Ordinances and Resolutions
BACKGROUND: This legislation authorizes the Director of the Department of Public Utilities to enter into a general reimbursement agreement with Franklin County in the amount of $150,000 to reimburse the County for various design and construction costs associated with the Department's infrastructure.

Franklin County periodically sends the Department preliminary plans of County projects where City infrastructure exists in the County right-of-way. The City reviews the plans and determines if any work needs to be done to the City's infrastructure. Should there be a need for work to be performed on Department of Public Utilities infrastructure, the Department will enter into a Memorandum of Understanding (MOU) with the County, the County will bid the work and administer the contract, and the City will then reimburse the County for any costs associated with the City's infrastructure after the work is completed.

FEDERAL IDENTIFICATION NO: 31-6400067 (033)

FISCAL IMPACT: This legislation includes a transfer of funds within the Water Works Enlargement Voted Bonds Fund and an amendment to the 2011 Capital Improvements Budget.

WHEREAS, the City and Franklin County desire to enter into a general reimbursement agreement that would allow the Department to commit to paying for the City's infrastructure improvements when such infrastructure is within the County's project limits and their right-of-way; and

WHEREAS, it is necessary to authorize the Director of the Department of Public Utilities to establish an encumbrance to provide for reimbursement of design and construction costs associated with our infrastructure; and

WHEREAS, it is necessary for this Council to authorize the City Auditor to transfer funds within the Water Works Enlargement Voted Bonds Fund; and

WHEREAS, it is necessary to authorize an amendment to the 2011 Capital Improvements Budget for purposes of providing sufficient funding and expenditure authority for the aforementioned project expenditure; and
WHEREAS, it has become necessary in the usual daily operation of the City of Columbus, Department of Public Utilities, to authorize the Director of the Department of Public Utilities to enter into a general reimbursement agreement and to establish an encumbrance with Franklin County, to provide for agreement and reimbursement in the design and construction costs associated with the Department's infrastructure, thereby preserving the public health, peace, property, safety and welfare; Now, Therefore,

The Department of Public Utilities, Division of Sewerage and Drainage has a need for a Sewer Root Control program to kill root growth in sanitary sewer lines 8" to 36" in diameter and inhibit root re-growth. The Division has further determined that other chemicals are not acceptable for use in this program as being either non-effective or containing metam sodium which has been classified by the US EPA as a likely carcinogen.

**Council Variance Application:** CV11-034

**APPLICANT:** Metropolitan Holdings LLC; c/o Jeffrey L. Brown, Atty.; Smith & Hale, LLC; 37 West Broad Street, Suite 725, Columbus, OH 43215.

**PROPOSED USE:** Two (2) two-unit dwellings on the same lot for four contiguous lots.

**FIFTH BY NORTHWEST AREA COMMISSION RECOMMENDATION:** Approval.

**CITY DEPARTMENTS' RECOMMENDATION:** Approval. The applicant has received a recommendation of approval from the Development Commission for a concurrent rezoning (Z11-034) to the AR-1, Apartment Residential District for multi-unit residential development on four separate lots. Instead of constructing apartment buildings, the applicant proposes a sixteen-unit carriage house style development with two (2) two-unit dwellings on each lot; four dwellings fronting on Chesapeake Avenue, and four rear dwellings over garage parking spaces. A variance is necessary because the AR-1 District allows up to four units in the same dwelling, but does not permit two dwellings on the same lot. In addition to the use variance, requested variances are included for reductions to lot width, fronting, building setbacks, side yard, rear yard, and maneuvering. The site is located within the planning area of the *Fifth by Northwest Neighborhood Plan* (2009), which supports carriage house development if it abides by the Plan’s density and design considerations. Staff finds that the proposal meets the Plan’s considerations and will not add a new or
incompatible use to the area as there are other carriage houses within the neighborhood.

To grant a Variance from the provisions of Sections 3333.02, AR-12, ARLD and AR-1, Apartment residential district use; 3312.25, Maneuvering; 3333.055, Exception for single- or two-family dwelling; 3333.09, Area requirements; 3333.16, Fronting on a public street; 3333.18, Building lines; 3333.23(d), Minimum side yard permitted; and 3333.24, Rear yard, of the Columbus City Codes; for the property located at **1404 CHESAPEAKE AVENUE (43212)**, to permit two (2) two-unit dwellings on the same lot for four contiguous lots with reduced development standards in the AR-1, Apartment Residential District and **to declare an emergency** (Council Variance # CV11-034).

WHEREAS, by application No. CV11-034, the owner of property at **1404 CHESAPEAKE AVENUE (43212)**, is requesting a Council Variance to permit two (2) two-unit dwellings on the same lot for four contiguous lots with reduced development standards in the AR-1, Apartment Residential District; and

WHEREAS, Section 3333.02, AR-12, ARLD and AR-1, Apartment residential district use, permits two (2) apartment houses as an apartment complex on one lot but allows only one two-unit dwelling, while the applicant proposes to construct two (2) two-unit dwellings on the same lot for four contiguous lots; and

WHEREAS, Section 3312.25, Maneuvering, requires parking spaces to have sufficient access and maneuvering area on the lot where the parking spaces are located, while the applicant proposes to allow maneuvering over property lines for the garage parking spaces; and

WHEREAS, Section 3333.055, Exception for single- or two-family dwelling, allows one (1) one-unit dwelling or one (1) two-unit dwelling on a lot platted on or before January 14, 1959, while the applicant proposes to construct two (2) two-unit dwellings on the same lot for four contiguous lots; and

WHEREAS, Section 3333.09, Area requirements, requires a minimum lot width of fifty (50) feet in the AR-1, Apartment Residential District, while the applicant proposes to maintain lot widths of thirty-eight (38) feet on Lot 1, and forty (40) feet on Lots 2, 3, and 4; and

WHEREAS, Section 3333.16, Fronting on a public street, requires a dwelling unit to have frontage on a public street, while the applicant proposes no frontage for the rear (carriage house) dwellings; and

WHEREAS, Section 3333.18, Building lines, requires the building setback to be twenty-five (25) feet from Chesapeake Avenue, while the applicant proposes building lines ranging between eleven feet three inches (11’3”) and fifteen feet (15”) for the front dwellings as shown on the Site Plan; and

WHEREAS, Section 3333.23(d), Minimum side yard permitted, requires the side yard to be equal to one-sixth of the height of the building where it exceeds two and one-half stories in height, or seven (7) feet for a forty-two foot high building, while the applicant proposes minimum side yards of three feet one inch (3’1”) for the rear dwellings, and four feet (4’) for the front dwellings as shown on the Site Plan; and

WHEREAS, Section 3333.24, Rear yard, requires that each dwelling, apartment house, or other principal building shall be erected so as to provide a rear yard totaling no less than twenty-five (25) percent of the total lot area, while the applicant proposes rear yards of nine percent (9%) for Lot 1, and twelve percent (12%) for Lots 2, 3, and 4; and

WHEREAS, the Fifth By Northwest Area Commission recommends approval; and
WHEREAS, the Columbus Public Health Healthy Places program reviews applications for active living features, and recognizes that this development has new sidewalks that are a minimum of five feet in width, and sidewalk connections from the carriage houses to the new public sidewalk along Chesapeake Avenue; and

WHEREAS, City Departments recommend approval because the requested variance to allow a sixteen-unit carriage house style development meets the Fifth by Northwest Neighborhood Plan density and design considerations. Staff supports the proposed use which will not add a new or incompatible use to the area as there are other carriage house developments within the neighborhood; and

WHEREAS, said ordinance requires separate submission for all applicable permits and Certificate of Occupancy for the proposed use; and

WHEREAS, said variance will not adversely affect the surrounding property or surrounding neighborhood; and

WHEREAS, the granting of said variance will not impair an adequate supply of light and air to adjacent properties or unreasonably increase the congestion of public streets, or unreasonably diminish or impair established property values within the surrounding area, or otherwise impair the public health, safety, comfort, morals, or welfare of the inhabitants of the City of Columbus; and

WHEREAS, the granting of said variance will alleviate the difficulties encountered by the owners of the property located at 1404 CHESAPEAKE AVENUE (43212), in using said property as desired; and

WHEREAS, an emergency exists in the usual daily operation in the City of Columbus in that it is immediately necessary to pass this ordinance to begin construction as soon as possible for the immediate preservation of the public peace, property, health and safety; now, therefore:

BE IT ORDAINED BY THE COUNCIL OF THE CITY OF COLUMBUS:

SECTION 1. That a variance from the provisions of Sections 3333.02, AR-12, ARLD and AR-1, Apartment residential district use; 3312.25, Maneuvering; 3333.055, Exception for single-or two-family dwelling; 3333.09, Area requirements; 3333.16, Fronting on a public street; 3333.18, Building lines; 3333.23(d), Minimum side yard permitted; and 3333.24, Rear yard, of the Columbus City Codes, is hereby granted for the property located at 1404 CHESAPEAKE AVENUE (43212), insofar as said sections prohibit two (2) two-unit dwellings on the same lot for four contiguous lots, with maneuvering for parking spaces over property lines, reduced lot widths ranging from thirty-eight feet (38’) to forty feet (40’), rear dwellings having no frontage on a public street, building lines ranging between eleven feet three inches (11’3”) and fifteen feet (15”) for the front dwellings, minimum side yards ranging between three feet one inch (3’1”) to four feet (4”) for the rear dwellings, and four feet (4”) for the front dwellings, and reduced rear yards of nine percent (9%) for Lot 1, and twelve percent (12%) for Lots 2, 3, and 4; said property being more particularly described as follows:

1404 CHESAPEAKE AVENUE (43212), being 0.64± acres located on the north side of Chesapeake Avenue, 980± feet east of North Star Road, and being more particularly described as follows:

Situated in the County of Franklin, in the State of Ohio, and in the Township of Clinton:

Being Lots Numbered 58, 59, 60 and 61 of LINCOLN HEIGHTS SUBDIVISION to the City of Columbus, Ohio, as the same are numbered and delineated upon the recorded plat thereof, of record in Plat Book 7, Page

Said property is shown on the Franklin County Auditor's Records as Parcel Numbers 130-001384, 130-005580, 130-002452, and 130-002453.

SECTION 3. That this ordinance is further conditioned on the Subject Site being developed in general conformance with the site and elevation plans titled, "1404 CHESAPEAKE AVENUE ZCL-1, ZCL-2, and ZCL-3," drawn by V Design, dated January 16, 2012, and signed by Matthew R. Vekasy, Metropolitan Holdings LLC, Applicant. Council Variance Application: CV11-035

APPLICANT: Metropolitan Holdings LLC; c/o Jeffrey L. Brown, Atty.; Smith & Hale, LLC; 37 West Broad
Street, Suite 725, Columbus, OH 43215.

PROPOSED USE: Two (2) two-unit dwellings on the same lot for two contiguous lots.

FIFTH BY NORTHWEST AREA COMMISSION RECOMMENDATION: Approval.

CITY DEPARTMENTS’ RECOMMENDATION: Approval. The applicant has received a
recommendation of approval from the Development Commission for a concurrent rezoning (Z11-035) to the
AR-1, Apartment Residential District for multi-unit residential development on two separate lots. Instead of
constructing apartment buildings, the applicant proposes an eight-unit carriage house style development with
two (2) two-unit dwellings on each lot; two dwellings fronting on Chesapeake Avenue, and two rear dwellings
over garage parking spaces. A variance is necessary because the AR-1 District allows up to four units in the
same dwelling, but does not permit two dwellings on the same lot. In addition to the use variance, requested
variances are included for reductions to lot width, fronting, building setbacks, side yard, rear yard, and
maneuvering. The site is located within the planning area of the Fifth by Northwest Neighborhood Plan
(2009), which supports carriage house development if it abides by the Plan’s density and design
considerations. Staff finds that the proposal meets the Plan’s considerations and will not add a new or
incompatible use to the area as there are other carriage houses within the neighborhood.

To grant a Variance from the provisions of Sections 3333.02, AR-12, ARLD and AR-1, Apartment residential
district use; 3312.25, Maneuvering; 3333.055, Exception for single- or two-family dwelling; 3333.09, Area
requirements; 3333.16, Fronting on a public street; 3333.18, Building lines; 3333.23(d), Minimum side yard
permitted; and 3333.24, Rear yard, of the Columbus City Codes; for the property located at 1438
CHESAPEAKE AVENUE (43212), to permit two (2) two-unit dwellings on the same lot for two contiguous
lots with reduced development standards in the AR-1, Apartment Residential District and to declare an
emergency (Council Variance # CV11-035).

WHEREAS, by application No. CV11-035, the owner of property at 1438 CHESAPEAKE AVENUE
(43212), is requesting a Council Variance to permit two (2) two-unit dwellings on the same lot for two
contiguous lots with reduced development standards in the AR-1, Apartment Residential District; and

WHEREAS, Section 3333.02, AR-12, ARLD and AR-1, Apartment residential district use, permits two (2) apartment houses as an apartment complex on one lot but allows only one two-unit dwelling, while the applicant proposes to construct two (2) two-unit dwellings on the same lot for two contiguous lots; and

WHEREAS, Section 3312.25, Maneuvering, requires parking spaces to have sufficient access and maneuvering area on the lot where the parking spaces are located, while the applicant proposes to allow maneuvering over property lines for the garage parking spaces; and

WHEREAS, Section 3333.055, Exception for single- or two-family dwelling, allows one (1) one-unit dwelling or one (1) two-unit dwelling on a lot platted on or before January 14, 1959, while the applicant proposes to construct two (2) two-unit dwellings on the same lot for two contiguous lots; and

WHEREAS, Section 3333.09, Area requirements, requires a minimum lot width of fifty (50) feet in the AR-1, Apartment Residential District, while the applicant proposes to maintain lot widths of forty (40) feet; and

WHEREAS, Section 3333.16, Fronting on a public street, requires a dwelling unit to have frontage on a public street, while the applicant proposes no frontage for the rear carriage house dwellings; and

WHEREAS, Section 3333.18, Building lines, requires the building setback to be twenty-five (25) feet from Chesapeake Avenue, while the applicant proposes building lines for the front dwellings of eleven feet three inches (11’3”) for Lot 1, and eleven feet five inches (11’5”) for Lot 2 as shown on the Site Plan; and

WHEREAS, Section 3333.23(d), Minimum side yard permitted, requires the side yard to be equal to one-sixth of the height of the building where it exceeds two and one-half stories in height, or seven (7) feet for a forty-two foot high building, while the applicant proposes minimum side yards of three feet one inch (3’1”) for the rear dwellings, and four feet (4’) for the front dwellings as shown on the Site Plan; and

WHEREAS, Section 3333.24, Rear yard, requires that each dwelling, apartment house, or other principal building shall be erected so as to provide a rear yard totaling no less than twenty-five (25) percent of the total lot area, while the applicant proposes rear yards of twelve percent (12%); and

WHEREAS, the Fifth By Northwest Area Commission recommends approval; and

WHEREAS, the Columbus Public Health Healthy Places program reviews applications for active living features, and recognizes that this development has new sidewalks that are a minimum of five feet in width, and sidewalk connections from the carriage houses to the new public sidewalk along Chesapeake Avenue; and

WHEREAS, City Departments recommend approval because the requested variance to allow an eight-unit carriage house style development meets the Fifth by Northwest Neighborhood Plan density and design considerations. Staff supports the proposed use which will not add a new or incompatible use to the area as there are other carriage house developments within the neighborhood; and

WHEREAS, said ordinance requires separate submission for all applicable permits and Certificate of Occupancy for the proposed use; and

WHEREAS, said variance will not adversely affect the surrounding property or surrounding neighborhood; and
WHEREAS, the granting of said variance will not impair an adequate supply of light and air to adjacent properties or unreasonably increase the congestion of public streets, or unreasonably diminish or impair established property values within the surrounding area, or otherwise impair the public health, safety, comfort, morals, or welfare of the inhabitants of the City of Columbus; and

WHEREAS, the granting of said variance will alleviate the difficulties encountered by the owners of the property located at 1438 CHESAPEAKE AVENUE (43212), in using said property as desired; and

WHEREAS, an emergency exists in the usual daily operation in the City of Columbus in that it is immediately necessary to pass this ordinance to begin construction as soon as possible for the immediate preservation of the public peace, property, health and safety; now, therefore:

BE IT ORDAINED BY THE COUNCIL OF THE CITY OF COLUMBUS:

SECTION 1. That a variance from the provisions of Sections 3333.02, AR-12, ARLD and AR-1, Apartment residential district use; 3312.25, Maneuvering; 3333.055, Exception for single- or two-family dwelling; 3333.09, Area requirements; 3333.16, Fronting on a public street; 3333.18, Building lines; 3333.23(d), Minimum side yard permitted; and 3333.24, Rear yard, of the Columbus City Codes, is hereby granted for the property located at 1438 CHESAPEAKE AVENUE (43212), insofar as said sections prohibit two (2) two-unit dwellings on the same lot for two contiguous lots, with maneuvering for parking spaces over property lines, reduced lot widths of forty feet (40’), rear dwellings having no frontage on a public street, building lines of eleven feet three inches (11’3”) and eleven feet five inches (11’5”) for the front dwellings, minimum side yards of three feet one inch (3’1”) for the rear dwellings, and four feet (4’) for the front dwellings, and reduced rear yards of twelve percent (12%); said property being more particularly described as follows:

1438 CHESAPEAKE AVENUE (43212), being 0.32± acres located on the north side of Chesapeake Avenue, 820± feet east of North Star Road, and being more particularly described as follows:

Situated in the County of Franklin, in the State of Ohio and in the Township of Clinton:

Being Lots Numbered 54 and 55 of LINCOLN HEIGHTS SUBDIVISION to the City of Columbus, Ohio, as the same are numbered and delineated upon the recorded plat thereof, of record in Plat Book 7, Page 250 Recorder’s Office, Franklin County, Ohio.

Said property is shown on the Franklin County Auditor's Records as Parcel Numbers 130-001400 and 130-001395.

SECTION 2. That this ordinance is conditioned on and shall remain in effect only for so long as said property is used for two (2) two-unit dwellings on the same lot for two contiguous lots, or those uses permitted in the AR-1, Apartment Residential District.

SECTION 3. That this ordinance is further conditioned on the Subject Site being developed in general conformance with the site and elevation plans titled, "1438 CHESAPEAKE AVENUE ZCL-1 and ZCL-2," drawn by V Design, dated January 16, 2012, and signed by Matthew R. Vekasy, Metropolitan Holdings LLC, Applicant. The Plans may be slightly adjusted to reflect engineering, topographical, or other site data developed at the time of the development and when engineering and architectural drawings are completed. Any slight adjustments to the Plans shall be subject to review and approval by the Director of the Department of Building and Zoning Services, or a designee, upon submission of the appropriate data regarding the
proposed adjustment.

SECTION 4. That this ordinance is further conditioned on the applicant obtaining all applicable permits and a Certificate of Occupancy for the proposed use.

SECTION 4. That this ordinance shall take effect and be in force from and after the earliest period allowed by law. That for the reasons stated in the preamble hereto, which is hereby made a part hereof, this ordinance is hereby declared to be an emergency measure and shall take effect and be in force from and after its passage and approval by the Mayor or 10 days after its passage if the Mayor neither approves nor vetoes the same.

The purpose of this legislation is to authorize the Director of Public Utilities to enter into an agreement with the Franklin Soil and Water Conservation District (FSWCD) for the GreenSpot Backyard Conservation Program for the Fiscal Year 2012.

The program was launched in 2011 through a partnership with the City of Columbus, FSWCD, and watershed groups. Also involved in the program is the manufacturer of the rain barrels EarthMinded. The goal of the program is to improve environmental stewardship and water conservation of the City of Columbus residents through outreach, workshops and educational material.

One of the benefits for residents is the distribution of rain barrels. In order to obtain a rain barrel at a discounted cost ($45) residents had to attend one (1) of 14 in-person rain barrel workshops. In addition, an online option was designed by the FSWCD to allow participants to view a rain barrel installation video, observe information discussing stormwater and water conservation and take a quiz. Residents were also provided with a fact sheet, access to various websites and other backyard conservation tips. The residents were given one rain barrel per household. In 2011 there were 730 rain barrels distributed.

The 2011 program was a success and the message of water conservation and storm water management was well received by the community. The Department of Public Utilities would like to support the program in 2012. A COMPLETE REPORT FROM THE 2011 PROGRAM IS ATTACHED TO THIS LEGISLATION.

In 2012, the program will continue to focus on providing rain barrels, conservation and storm water education, outreach and marketing, working with watershed groups such as Friends of the Lower Olentangy Watershed (FLOW) and Friends of Alum Creek and Tributaries (FACT), and the promotion of the City of Columbus GreenSpot and Get Green Columbus Initiatives. Furthermore, 50 rain barrels will be distributed to participants of the City Low Income Program at no charge. The program will also reach out to other communities and well making efforts to tie into Columbus Neighborhood Pride program and Area Commissions. Furthermore project partners will explore methods to reach economically disadvantaged communities and investigate grant opportunities.

The purpose of this legislation is to authorize the Director of Finance and Management to establish a Blanket Purchase Order for the purchase of Woodchips for the Division of Sewerage and Drainage from an established Universal Term Contract with Edwards Landclearing Inc.

Woodchips are used as a bulking agent at the Compost Facility within the Division of Sewerage and Drainage and are a vital part of the composting process. To offset the costs of purchasing the material, the Compost Facility has established a wood grinding services contract. The contract allows the Compost Facility to purchase less material if yard waste and trees are delivered to the Compost Facility to be ground into woodchips. In 2006, the Compost Facility was able to produce more woodchips with the service contract. However there are events in which the grinding service does not produce enough material so the Compost Facility must purchase woodchips from the established Universal Term Contract. The contract number is FL005111/SA004111, which expires on November 30, 2013.

FISCAL IMPACT: $130,000.00 is budgeted for this expenditure.

1. INTRODUCTION

The Pizzuti Development Company is proposing a mixed use Commercial Development that encompasses both sides of a two block area of North High Street in the Short North area of Downtown Columbus. The development is being undertaken in cooperation/partnership with the City of Columbus as signature projects for both the Italian Village Commission Area and Victorian Village Commission Area.

The proposed development will consist of two (2) sub-areas: Sub-Area A, addressed as 616 North High Street, and containing the property at 618 North High Street within the Italian Village Commission area, will include a maximum 145 room luxury boutique hotel and related parking. The hotel will include customary ancillary operations (ie office, catering, conference rooms, bar and restaurant) and other retail uses. The hotel is bounded by High Street to the West and Pearl Street to the East.

Sub-Area B, addressed as 623 North High Street, and containing the properties at 621-629 High Street and 632 North Park Street within the Victorian Village Commission area, will consist of an office building which fronts on High Street and a public 313 space parking garage which fronts on Russell Street.

Also proposed at 632 North Park Street is a world class art gallery, which is a critical part of the proposed mixed use development as it proposes a very high end adaptive re-use of the historically significant former office building of The Order of United Commercial Travelers of America. (U.C.T.)
**SUB-AREA A**

1. **Permitted Uses:** The following uses shall be permitted pursuant to C.C.C. Section 3356.03 (C-4, Commercial District): hotel, including any customary ancillary operations such as office, catering services, bars and restaurants, work out facilities and the like.

2. **Prohibited Uses:** No billboards shall be permitted

3. **Development Standards:** Unless otherwise indicated herein, the applicable development standards shall be those standards contained in Chapter 3356 (C-4) of the Columbus City Code.

A. **DENSITY, HEIGHT, LOT AND/OR SETBACK COMMITMENTS:**

1. **The maximum number of guest rooms in the hotel shall be 145.**

2. **Building Setbacks:** The minimum building setback from North High Street shall be reduced from twenty-five (25) feet to zero (0) feet, which will match the surrounding commercial setbacks on High Street.

3. **Height District:** The Site shall be designated in the H-110 height district per C.C.C. 3309.14. Roof top mechanical equipment and its associated screening, parapet walls, elevator penthouses and similarly customary roof top equipment will not be considered in determining building heights. The subject hotel is 114 ft. high and the applicant therefore requests a 10 foot variance to the H-110 height district for the subject site.

B. **ACCESS, LOADING, PARKING AND/OR OTHER TRAFFIC RELATED COMMITMENTS:**

1. **Any and all traffic related commitments shall be installed and paid by the developer as designated, and to the specification of the City of Columbus Planning and Operations Division.**

2. **Parking:** The Applicant requests a variance from Section 3312.49 (minimum parking spaces required) to reduce the required number of on site parking spaces for each of the buildings in the proposed development, in consideration of the parking garage to be constructed. Applicant requests a zero (0) on site parking space requirement for this site, conditioned on the construction of the parking garage. The five (5) story parking garage will provide 313 parking spaces for use by each building’s employees and customers. The stand alone parking requirements per code for the hotel use is 145 parking spaces and 8 bicycle racks, which will be provided for in the 313 space parking garage on the West side of High Street in Sub-Area B.

3. **Loading Spaces:** Section 3312.53 (minimum loading spaces required) requires one (1) loading space for the hotel. Applicant requests a variance from this requirement to allow no loading space for the hotel, in recognition of the alley to the rear of the hotel building.

C. **BUILDING DESIGN AND/OR EXTERIOR TREATMENT COMMITMENTS:**

In general, the building exteriors will be constructed of brick, EIFS (exterior insulation and finish system) glass and metal. The podium (levels 1 and 2) will be comprised of brick, EIFS and glass with minimal metal (such as trim awnings, etc.) The east-west portion of the L-shaped tower will be comprised of glass and metal.       The building setback for the Art Gallery (former UCT Building) will be the established building line setback of twenty-seven (27) feet.

   2. **Height District:** The site shall be designated in the H-110 height district per C.C.C. 3309.14. Roof top mechanical equipment and its associated screening, parapet walls, elevator penthouses and similarly customary rooftop equipment will not be considered in determining building heights.

   3. **Parking:** The Applicant requests a variance from C.C.C. Section 3312.49 (minimum parking spaces required) to reduce the required number of on site parking spaces for each of the buildings in the proposed development in consideration of the parking garage to be constructed. The five (5) story parking garage will...
provide 313 parking spaces for use by each of the building’s employees and customers. The stand-alone parking requirements for each of the buildings in both Sub-Areas are as follows:

The required number of bicycle parking areas/racks will be provided either near the building entrances or within the parking garage.

4. Loading Spaces: Section 3312.53 (minimum loading spaces required) requires one loading space for the office building. The glass of the office exterior will be complemented by brick, EIFS and metal elements. The upper levels of the garage exterior will be brick and EIFS with metal infill panels to partially screen openings and provide for natural ventilation of the garage interior. At ground level, the garage exterior will be of the same (or similar) screening material as the openings above.

All roofs will be flat and will contain parapets concealing visibility of mechanical equipment from street level.

Ground level mechanical equipment is currently planned to be contained within the buildings themselves and, as such, screening of these elements will be by the aforementioned building materials.

Exterior building illumination shall be permitted, provided such light source is approved by the reviewing village commission. No-off site spillage will occur.

These commitments shall be adhered to unless otherwise approved by the Victorian Village Commission.

D. LIGHTING and/or OTHER ENVIRONMENTAL COMMITMENTS:
1. All parking lot or ground mounted lighting shall use fully shielded cutoff fixtures (down lighting) except there may be accent lighting/uplighting on landscaping in front of structures and ground signs, provided the fixtures are screened with landscaping to prevent glare.

2. All external outdoor lighting fixtures to be used shall be from the same or similar manufacture’s type to ensure aesthetic compatibility.

3. Light poles in parking lot areas shall not exceed 18 feet in height.
4. These commitments shall be adhered to unless otherwise approved by the Victorian Village Commission

SECTION 4. That the City Auditor is authorized to make any accounting changes to revise the funding source for all contracts or contract modifications associated with this ordinance.

SECTION 5. That this Ordinance shall take effect and be in force from and after the earliest period allowed by law.

BACKGROUND: The Department of Public Safety, Division of Police, upgraded its existing Automated Fingerprint Identification System (AFIS) in 2005. The Division of Police uses this technology for fingerprint identification. In 2008, the Division of Police entered into a maintenance contract (EL007917), including the option to renew for four additional, one year terms. This ordinance is requesting to modify the existing contract to renew services and set up funding for the final year of maintenance. A total of $476,282.50 to cover the cost of maintenance will be funded from the General Fund.

Bid Information: The proprietary nature of AFIS technology and the prohibitive cost of conversion to a different system mandate the maintenance contract be purchased from the sole source provider, Morpho Trak, Inc.

This company is not debarred according to the Federal excluded parties listing or prohibited from being
awarded a contract according to the Auditor of State unresolved findings for recovery certified search.

Contract Compliance No.: 33-0154789, expires 2/08/2014

In 2009, $516,615.17 was encumbered and spent using General and Grant Funds for a 15 month maintenance contract from December 2008 through February, 2010.

SECTION 6. That the City Auditor is authorized to make any accounting changes to revise the funding source for all contracts or contract modifications associated with this ordinance.

SECTION 7. That for the reasons stated in the preamble hereto, which is hereby made a part hereof, this ordinance is hereby declared to be an emergency measure and shall take effect and be in force from and after its passage and approval by the Mayor or ten days after passage if the Mayor neither approves nor vetoes the same.

BACKGROUND: This legislation authorizes the Finance and Management Director to modify and increase a contract on behalf of the Office of Construction Management with Capital City Electric, LLC. for the purpose of conducting energy efficient interior lighting renovations on Fire Station, No. 13 at 309 Arcadia Avenue. This is the final fire station retro-fit identified through this project, which will benefit the City through lower energy costs, enhanced lighting, and a lower carbon footprint that is only made possible by this renovation.

From this lighting renovation program, a project was established to retrofit up to 26 fire stations with T-8 fluorescent lighting, LED exit lighting, occupancy sensors, lighting control systems, and code compliant wiring, conduits and panels to increase efficiency, lower energy costs, and meet current code requirements. The retro-fitted locations meet all current electrical codes and lighting standards and the operational needs of the firefighters.

Thus far, power consumption at the stations was reduced by 210,000kW while annual electric utility usage will be reduced by 919,800kW-hrs. This is the equivalent of reducing 644 metric tons of CO2 emissions, or 71,092 gallons of gasoline consumption and equals approximately $93,408 in annual energy cost savings.

The original contract was authorized by Ordinance No. 1667-2010, passed December 9, 2010, in the amount of $961,254.00. The contract was subsequently modified by Ordinance No. 0547-2011, passed March 13, 2011, in the amount of $595,000.00 for additional fire stations, and then again via Ordinance 0897-2011, passed June 23, 2011, in the amount of $852,053.00 to renovate yet more fire stations. These additional stations were added, as additional monies were made available for the lighting renovation project as other projects were completed, closed out, or reprioritized.

This modification will allow the City to conclude the energy efficient interior lighting renovations for the final Fire Station of the 26 stations that were identified at the start of the project. Capital City Electric, LLC. has institutional knowledge of the project and performed the original renovations. It is practical and cost effective for the coordination and continuity of the project to use them for this modification. It would not be in the best interests of the City to re-bid the last station renovation as prices previously established in the contract were used to determine the cost of this modification, and they were the initial lowest and most responsive and responsible bidder.

Emergency action is requested so the renovations to be undertaken can begin as soon as possible and the city can benefit from the reductions in energy usage and associated costs.
Fiscal Impact: The amount of the original contract was $961,254.00. The amount of the first modification was $595,000.00. The amount of the second modification was $852,053.00. The cost of this modification is $74,166.00. The total cost of this contract is therefore $2,482,473.00. Funding for this modification will be from Utility Retroactive Discounts earned from the American Electric Power (AEP) gridSMART program. This incentive funding was earned upon completion of the initial sixteen Stations powered by AEP.

To amend the the 2011 Capital Improvement Budget; to authorize the Finance and Management Director to modify a contract on behalf of the Office of Construction Management with Capital City Electric, LLC. for the renovation of energy efficient interior lighting for the apparatus bay interior of Fire Station No. 13, 309 Arcadia Avenue; to appropriate $86,396.25 within the General Permanent Improvement Fund; to authorize the expenditure of $74,166.00 from the General Permanent Improvement Fund; and to declare an emergency.

WHEREAS, Ordinance No. 1667-2010, passed December 9, 2010, authorized the original contract for renovation of energy efficient interior lighting for the City of Columbus fire stations, the contract was modified by Ordinance No. 0547-2011, passed March 13, 20011 and by Ordinance 0897-2011, passed June 23, 2011; and

WHEREAS, it is necessary to modify the contract for renovation of energy efficient interior lighting for the apparatus bay interior of Fire Station No. 13, 309 Arcadia Avenue; and

WHEREAS, it is necessary to appropriate within the General Permanent Improve Fund to allow the expenditure of said funds; and

WHEREAS, monies are available for this contract modification from incentive proceeds provided to the City by the AEP gridSMART program due to earlier efforts by the City to reduce energy consumption at these same Fire Stations; and

WHEREAS, an emergency exists in the usual daily operation of the Finance and Management Department, Office of Construction Management, in that it is immediately necessary to modify a contract with Capital City Electric, LLC. for the renovation of energy efficient interior lighting apparatus bay lighting for Fire Station No. 13, 309 Arcadia Avenue so that the renovations to be undertaken can begin as soon as possible; thereby preserving the public health, peace, property, safety and welfare; now, therefore:

BE IT ORDAINED BY THE COUNCIL OF THE CITY OF COLUMBUS:

BACKGROUND: In 1999 the Capitol South Community Urban Redevelopment Corporation, the Greater Columbus Chamber of Commerce and the Columbus Department of Trade and Development initiated an effort to work with downtown property owners to create a Special Improvement District (SID) in the core area of downtown. Property owners were surveyed and overwhelmingly were in support of creating a SID. The SID was created for a five (5) year period and was very successful. The 5 year period concluded in 2006 and the property owners started again with the creation of another SID, with slightly different boundaries, but still called the Capital Crossroads Special Improvement District. In 2011 the SID was reauthorized for another 5 years. The property owners initiated a one petition process in which at least 60% of the property owners within the District signed that they were interested in forming a SID and approving the Articles of Incorporation. This petition was accepted and approved by Columbus City Council by Ordinance 0338-2011, passed March 14, 2011. Another action required by the Ohio Revised Code is the approval of the Plan of Improvements and Services and the inclusion of City owned property in said plan. This legislation was approved by Columbus City Council by Resolution 0025X-2011, passed March 14, 2011. The third piece of legislation was to declare the necessity to implement the Plan of Services adopted by the Capital Crossroads Special Improvement District of Columbus, Inc., and to levy a special assessment for the services. This legislation was approved by Columbus City Council by Resolution 0046X-2011, passed April 4, 2011. A final piece of legislation, providing for the levy of assessment to property owners, was approved by City Council by Ordinance 0936-2011, passed June 20, 2011. Each assessment is to be returned to the SID for operational requirements as set forth in the District Plan.

This legislation appropriates and approves the expenditure of assessments collected in Fiscal Year 2012 that are to be returned to the SID. This legislation also allows the Director of Development to enter into a contract with the Capital Crossroads Special Improvement District of Columbus, Inc. for disbursement of these funds.

FISCAL IMPACT: Funds for this expenditure will be received from the levy of assessments collected from property owners in the Capital Crossroads Special Improvement District. These funds are deposited into and expended from Agency Fund 307.

AN12-002

BACKGROUND: This ordinance is being submitted to set forth the municipal services and zoning conditions the city of Columbus will provide upon annexation of a territory located in Madison Township. This ordinance is required by the Ohio Revised Code (ORC) as enacted by the General Assembly of the State of Ohio. An annexation petition has been filed with Franklin County for this property. A service ordinance must be passed before the annexation hearing takes place before the Board of County Commissioners of Franklin County. Information regarding municipal services that would be available, should the subject site be annexed, has been compiled and is reflected in this ordinance. If the petition is approved by the County Commissioners, a second City ordinance accepting the annexation will be necessary to complete the process. The time frames specified in the ORC require that this legislation be filed as emergency.

FISCAL IMPACT: The statement of municipal services and zoning conditions for a proposed annexation area has no fiscal impact. While provision of the stated services does represent cost to the city, annexation of land also has the potential to create revenue to the city.

To set forth a statement of municipal services and zoning conditions to be provided to the area contained in a proposed annexation (AN12-002) of .592 ± acres of Right-of-Way in Madison Township to the City of Columbus.
Columbus as required by the Ohio Revised Code; and to declare an emergency.

WHEREAS, a petition for the annexation of certain territory in Madison Township was duly filed on behalf of Columbus Municipal Airport Authority (Rickenbacker) on February 21, 2012; and

WHEREAS, a hearing on said petition is scheduled before the Board of County Commissioners of Franklin County on March 27, 2012; and

WHEREAS, the Ohio Revised Code requires that before said hearing the Municipal Legislative Authority shall adopt a statement indicating what services, if any, the municipal corporation will provide to the territory proposed for annexation upon annexation; and

WHEREAS, the Ohio Revised Code requires that before said meeting the Municipal Legislative Authority adopt an ordinance stating zoning buffering conditions; and

WHEREAS, the proposed right-of-way is not located within the boundaries of an adopted area plan; and

WHEREAS, upon annexation, the proposed right-of-way will not require City water, sewer or refuse service; and

WHEREAS, the proposed right-of-way annexation has been approved by the Transportation Division and will be used to enhance existing City roadway at the intersection of Rickenbacker Parkway West and Alum Creek Drive; and

WHEREAS, an emergency exists in the usual daily operation of the Department of Development in that it is immediately necessary to present this ordinance to the Franklin County Board of Commissioners in accordance with the Ohio Revised Code all for the preservation of the public peace, property, health safety and welfare; now, therefore,

BE IT ORDAINED BY THE COUNCIL OF THE CITY OF COLUMBUS:

Section 1. That upon annexation, the City of Columbus will provide the following municipal services to the .592 ± acres of right-of-way to be added to an existing City roadway at the intersection of Alum Creek Drive and Rickenbacker Parkway in Madison Township:

Transportation: Maintenance will be available for any additional right-of-way that may be included in this annexation request. If this annexation contains existing signalized intersections, those intersections and signals are subject to Transportation Division Policy, which appeared in the December 6, 2003 Columbus City Bulletin, and any subsequent updates thereto.

Public Safety: The City of Columbus, Department of Public Safety will be able to provide the appropriate level of safety related services to the proposed annexation area. Such services will include police and fire protection as well as emergency medical service to the subject property.

While the petitioner for annexation may have proposed future development plans for the property in question, the Department of Public Safety requests that the City exercise its discretion in the coming development
planning and review process to ensure any future development will be properly served by the Department of Public Safety. Discussions between the City and the present property owner or any future developers regarding post annexation changes in zoning or other changes to the property should include the Department of Public Safety and the Department of Development to ensure any proposed development of the annexation property may be adequately accommodated. Specific details for safety services are dependent upon the parameters of future development that is ultimately approved by the City.

**Refuse Collection:** No refuse collection services are required for this site.

**Sanitary Sewer:** No sanitary sewer services are required for this site.

**Water:** No water utility services are required for this site.

**Storm Sewer:** All storm sewers necessary for development/redevelopment of the area shall be designed in accordance with design policy and zoning codes in effect at the time of development. All sewers required shall be constructed privately by the owners and developers at their own cost and expense with no cost to the City.

**Section 2.** If this .592 ± acre section of right-of-way is annexed, and if the City of Columbus permits uses in the annexed territory that the City of Columbus determines are clearly incompatible with the uses permitted under current county or township zoning regulations in the adjacent land remaining within Madison Township, the Columbus City Council will require, in the zoning ordinance permitting the incompatible uses, the owner of the annexed territory to provide a buffer separating the use of the annexed territory and the adjacent land remaining within Madison Township. For the purpose of this section, "buffer" includes open space, landscaping, fences, walls, and other structured elements: streets and street right-of-way; and bicycle and pedestrian paths and sidewalks.

**Section 3.** That for the reasons stated in the preamble hereto, which is hereby made a part hereof, this ordinance is hereby declared to be an emergency measure and shall take effect and be in force from and after its passage and approval by the Mayor or ten days after passage if the Mayor neither approves nor vetoes the same.

Background: This ordinance authorizes the Director of Public Utilities to execute a compromise agreement with Inland Products, Inc., as a settlement of a lawsuit filed by Inland Products, Inc. for damages relating to flooding that occurred during the early days of January of 2005. Inland Products, Inc. has claimed damages in the total amount of Eleven Million Six Hundred Thousand Dollars ($11,600,000.00) as a result of flooding and sewer backup. This matter went to trial before a jury and the jury, after having heard all of the evidence, returned a verdict on February 3, 2012, in favor of Inland Products, Inc. in the total amount of Eleven Million Six Hundred Thousand Dollars ($11,600,000.00). The Department of Public Utilities and Inland Products, Inc. have determined that it is in the best interests of both parties to settle this lawsuit and to resolve any claims relating to this 2005 flood event. Through negotiations with the City Attorney’s Office, the City has agreed to pay, and Inland Products, Inc. has agreed to accept, Ten Million Dollars ($10,000,000.00) in complete settlement of any and all of Inland Products, Inc.’s claims related to this lawsuit and, further, to resolve all
issues in dispute now existing between Inland Products, Inc. and the City of Columbus relating to the operation
of the City's sewer system, including any claims relating to a certain flood of Inland Products, Inc.'s property

liability for any claims that Inland Products, Inc. ever had or now has from the beginning of time to the present
against the City related to the sewer system and/or failure of the sewer system, including any claims asserted in
the lawsuit and claims that Inland Products, Inc., may have against the City as a result of the 2004 and 2005
flood events. Under this settlement agreement, the City of Columbus waives its right to attempt to collect the
assessed sewer charges in the amount of Two Hundred Seventy-five Thousand One Hundred Sixty-eight
Dollars and Twelve Cents ($275,168.12) which has been certified to the County Auditor.

This ordinance authorizes the Director of Public Utilities to compromise and settle this lawsuit and to resolve
all issues and disputes now existing between Inland Products, Inc. and the City of Columbus relating to the
operation of the City's sewer system, including any issues and disputes relating to a certain flood of Inland
Products, Inc.'s property that occurred in 2004 and 2005 in the amount of Ten Million Dollars

($10,000,000.00). This ordinance authorizes the appropriation and expenditure of funds from the Sanitary
Sewer Operating fund for this expenditure.

To authorize the Director of Public Utilities to compromise and settle on behalf of the City of Columbus
litigation captioned Inland Products, Inc v. City of Columbus Ohio Case No. 06VH11-15231 pending in the
Franklin County Court of Common Pleas and to resolve all issues and disputes now existing between Inland
Products Inc. and the City of Columbus relating to the operation of the City's sewer system, in the total amount
of Ten Million Dollars ($10,000,000.00); to execute any necessary documents associated with the settlement
and final resolution of the litigation; to authorize the appropriation and expenditure of Ten Million Dollars
($10,000,000.00) with the Sanitary Sewer Operating Fund and to declare an emergency. ($10,000,000.00)

WHEREAS, Inland Products, Inc. filed a lawsuit in the Franklin County Court of Common Pleas in which
Inland Products, Inc. sought damages relating to flooding and a sewer backup that occurred following storm
events occurring in December 2004 and January 2005; and,

WHEREAS, the lawsuit was vigorously defended by the City of Columbus; and,

WHEREAS, the jury returned a verdict against the City of Columbus in the total amount of Eleven Million
Six Hundred Thousand Dollars ($11,600,000.00); and,

WHEREAS, based upon the totality of the circumstances of this case, the City has deemed it in the best
interests of both parties to settle the lawsuit; and,

WHEREAS, Inland Products, Inc. has agreed to accept the total amount of Ten Million Dollars
($10,000,000.00) in complete settlement of any and all of Inland Products, Inc.'s claims related to this lawsuit
and to resolve all issues and disputes now existing between Inland Products, Inc. and the City relating to the
operation of the City's sewer system, including any issues and disputes relating to certain sewer charges in the
amount of Two Hundred Seventy-five Thousand One Hundred Sixty-eight Dollars and Twelve Cents
