SECTION 4: This ordinance shall take effect and be in force from and after the earliest period allowed by law.

It is the City's desire to evaluate the effectiveness of green infrastructure as a means of capturing and improving storm water flowing into streams, rivers, and reservoirs. Monitoring the hydrologic flow within recently installed green infrastructure at Griggs Reservoir will help the City to analyze the performance of rain gardens designed to reduce pollutant loading into local waterways.

The Franklin County Soil and Water Conservation Office has the expertise to manage a hydrologic study of newly-installed rain gardens at Griggs Reservoir. Working with the United States Geological Survey, the three-year study will evaluate the performance and efficiency of the rain gardens as they relate to site-specific soil, geology, and rainfall characteristics. The results of the study will provide direction on how best to protect and improve water quality in light of advancing technologies using bioengineered designs to capture and improve storm water.

The total project cost is to be shared among three agencies. The United States Geological Survey will provide approximately $26,820, the Franklin County Soil and Water Conservation Office will provide approximately $59,020, with the remaining contribution provided by the City of Columbus, Department of Public Utilities over a period of three years (3 Phases). Funds for the project shall be reviewed and approved each year of the three year contract by City Council and the Mayor, and Auditor's certification of funds. Not withstanding any provision in this Agreement to the contrary, the maximum obligation of the City for services described in this agreement for the period commencing from date of execution through June 30, 2013 ("Phase 1") is limited to the amount of forty eight thousand dollars ($48,000.00), unless all the following occur: this Agreement is modified in writing; City Council enacts an ordinance approving the new amount; the Mayor has authorized the additional amount; and the Auditor has certified the additional funds. The City is not obligated to spend the
maximum obligation authorized under this Agreement. Phase 2 costs under this agreement for the period from
July 1, 2013 through June 30, 2014 are estimated at ten thousand dollars ($10,000.00). Phase 3 costs for the
period from July 1, 2014 through June 30, 2015 are estimated at ten thousand dollars ($10,000.00). The City
may, at any time during the performance of the services under this Agreement, propose a modification of the
Contract by a properly authorized written instrument. With the approval of City Council and execution of such
modification by both parties hereto, it shall be fully incorporated into this Contract and shall govern all
subsequent performance under the Contract.

The completed hydrologic study of the rain gardens will help the City determine the performance of rain
gardens in capturing and reducing storm water runoff. Understanding the field performance of green
infrastructure will prepare the City for decisions to incorporate green infrastructure as an effective best
practice for storm water management.

SUPPLIER: Franklin County Soil and Water Conservation Office (31-0847446) Non-Profit.

FISCAL IMPACT: The payment is for $48,000.00 and funds are available for this expenditure.

No similar expenditures in 2010 or 2011.

To authorize the Director of Public Utilities to enter into an agreement with the Franklin County Soil and
Water Conservation Office for the Division of Power and Water and the Division of Sewerage and Drainage to
conduct a hydrologic assessment of Griggs Reservoir rain gardens; and to authorize the expenditure of
$24,000.00 from the Storm Sewer Operating Fund and $24,000.00 from the Water Operating Fund.
($48,000.00)

WHEREAS, it is necessary to authorize the Director of Public Utilities to enter into an agreement with the
Franklin County Soil and Water Conservation Office to conduct a hydrology assessment of storm water green
infrastructure at Griggs Reservoir; and

WHEREAS, the City is responsible for protecting quality sources of drinking water and managing storm water
quantity and quality; and

WHEREAS, rain gardens have been installed along the shorelines of Griggs Reservoir as a storm water best
management practice; and

WHEREAS, the Franklin County Soil and Water Conservation Office and the United States Geological Survey
seek to assist the City in evaluating the hydrologic performance of rain gardens as a storm water best
management practice; and

WHEREAS, the study is intended to identify hydrologic performance and efficiency associated with the rain
gardens' post-construction field operation; and

WHEREAS, such information will provide direction regarding the protection and improvement of water
quality and also allow the City to evaluate the effectiveness of rain gardens in reducing storm water runoff; and

WHEREAS, Franklin County Soil and Water Conservation Office and United States Geological Survey are
providing $85,840 over two years to support the study; and
WHEREAS, the City of Columbus' share of the funding is $48,000; for the preservation of public health, peace, property and safety now, therefore,

BE IT ORDAINED BY THE COUNCIL OF THE CITY OF COLUMBUS

Legislation Number: 0613-2012  
Drafting Date: 3/9/2012  
Current Status: Passed  
Version: 1  
Matter Type: Ordinance

1. BACKGROUND
This legislation authorizes the Director of Public Service to modify and increase the contract with HNTB Ohio, Inc, for the Traffic Signal Installation - Columbus Traffic Signal System Phase A contract in an amount up to $400,000.00.

Work performed to date for this project includes design of the fiber optic backbone to migrate the Columbus Traffic Signal System (CTSS) to an open architecture that can serve central Ohio stakeholders with system connectivity and interoperability. This design included the 85 miles of high speed fiber optic network that will support new hardware and software for a new modern signal system.

Work to be performed as part of this modification includes design of the Traffic Management Center (TMC) communications to a new traffic management center along with the building structure itself, including all electrical, mechanical, power, fire suppression, geotechnical, and other required work along with construction cost estimates.

This modification was not anticipated when the contract was established because the current location of the Traffic Management Center was not planned to be demolished at the time. Currently this is the plan and it will
be necessary to relocate the Traffic Management Center.

HNTB Ohio, Inc. has an extensive knowledge of the existing traffic signal system and expertise with the new traffic signal system as the designer of the signal system projects and will be able to provide a successful design and relocation project in a short amount of time. HNTB Ohio, Inc. has the technical expertise on the traffic communications and the ability with architects on staff to design and will utilize well established sub-consultants to complete the required tasks.

The timeframe to complete the design work does not allow for the normal procurement, legislation, and contracting of a new consultant; and with the experience and abilities of the existing consultant and sub-consultants, the team is well qualified to perform the work.

Costs for this modification are estimated by City staff.

The original contract amount $1,100,000.00 (EL007678, Ord. 1972-2007)
The total of Modification No. 1: $400,000.00
The contract amount including all modifications: $1,500,000.00

Searches in the Excluded Party List System (Federal) and the Findings for Recovery list (State) produced no findings against HNTB Ohio, Inc.

2. CONTRACT COMPLIANCE
The contract compliance number for HNTB is 431628397 and expires 3/12/14.

3. FISCAL IMPACT
Funding for this modification is available within the Street and Highway Improvement Fund.

4. EMERGENCY DESIGNATION
The Department of Public Service is requesting City Council to enact this legislation as an emergency measure, in order to allow for the work in this modification to be completed and the schedule for this project to be maintained.

To authorize the Director of Public Service to modify and increase the contract for the design of the Traffic Signal Installation - Columbus Traffic Signal System Phase A for the Division of Design and Construction; to amend the 2012 C.I.B.; to authorize the transfer of funds within the Street and Highway Improvement Fund; to authorize the expenditure of $400,000.00 within the Street and Highway Improvement Fund; and to declare an emergency. ($400,000.00)

WHEREAS, contract no. EL007678, in the amount of $1,100,000.00 was authorized by ordinance no. 1972-2007, passed by City Council December 23, 2007, executed January 30, 2008 and approved by the City Attorney on February 8, 2008; and

WHEREAS, the Department of Public Service has determined it to be in the City's best interest to modify the subject contract for purpose of designing the relocation of the Traffic Management Center (TMC) communications to a new traffic management center along with building of the structure itself, including all electrical, mechanical, power, fire suppression, geotechnical, and other required work along with construction cost estimates; and

WHEREAS, this ordinance authorizes the first modification to the Traffic Signal Installation - Columbus Traffic Signal System Phase A contract in an amount up to $400,000.00; and
WHEREAS, the total contract amount including this modification is $1,500,000.00; and

WHEREAS, it is necessary to amend the 2012 Capital Improvement Budget to establish sufficient authority for this modification; and

WHEREAS, an emergency exists in the usual daily operation of the Department of Public Service, Division of Design and Construction, in that the contract should be modified and increased immediately so that the work to be performed as part of this modification can be completed and the project schedule maintained, thereby preserving the public health, peace, property, safety and welfare; now, therefore

BE IT ORDAINED BY THE COUNCIL OF THE CITY OF COLUMBUS:

SECTION 1. That the Director of Public Service be and is hereby authorized to modify and increase contract no. Replacement of these water lines will decrease burden on water maintenance operations. The new lines constructed under this project should eliminate the pattern of frequent water line breaks and may improve revenue through reducing water loss. This project includes replacing or rehabilitating approximately 13,000 linear feet of 6-inch, 8-inch and 12-inch diameter water mains within the project area.

The Neighborhood Liaison(s) will be contacted and informed of this project during the design phase. Further community outreach may result through the Neighborhood Liaison Program.

2. BID INFORMATION: The selection of the firm providing the professional engineering services has been performed in accordance with the procedures set forth in Columbus City Code, Section 329.14, "Awarding professional service contracts through requests for proposals." Requests for Proposals (RFP's) were received on January 6, 2012 from GS&P/OH, Inc., Dynotec, Inc., and ms consultants, inc.

BACKGROUND:
This legislation authorizes the Director of the Department of Technology, on behalf of the Columbus Public Health Department, to renew a contract with Decade Software Company, LLC for annual software license, hosting and support service fees for the EnvisionConnect. The original contract (EL000490) was established by the Health Department in 2000 and provided language that allows for annual renewals. The agreement was most recently renewed by authority of ordinance 0259-2011, passed May 23, 2011 (purchase order EL011864). This renewal will provide services from July 1, 2012 to June 30, 2013 at a cost of $78,300.00.

The EnvisionConnect software application provides Columbus Public Health the ability to operate the Environmental Health unit by providing an extensive array of services such as tracking and maintaining information associated with inspections, historical data of restaurants and other businesses, tracking sanitation standards data, vector control for mosquitoes, environmental reviews, accounts receivable/payable and billings as well as statistics and analysis regarding the Environmental Health unit. Services provided by Decade under this contract renewal include annual software license, hosting and support services, update training, upgrades and enhancements. Without this service, the Columbus Public Health Department would lose the ability to operate the Environmental Health unit, which could result in the failure to meet requirements mandated by the State of Ohio.

Decade Software Company, LLC is the sole provider of maintenance and support for EnvisionConnect software. As such, this ordinance is being established in accordance with the sole source provisions of the Columbus City Code, Section 329.07.

FISCAL IMPACT:
In 2010 and 2011, $78,300.00 was legislated respectively each year for annual software license, hosting and support service fees for the EnvisionConnect with Decade Software Company, LLC. The cost for this contract renewal is $78,300.00. This expenditure is budgeted and available within the Department of Technology Internal Services Fund. The contract aggregate total including this request is $893,850.00.

This legislation is contingent on the passage of Ordinance # 0542-2012. This ordinance will authorize the
appropriation and expenditure of $105,000.00 from the Neighborhood Initiatives fund for the United Way,
Columbus Kids: Ready, Set, Learn initiative FID#31-4393712, located at 360 S. Third Street, Columbus, Ohio
43215.

The funding of $105,000.00 will be used in combination with Community Development Block Grant funding
of $145,000.00 from that programs 2012 HUD Action Plan, per Ordinance 0542-2012. The total commitment
to the United Way, Columbus Kids: Ready, Set, Learn initiative will be $250,000.00.

Columbus City Council and the Recreation and Parks Department recognize that nearly 40% of the children
entering Columbus City Schools (CCS) kindergarten classrooms require intervention because they lack
foundational skills. The United Way, Columbus Kids initiative is designed to decrease those numbers and
increase the number of children who enter CCS kindergarten classrooms ready to learn. With support from more than 100 community partners, United Way of Central Ohio is leading an effort to provide school readiness screening and referral services for approximately 8,245, 2 & 1/2 to 4 year old children and their families in five neighborhoods of the CCS district. This number represents one half of the 2 & 1/2 to 4 yr old children in the CCS system. The 2012 initiative will focus on the communities of greatest need: Central City Columbus, Weinland Park, South Linden, Westside and Southside neighborhoods.

FISCAL IMPACT: That funding for this ordinance is made available from the City Council 2012 budget amendment to the Neighborhood Initiatives Fund 018 and from the Community Development Block Grant Fund 248.

Drafting Date: 3/19/2012
Current Status: Passed
Version: 1
Matter Type: Ordinance

Background:
Consultant will provide additional architectural & engineering services to prepare plans and specifications for bidding the renovations to the Willis Athletic Complex. Due to the state of the current bidding climate and low bids that were received for the McDonald Athletic Complex, funding was available to renovate a 2nd complex. This project will also include the removal of the mercury contaminated gym floor. Based on the identical nature of these Athletic Complexes, it would be beneficial in time and cost to have Schorr Architects complete the plans for the renovations at the Willis Complex enabling Recreation & Parks to move quickly on the renovations for the second structure and take advantage of the current bidding climate saving tax payer dollars.

BACKGROUND: This ordinance is for the option to establish one (1) Universal Term Contract to purchase Ford OEM automotive parts for the Fleet Management Division. These Ford OEM automotive parts are used by the Fleet Management Division to repair various Ford vehicles. The term of the proposed option contract will be two (2) years, expiring March 31, 2014, with the option to renew for one (1) additional year. The Purchasing Office opened formal bids on March 1, 2012.

The Purchasing Office advertised and solicited competitive bids in accordance with Section 329.06 (Solicitation No. SA004270). Twenty-six (26) bids were solicited (M1A-1, F1-0, MBR-0). Four (4) bids were received. The solicitation requested catalog bids for Ford OEM automotive parts.

The Purchasing Office is recommending award to the overall lowest, responsive, responsible and best bidder in compliance with the specifications.

Ricart Properties, Inc. (dba: Ricart Ford, Inc.), CC# 31-1282546 (expires 09/21/12).
Total Estimated Annual Expenditure: $350,000.00

The company is not debarred according to the Federal Excluded Parties Listing or the State Auditor's Findings for Recovery Database.

This ordinance is being submitted as an emergency because, without emergency action, the availability of Ford OEM automotive parts which are used to repair various Ford vehicles would be slowed, causing the Fleet Management Division a delay in both making automotive repairs and getting vehicles back into commission for use.

FISCAL IMPACT: Funding to establish this option contract is budgeted in the Mail, Print Services and UTC Fund. City Agencies will be required to obtain approval to expend from their own appropriations for their estimated annual expenditures.

To authorize the Finance and Management Director to enter into one (1) Universal Term Contract for the option to purchase Ford OEM automotive parts with Ricart Properties, Inc. (dba: Ricart Ford, Inc.); and to authorize the expenditure of one (1) dollar to establish the contract from the Mail, Print Services and UTC Fund, and to declare an emergency. ($1.00).

WHEREAS, the Purchasing Office advertised and solicited formal bids on March 1, 2012 and selected the lowest, responsive, responsible and best bid; and

WHEREAS, this ordinance addresses Purchasing objectives of: 1) maximizing the use of City resources by obtaining optimal products/services at low prices, and 2) encouraging economic development by improving access to City bid opportunities, and 3) providing effective option contracts for City agencies to efficiently maintain their supply chain and service to the public; and

WHEREAS, because there is a need to maintain a supply of Ford OEM automotive parts for vehicle repairs within City Agencies, this is being submitted for consideration as an emergency measure; and

WHEREAS, an emergency exists in the usual daily operation of various City Agencies in that it is immediately necessary to enter into a contract for the option to purchase Ford OEM automotive parts, thereby preserving the public health, peace, property, safety, and welfare; now, therefore,

BACKGROUND: This ordinance authorizes the Public Safety Director to modify a contract with SimplexGrinnell to design and install neighborhood safety camera systems at four locations in the Livingston Ave area, as part of a comprehensive approach to preventing and fighting crime in Columbus neighborhoods. The original contract with SimplexGrinnell was authorized by ordinance number 0787-2011, passed on 5/23/2011 and authorized the installation of safety cameras in five columbus neighborhoods: Hilltop, Livingston Avenue, Mt Vernon, Weinland Park and Linden area. Camera implementation in all five of these
neighborhoods was completed ahead of schedule in October 2011.

This modification will authorize the installation of cameras in the Livingston Ave area of the City, at the following intersections: Fairwood and East Livingston Avenues, East Main Street and Champion Avenue, Kent Street and Seymour Avenue and 22nd and East Rich Streets. SimplexGrinnell was one of seven vendors that responded to an RFSQ (SA003813) on January 27, 2011 and whose proposal was selected by an evaluation committee in accordance with section 329.13 of City Code to install cameras in the five original neighborhoods. Prices already established in the original contract were used to determine the cost of this modification.

Emergency action is requested due to the lead-time in design work and the need to have the cameras in place as soon as practical.

accepted proposals on July 21, 2006, four (4) proposals were received. The City's latest storm water NPDES permit, issued by Ohio EPA, became effective on February 10, 2012. The permit requires that storm water outfall monitoring tasks continue until a new permit is negotiated in 2016. The Division entered into contract with R.D. Zande and Associates, Inc., now known as Stantec Consulting Services for the entire scope of services and associated project implementation for the original 5-year permit term. The contract period for this modification is extended through March 31, 2013.

The City's Stormwater NPDES permit is negotiated with, and renewed by, Ohio EPA every five (5) years. The City attempted unsuccessfully to negotiate with Ohio EPA to eliminate or reduce the monitoring in the permit terms for the next 5-year permit cycle. Since future stormwater monitoring requirements were not known at the time the original contract was prepared, the time extension authorized under this modification could not be foreseen. Ohio EPA requires that sampling at the five (5) outfalls specified under the City's latest expired permit continue throughout the next permit cycle. This modification authorizes monitoring activities during Year 1 of the next permit cycle while the selection process is undertaken for a consultant to perform monitoring services for Years 2 through 5. The Division of Sewerage and Drainage, Stormwater Management Section is currently in the process of developing the Request for Proposal (RFP) document; however it is necessary to continue monitoring during this period so as not be in non-conformance and in potential violation of the EPA Permit.

The purpose of this project is to complete the wet weather monitoring requirements specified in the City's storm water NPDES permit issued by the Ohio EPA. Specifically, the results from this project will attempt to characterize the seasonal types and levels of chemical constituents that are discharged from the City's storm sewer system. Tasks associated with this project include ongoing quarterly collection of water samples at five (5) storm water outfalls located throughout the City.

The project includes associated laboratory analysis for each sample, annual laboratory data evaluation and reporting, and overall project management.

FISCAL IMPACT: None

To authorize the Director of Public Utilities to modify and extend the contract with Stantec Consulting Services for NPDES Stormwater Permit Wet Weather Monitoring for the Division of Sewerage and Drainage, Stormwater and Regulatory Management Section. ($0.00)

WHEREAS, The City's latest storm water NPDES permit, issued by Ohio EPA, became effective on June 1, 2006. The permit requires that storm water outfall monitoring tasks associated with this project be initiated six (6) months from the effective date of the permit and continue throughout the City's five-year permit period, and

WHEREAS, the Director of Public Utilities accepted proposals on July 21, 2006, four (4) proposals were received, and

WHEREAS, based on the evaluation of the proposals by a committee, the Division of Sewerage and Drainage, Stormwater and Regulatory Management Section selected the best proposal submitted by R.D. Zande and Associates now known as Stantec Consulting Services, and

WHEREAS, the contract language allows for contract modifications which funding will be requested in the Stormwater System Operating Budgets, and

WHEREAS, to enable the Stormwater Management Section sufficient time to prepare the request for proposal (RFP) this extension is necessary, and

WHEREAS, the Stormwater Management Section must continue to provide the EPA with monitoring reports without facing any penalties, and

WHEREAS, this modification is effective through, March 31, 2013; now, therefore

BE IT ORDAINED BY THE COUNCIL OF THE CITY OF COLUMBUS:

SECTION 1. That the Director of Public Utilities be and is hereby authorized to modify and extend the contract with Stantec Consulting Services for NPDES Stormwater Permit Wet Weather Monitoring for the Division of Sewerage and Drainage, Stormwater and Regulatory Management Section.

SECTION 4. That the City Auditor is authorized to make any accounting changes to revise the funding source for all contracts or contract modifications associated with this legislation.

SECTION 5. That for the reasons stated in the preamble hereto, which is hereby made a part hereof, this ordinance is hereby declared to be an emergency measure and shall take effect and be in force from and after its passage and approval by the Mayor, or 10 days after passage if the Mayor neither approves nor vetoes the same.
BACKGROUND: This legislation authorizes the Finance and Management Director to renew a contract for the Facilities Management Division with Capital Plumbing and Mechanical, Inc. for preventive maintenance and service of grease traps, grease interceptors, and septic tanks for various City buildings under the purview of the Facilities Management Division. A grease trap is a plumbing device designed to intercept most greases and solids before they enter a wastewater disposal system. This contract calls for the service of grease traps and septic tanks and includes scheduled service calls and incidental emergency calls throughout the year.

The original contract was formally bid in April 2010 (SA003547). Ordinance No. 0681-2010, passed May 26, 2010, with four one-year renewal options. Ordinance No. 0064-2011, passed February 9, 2011, authorized the first renewal of the contract. This legislation authorizes the second of four one-year renewal options for the period of June 14, 2012 through June 13, 2013.

Fiscal Impact: The Facilities Management Division budgeted $34,000.00 in the 2012 General Fund Budget for this contract. The amount of $26,766.00 was spent on this contract in 2011. The cost of this renewal is $34,000.00.

To authorize the Finance and Management Director to renew a contract for the Facilities Management Division with Capital Plumbing and Mechanical, Inc. for preventive maintenance and service of grease traps, grease interceptors, and septic tanks for various City buildings under the purview of the Facilities Management Division; and to authorize the expenditure of $34,000.00 from the General Fund. ($34,000.00)

WHEREAS, the Facilities Management Division has a contract with Capital Plumbing and Mechanical, Inc. for preventive maintenance and service of grease traps, grease interceptors and septic tanks for tanks for various City buildings; and

WHEREAS, the original contract for preventive maintenance and service of grease traps, grease interceptors and septic tanks for tanks for various City buildings was authorized by Ordinance No. 0681-2010, passed May 26, 2010; and

WHEREAS, there are four one-year renewal options and it is the recommendation of the Facilities Management Division to exercise the second of these renewals; and

WHEREAS, it is necessary to authorize the Finance and Management Director to renew a contract with Capital Plumbing and Mechanical Inc. for preventative maintenance and service of grease traps, grease interceptors and septic tanks for tanks for various City buildings; now, therefore:

BE IT ORDAINED BY THE COUNCIL OF THE CITY OF COLUMBUS:

SECTION 1. That the Finance and Management Director is hereby authorized to renew a contract with Capital Plumbing and Mechanical Inc. for preventive maintenance and service of grease traps, grease interceptors, and septic tanks for various City buildings under the purview of the Facilities Management Division.
SECTION 2. That the expenditure of $34,000.00, or so much thereof as may be necessary in regards to the action authorized in SECTION 1, be and is hereby authorized and approved as follows:

BACKGROUND: This legislation allocates $19,500 from the Miranova TIF - City Riverfront Vision Account in order to contract with an architectural firm to conduct a feasibility study to understand the options and general costs to rehabilitate the Municipal Light Plant (555 Nationwide Boulevard) for commercial purposes, redevelop the property and improve public access to the Scioto River.

This project was initiated at the request of the Administration as part of the larger initiative to revitalize the Scioto River corridor through public and private investments in new infrastructure, public parks, commercial investments, housing and museums. Concurrently, the city is working with Nationwide Reality Investors (NRI) to redevelop the western portion of the Nationwide Boulevard corridor. NRI will be developing several hundred units of residential development and as part of an agreement with the city, will be redeveloping the Department of Public Service maintenance facility at 555 Nationwide Boulevard, opposite the light plant.

The selected architectural firm will conduct a general analysis of the complex and its site, identify structural and related issues with the building, identify potential public access to the river, recommend potential commercial reuse, and provide general cost estimates to understand the level of magnitude that redevelopment will cost. Following the conclusion of this study, the Administration will evaluate whether the economics are sufficient to move forward with this project.

The initial intent of this project and the feasibility are consistent with the goals and objectives of the Riverfront Vision, a land use and development plan adopted by Columbus City Council in 1998.

1. BACKGROUND
It has been discovered that two existing air conditioner units are currently located in the City of Columbus' ("City") right of way, located in the vicinity of Lynn Street and North High Street, commonly known as Lynn Alley (related to the City's 2853 Dr. E plans). The owner of the air conditioners, 24 North High Company, an Ohio general partnership, has requested that the City grant a Quitclaim Deed of Encroachment Easement to allow the air conditioners to remain on City property.

The Department of Public Service has determined that granting of the easements will not adversely affect the City and should be allowed for so long as the land is used for the purposes to be set forth by the City in the Quitclaim Deed of Encroachment Easement. In exchange, the partnership will release an existing encroachment easement recorded in Instrument Number 199809180237392, Recorder's office Franklin, County, Ohio.

The following ordinance is to authorize the Director of the Department of Public Services to execute a

Per Scholas is a nonprofit social venture committed to breaking the cycle of poverty by providing technology education and closely related economic opportunities to low-income individuals, families and communities. Per Scholas will provide technical training, contextualized workplace literacy and soft skills exposure. Additionally, students will learn how to improve critical thinking skills, gain the ability to work within teams and to manage conflict. Per Scholas will partner with Columbus State Community College locating its primary training lab on Columbus State's campus. Columbus State will in turn award each student who graduates from the 15-week program, 9 transferrable college credits.

The City of Columbus has experienced a proliferation of Adult Gaming Parlors that utilize computer terminals or stand-alone machines also referred to as "sweepstakes terminal devices." These devices allow a participant to play a game in return for a prize or item of value. Currently, there is no state regulation or oversight of these types of businesses, allowing them to exploit a glaring loophole in state gaming laws.

The Ohio Legislature has failed to act on legislation that will require these businesses to be licensed and regulated by the Ohio Casino Control Commission. The state's continued failure to regulate Adult Gaming Parlors has created a legal quagmire for cities across Ohio. In addition, judges across the state have issued conflicting rulings regarding the legality of these establishments. Absent action by the state or this municipality, law enforcement, consumers, and charities cannot operate in a fair, consistent legal environment.

Municipalities have the power to enact planning and zoning laws that are for the health, safety, and welfare, comfort and peace of the municipality. At this time, Adult Gaming Parlors are not specifically listed as a permitted use in the City's zoning code.

City Council has reviewed these operations since the enactment of a moratorium on October 24, 2011, and, finds it necessary to extend the moratorium by 90 days with the express purpose of considering options including the regulation or banning of Adult Gaming Parlors in the City of Columbus.

It is for this reason that City Council is directing the Director of Building and Zoning Services to extend by 90 days a moratorium on the processing, or approval of any application for a certificate of zoning clearance, building occupancy permit, or any other permit or approval required under the Zoning Code or the Building Code, for any premises upon which, or building in which, any sweepstakes terminal device is, or is proposed to be, located.

To authorize and direct the Director of Building and Zoning Services Service to extend by 90 days a moratorium on the processing or approval of any application for a certificate of zoning clearance, building occupancy permit, or any other permit or approval required under the Zoning Code or the Building Code, for any premises upon which, or building in which, any Adult Gaming Parlor and sweepstakes terminal device is, or is proposed to be, located; to establish City Council's intent to consider regulation or banning of said activities during this moratorium; and to declare an emergency.

WHEREAS, the City of Columbus has experienced a proliferation of Adult Gaming Parlors that utilize computer terminals or stand-alone machines also referred to as "sweepstakes terminal devices", which the state has continued to leave unregulated or overseen, allowing them to exploit a glaring loophole in state gaming laws, and;

WHEREAS, the state's failure to regulate Adult Gaming Parlors has created a legal quagmire for cities across Ohio. In addition, judges across the state have issued conflicting rulings regarding the legality of these establishments, and;

WHEREAS, the Ohio Legislature has failed to act on legislation that will require these businesses to be licensed and regulated by the Ohio Casino Control Commission, and absent this action, law enforcement, consumers, and charities cannot operate in a fair, consistent legal environment, and;

WHEREAS, municipalities have the power to enact planning and zoning laws that are for the health, safety, and welfare, comfort and peace of the municipality. At this time, Adult Gaming Parlors are not specifically listed as a permitted use in the City's zoning code, and;
WHEREAS, City Council has reviewed these operations since the enactment of a moratorium on October 24, 2011, and, by this ordinance, extends the moratorium with the express purpose of considering options including the regulation or banning of Adult Gaming Parlors in the City of Columbus, and;

WHEREAS, an emergency exists in the usual daily operation of the Department of Building and Zoning Services in that it is immediately necessary to extend a temporary moratorium on the processing or approval of certificates, permits and approvals under Zoning and Building Codes for internet sweepstakes cafes to allow for the State's consideration of statewide regulation of this unregulated activity and for the City's consideration of regulation or banning of such activities, thereby preserving the public health, peace, property, safety, and welfare; now, therefore:

BE IT ORDAINED BY THE COUNCIL OF THE CITY OF COLUMBUS:

Section 1. That the Director of Building and Zoning Services Service is hereby directed to impose a moratorium of 90 days on the processing or approval of any application for a certificate of zoning clearance, building occupancy permit, or any other permit or approval required under the Zoning Code or the Building Code, for any premises upon which, or building in which, any sweepstakes terminal device is, or is proposed to be, located. This moratorium shall not apply to any permit required to comply with an order or notice issued pursuant to Chapter 4109 of the Columbus City Codes dealing with Unsafe Buildings and Conditions.

Section 2. That for purposes of this Ordinance:
"Sweepstakes terminal device" means a mechanical, video, digital, or electronic machine or device, that is owned, leased, or otherwise possessed by any person conducting a sweepstakes, or by that person's partners, affiliates, subsidiaries, or contractors, that is intended to be used by a sweepstakes participant, and that is capable of displaying information on a screen or other mechanism. (i) The device requires direct payment into the device, or remote activation of the device.
(j) The device requires purchase of a related product.
(k) Any related product of which purchase is required has legitimate value.
(l) The device reveals the prize incrementally, even though the device does not influence the awarding of prize or the value of any prize awarded.
(m) The device determines and associates the prize with an entry or entries at the time the sweepstakes is entered.
(n) The device is a slot machine or other form of electrical, mechanical, or computer game.
"Enter" or "entry" means the act or process by which a person becomes eligible to receive any prize offered in a sweepstakes.
"Prize" means any gift, award, gratuity, good, service, credit, reward, or any other thing of value, which may
be transferred to a person, whether possession of the prize is actually transferred, or placed on an account or other record as evidence of the intent to transfer the prize.

"Sweepstakes" means any game, contest, advertising scheme or plan, or other promotion, but does not include bingo, whether or not consideration is required for a person to enter to win or become eligible to receive any prize, the determination of which is based upon chance.

Section 3. That this Ordinance shall not apply in any manner to any device or activity authorized and regulated by the State Lottery Commission or the Ohio Casino Control Commission.

Section 4. That for the reasons stated in the preamble hereto, which is hereby made a part hereof, this ordinance is hereby declared to be an emergency measure and shall take effect and be in force from and after its passage and approval by the Mayor or ten days after passage if the Mayor neither approves nor vetoes the same.
