SA004791 - RFP CLINTONVILLE STMWTR QUA QUAN MONITOR
SCOPE: The City of Columbus, Ohio is inviting professional engineering consulting firms, or teams including such firms, to submit Proposals by 5:00 p.m. Friday, March 1, 2013, to furnish professional services for the City of Columbus, Department of Public Utilities, Division of Sewerage and Drainage (DOSD), Capital Improvements Project No. 610750-100001 - Clintonville Stormwater Quality/Quantity Monitoring.

The successful consultant shall furnish all labor, materials, equipment and supervision necessary to complete the wet weather monitoring requirements specified herein. Tasks associated with this project include stormwater quantity monitoring, stormwater quality sampling, laboratory analysis, laboratory data evaluation, and project management. Analysis and collection of samples shall be done in accordance with the methods specified in 40 CFR Part 136 unless approved otherwise by the City. Where an approved Part 136 method does not exist, any suitable method may be used, but the consultant shall describe the analysis methods and document the reference. Work under this project shall continue for a period of twelve months. Stormwater quantity monitoring shall be performed at twenty (20) locations; six (6) of these locations shall also receive stormwater quality sampling as specified herein. The locations of these flow monitoring and sampling points are shown in Exhibit 1. It is anticipated that this work shall be performed for two consecutive years (the Contract, including all facets of this scope, shall be performed for one year with the intent to be modified to include a second year).

To be considered for selection under this RFP, candidates shall exhibit direct, responsible wet weather monitoring experience with projects involving the collection of samples for chemical analysis, laboratory analysis, laboratory data evaluation, and reporting of analytical data from stormwater discharges and/or stream flows. Specifically, offerors must have successfully completed at least two projects that were performed to determine constituent loadings of stream flows and/or stormwater outfall discharges. The tasks performed during these projects must have included some or all of the following:

* Stream or outfall sampling
* Stream or outfall flow data collection and analysis
* Rain gage data collection and analysis
* Laboratory analysis
* Monitoring and laboratory results evaluation/characterization
* Preparation of reports summarizing conducted activities and analytical results.

A description of representative projects and reference (contact) information must be submitted as part of the proposal (See SUBMITTAL INFORMATION). Offerors that fail to meet these minimum qualifications or fail to submit project descriptions and reference information will not be considered for selection.

Proposals will be reviewed by the City and the City will enter into contract negotiations with the highest ranked offeror. If negotiations fail with the offeror they shall be terminated and the City will enter into contract negotiations with the next highest ranked offeror. This process will continue until the contract is successfully negotiated.
