Project, Division of Power and Water Contract No. 1198.

Floyd Browne Group will conduct a condition assessment of the existing infrastructure along Nationwide Boulevard, from the Olentangy River to Hocking Street, as well as designing improvements for the water mains in the area. The water mains include two 36-inch cast iron mains and a 24-inch cast iron main.

The assessment will determine whether or not the mains can be rehabilitated or if they need to be replaced. By having the option of rehabilitation, it will reduce the cost of construction and prolong the life of the existing mains. It will also have less of an impact to the traveling public and the environment. If new mains are required, these new mains would ensure that there would be no leaks or future issues with the roadway construction. This project will enhance the area's ability to be developed by eliminating the older mains that are located outside the right-of-way.

2. BID INFORMATION: The selection of the firm providing the professional engineering services has been performed in accordance with the procedures set forth in Columbus City Code, Section 329.14, "Awarding professional service contracts through requests for proposals." Requests for Proposals (RFP's) were received on September 2, 2011 from Floyd Browne Group, MS Consultants, Inc., Stantec Consultants, Inc., and DLZ Ohio, Inc.

An evaluation committee reviewed the proposals and scored them based on the criteria stated in the Code.
Based on the evaluation of the proposals submitted, the Director of Public Utilities requests award of the project to Floyd Browne Group

The Contract Compliance Number for Floyd Browne Group is 34-1579860 (expires 12/22/11, Majority). Additional information regarding all bidders, description of work, contract time frame and detailed amounts can be found on the attached Information form.

Searches in the Excluded Party List System (Federal) and the Findings for Recovery list (State) produced no findings against Floyd Browne Group.

3. EMERGENCY DESIGNATION: It is requested that this Ordinance be handled in an emergency manner in order to have the design and construction completed before roadway improvements are performed for the future development of the area.

4. FISCAL IMPACT: This legislation includes a transfer of funds within the Water Works Enlargement Voted Bonds Fund and an amendment to the 2011 Capital Improvements Budget. Transfers between projects will also be necessary in order to align current cash with current and future needs.

To authorize the Director of Public Utilities to enter into an agreement with Floyd Browne Group for professional engineering services for the Nationwide Boulevard Transmission Main Improvements Project; to authorize a transfer and expenditure within the Water Works Enlargement Voted Bonds Fund; for the Division of Power and Water; to amend the 2011 Capital Improvements Budget; and to declare an emergency. ($663,108.00)

WHEREAS, it is necessary for this Council to authorize the City Auditor to transfer funds within the Water Works Enlargement Voted Bonds Fund; and

WHEREAS, it is necessary to authorize an amendment to the 2011 Capital Improvements Budget for purposes of providing sufficient funding and expenditure authority for the aforementioned project expenditure; and

WHEREAS, an emergency exists in the usual daily operation of the Division of Power and Water, Department of Public Utilities, in that it is immediately necessary to authorize the Director of Public Utilities to enter into an agreement for professional engineering services for the Nationwide Boulevard Transmission Main Improvements Project, in an emergency manner in order for utility work to be performed before roadway improvements are made, for the immediate preservation of the public health, peace, property and safety;

SECTION 4. That the expenditure of $663,108.00 is hereby authorized for the Nationwide Boulevard Transmission Main Improvements Project within the Water Works Enlargement Voted Bonds Fund, Fund No. 606, Division 60-09, Project No. 690531-100000 (carryover), OCA Code 606531, Object Level Three 6677.

SECTION 5. That the City Auditor is authorized to make any accounting changes to revise the funding source for all contracts or contract modifications associated with this Ordinance.

SECTION 6. That the City Auditor is hereby authorized and directed to transfer any unencumbered balance in the project account to the unallocated balance within the same fund upon receipt of certification by the Director of the Department administering said project that the project has been completed and the monies no longer required for said project; except that no transfer shall be made from a project account by monies from more than one source.

SECTION 7. That the City Auditor is authorized to establish proper project accounting numbers as appropriate.

SECTION 8. That for reasons stated in the preamble hereto, which is hereby made a part hereof, this Ordinance is declared to be an emergency measure and shall take effect and be in force from and after its passage and approval by the Mayor, or ten days after passage if the Mayor neither approves nor vetoes the same.

BACKGROUND:
This legislation is to authorize the Director of the Department of Technology (DoT) to renew a software maintenance and support agreement with Lytrod Software, Inc. The original agreement (associated with purchase order EE004330) was established August 1, 2007, and provided software maintenance and support through December 31, 2007. The agreement was most recently renewed through purchase order ED036528, established June 19, 2008, providing maintenance and support through December 31, 2008. This renewal will enable DoT to pay back maintenance and support and extend support through December 31, 2012. The total
cost for the renewal is $3,750.

Lytrod Proform Designer software is utilized by DoT in conjunction with its Xerox 4635 production printers to print utility bills and other forms for its City department customers. This software is necessary to ensure that printed documents are formatted correctly.

In previous years, the City has been able to purchase Lytrod maintenance and support by utilizing the informal bid process. However, DoT has now learned that Lytrod does not utilize resellers to provide maintenance and support for its software, so a past agreement with Columbus Lumber (purchase order EE007160) to provide support for January 1, 2009 to December 31, 2009 was not valid from the software manufacturer’s perspective, as Columbus Lumber is not authorized to purchase maintenance and support on our behalf. Lytrod Software, Inc. has agreed to credit the City for the cost of 2009 support mistakenly paid to Columbus Lumber. Lytrod has also confirmed they are the sole source provider of maintenance and support for its software, so this ordinance is being submitted in accordance with the provisions of Sole Source procurement of the City of Columbus Code, Section 329.07.

**EMERGENCY:**
Emergency action is requested to expedite the agreement and ensure that the needed services are not delayed.

**FISCAL IMPACT:**
In 2008 the Department of Technology expended $1,250.00 with Lytrod Software Inc. for software maintenance and support. The cost associated with this year’s software maintenance and support renewal is $3,750.00. Funds for this purchase have been identified and are available within the Department of Technology, Information Services Division, Internal Service Fund. The aggregate contract total amount including this renewal is $8,750.00.

**CONTRACT COMPLIANCE:**

BACKGROUND:
This legislation authorizes the Director of the Department of Technology (DoT) and the Director of the Human Resources Department, to renew and modify two annual software maintenance and support agreements with Intellinetics, Inc., for a document management system in to one contract. The first agreement (EL005006) was originally authorized by authority of ordinance 2051-2004, passed November 22, 2004. The agreement was most recently renewed by authority of ordinance 0802-2011, passed June 13, 2011. The cost of the modification is $1,800.00 for the period April 1, 2012 through March 31, 2013, and will incorporate maintenance and support for the document management system utilized by the Employee Benefits/Risk Management section, which is currently provided through a separate agreement with Intellinetics.

The second agreement (EL009053) was originally authorized by ordinance 1896-2008, passed in December 2008. The agreement was most recently renewed through purchase order ED042507, certified November 8, 2010. The renewal of this agreement will provide for software maintenance and support services for the
document management system utilized as part of the Columbus Human Resources Information System (CHRIS), for the period February 4, 2012 through March 31, 2013 at a cost of $6,488.01. The modification of this agreement will incorporate software maintenance and support services for the document management system utilized by the Human Resources Employee Benefits/Risk Management section, for a combined total cost of $8,288.01.

Consolidating the agreements will streamline DoT contract management; bring both aforementioned agreements co-terminus under one annual software maintenance and support agreement and ensure that the contract is renewed in a timely manner.

This ordinance also requests approval to continue services provided by Intellinetics, Inc. in accordance with Section 329 of the Columbus City Code; as it has been determined that Intellinetics, Inc. is the sole manufacturer of Intellivue (the document management system utilized by CHRIS), and does not authorize resellers to provide software maintenance and support to existing Intellinetics customers.

**EMERGENCY DESIGNATION:**
This ordinance is submitted as an emergency so that the execution of the contract and the establishment of a purchase order can be completed before the auditor's office year end closing and ensure that payment can be made to the vendor in a timely manner.

**FISCAL IMPACT:**
During fiscal years 2010 and 2011, the Department of Technology expended $7,425.00 each year for software maintenance and support from Intellinetics, Inc for both contracts. The cost associated with this contract renewal is $8,288.01 for software maintenance and support. Funding in the amount of $8,288.01 is budgeted and available within the 2011 Department of Technology, Information Services Division, Internal Service Fund. Including this modification renewal, the aggregate combined contract amount for software maintenance and support is $32,763.01.

**CONTRACT COMPLIANCE:**
Vendor: Intellinetics, Inc. C.C#: 31 - 1491111 Expiration Date: 8/30/2012

To authorize the Director of the Department of Technology and the Director of the Human Resources Department, to renew and modify an annual software maintenance and support contract with Intellinetics, Inc. for a document management system utilized by the Human Resources Employee Benefits/Risk Management division and also as part of the Columbus Human Resources Information System (CHRIS); to waive the competitive bidding provisions of the Columbus City Code; to authorize the expenditure of $8,288.01 from the Department of Technology, Information Services Division, Internal Service Fund; and to declare an emergency ($8,288.01).

Emergency action is requested to allow these funds to be in place for immediate use for the above mentioned operational needs within the Division of Design and Construction.

SECTION 4. That this ordinance is hereby declared to be an emergency measure and shall take effect and be in force from and after its passage and approval by the Mayor or ten days after passage if the Mayor neither approves nor vetoes the same.

1. Background:
The City of Columbus, Department of Public Service, received a request from Nationwide Realty Investors, asking that the City sell the portion of the Fletcher Street right-of-way from Spring Street to a point approximately 210 feet south of Nationwide Boulevard. Transfer of this right-of-way will facilitate the development of property adjacent to the parcel currently owned by Nationwide Realty Investors. Per current practice, comments were solicited from interested parties, including City agencies, private utilities and the applicable area commission, before it was determined that, subject to the retention of a general utility easement for those utilities currently located within this right-of-way, the City will not be adversely affected by the transfer of this right-of-way.

The Department of Public Service submitted a request to the Department of Law, Real Estate Division, asking that they establish a value for this right-of-way. A value of $18,257.00 was established for this right-of-way. After review of the request, the Land Review Commission voted to recommend the above referenced right-of-way be transferred to Nationwide Realty Investors for $18,257.00.

2. FISCAL IMPACT:
The City will receive a total of $18,257.00 that will be deposited in Fund 748, Project 537650, as consideration for the transfer of the requested right-of-way.

To authorize the Director of the Department of Public Service to execute those documents required to transfer the portion of the Fletcher Street right-of-way from Spring Street to a point approximately 210 feet south of Nationwide Boulevard.

WHEREAS, the City of Columbus, Department of Public Service, received a request from Nationwide Realty Investors, asking that the City transfer the portion of the Fletcher Street right-of-way from Spring Street to a point approximately 210 feet south of Nationwide Boulevard to them; and

WHEREAS, acquisition of the right-of-way will allow Nationwide Realty Investors to perform improvements and enhancements on property that is currently owned by Nationwide Realty Investors; and
WHEREAS, per current practice, comments were solicited from interested parties, including City agencies, private utilities and applicable area commissions, before it was determined that, subject to the retention of a general utility easement for those utilities currently located within this right-of-way, the City will not be adversely affected by the transfer of this right-of-way to Nationwide Realty Investors; and

WHEREAS, the Department of Public Service submitted a request to the Department of Law, Real Estate Division, asking that they establish a value for this right-of-way; and

WHEREAS, a value of $18,257.00 was established for this right-of-way; and

WHEREAS, the Land Review Commission voted to recommend that the above referenced right-of-way be transferred to Nationwide Realty Investors for the amount of $18,257.00; and now therefore

BE IT ORDAINED BY THE COUNCIL OF THE CITY OF COLUMBUS:

The Board of Health has been awarded a grant from the Ohio Department of Health to fund the Women, Infants and Children (WIC) Program for the period October 1, 2011 through September 30, 2012. The Columbus Health Department has been designated as the primary grantee agency and administrator for all WIC programs in Franklin County. The grant funds awarded provide for a contract with Nationwide Children's Hospital for $553,332.00, for the operation of a WIC clinic at their facility. The contract compliance number for Nationwide Children's Hospital is 31-4379441. Nationwide Children's Hospital is listed as a non-profit organization.

This contract was awarded in compliance with Section 329.27 of the Columbus City Code.

Emergency action is requested in order to avoid any delays in providing program services.

**FISCAL IMPACT:** The Women, Infants and Children Program is entirely funded by the Ohio Department of Health. This program does not generate any revenue or require a City match.

To authorize and direct the Board of Health to enter into a contract with Nationwide Children's Hospital for the provision of a WIC clinic; to authorize the expenditure of $553,332.00 from the Health Department Grants Fund; to waive the provisions for competitive bidding; and to declare an emergency. ($553,332.00)

WHEREAS, The Ohio Department of Health has designated the Columbus Health Department as primary grantee agency and fund administrator for all WIC programs in Franklin County; and,
WHEREAS, Nationwide Children's Hospital will staff and operate a WIC clinic in accordance with State WIC guidelines; and,

WHEREAS, an emergency exists in the usual daily operation of the Health Department in that it is immediately necessary to enter into this contract for the immediate preservation of the public health, peace, property, safety and welfare; Now, therefore,

BE IT ORDAINED BY THE COUNCIL OF THE CITY OF COLUMBUS:

SECTION 1. That the Board of Health is hereby authorized and directed to enter into a contract with Nationwide Children's Hospital for the provision of a WIC clinic for the period of October 1, 2011 through September 30, 2012, in an amount not to exceed $553,332.00.

SECTION 4. That the City Auditor is authorized to make any accounting changes necessary to ensure that this contract is properly accounted for and recorded accurately on the City's financial records.

SECTION 5. That for reasons stated in the preamble hereto, which is hereby made a part hereof, this ordinance is hereby declared to be an emergency measure and shall take effect and be in force from and after its passage and approval by the Mayor, or ten days after passage if the Mayor neither approves nor vetoes the same.

BACKGROUND:
This legislation authorizes the Director of the Department of Technology (DoT), to modify an agreement with OARnet/OSU, a non-profit organization, for VMWare software upgrades, maintenance and support services. The original agreement (EL011737) was authorized by ordinance 1716-2010, passed by Columbus City Council December 13, 2010. This ordinance will modify the agreement with OARnet to upgrade and incorporate VMWare software originally purchased from Software House International, as authorized by ordinance 1680-2008 (purchase order FL004201). The original purchase provided for software maintenance and support services through December 23, 2011 for an older version of VMWare software. This
modification will allow upgrades to the latest version of VMWare, and provide maintenance and support for the period December 24, 2011 to December 23, 2012, at a cost of $19,547.71.

The total cost of this modification includes $7,373.86 for software upgrades and $12,173.85 for an additional year of maintenance and support. As maintenance and support is expiring for the VMWare software purchased in 2008 and newer versions of VMWare have become available, this modification is needed to ensure continued maintenance and support. While the need for continued maintenance and support was known when the original agreement with OARnet was executed in 2010, the cost of incorporating VMWare purchased in 2008 was not known. Through the State of Ohio Virtualization Program, OARnet offers significant discounts on VMWare that are not available in the market place. So it is in the City’s best interests to procure VMWare through OARnet, instead of through another procurement process. The pricing offered the City reflects the agreed upon public sector discounts available to all participants in the State of Ohio Virtualization Program.

VMWare software is needed in order to operate virtual servers. Server virtualization has been adopted by the Department of Technology to reduce the costs of data systems, reduce power consumption and cooling requirements, and provide further capabilities for recovery and availability of information systems. The initial phase of the virtualization project was completed in 2009. The project is ongoing, and will allow the Department of Technology to further reduce costs of software licensing and hardware purchases, and realize power consumption savings.

This ordinance also requests to waive the competitive bidding provisions in accordance with section 329 of the Columbus City Code. This purchase with OARnet is from the State of Ohio Virtualization Program and is a critical part of DoT’s capital project for virtualization. OARnet pricing discounts for VMWare are greater than can be achieved through the bid process. This has been confirmed most recently in responses to solicitation SO037822, published in July 2011. The bid waiver will allow the City to continue the maintenance and support necessary for the operation of the VMWare software.

**EMERGENCY:**
Emergency designation is requested as to avoid interruption in the performance of services necessary in the usual daily operation, and to facilitate contract execution and related payment for services.

**FISCAL IMPACT:**
In 2010 the Department of Technology legislated $170,831.53 with OARnet/OSU for VMware software licenses, training and associated services and in 2011 $11,066.58 was legislated to increase the contract to pay for additional licenses and services needed. This modification request in the amount of $19,547.71 is to cover the cost associated with the VMware software upgrades, maintenance and support services for the period December 24, 2011 to December 23, 2012. Funds to cover these costs are available within the Department of Technology, Information Services Division 2011 Budget as a result of cost savings from other contract expenditure being lower than budget. The aggregate contract total including this request is $201,445.82.

**CONTRACT COMPLIANCE:**
Vendor: OARnet/OSU, 1224 Kinnear Rd Ste. 130, Columbus, OH 43212      CC#/FID#: 31-6025986 (105) Non Profit Organization (NPO)

To authorize the Director of the Department of Technology to modify an agreement with OARnet/OSU, for VMWare software upgrades, maintenance and support services; to waive the competitive bidding provisions of Columbus City Codes; to authorize the expenditure of $19,547.71 from the Department of Technology,
WHEREAS, this legislation will authorize the Director of the Department of Technology to modify an agreement with OARnet/OSU for VMWare software upgrades, maintenance and support services for the period December 24, 2011 to December 23, 2012 at a cost of $19,547.71, and

WHEREAS, this ordinance requests approval to waive the competitive bidding provisions of the Columbus City Codes (Section 329.07)(see attachment ORD1850-2011 OARnet BD) to allow the Department of Technology to continue the maintenance and support service for VMWare software, and

WHEREAS, an emergency exists in the usual daily operation of the Department of Technology in that it is immediately necessary for the Director of the Department of Technology to modify the agreement with OARnet/OSU, for the purchase of VMWare software upgrades, and the renewal of maintenance and support services, for the preservation of the public health, peace, property, safety and welfare; now, therefore

BE IT ORDAINED BY THE COUNCIL OF THE CITY OF COLUMBUS:

1. BACKGROUND
The Department of Public Service administers capital improvement projects and grants that are funded from many different funding sources. The proper and consistent accounting of these projects and grants is of paramount importance.

Accounting adjustments are needed within the Morse Road Phase 2 and Williams Road grants which are administered by the Department of Public Service. It is necessary to transfer funds between the State Issue II Street Projects Fund, The Federal-State Highway Engineering Fund and The Street and Highway Improvement Fund in order to eliminate deficits in these grants.

In a reimbursement grant it is necessary to estimate the local share according to the grant agreement. The local share and the grant amount are then appropriated and the expenditure authorized. As the reimbursements occur the cash balance in the grant will increase and ideally be zero at the end of the project. This is not always the case. Items thought to be reimbursable at the beginning of the grant may not be allowed as the reimbursement requests occur and result in a negative balance at the end of the project. Thus, it is necessary to transfer City Match Funds from available cash to zero out the grant.

The Morse Road Phase II project utilized multiple grants, one located in the State Issue II Fund, and one in the Fed-State Highway Engineering Fund. The Fed-State Highway Engineering Fund Grant has a surplus of City Match Funds remaining which are available to be utilized to eliminate the deficit in the State Issue II grant. The necessary funds will be transferred from the Fed-State Highway Engineering Fund grant to the Street and Highway Improvement Fund and then transferred to the State Issue II Fund grant to eliminate the current deficit.

To eliminate the deficit in the Williams Road grant, in order to close the grant it is necessary to transfer funds from available cash in the Street and Highway Improvement Fund.

Additionally, a partial cancellation of a Right-of-way encumbrance occurred in the Parsons/Livingston grant in the Fed-State Highway Engineering Fund. This encumbrance was established using City Funds only and can be utilized for other projects. It is therefore necessary to transfer these funds to the Street and Highway Improvement Fund to be utilized for other Capital Improvement projects.

2. FISCAL IMPACT
This ordinance will transfer monies between the The Fed-State Highway Engineering Fund, The State Issue II Street projects Fund and the Street and Highway Improvement Fund to eliminate deficits in the Morse Road Phase II and Williams Road Grants and to utilize canceled Right of Way Funds from the Parsons/Livingston grant for other Capital Improvement projects.

3. EMERGENCY DESIGNATION
Emergency action is requested to effect these accounting adjustments in order to maintain proper accounting practices.

To authorize the City Auditor to transfer monies within and between the Fed-State Highway Engineering Fund, The Street and Highway Improvement Fund and The State Issue II Street Projects Fund to eliminate deficits in
WHEREAS, the Department of Public Service administers capital improvement projects and grants that are funded from different funding sources; and

WHEREAS, the proper and consistent accounting of these projects and grants is of paramount importance; and

WHEREAS, for reimbursement grants the local match is estimated based on the terms of the grant agreement, and then the entire amount of funds needed are appropriated with the idea that the City will be reimbursed by the grant funds and at the end of the project the grant balance would be $0.00.

WHEREAS, during the course of the project requests for reimbursement may be disallowed because of differing opinions on the terms of the grant; and

WHEREAS, for this and other reasons at the end of the project the grant balance may end up in a deficit or surplus balance which requires the transfer of funding to make the grant whole; and

WHEREAS, the Morse Road Phase II grant in the Federal-State Highway Engineering Fund currently has a surplus of Local Match funds; and

WHEREAS, the Morse Road Phase II grant in the State Issue II Street Projects Fund currently has a deficit in the unencumbered cash balance; and

WHEREAS, the Williams Road Underpass Grant in the State Issue II Street Projects Fund currently has a deficit in the unencumbered cash balance; and

WHEREAS, it is necessary transfer monies between these funds and the Street and Highway Improvement Fund to eliminate these existing deficits so the grants may be closed; and

WHEREAS, a partial cancellation of a right-of-way encumbrance was executed for the Parsons/Livingston project; and

WHEREAS, the funding utilized for the encumbrance consisted of City cash but was transferred to the Fed-State Highway Engineering Fund to track costs associated with the project; and

WHEREAS, it is necessary to transfer these funds to the Street and Highway Improvement Fund in order to utilize the monies for other Capital Improvement projects; and

WHEREAS, this ordinance authorizes the City Auditor to transfer monies between these funds; and

WHEREAS, an emergency exists in the usual daily operation of the Department of Public Service, in that it is immediately necessary to effect these accounting adjustments as soon as possible, thereby preserving the public health, peace, property, safety and welfare; now, therefore,

BACKGROUND: This ordinance is being submitted to set forth the municipal services and zoning conditions the City of Columbus will provide upon annexation of a territory located in Franklin Township. This ordinance is required by the Ohio Revised Code (ORC) as enacted by the General Assembly of the State of Ohio. An annexation petition has been filed with Franklin County for this property. A service ordinance must be passed before the annexation meeting takes place before the Board of County Commissioners of Franklin County. Information regarding municipal services that would be available, should the subject site be annexed, has been compiled and is reflected in this ordinance. If the petition is approved by the County Commissioners, a second City ordinance accepting the annexation will be necessary to complete the process. The time frames specified in the ORC require that this legislation be filed as emergency.

FISCAL IMPACT: The statement of municipal services and zoning conditions for a proposed annexation area has no fiscal impact. While provision of the stated services does represent cost to the city, annexation of land also has the potential to create revenue to the city.

To set forth a statement of municipal services and zoning conditions to be provided to the area contained in a proposed annexation (AN11-014) of 1.6 acres in Franklin Township to the City of Columbus as required by the Ohio Revised Code; and to declare an emergency.

WHEREAS, a petition for the annexation of certain territory in Franklin Township was duly filed on behalf of the Ohio Hospital for Psychiatry, LLC on November 1, 2011; and

WHEREAS, a hearing on said petition is scheduled before the Board of County Commissioners of Franklin County on December 6, 2011; and
WHEREAS, the Ohio Revised Code requires that before said hearing the Municipal Legislative Authority shall adopt a statement indicating what services, if any, the municipal corporation will provide to the territory proposed for annexation upon annexation; and

WHEREAS, the Ohio Revised Code requires that before said meeting the Municipal Legislative Authority adopt an ordinance stating zoning buffering conditions; and

WHEREAS, the parcel is located within the boundaries of the adopted Franklinton Area Plan, which recommends mixed use/open space uses for this site; and

WHEREAS, upon annexation, properties will have uniform access to City services as they become available; and

WHEREAS, an emergency exists in the usual daily operation of the Department of Development in that it is immediately necessary to present this ordinance to the Franklin County Board of Commissioners in accordance with the Ohio Revised Code, all for the preservation of the public peace, property, health safety and welfare; now, therefore,

BE IT ORDAINED BY THE COUNCIL OF THE CITY OF COLUMBUS:
Section 1. That the City of Columbus will provide the following municipal services for 1.6 ± acres in Franklin Township upon the annexation of said area to the city of Columbus:

Public Safety: The City of Columbus, Department of Public Safety will be able to provide the appropriate level of safety related services to the proposed annexation area. Such services will include police and fire protection as well as emergency medical service to the subject property.

While the petitioner for annexation may have proposed future development plans for the property in question, the Department of Public Safety requests that the City exercise its discretion in the coming development planning and review process to ensure any future development will be properly served by the Department of Public Safety. Discussions between the City and the present property owner or any future developers regarding post annexation changes in zoning or other changes to the property should include the Department of Public Safety and the Department of Development to ensure any proposed development of the annexation property may be adequately accommodated. Specific details for safety services are dependent upon the parameters of future development that is ultimately approved by the City.

Sanitation: Single family homes would qualify for city provided 90-gallon front curb refuse collection service. Any other development would require compliance with Title 13 requirements; Commercial/business uses are required to provide their own refuse collection.

Transportation: Maintenance will be available for any additional right-of-way that may be included in this annexation request.

Water: The proposed annexation site will be a future building addition to a site currently within the City of Columbus that receives city water service. Water service to the future addition will be supplied thru the existing building's water and meter services. The City of Columbus Department of Utilities currently has no water service available in Greenlawn Avenue.

Sanitary Sewer: Department of Utility records indicate that there is an existing 12-inch sanitary sewer situated approximately 100 feet to the west of the western property line along Greenlawn Avenue that can provide sewer service. Mainline extension is required unless the parcel is combined with the adjacent property to the west. Any mainline extension is to be designed and constructed at the property owner's expense.

Storm Sewer: All storm sewers necessary for development/redevelopment of the area shall be designed in accordance with design policy and zoning codes in effect at the time of development. All sanitary and storm sewers required shall be constructed privately by the owners and developers at their own cost and expense with no cost to the City.

Section 2. If this 1.6 ± acre site is annexed, and if the City of Columbus permits uses in the annexed territory that the City of Columbus determines are clearly incompatible with the uses permitted under current county or township zoning regulations in the adjacent land remaining within Franklin Township, the Columbus City Council will require, in the zoning ordinance permitting the incompatible uses, the owner of the annexed territory to provide a buffer separating the use of the annexed territory and the adjacent land remaining within Franklin Township. For the purpose of this section, "buffer" includes open space, landscaping, fences, walls, and other structured elements: streets and street right-of-way; and bicycle and pedestrian paths and sidewalks.

Section 3. That for the reasons stated in the preamble hereto, which is hereby made a part hereof, this ordinance is hereby declared to be an emergency measure and shall take effect and be in force from and after
its passage and approval by the Mayor or ten days after passage if the Mayor neither approves nor vetoes the same.
